

The Hawthorne Microphone

VOLUME 3

FRIDAY, APRIL 11, 1924

NUMBER 8

WORKS SCHEDULES BIGGEST MONTH, THEN BEATS SCHEDULES

Production Figures Take a Big Jump—Plant Chalks Up Several New Records at End of the Month

Hawthorne "stepped out" during March, and with some of the heaviest scheduling ever made, cleaned up March work so fast that towards the end of the month new production records were being reported about every day.

One indication of this is the shipping figures reported by the Merchandise Branch. It reports that 608 carloads of lead-covered cable and 321 carloads of apparatus were checked out. The next largest record on cable was 573 carloads, made in February, while the next best report on apparatus was 319 carloads, dispatched last December.

Switchboard Output Div. 6106 states that the heaviest schedules ever placed on the departments handling manual wiring, cable, local ironwork, millwork, woodworking and apparatus required in the production of No. 1 sections and small multiples were finished one week ahead of time, and that all these departments set up enviable records by March 29th, the end of the fiscal month. This, of course, meant a corresponding achievement by all the inspection organizations in the various departments involved.

The March schedule called for 228 No. 1 sections and 156 small multiples. The Shops actually produced 277 No. 1 sections and 197 small multiples, a production on boards that has never been equalled. The largest production on this class of work last year was 187 No. 1 sections in September and 150 small multiples in June, both of these also being five weeks months.

This was not the only big production registered. Subscriber Set Assembly Dept. 6311 during the past month turned out 248 miscellaneous PBX boards and 896 N. 505 PBX boards, while 675 No. 505 PBX boards went through their hands.

The Cable Plant, as usual, came through with some stupendous production figures. They beat all other records for a like period by turning out an average of 700,000,000 conductor feet per week during the five weeks of March.

In connection with these figures, it is well to recall the special rush jobs reported in the last issue of The Microphone—the fire control panel for the U. S. Scout Cruiser Raleigh, and a lead-covered cable job to relieve the havoc wrought by a furious storm in Washington, D. C. They furnish examples for another way in which Hawthorne "stepped out" last month.

EX-SERVICE MEN CAN STILL CONVERT INSURANCE

Ex-service men who carried insurance during the time they were in service and have not converted it into a permanent form can secure one of six different kinds of insurance offered by the Government if they act immediately, whether or not they are still carrying their war time policies. Any who are interested in this latest offer can secure full information through the personnel division of their particular branches.

H. F. ALBRIGHT SAILS FOR JAPAN

Will Take Part in Reconstruction of Nippon Factory

H. F. Albright, vice-president of our Company, left Hawthorne last Saturday on the first leg of a trip to Japan.

Mr. Albright is accompanied by a construction expert and is going to the Orient to supervise the planning of new buildings to replace those destroyed in the earthquake that occurred on the island empire last September.

He sailed from Vancouver, April 10th, on the "Empress of Asia", which is scheduled to arrive in Japan on April 21st, and expects to return to the United States about June 1st.

40 RIFLE TEAMS SHOOTING

At the end of the first week of the inter-department championship rifle shoot 40 teams out of the 48 that entered, completed their shooting. Each of the teams represents some special organization, except the girls' team, which is recruited from various departments throughout the Works. One of the features of the contest is the way the girls are going after "possibles", their skill the first week landing them only seven places behind Captain Brown's Dept. 6661 team, which is now in first place. There is likely to be some shifting in positions during the next two or three weeks of powder burning, as many departments are determined to break the Inspection Laboratory's hold on the cup.

KNOW THIS FELLOW?

NEW ENGLAND PHONE MEN PAY THREE DAY VISIT TO WORKS

Nineteen prominent officials of the New England Telephone Company and the Southern New England Telephone Company were in Chicago during the early part of the week for the express purpose of visiting Hawthorne to see the actual manufacture of the apparatus that goes into their plants.

Escorted by a corps of our superintendents, the visitors spent three days learning how the manufacturing end of the telephone industry is conducted. They toured the Works from end to end, and although it is impossible to see everything in our vast plant in that length of time the visitors succeeded in seeing the more wonderful of Hawthorne's machines at work.

The New England Company sent twelve officials and the Southern New England had a delegation of seven.

The New England visitors were:—William R. Driver, Jr., vice-president; Benjamin J. Bowen, general superintendent of traffic; Edward W. Whorf, general traffic engineer; Lambert N. Whitney, general commercial manager; Harry H. Carter, division commercial superintendent; E. E. Tarr, division plant superintendent; Dexter R. Hawley, special legal representative; George K. Manson, chief engineer; James G. Patterson, staff engineer; Frederic E. Moore, general auditor; John F. Tighe, chief accountant.

The representatives of the Southern New England were:—James T. Moran, president; E. L. Simonds, general superintendent of Plant; R. P. Collins, superintendent of equipment; E. H. Everitt, chief engineer; C. J. Daly, transmission and protection engineer; R. S. Judd, traffic engineer; A. A. Goodyer, commercial representative.

Western Electric men from the east who accompanied the Telephone Company officials were F. B. Gleason, general telephone sales manager; F. H. Leggett, general manager of telephone distribution; J. L. Kilpatrick, general manager of installation; W. F. Weltzenberg, division superintendent of installation, Div. 2; Tyler L. Holmes, manager of the Boston telephone distributing house, and H. L. Nash, manager of the New Haven telephone distributing house.

W. R. Abbott, president of the Illinois Bell Telephone Company and F. O. Hale, vice-president and general manager were also Hawthorne guests on Tuesday.

Many Visiting Groups

Quite a number of other groups have visited Hawthorne lately. One group from the New Trier Township High School of Kenilworth, Ill., and another from Lake Forest College, Lake Forest, Ill., went through the Works the latter part of March. Another party of about 50 boys from the Deerfield-Shields High School made a visit the early part of April. April 2nd and 3rd visitors from the A. T. & T. and the Indiana Bell Telephone Company were entertained. Fourteen members of the Committee on Terminal Accounts of the Railroad Accounting Officers' Association, five of them women,

went through the Cable Plant and T. A. shops April 3rd.

The largest group that has visited Hawthorne so far this month was entertained April 4th, being made up of 76 students and five professors from the University of Nebraska, located at Lincoln. Those who made the trip were juniors and seniors taking architectural, chemical, electrical engineering, civil engineering and mechanical engineering courses.

FEATURE DANCE OF SEASON TO BE HELD AT THE TRIANON

Solomon was supposed to be one wise guy and he certainly made a big hit with a certain well known queen with his riotous raiment and his magnificent temple, but pooh, pooh, for him! You can make the eyes of your own queen of the Shebas stick out of her head by arraying yourself in all your glory and escorting her to the Trianon, that magnificent citadel of syncope at 62nd St. and Cottage Grove Ave. for the worship of the dance, where the Hawthorne Club will hold its feature ball of the season.

This unique ballroom, the only one of its kind in the world, will be turned over to Hawthorne dancers exclusively on the night of April 23rd. This is a splendid opportunity for local dancers to see this gorgeous hall, and it is certainly well worth seeing. On the walls hang beautiful paintings, while period furniture, Sevres vases and rich tapestries add comfort and atmosphere. Beautiful lighting effects that makes gowns irresistibly pretty, tint the draperies and make them shimmer. There is a grand stairway, with soft, blue carpeted steps, broad and easy to ascend. This leads to the ballroom proper.

At last you stand where you can see the flashing couples whirl. Hundreds of majestic columns tower up on all sides, while the tinkling music starts your blood stirring and your feet moving. "Come on; let's go," and you and your partner whirl and blend into the harmonious scene. And can you dance? Man, you just can't help it—not even if you have wooden legs with rheumatiz in every joint.

After you catch a breath and get "back to earth" you start to wonder where in the world those tantalizing melodies originate. A glance at the orchestra leader explains it all, for you will recognize him as Arnold Johnson, the Beau Brummel of musical directors, who not only has his own orchestra—one of the finest groups of dance melody mixers in the country—but composes many of his own numbers.

If you were ever sorry an evening of entertainment is ended, you will be when "Good-night, Ladies" is syncope by the rhythm makers.

Tickets can be obtained from your Club representative in the usual way.

The Cottage Grove Ave. surface cars run right past the doors, or you can reach the dance palace by the southside elevated line. Get off at 63rd and Cottage Grove and walk one block north.

APR. 25 MICROPHONE TO BE EDITED BY HAWTHORNE WOMEN

Girls' Week from April 21st to 28th Will See Unusual Girls' Activities at Hawthorne

As part of the Hawthorne program for the observation of Chicago's first Girls' Week, a special editorial staff, composed entirely of women, will edit the next Microphone. The week's activities also include special noon-time sings, at which women will lead and only compositions by women will be sung; a poetry contest; a cartoon contest; and a special sight-seeing trip downtown.

Miss Ruth Stone, chief of the Women's Service Department, is in charge of Hawthorne activities and is one of the groups of progressive Chicago women who have sponsored and are handling the movement. As a part in the general activities of the Girls' Week rally, Miss Stone broadcasted from Station WMAC Thursday evening, April 3rd, speaking on the subject "What Girls' Week Can Do for Girls in Industry".

Men are likely to find quite a few surprises in the next issue of this palladium of publicity. The women's staff has already been selected and is preparing a totally new policy to govern their work, having decided that the one used in the past protected, if it did not actually favor the male element to an undesired extent. Miss E. G. Harrold, second vice-president of the Hawthorne Club and chief of the Women's Department of the Employment Division, will be editor. She will have various assistant editors, responsible for certain sections of the Works, as follows:—Miss M. Patterson, 5080 and Miss N. Vorkeller, 5080-3, Central Works and Employment; Miss R. Ehrhardt, 5925, Merchandise; Miss E. Heerdt, 7394, Cable Plant; Miss Lillian Sheehy, 6087, and Miss E. Doser, 6346, T. A. Shops. From the time this issue of The Microphone is off the press until "dead line" is reached, people having Works news should get in touch with these assistant editors.

The cartoon section of The Microphone is to be filled by a contribution from some Hawthorne girl, any employed here being eligible. Girls who wish to compete should make their drawings in a square, preferably nine by nine inches in size, on white bristol board, with black drawing ink. It is very necessary that black ink be used, since a blue ink will not photograph. All drawings should be delivered by 5 o'clock, April 18th, addressed to Miss Harrold, Microphone office. The best cartoon will be selected by the new editors.

Another feature of the Girls' Week program is a local poets' contest, carried on in connection with the city-wide contest. The Chicago committee has decreed that the title shall be "The Girl" but makes no other stipulations. All girls at Hawthorne are invited to submit poems, addressing them to Miss Harrold, Microphone office, all poems to be delivered by five o'clock, April 18th. If the space available in the paper, and other considerations permit, the editorial staff will print the best contribution. All contributions will be submitted to the Chicago contest committee.

Hawthorne's "Girls' Week" will end Saturday evening, after an afternoon tour of private and public buildings in Chicago, such as the Historical Society, the Art Institute, Field Museum and large stores. Further information regarding these tours will be announced later. The Chicago program finishes Sunday with special church services. Men—Watch your step!

SOCCER PRACTICE STARTS

Squads to Limber Up Tomorrow—Skull Practice Every Friday

Drug stores in the vicinity of Hawthorne are stocking up with liniments, for last Saturday afternoon the local soccer teams got into action in their unlimbering exercises for the spring session. All the kinks and knots that have accumulated during the winter lay-over were unraveled and some of the boys are temporarily needing crutches and kneading muscles and glad the torture of first practice is over with.

The second half of the season is scheduled to start in the very near future—possibly Sunday. The "A" team is now in second place in the first division of the Chicago and District league, while the "B" team is leading in their division of the International league, so local hopes are running high.

A "skull practice" is held in the Restaurant Building every Friday night at 5:15 to plan the practice for the following day. All players attend these meetings and give their suggestions for the common good of the team. New players who want to get into the game are introduced to the rest of the boys and in this way everybody gets acquainted.

The secretary, El J. R. Rossiter, 'phone 887, Dept. 6113-8, is always glad to meet men who are interested in soccer, but if you haven't the time to get hold of him, drop around and meet "the bunch" in the Restaurant some Friday night.

INSPECTION BOWLERS HOLD BANQUET AS WINDUP OF SEASON

The traffic cop who holds sway at the corner of La Salle and Madison Sts. almost turned in a riot call last Thursday evening, April 10th, at about 6:30 P. M. Pedestrians scurried for cover and the officer came close to bailing up his traffic signals. Down the street came a mysterious regiment of men, some loaded with strange round burdens that resembled bombs, and it was on this group that the stern eyes of the law focussed their attention.

However, as they came closer the anxiety on the officer's face broke into a broad smile, even though he recognized that those 250 smiling faces were going to wreck things. The apparent anarchists were merely the members of the Hawthorne Process Inspection Bowling League, out for a social evening, and some had brought along their favorite bowling balls. They were bound for the Red Room of the Hotel La Salle.

The occasion was the conclusion of the league's season, and it was "some" conclusion all the way from "It's Always Fair Weather", the opening hymn, to "Till We Meet Again", which announced the end of a perfect banquet a few hours later.

What intervened between these two numbers was just one galaxy of musical and oratorical talent romping through an unusual program. There were piano solos by Miss Loretta Kane and by Ray Anders, an outside entertainer. Jack Donar did a black-face masterpiece, called "Just Nonsense". Chas. Blim, who put the concert in concertina, did some harmonizing, as did the State Comedy Four, and Miss June Zimmerman, of the Palvey-Oukrainsky ballet, did some pretty Russian and Spanish dances. The radio "Harmony Girls", from station WDAP, were another pleasant novelty on the program.

Speeches were made by various members of the organization, including A. B. Hazard, Fred W. Kirk, Otto Sternberg and E. J. Smith, who was the toastmaster.

After the banquet the boys adjourned to Bensinger's Alleys for a little frolic with the maples.

After a short business meeting presided over by Miss Hayes, the president, 35 members of the Women's College Club divided up into two groups, one going to the Roma Restaurant on West Polk St. for an Italian supper and the other to the Coffee House at Hull House, where they heard an instructive talk on the history of Hull House. Some of the members also took an inspection trip through the interesting rooms. At 8:15 the party attended a performance of John Galsworthy's "The Mob," played by the Marionette Players in the Hull House Theater.

Women golfers are organizing and any Hawthorne women who enjoy replacing divots and figuring out stymies should get in touch with Miss Lillian Sheehy, Dept. 6087, phone 1828, for further information. Miss Sheehy is working in co-operation with Miss Roddy, chairman of the Women's Activities Committee of the Hawthorne Club, who wants to arrange a tournament schedule for the women if a sufficient number sign up.

T. M. Chisholm, of our Industrial Relations Branch, was elected a director of the Cicero Rotary Club at the regular Rotary luncheon Wednesday noon, April 2nd.

David Hedin, of Rubber Dept. 7397, was a victim of the political fray staged at the polling place opposite the Works on Cicero Ave., April 1st, being wounded by a stray bullet. He was taken to St. Anthony's Hospital immediately, where it was found the bullet had pierced his shoulder, but that the wound was not serious.

Among the spring arrivals at Hawthorne was a shiny Studebaker "Big Six" sedan, received last week. This latest addition to the Company's fleet of motors will be used by the executives of the manufacturing branch.

When H. C. Pearson, chief of the Switchboard Cable Department, returned to Hawthorne last week after an eight weeks' stay at the new Kearny Plant, his department celebrated the occasion by decorating his desk with a beautiful bouquet of flowers. Mr. Pearson was at Kearny for the purpose of organizing an eastern switchboard cable department.

On Thursday evening, April 10th, the bowlers of the "Nine Pin and a Wiggle League" of Div. 6722, finished the season's activities with a banquet at the Brevoort Hotel. This was also made the occasion of a farewell party for L. M. Chesrown, chief of Dept. 6725-B, and I. W. McDowell, chief of Dept. 6723, who leave for Kearny, New Jersey, on April 14th.

One of the most hotly contested inter-organization bowling matches of the season took place on the Windy City Alleys March 2nd between H. C. Beal and his department heads of the Apparatus Drafting organization and Messrs. Goensch, Miller, De Puy and the department heads of the Planning and Capacity Divisions. With 15 bowlers on a side the match was "strike and split" up to the last game, when the Planning crew pulled away for a final lead of 350 pins to the good. Exceptionally high games were rolled by Messrs. Beal, Pifer, Goensch,

McGinley and McBride, the last rolling high game of the evening, upsetting the maples for a count of 236.

G. W. Lorenz, Dept. 6133, while driving on 25th St. near California Ave. last Wednesday was hit by a heavy coupe, the impact forcing his car over the curb and against a telegraph pole. Mr. Lorenz and his two passengers were injured, but not seriously.

Hawthorne girls have been invited by Illinois Bell women to compete in a special swimming meet, details of which will be arranged later. Local women who like to compete in aquatic sports and help the Blue and Gold to victory should get in touch with Miss Charlie Schmiedl, Dept. 2432, phone 1331.

The "Hayseeds" of the Employment Division, led by Miss E. G. Hayes, defeated the "Noblemen", captained by W. E. Nobel, Wednesday evening, April 2nd, by a margin of 119 pins. This was the second annual tournament scheduled by members of the Employment Division. Eight teams in all are participating. As per agreement, the Hayseeds are now entitled to a special high-class dinner at the expense of the Noblemen. While plans for this dinner are not yet announced, the division bowlers are using their imaginations.

S. C. Summerfield, chief of the Manual and Machine Switching Training Department, gave an illustrated lecture on telephone work to Boy Scouts Friday evening, April 4th. Two Cicero troops, totaling about 75, gathered at the Clyde Baptist Church of Cicero to hear Mr. Summerfield. A Western Electric motion picture, "Making the World's Telephones", preceded the talk, which was an explanation of what goes on "Between Two Telephones." Mr. Summerfield reports that in the open discussion which ended the evening's entertainment the Scouts showed a keen understanding of fundamental switching problems.

More than a score of Cost Division golf "bugs", as well as a number of prospective victims of "golfitis", have lost no time this spring, in arranging a division tournament for the coming season. All the players are members of the Hawthorne Club Golf Section and the games will be played at the course of the Fairlawn Club, from whom our Club has recently secured special privileges.

CAGE GIRLS CHOOSE CAPTAIN Elect Miss Mae Splitt to Pilot Squad —Compete in Track Meet

Miss Mae Splitt, of the Cable Frames and Racks Department, was recently chosen by her team mates to captain next year's girls' basketball quintet.

Miss Splitt, who is one of the most conscientious players on the team, is indeed a good choice for the captaincy. She loves the game, and during the two years she has been a member of the Hawthorne team, she has showed up for practice with clock-like regularity. Although she has played basketball for five years, the local coaches believe she has not yet reached her apex as a player, and that her next season will be her best. Miss Splitt first played basketball in the girls' inter-class league at Carl Schurz High School. Last Friday night the girls' basketball team competed in a basketball girls' relay race, which was a novelty feature on the program of the American Institute of Banking's annual meet. Our girls took fourth place honors from a field of Central States cage teams. The local girls had never run together before, which makes their showing all the more noteworthy. Those who competed for Hawthorne were Misses Luddy Malina, Charlie Schmiedl, Fanny Acheson, Mae Splitt, Marge Karstens, Hilda Oliver.

E. G. Brown and P. H. Kurtz, who have coached the girls' basketball team this year, promise to win the Central title if the members of this year's team turn out again next season. The girls were all diligent workers and in spite of the fact that most of the season the coaches had to spend the entire practice period teaching fundamentals, the squad won a majority of its games, winning every game played against Industrial teams, but losing to the Lake View Community Girls and the Brownies.

So pleased were the girls with the results of their year's work that they recently presented Mr. Kurtz with a miniature gold basketball mounted on a watchfob in appreciation of his hard work and consistent perseverance.

"SEE AMERICA BY COACH"

"See America by motor coach" is the gist of an arrangement made by the Hawthorne Club with the Royal Blue Line, which is running tours through the east.

The Royal Blue Line is offering the Hawthorne Club reduced rates on their regular tour from Chicago to Detroit by coach, to Buffalo by boat and then a coach trip to Niagara over winding New York highways, through Pennsylvania to Washington, where a two day stop-over permits a rest and visits to the capital buildings. The return to Chicago is made over the National highway.

This trip takes approximately 12 days, each coach accommodating a party of 20. The Hawthorne Club will furnish more specific information to those interested.

"The man who kills time does not do murder; he commits suicide."

MAROONS TAKE HARD FOUGHT MEET FROM WORKS GRAPPLERS

U. of C. Athletes Win Dual Tourney by Narrow Margin of Three Points—Record Crowd Witnesses Battles

The fighting Maroons twisted their way to a narrow margined victory over the battling Hawthorne mat crew Friday, March 28th, at the Ashland Blvd. Auditorium, before 5,400 howling fans.

Anybody who is worried for fear the pacifist movement will spread ought to have been present to view the struggle between these two sets of contortion artists. It was more than merely a splendid exhibition of athletic prowess. The sincere efforts of the boys lent a touch of interest that an ordinary wrestling show does not possess, and the huge crowd that stretched up tier after tier like a living tower of Babel belated wild deafening roars of encouragement to their favorites, who fought things out from the time Frank Sheridan broadcast his first announcement until John Ziska tolled out Hawthorne's defeat on the finishing gong two hours later.

Action that would have placed a movie director in the seventh heaven of ecstasy crowded the ring every single second of those tense 120 minutes.

The Maroons went into an early lead when they "copped" both bouts in the 115-lb. division, the first when Goebels, of Chicago, won a decision over Krivickas, of Hawthorne, after the local man had put up a heroic struggle to get his man, and the other when Takaki, of the Maroons, a wily little Jap wrestler, threw Mostrangelo after 2 min., 50 sec. of whirlwind wrestling, with a scissors and half-nelson.

Skilful Val Vosen, scored the first of Hawthorne's points, and he had anything but a pink tea party on his hands in collecting them. Although the decision was never for a moment in doubt time and time again when Val was about to pin his opponent's shoulders to the canvas the Maroon managed to squirm to the safety of the ropes and thus escaped being flopped. Naturally Val got the referee's decision.

In the next tilt the Maroons added another five points to their lead when Graham, of the university threw Klein with a cross body and half-nelson in 4 min., 5 sec.

Johnny Vorres, our national champion, brought home Hawthorne's first five points when he clamped a bar and head scissors on Frieberg, of the university, in 5 min., 20 sec., but Lauda, of the Maroons, countered this by throwing Driscoll, of Hawthorne, with a half-nelson and body scissors in 48 sec.

The next fracas, between Frank Stejskal, Hawthorne, and Schimberg, of the Maroons, was one of the feature bouts of the evening. The Maroon wrestler countered Stejskal's strong attack by wriggling and squirming to the ropes every time he was in danger, and this strategy, oft repeated, proved decidedly unsatisfactory to the crowd. Frank tried to make his opponent dizzy, so he couldn't find the ropes, but every time the Maroon would squirm and roll his way to the edge of the mat, Staggs is passing up a wonderful ground gainer by not making use of this boy on the football squad. In spite of this Stejskal had his man practically pinned when the gong sounded. Given half a minute longer, Frank would have contributed five points to Hawthorne's score instead of the two he received for the decision.

Santschi (H.) and Tsoulos (M.) fought a draw and Kowuniemi (M.) threw Obirek (H.) with a body hold, after which Shepard herded two points into Hawthorne's fold by getting a decision over Scott, of the Maroons. He had things his own way all through the bout and almost succeeded in flopping his man in the last half minute.

Furness, of Hawthorne, made things too hot for his man in 3½ minutes with a head scissors and a bar hold.

"Pete" Kogut received another five points for Hawthorne when the Maroons forfeited. This made the score 23 to 22, with the University on the long end and but one bout left on the card. Sperling defended Hawthorne's colors while Baumfield was the muscular representative of the Maroons. Both men, realizing that the entire meet hinged on the outcome of this final match, were extremely cautious for a while, but suddenly there was a quick dive, a flash of arms and Sperling had his opponent on the mat. The Maroon, however, soon took the aggressive and in spite of Sperling's heroic efforts, piled up points in his favor. Sperling was game to the core and with the match undisputedly settled and but a minute to go, he refused to succumb to a muscle-straining body hold, and held out until the gong sounded its relief.

Joe Smith, physical instructor at Armour Institute of Technology, was the referee.

Some enthusiastic musical "prelims" opened the evening's hilarities. The Harmony Boys entertained with "A Bit of Razz" while the crowd was getting sea-sick. After a brief talk by E. E. Loistrom, V. E. Mathisen, did a few trick steps for the crowd. Following this "Big Pete" Petersen made the audience do its part of the entertaining in a community song contest. He divided the crowd into balliwicks and made them out-sing one another, utilizing the high voices in the balcony for the tonsilene tenor chords of that beautiful old barber-shop ballad, "Sweet Adeline." "Pete" finally had to stop it in order to keep the boys from losing

their voices before the real cheering started.

Our Club president, E. E. Loistrom, then introduced Judge Walter Steffins, an alumnus of the University of Chicago and an enthusiastic fighter for clean sports. In his own college days the judge was a star football man and he still loves athletics. He made a brief talk on amateur sports, emphasizing the fact that they owe their growing popularity to their clean sportsmanship and to the fact that they are played by athletes who compete solely because of their love of the game.

A solo by Jos. DeFillippis, who saxophoned "Tripping Along" in great style, was the next number, after which Louis H. Russell, a new songster recently discovered in the Tool Design Division, thrilled the big crowd with "Mother Macree" and the other favorites.

Following this the State Comedy Four, dolled up in "soup and fish", did their usual stuff in their same inimitable style. When the "house" finally allowed the quartet to quit, Frank Sheridan announced the first match and the remainder of the evening was devoted to muscle-bending.

Other Wrestling Notes

In the Greek Olympic Club invitation match held last Friday and Saturday, two Hawthorne wrestlers collected enough points to give us third place in the standings in a field of eight teams. Furness captured first place in the 160-lb. class, while Sperling had to be content with second place in the 175-lb. class when he was knocked out in the finals after a head-on collision with Maurer, formerly Olympic and Central States champion.

Johnny Vorres, wrestling for the Greek Club, was also K. O'd in his bout under similar conditions. Frank Stejskal, of Hawthorne, also wrestling for the Greek Club, won in his weight.

H. B. Eshelman, chairman of the wrestling committee, intends to enter the entire Hawthorne team in the Olympic trials to be held in Chicago late this month.

LIGHT PUNCH PRESS BOYS FORM BOOSTER CLUB AT BIG PARTY

Although the boys in the Light Punch Press Department have been among the liveliest of Hawthorne's live wires for a long time, they will from now on exercise their pep through the medium of a regularly organized Booster Club.

The dinner held for the purpose of organizing the club was one of those affairs that linger in the memory. It was at the De Paola Palm Gardens, at Lyons, Illinois, last Saturday afternoon. After working up appetites by singing a gross of popular airs the boys had little trouble in making a splendid chicken dinner disappear. During the course of the dinner Dan O'Brien entertained the boys with some snappy musical numbers.

R. H. Hoogenberg, one of the most enthusiastic of the enthusiastic boosters then outlined what a club like this could accomplish if members had the proper spirit. He was followed by E. A. Hauser, who showed the boys that not only is a booster club a good social organization but it can do much good by co-operating on "safety first" work.

Then followed some classical dancing numbers by outside talent, after which J. P. Kavanaugh, foreman of the department, expressed his hearty sympathy with the aims of the new organization and pledged his support in all its undertakings.

Frank Lowe surprised the boys with a few pretty little ballads and Otto Westphal gave a very good imitation of George Primrose, of the famous Primrose Minstrels. Although Asst. Foreman George Stevens was a little shy at public speaking, he furnished some real entertainment when he sang a few parodies on old time melodies.

The final number on the program was the election of officers, which resulted as follows:—D. Grimes was chosen president; G. Zimmer, vice-president; J. Sidor and C. Miller, secretaries; and J. Lisy, treasurer.

KELLY CROWNED "KING OF KEARNY"

On Thursday evening, March 27th, at the Atlantic Hotel, C. C. Kelly, former chief of the Hawthorne Janitor and Elevator Department, who has been transferred to our new eastern factory, was crowned "King of Kearny" in the presence of a joyous court consisting of about 65 friends, most of them members of the Plant Department. His crown was topped by a huge mosquito with sparkling electric eyes. J. L. Shane, superintendent of construction, presided as toastmaster. Two professional entertainers, Shean and Wildey, who volunteered their services, assisted in keeping the gathering lively, as did the group singing, for which W. J. Pampell furnished music. P. J. Murray, of Material Ordering Dept. 6136, made the feature talk of the evening, putting into a comprehensive history of Mr. Kelly many amusing anecdotes he had learned through his long acquaintance with him.

This banquet followed on the heels of a luncheon given Mr. Kelly Thursday afternoon by the board of directors and sub-chairmen of the membership committee of the Hawthorne Club. President Loistrom, who presided, called upon G. Ferguson, chief of the Clerical Personnel Division, to express the regrets of the Club at losing Mr. Kelly's services and associations, and the guest of honor replied to Mr. Ferguson's remarks with a few stories and an expression of his feeling for Hawthorne and its associations.

From Saturday, March 22nd, Mr. Kelly was the guest of some organization every evening until he left for the East on Monday noon, March 31st. Mr. Kelly's sister and his two children will join him at the end of the present school term.

MISS O'HEARN SURPRISED

Miss Sadie O'Hearn, one of the best known women at the Hawthorne Works and one who has been responsible for many of the pleasant little affairs held by the Winding Room girls, received some of her own medicine Thursday, April 3rd, the anniversary of her start with the Company.

Of all the surprise affairs Miss O'Hearn has attended she is very likely to remember this one the longest. Not only was her desk surrounded by hundreds of girls and decorated with 25 roses, one for each year's service, but that evening when she stepped out of Entrance No. 10 she was jostled on to a motor bus by her chums and swept down to the Terrace Gardens. It took three big busses to hold all the friends who accompanied her.

After a splendid dinner at this famous amusement center, the girls concluded the celebrations, and broke up into small parties, some bound for a night at the theater and others for their respective firesides.

The Microphone has been asked to broadcast Miss O'Hearn's heartfelt thanks for the friendly interest the girls exhibited and for the many congratulations they showered on her.

INSTALLATION COPS HAWTHORNE LEAGUE BOWLING TITLE

Taking branch titles is getting to be a habit with the Installation teams—just as much so as the daily shredded wheat. Not content with annexing the Works basketball title and the girls' bowling title the draftsmen of the branch have gone and clinched the Works' bowling title.

The Technical boys took two out of three from Installation in last week's round, but the Installers still have a seven game lead with tonight's round on the alleys the wind-up of the season. Even should Technical take all three games in tonight's mixup the Installation quintet will still win by four games.

Switchboard Order and Technical are tied for second place as a result of Switchboard Order's clean sweep of its series with Clerical No. 1 and interest now centers around this pair and around the individual standings.

M. Dorn, of Switchboard Order, leads the league by a hair's breadth, having an average of 193 52/63, while J. Kubec, Machine, has 193 34/78, so either the maples are going to suffer or these averages are. J. Jungman, Jobbing, and W. Matkin are also far from being out of the running, for they are just about one pin behind the leaders, so there is no telling who is going to grab off the honors.

Assorted bowling featured last week. O. Thomas rolled one 274 game and had a series total of 670 pins, while one of the old reliables, who averages a little better than 186 for 75 games and knocks out 245 games every once in a while, rolled one 93 game and totaled 418 for the night. (If you hear of the bowling secretary being assaulted, put out a drag-net for A. Prihoda, of the Plant team).

BOYS WIN SWIMMING AWARDS

Cups and Medals Awarded—47 Get Buttons for Proficiency

Have you noticed the nifty gold, silver and bronze buttons so proudly displayed on the coat lapels of many of Hawthorne's corps of future executives? They are telling the world that the possessors of them are regular water dogs. They were awarded to the youngsters by the Boys' Activities Committee after they had passed some mighty rigid aquatic tests. On the night of March 26th at the J. Sterling Morton High School the 10 weeks' swimming period held under the auspices of the committee closed with the finals in a swimming meet to determine Hawthorne's boy champions. Throughout the meet, which was divided into two divisions, "majors" and "minors", there was keen competition both in the finals and semi-finals.

In the major division, Charles Cerny, Dept. 6563, proved the champion, with a total of 16 points. Charles Likar, Dept. 6087-2; Andrew Fuglsand, 6047-3; William Bazant, 6111-1, and Steve Holac, 5909, finished in the order named. First place in the minor division went to Frank Maher, Dept. 6031-B, with a total of 20 points, while Frank Hromec, Dept. 6327, finished second and Joe Savol, Dept. 6124-4, came in third. Silver loving cups were awarded to the winners of each division, with silver and bronze medals to those placing second, third, fourth and fifth.

Every boy had an opportunity to demonstrate his ability in the water during the 10-week period by passing one of three graded tests. For passing these tests some 50 bronze, silver and gold buttons were awarded. The following boys earned gold buttons:—Charles Likar, Dept. 6087-2; Frank Maher, 6031-1B; Charles Cerny, 6563; William Bazant, 6111-1; John Kludna, 6087-4D; Frank Karis, 5040-4; George Savage, and George Divis, 5376, while 12 boys received bronze buttons and 27 boys received the silver ones. The test for the gold button award was similar to the Junior Red Cross life-saving test.

Along with the swimming, basketball was promoted among the boys. On the basketball court a mass form of play was used. Boys were chosen for different teams each night according to their size, regardless of their playing ability. This form of organizing teams tended to do away with keen rivalry but it gave every boy a chance to play. The popularity of the games was shown by the fact that an average of 66 boys played each night. The most pleasing feature of this activity was the behavior of the boys on the gym floor. Not one boy was put out of the game for unsportsmanlike playing.

HAWTHORNE CAGERS FIGHT WAY TO CITY INDUSTRIAL TITLE

Medley and Evans Star as Team Sweeps Through Other Finalists—W. E. Holds Title For Second Consecutive Year

The telephone industry monopolized most of the laurels in the Chicago Industrial Basketball League when Hawthorne copped the men's title with the Automatic Electric Company as runners-up, while Kellogg Switchboard girls won the women's championship from the Automatic Electric girls.

The finals were played at the Jewish People's Institute Wednesday, April 2nd, and consisted of two preliminary rounds, deciding the winners and runners-up in both divisions, and a final for the league championship between the winners of these games. Hawthorne easily took its preliminary game from the Bauer & Black team by a score of 25 to 13, while the Automatic Electric Company quintet won a thriller from Hamilton Ross by a score of 18 to 22. This left our team and the Automatics (the two north-side division teams) to fight it out. We had split even with them in the north-side encounters, both teams taking one game, so by the dope it was a toss-up as to who would be able to cop the finals, but when the teams got into action Hawthorne succeeded in wresting the title from the Automatic athletes by playing a whirlwind game that was a fitting climax to the basketball season.

We got away to a flying start, the ball never touching an Automatic man from the toss-up until their guard caught it after it slipped through the net. And more was to come, Medley, darting in and out with a celerity that puzzled his opponents, slapped in basket after basket for Hawthorne.

The Western boys also played a wonderful defensive game, dropping back to a five-man defense with the precision of clock-work whenever they lost the ball. So effective a defense did they throw up that the Automatics had to give up trying to work the ball up the floor, and resort to taking long "hope" shots whenever the opportunity presented itself. They succeeded in caging three in succession, all from the center of the floor, but even in the face of this unexpected attack the Hawthorne boys never wavered, but kept up their fast passing game. In a mix-up with an Automatic guard, Medley received a bump on the chin that knocked him out for awhile, but when he came to, he proved he was still in the game by dropping in a free throw. When the half ended Hawthorne led by a score of 12 to 8.

In the final period Hawthorne was content to play a defensive game, occasionally bursting down the floor for a basket when they had a clear path. Captain Evans worked well with Medley on these occasions and shot most of the baskets. So well did our defensive tactics succeed that the Automatics only caged two field goals during the entire second half. The final score was Hawthorne, 22; Automatic Electric Co., 12.

This is the second consecutive year that a Western Electric team has won the Chicago Industrial title. Last year a quintet from the Installer's League represented the Company and succeeded in copping the city flag.

The performance of the present champions is remarkable, as they got a miserable start in the early part of the year and worked their way from the bottom of the standings to the title with but two practice nights during the entire season.

Our line-up was as follows:—

	B	FT	P	T
Evans, rf	4	2	1	0
Medley, lf	3	2	0	0
McGrath, c	1	0	3	0
Kurtz, rg	1	0	0	0
Gaylord, lg	0	0	1	0
	9	4	5	0

Cards of Thanks

Mr. and Mrs. T. Price and family wish to express their sincere and heart-felt thanks to the employees of Western Electric Co., for the kindness and sympathy shown them in the loss of their dear daughter.

To Dept. 6372:—Kindly accept this expression of our sincere thanks and deep appreciation for the kindness shown us in our late bereavement.

Wm. Evans, 6372.

PUNCH PRESS "VET" HONORED

M. Magers, of the Heavy Punch Press Department, celebrated his 30th Western Electric birthday last Saturday—but he wasn't alone in the celebrating. During those 30 years of service, he has made a large number of friends all through the Works and Saturday morning they turned out en masse, lining up on both sides of the main aisle about a thousand strong.

There wasn't the slightest suspicion in Mr. Magers' mind as he arrived at work that anything unusual was afoot, but he got the shock of his life when a ten-piece band serenaded him with the "National Emblem March" as he quick-stepped up to the clock for his morning gymnastics. Then to the same tune the parade went down the aisle, lined on both sides with a regiment of smiles, to Magers' bench, where decorations and greetings towered to the ceiling. Ceremonies consisted of "Hall, Hail,

the Gang's All Here" by "the gang" and "The Stars and Stripes Forever" and "America" by the departmental band.

The rest of the morning Mr. Magers spent shaking hands with his host of friends who couldn't attend the earlier morning ceremonies. The department's booster club was responsible for all the arrangements of the affair.

Magers Thanks Friends

"I would like to express my thanks to the Booster Club and to all my other friends for the splendid way they celebrated my thirtieth Western Electric birthday."

"M. Magers, 6338".

CHESS PLAYERS ACTIVE

Results of Telegraph Match with New York Undetermined

Our chess team has been having a busy time of late. Thursday, March 27th, the locals played the Chicago University Club, losing seven to one. F. Asplund, Dept. 4441, was the only man who won, his match taking close to five hours.

On Saturday, March 29th, the Hawthorne men held their annual telegraph match with the New York team. After ten hours of play, during which time over a thousand messages were flashed to New York, it was found that five games had been finished and five would have to be adjudicated, to break the tie and decide the tournament.

The line-up of the two teams follows:—D. G. Grimley 1, J. M. Stahr (Hawthorne), 0; F. A. Voos vs. J. Shallicross (H.), to be adjudicated; F. C. Sacia vs. T. E. Moon (H.), to be adjudicated; D. G. Bjornson ½, C. F. Weselak (H.) ½; D. A. Quarles vs. F. Asplund (H.), to be adjudicated; S. Chyrlinski 0, C. R. Rassmussen (H.) 1; H. M. Stoller ½, B. A. Eliasson (H.) ½; H. A. Whitehorn vs. H. L. Morgan (H.), to be adjudicated; H. T. Reeve ½, R. P. Neumann (H.), ½; K. S. Johnson vs. J. B. Grosvenor (H.), to be adjudicated. The total scores are 3 to 3 on the games finished.

It is believed that adjudication on the games will be completed sometime during the coming week.

The score in the New York-Hawthorne telegraph match has been a tie for two years, being 6 to 6 last year and 5 to 5 the year before.

J. B. JENSEN FETED

Last Tuesday morning saw a gaily decorated desk, a cluster of five golden stars, a basket of 35 American beauty roses and a host of friends waiting to welcome John B. Jensen, foreman of the Japanning Department, on his thirty-fifth Western Electric birthday. He spent practically the entire day receiving congratulations from fellow employees, who dropped in from all over the shop.

The biggest surprise, however, came at 5:30, when a couple of Mr. Jensen's friends steered him over to the Works' Restaurant, there to meet a big assemblage of jolly good fellows gathered to do him honor. A chicken dinner, with steaming gravy, shivering jelly, pie—all the "trimmings", in fact, graced the board, around which were seated some 80 members of the guest's department with L. Radke acting as toastmaster and Mr. Jensen himself beaming his pleasure from the head of the table. As "Mr. Toastmaster" was the guest's own assistant foreman, everyone felt assured the merriment would be well directed.

John B. Jensen boasts one of the longest service records at Hawthorne. He started as a wood finisher at Clinton St. in 1889. He was made foreman of the Japanning Department in 1913, after a series of promotions through various positions, and is still in charge of that organization.

Several plant executives attended the banquet, joining with members of the guest's department in the program of speeches, singing and "smokes".

Anton Hassel and Elmer Jacobs, our well known Hawthorne entertainers, donated their services for part of the program.

GIRLS' BOWLING FINISHES

Installation Wins Women's Interbranch Bowling Title

The interbranch girl bowlers wound up their season at the Windy City Alleys Monday night, March 31st, when Installation took the title by nosing Merchandise out of first place by a lead of two games.

Miss Simpson, of the Merchandise girls, won the Individual honors with an average of 149 for 66 games, while Miss A. Bond averaged 145 for second place, Miss M. Berg averaged 142 and Misses Matkin, I. Bond and M. Dempsey had averages of 139. This is much better than former scores, for an average of 136 took first place honors in last year's meet.

Forty girls participated in this branch of the Hawthorne Club's activities during the past year. Besides developing eight splendid teams the girls built up an enviable record in match games with outside squads.

Teams picked from among the members of the interbranch league met teams from Charles Stevens & Co., Edison Electric, Calumet Coal Co., and many other industrial firms and succeeded in winning every match.

Miss Jennie Simpson will bowl at Indianapolis Friday, April 18th, in the women's world title tourney.

Girls' Doubles Tourney

The girls held a doubles tournament last Monday night and Miss Jennie Simpson again starred, clipping off first place with 496 maples, while her partner, Miss Bess Dolcis, collected 410. Miss Simpson also took high game honors by shooting a 188 game.

The leaders had an 82 pin margin over Miss M. Lax and Miss B. Slicky, who took second place.

HAWTHORNE GIVES A ROYAL SEND-OFF TO R. C. DODD

R. C. Dodd, who has been Operating Superintendent at Hawthorne for seven years and who is now taking up his position as Assistant Works Manager at Kearny, is nursing a tired right hand as a result of his hand-shaking activities in connection with his leave-taking from his Hawthorne associates. Although Mr. Dodd officially became Assistant Works Manager of the new Kearny plant last March, his actual departure from Hawthorne occurred last week when he moved his family east.

On Saturday, April 5th, the Manufacturing Branch superintendents, Works Manager, C. C. Stoll, and General Superintendent of Equipment J. D. Kennedy held a farewell party at the Union League Club, which was reminiscent of the many fishing trips and golf outings they had spent with "Bobby" Dodd. The place was decked out like a fishing shack. On the walls hung an assortment of tackle. The dinner was listed on the menu as "bait" and there was no mere nibbling at it either. Some of the superintendents swung some mighty good "lines", although in this case they were of the oratorical and poetical variety.

A book of original poems, garnished with photographs and cartoon illustrations, was presented to Mr. Dodd, recording in detail some of the more colorful summer adventures indulged in by those present.

R. C. DODD

The Foremen's Club in their farewell put one over their former chief. On the proposal that they go to dinner at the Hotel La Salle and talk over a few business matters two of his associates lured the unsuspecting Mr. Dodd downtown on Wednesday, March 26th. On their arrival at the hotel one of them suggested they take the elevator up a few stories and find a nice quiet corner for their little talk. It developed shortly that he had peculiar ideas of quiet, for a curtain was suddenly swept aside revealing 37 operating foremen, general foremen, assistant superintendents and superintendents. While the guest of honor stood speechless, the boys stormed "Hail, Hail, etc." on him.

W. J. McElroy, president of the club, who was the toastmaster, bade the guest welcome and presented him with an original menu card, containing a photograph of himself and the signature of all those present. Then, while a splendid dinner was being served, the toastmaster called upon representatives of the various groups present for a feast of oratory. W. M. Johnson, S. F. Short, W. H. Meese, W. Merz, S. S. Holmes and F. P. Reigel heaped words of praise on the departing guest and Mr. Dodd responded with a real comeback. Following the demonstration F. L. Gilman announced that he was sure he was the only one present who was glad to see Mr. Dodd leave Hawthorne. Mr. Gilman is the Works Manager at Kearny, and is to have Mr. Dodd as an associate on the new task.

While all this flowering eloquence was blooming at the Hotel La Salle, the Foremen's Club was also saying it with flowers at the Dodd home in Oak Park. At the exact moment Mr. Dodd was stricken speechless at the hotel, Mrs. Dodd was similarly stricken when a florist's messenger presented her a massive bouquet of American Beauties with the best wishes of the Foremen's Club.

Mr. Dodd has been engaged in the telephone game for close to 23 years. After graduating from Princeton, he started his student course at New York in November, 1901. He spent four years in Japan as Secretary to the Nippon Electric Company from 1905 to 1909, and upon his return to America was made head of the Installation Department. In 1916 he became chief of the Operating Branch and was still engaged in this work when he was chosen as the assistant works manager for the new Kearny Works.

PIONEERS MEET

The Theodore N. Vail Chapter No. 1 of the Telephone Pioneers of America enjoyed a family style, chicken dinner at the Bell Forum Thursday evening, March 27th. Over 250 Pioneers were present to join in the dinner, card playing and dancing.

The music was furnished by the Bell Telephone Company orchestra. Quite a number have joined the organization since the list of newcomers was published. The names of new pioneers will be printed in the next issue of The Microphone.

- 187—Univ. cook stove, gas; h. w. front; cheap.
- 188—Late '23 Chevrolet sport model; maroon color; fully eqpd. Barg.
- 189—2 screen doors; 2 storm doors; galvanized iron fence; 40 ft. of 4 ft. fencing wire; Eureka h. w. gas htr.; sm. laundry stove.

- 190—Large blue vel. overstuffed davenport; mahog. glass top tea wagon; 2 clothes wringers; Lloyd's brown reed baby buggy; baby walker.
- 191—2-story frame hse., 4-4 rms., \$6,700; \$4,600 cash, 5434 W. 24th St., Cicero.
- 192—6-hole Gainer and Koehler coal range, h. w. front; gd. cond., \$20.
- 193—5-pass. Oldsmobile, sport model, cheap.
- 194—Sewing machine, oak; drop-head; gd. cond.; \$18.
- 195—Airedale dog, 1 yr. old.
- 196—3-tube B. T. radio No. 2 hookup; comp., bat. and tubes. Reas.
- 197—200 egg strain W. Wyandottes and S. C. Rhode Island Reds; setting of Grade A, \$1.50; Grade B, \$1. (No chicks). W. Wyandotte pens \$25 and \$30.
- 198—2 lots, 30 x 125 ea. in Berwyn, 63rd Ct. and 28th St.; all improv. except street, \$1,500 or exchge. as part payment on bldg.
- 199—Gas range; sm. garbage burner; and htr.
- 200—Walnut dining table, 42", \$20; blue rug for parlor 9 x 15, \$20.
- 201—2 lots, 60 x 150 ea.; 4 blks. from sta.; all improv. except paving; Westmont. \$1,250, both or sep.
- 202—Mod. 5-rm. brick bung., furn. ht.; lot 50 x 135; all improv., Maywood. \$9,200; \$1,300 cash, \$70 mo.
- 203—Mod. 6-rm. res.; oak floors and trim.; lot 50 x 220. Riverside. \$12,000.
- 204—Mod. 5-rm. frame bung., oak floors, trim.; h. w. ht.; garage, chicken coop; 20 min. from Wks.; lot 50 x 150; 1126 Wisconsin Ave. \$10,500; \$4,000 cash.
- 205—Mod. 5-rm. elastic stucco bung.; hot air ht.; encl. porches; lot 50 x 133; 615 N. Waiola Ave., La Grange. \$10,500.
- 206—Mod. 6-rm. frame res.; 1 1/2 stories; h. w. ht.; 28th St., nr. Austin Blvd.; lot 37 1/2 x 125. \$7,200.
- 207—Mod. stucco res.; hot air ht.; oak trim.; 3316 Home Ave., Berwyn. Vacant in spring. \$10,500.
- 208—Mod. 6-rm. res.; hd. wood trim.; furn. ht.; La Grange nr. golf course, vacant in spring. \$9,000.
- 209—Studebaker special six, '22 model touring.
- 210—Gas range, 4 burners, high oven; 1 yr. old; A-1 cond., \$25.
- 211—2-tube Reflex, \$30; super-duc, \$14; Federal 2-stage amplifier, \$10; Federal microphone \$4.50.
- 212—Large oak buffet with mirror.

WANTED

- 300—Auto trans. to vic. of Madison and Kostner or Monroe and Kostner, shop hrs.
- 301—Large strong trunk for packing goods for storage.
- 302—Polly cage and canary cage.
- 303—Auto trans. to Wks. from La Grange, off. hrs.
- 304—4-5 rm. unfurn. flat, \$35 or \$40.
- 305—Cottage of 5-6 rms. in exchge. for vacant prop.; west or northwest side pref.
- 306—A kitten.
- 307—Auto trans. from Maywood, off. hrs.
- 308—Variometer, Amrad pref.; and a 7 x 26 x 3/16" panel.
- 309—1 or 2 acres with sm. hse.; gas, elec. and sewer; nr. school and "Q".
- 310—Tent or auto tent and camping outfit.
- 311—Auto trans. vic. of Wallace and 55th, off. hrs.
- 312—3-4 rm. flat or apt., htd., with sleeping porch, walking distance. May 1st.
- 313—Gd. 23-pl. vernier condenser in exchge. for new signal condenser; 43-plate vernier, pigtail rotor connection; phosphor bronze bearing contact.
- 314—3 auto pass. from vic. immed. west of Columbus Pk. off. hrs.
- 315—To rent, 4-5-6 rm. hse. or flat on S. W. side; or nr. suburb. Spaulding 0590.
- 316—4-5 rm. stove htd. flat, within 1 mi. of Wks. April 15th.
- 317—Stove htd. flat, W. or N. W.; 2 adults, abt. \$40. Brunswick 0855.
- 318—2-3 rm. furn. or unfurn. rms. for light hsekeeping on Cicero Ave.; must be reas.
- 319—3-4-5 rm. flat, by employed couple before June 1st. Cicero.
- 320—Auto trans., Home Ave. and Harrison St., off. hrs.
- 321—5-6 rm. flat stove ht.; elec.; 30 min. ride from Wks.
- 322—1 1/2 story frame, concrete form or brk. hse.; furn. ht.; N. W. side pref.

FOR RENT

- 351—Mod. 5-rm. flat; screened porch; furn. ht., \$65. July 1st. 3434 Wenonah Ave., Berwyn.
- 352—3-rm. furn. cottage on Twin Lakes, nr. Eagle River, Wis. \$18 wk.
- 353—4-rm. flat, stove ht.; 15 min. to Wks., \$25. Lawndale 1472.
- 354—Well-furn.; h. w. htd. flat; 5 rms. and sleeping porch. 1031 N. Hayes Ave., Oak Pk.
- 355—New 5-rm. mod. flat, oak floors; h. w. ht., \$75. 2204 N. Lockwood Ave.
- 356—Mod. 6-rm. stm. htd. flat; screened porch, May 1st, \$70. 1442 S. Lombard Ave.
- 357—Hi-grade 5-rm. stm. htd. apt.; glazed, screened, sleeping porch; May 1st \$110; garage, \$10. 228 North Lorel Ave., Austin.
- 358—New 4-rm. hse.; elec.; 1-car garage, \$40. 62nd Ave. nr. 42nd St.

The Hawthorne Club

A Little Recognition for the Accompanist

HAWTHORNE EVENING SCHOOL COMPLETES BANNER YEAR

1,268 Students Receive Diplomas
—Moving Pictures of Hawthorne Shown for First Time

The largest graduating class in the history of the Hawthorne Club's evening school received their diplomas at the Annual Commencement Exercises held in the Works Restaurant on Friday evening, April 11th. The classes in Mechanical Drawing had the largest number of graduates and Business English and Manual Telephone Practice also proved very popular.

The program opened with selections by the Western Electric Band under the direction of Mr. V. J. Gabel. Mr. Summerfield who was in charge of the program introduced the speakers of the evening—Mr. E. E. Loftstrom, President of the Hawthorne Club, Mr. Meese, Operating Superintendent, and Mr. O. Carpenter, Principal of the Hawthorne Club Evening School. Their talks were easily heard throughout the entire floor by means of the Western Electric public address system which is now a permanent installation in the Restaurant Building.

A first showing of the moving picture "The World's Telephone Shop" was an event of the evening. Other moving pictures were shown, and the Hawthorne Glee Club, under the direction of Mr. A. E. Holstedt, delighted with their harmony.

Preceding the program, a dinner was given for the faculty and various committees of the evening school and entertainers on the program.

DAYLIGHT SAVING

Despite the utter absence of any climatic indications the management has faith enough that spring will arrive to designate two o'clock Sunday morning, April 27th, as the time when all clocks at Hawthorne shall be turned ahead one hour, inaugurating the 1924 daylight saving program. Don't forget!

HAWTHORNE ENTERTAINS NEW YORK TELEPHONE MEN

During the early part of this week a three-day visit to the "World's Telephone Shop" was made by twenty-five prominent officials of the New York Telephone Company. They were escorted on their various tours of observation by our Superintendents, and spent their entire time in learning the actual manufacture of telephones and becoming better acquainted with the Personnel of Hawthorne's organization.

The representatives were:—R. E. Walker, general supervisor of traffic; R. H. Boggs, superintendent of traffic, Manhattan; G. H. Merrill, division superintendent of traffic, machine switching; J. W. Hubbell, general traffic engineer; H. H. Kennedy, division superintendent of traffic; J. J. Welch, division superintendent of traffic, western division; J. H. Colket, engineer central office, equipment and buildings; S. C. Medbery, acting engineer maintenance, studies, manual; W. G. H. Whitaker, engineer toll plant extension and transmission; W. J. Ward, superintendent supplies and motor vehicles; J. H. Dodge, division plant superintendent, eastern; J. C. Swartwout, division equipment superintendent, eastern; S. Vail, division construction superintendent, eastern; A. L. Fox, division engineer, eastern; D. W. Smith, division supervisor buildings and supplies, eastern; V. C. Mott, division construction superintendent, western; J. W. Banks, division equipment superintendent, western; J. M. Clark, division engineer, western; C. H. Thomas, division supervisor buildings and supplies, western; E. H. Dwyer, commercial supervisor; W. A. Dalton, division commercial supervisor; G. S. Weedon, executive assistant; J. B. Odell, manager, New York telephone distributing house, Western Electric Company; A. Schultz, division superintendent, installation department; G. A. Griffin, assistant stores manager, Western Electric Company, New York.

Many Visiting Groups

On April 17th, twenty-nine chemical engineering students from the University of Wisconsin visited the Plant. They were accompanied by Mr. D. O. P. Watts, and Mr. F. W. Willard ad-

GIRLS TAKE IMPORTANT PART IN HAWTHORNE PRODUCTION

Demonstrate Speed and Accuracy — Help Smash Production Schedules

In a recent issue of The Microphone mention was made of a record breaking output during March. It is now revealed that the girls have done their bit toward this business of smashing schedules.

The Condenser Coil Dept. 6319, received the largest schedule ever set on this work, namely, 306,707 coils for the five-week month of March. They delivered 464,200 and are going to do it again with a schedule of 287,000 for the four weeks of April. It looks as though the output would be nearer 90,000 than 70,000 a week.

How did the girls do it? F. W. Taylor, the foreman, modestly states that while he is proud of the achievement, the credit must go to the girls. Formerly the day's output was 360, it is now 480. However, he suggests that much credit is due the night operators. Although many of us do not realize it, our fellow workers are on the job five nights each week doing their bit to facilitate production.

There is a new machine being tested out in this particular department at the present time and when it is in-

stalled schedules better be prepared for more breakage.

Records have been broken in another department, 6321, in the output of repeating coils of the toroidal type. An estimated schedule of 15,000 for March was lost in actual production of 20,299. However, there are a few men in that department who may share in these honors and are helping maintain the record for April when 9,000 was scheduled (4-week period) and indications are that 14,000 will be produced.

Not only are the girls taking their place in the speeding up of production but they are now turning out quality as well as quantity.

In our newest department, 6317, Mr. Reimer, the foreman, has placed girls in important operations on the new type of protector blocks now being made. Here they have to adjust the carbon inserts to .0008 of an inch. The limits between which the insert must come are .0032 inch and .0024 inch. The process is interesting. The men operate the ovens which are maintained at 1900° Fahrenheit and the girls operate the machines which adjust the carbon inserts perfectly.

ressed the group on the subject "Chemical Engineering in the Telephone Industry." Twenty-five mechanical engineering students from the University of Pennsylvania, who were accompanied by Prof. R. H. Fernald, were entertained April 11th. Mr. C. B. Allen of Oklahoma City and Mr. M. J. Ziegler of Wichita, Kansas, Division Plant Superintendents of the Southwestern Bell Telephone Company, spent April 15th and 16th visiting at Hawthorne.

PSYCHOLOGIST ADDRESSES HAWTHORNE EXECUTIVES

From all reports the supervisors at Hawthorne are fortunate in being able to attend a series of lectures given by Mrs. Pauline Dunstan Belden. Mrs. Belden will talk to three groups each week for a period of eight weeks on the means by which one can develop personality, so that traits which were formerly liabilities will be made assets.

The first lecture treating on "The Art of Personal Conduct", was presented in a forceful and convincing manner, and if considered a criterion of the succeeding lectures should prove of great benefit to those attending.

TRIANON DANCE

Many successful dances have been recorded in the annals of Hawthorne history but nothing in the past can compare with our dance at the Trianon on Wednesday, April 23rd. There were approximately four thousand participants togged in gay Easter attire to add to the splendor and magnificence of this great ballroom. The State Comedy Four, always so greatly appreciated, was at its best. The wonderful music and the perfection of the management combined with the usual good fellowship and gayety of our Hawthorne Club affairs made this, our feature dance of the season, an event long to be remembered by Hawthornites.

Hawthorne Golfer—Absolutely shocking! I've never played so badly before! Hawthorne Golfer—Ah! You have played before then!

WESTERN ELECTRIC EXHIBITS AT UNIVERSITY OF ILLINOIS

The Western Electric Company has an exhibition at the 1924 Electrical Show, a semi-annual event under the auspices of the student branch of the American Institute of Electrical Engineers at the University of Illinois. This exhibit, which will be viewed by both the entire University and visitors from surrounding towns, consists of the machine switching demonstration panel from the Works Training Division Demonstration Laboratory, and five display boards showing desk stand parts, the assembly of a sequence switch, the manufacture of a lug holder and a magneto generator. An exceptionally good job was performed by Mr. G. E. Booth, who supervised the packing and shipping of the panel on very short notice.

The Electrical Show is being held on April 24th, 25th, and 26th. Mr. F. H. Overly, of the Demonstration Laboratory, and Mr. T. W. Edwards, of the Development Personnel Department, are in charge of our part of the show.

ADDITION TO HOSPITAL COMPLETED

The addition to the Works Hospital was completed this week with the opening of the remodeled west wing. The space formerly used for surgical dressing and waiting rooms has been converted into two three-bed wards, a single bed ward, operating, sterilizing, reception rooms and a kitchen. The wards, sterilizing and operating rooms are in accordance with the high standard of equipment used in the other section of the Hospital. The reception room for convalescent patients and their visitors is furnished very artistically with grey cretonne, upholstered, reed furniture and the kitchen is the envy of every June bride.

GLEE CLUB BROADCASTING

On Tuesday evening, April 29th, the Hawthorne Glee Club, under the direction of Mr. A. E. Holstedt, will broadcast from station WLS (Sears Roebuck). The time at which our radio fans may listen to their favorites has not been determined, but will be announced in the daily papers. Watch for the date.

DO YOU REMEMBER—

When the Company allowed you 50c for working overtime? Some of the fellows worked every night and on Sunday spent the whole \$2.50 for a rubber-tired buggy to take "Her" riding.

When the Hawthorne Club ran a three ring circus and Jupiter Pluvius had a perfect batting average for the entire engagement?

When you could get a plate dinner for a dime and side dishes were three cents extra?

When the Cicero Avenue car ran north only as far as Twelfth Street, and the passengers boarded a "dinkey" which ran west to Austin Boulevard?

When the corner of 48th and 22nd was a field where the secretaries gathered wild strawberries every noon. The office boys gathered little green snakes which they would bring back to the office to scare the girls?

When you would eat your lunch at 18th Street while you watched the airplanes and how wonderful you thought it would be if you could go up just once?

When you didn't have to punch a time clock?—NO, WE DON'T EITHER.

WOMEN'S BOWLING LEAGUE TO GIVE LUNCHEON

The Hawthorne Women's Bowling League will give its First Annual Luncheon in the Grand Ball Room at the La Salle Hotel, Saturday afternoon, May the third.

Either Bunco or Five Hundred may be played during the afternoon, and a number of merchandise checks, ranging in amounts from one dollar to three dollars, are to be given as prizes. There will be one prize for every four girls playing either Bunco or Five Hundred.

Tickets may be obtained from Mrs. M. Lax, Dept. 6574-1B, or from any member of the Committee.

You know that these girls have played hard to make good records, and that they are deserving of a "real" party. Why not help to make it a success?

ORGANIZATION CHANGES

Miss Emmy A. Rentzmann, secretary to H. F. Albright, has been transferred to the Employees' Service Div. 5080, as head of the Clerical Service Department 5080-6, where she will have charge of the Benefit Fund Pay Roll, Statistics, Stenographic and Typist Sections.

Miss Rentzmann has had several years' experience in the Division, in fact she went into it when it was organized in 1915. Her previous service began at Clinton Street in the Mailing Department. From there she did stenographic work in the Billing and Scheduling and Telegraph Departments; then she came to Hawthorne as Secretary in the T. A. Shops, until she went into the Industrial Relations Branch.

Miss Ethel Kerr, of the Patent Dept. 6991, will succeed Miss Rentzmann as Secretary to Mr. Albright. She has had all her experience at Hawthorne in the Patent Branch.

Miss Edna Welsh has been transferred from Dept. 6538-2 to 6593-2 in charge of the personnel work for the women of the Engineering Clerical Department.

Miss Welsh has always been in the Engineering Department and has made an excellent record of steady advancement. She started as a typist and progressed through a succession of promotions to being a department chief.

TELEPHONE PIONEERS

The motto of the Telephone Pioneers of America is:

"In the spirit of comradeship they did their work and the spirit of comradeship brought them together in this fellowship."

In view of the fact that the Pioneers have been in the Telephone business for years, they naturally have many things in common and now that the Theodore N. Vail chapter has been formed in order that there may be a continuance of this common interest from a social standpoint, also, special mention should be made of the opportunity for women employees to enjoy this privileges as well as men.

The women will naturally be in the minority as members of such an organization, but in the wonderful development of the telephone business it is a privilege to feel that they can take and have taken an active part.

Hawthorne Works now boasts of eight women members of this association and twenty more are eligible. As this number increases others should join in this spirit of comradeship and fellowship by becoming members of the Telephone Pioneers of America.

Girls Enliven Rifle Competition

Out of the forty teams which are participating in the five-week tournament now being held under the direction of the Hawthorne Rod and Gun Club, there are approximately thirty-four teams that will have to do some skillful shooting in order to beat the record our girl team holds at the end of the third week.

National Small-Bore Match

Authentic information is at hand that at the request of the National Rifle Association, the Illinois and the Chicago Rifle Associations are to hold at Grant Park, Chicago, around July 4th, a tournament which will include individual, as well as team matches. And, we girls of the Hawthorne Works are boosting our women gunners twelve thousand strong, because we believe that their ability as accurate shooters bids fair toward winning for them a place in the Women's Section of this outdoor, small-bore match.

Dewar Trophy

Illinois will later be given a chance to participate in the greatest event of the shooting calendar; the International Small-Bore Team Match for the Lord Dewar Trophy—that coveted prize which is now held by the Americans, and for which the English speaking nations annually compete by teams of twenty firing members, two alternates, a team captain and a team coach.

"I found a new place, the other noon, where they sell a chicken dinner for ten cents."

"Where! O, where?"
"At a feed store."

BAND DIRECTOR RETURNS

Mr. V. J. Grabel, Director of the Western Electric Band, who has been confined to his home for the past five weeks, has returned and announces that rehearsals will begin during the week of April 28th. There is an opportunity for a good bass drummer to join the band.

An indication of the Band's popularity can be seen in the result of a vote taken by the boys at Speedway Hospital, in which first honors were shared by the Chicago Police Band and our own organization.

Miss Rose Kolurek, of Dept. 6643-3, was pleasantly surprised by her many friends on April 8th. The party was in honor of her approaching marriage to David Eklund, of Dept. 6672, which occurred on April 12th.

The many friends of Miss Alice Nelson, Dept. 6325, will be pleased to learn of her approaching marriage to Fred Keller, of Chicago.

Miss Nelson is one of the popular instructors in the Coil Winding Department and has been exceedingly prominent in Hawthorne Club affairs. She served as Second Vice President of the Club during last year and has been assisting in the Club Store for the past two years.

Miss Nelson will be married on April 30th at St. Barnabus Church.

Europe will have the privilege of entertaining at least two of Hawthorne's Fair Sex during the next few months.

On May 20th Miss Anna P. Stahr, Dept. 2410-S, will sail from Brooklyn on the S. S. Stavangerfjord. Miss Stahr, accompanied by her mother, expects to spend some time in Norway, Denmark, and Sweden.

Miss Ethel Devery, Dept. 6001-S, sails June 21st on S. S. Regina from Montreal. Miss Devery expects to spend several weeks visiting the many interesting places of Europe.

Mr. Stanley S. Holmes, Assistant Works Manager, was elected a village trustee on the Regular Party ticket, at an election held in Riverside, April 15th.

On Monday, April 14th, King's restaurant was the scene of a farewell dinner in honor of Mr. C. C. Carr, 6517-2, who has been transferred to New York. After a chicken dinner the guests, about thirty in number, attended a performance of "Abie's Irish Rose". Mr. Carr, who is being transferred to a department dealing with the cost of European Automatic apparatus, has been with the Company since 1908. Part of this service has been in Antwerp and London and he entered the Equipment Engineering Organization in 1920 where he has served until the present time. May he be as successful in his new environment as he was at Nippersink last fall, when he won first prize, not for the fish that got away but for the ones he caught.

On Friday, April 11th, a farewell dinner was tendered Mr. O. W. Melin, 6001-8, at the Napoleon Cafe, Harrison and Crawford. About seventy-five were present, Mr. B. E. Dodge acting as toastmaster. Mr. Melin leaves April 14th for Kearny, where his many friends wish him continued success.

On April 24th, the regular get-together dinner, given by members of Service Div. 6722, was held at the Hamilton Club. Throughout the dinner they were entertained by professional vaudeville talent and music.

The main event of the evening was a talk by Major Schroeder who, while in the service of the Aviation Corps during the recent war, established a high altitude record. His talk was based on some of his experiences while flying, which proved to be highly entertaining.

Another feature event to be held by Service Div. 6722 is a Dance and Bunco Party at Columbus Park Refectory on April 30th.

In Cicero's recent tempestuous election Thomas Mackay Chisholm, chief of Public Relations and Legal Representative Dept. 5089, said to be a dyed in the wool Democrat, was reported kidnapped and kept in a garage for three days. After his friends had lost several nights sleep worrying about his welfare, Tom turned up smiling—from a Rockford Convention.

On Thursday, April 10th, Mr. T. E. Moon, of 5952-2, addressed the Students' Chapter of the Society of Industrial Engineers at Harper Memorial Hall, University of Chicago. Mr. Moon spoke on "Production Principles" to an audience of both women and men students.

Mysterious reports are current concerning the joint dinner of the Women's College Club and the Hawthorne University Club, scheduled for Wednesday, April 23rd, in the Company restaurant.

A member of the Men's Club informed a Microphone reporter that their organization had invited the girls to participate with them in a dinner and stunt night. But Miss Catherine Congdon, chairman of the College Club Program Committee, emphatically denies that there were any men except Mr. DuPlain present at their regular monthly dinner.

Mr. Fred Weese, President of the University Club, declined to be interviewed, but there is an unconfirmed rumor to the effect that the men found themselves unable to prepare a stunt according to the agreement and were, therefore, obliged to forego the dinner.

On April 18th, the members of Dept. 6048 presented their Chief, Mr. E. F. Beck, with a huge basket of roses on the occasion of his thirtieth anniversary with the Company.

Dept. 6377 was the scene of a pretty party on Saturday, April 19th, where the many friends of Miss Mae Chobotsky gathered to wish her happiness. Miss Chobotsky will be married to Otto Bobysund of Chicago.

After an enjoyable meal at Myers Restaurant, the Jolly Millers of Dept. 6334 attended a local theatre last Thursday, April 10th.

Mr. John J. Ziska, Dept. 2405-3, has been appointed to the Board of Directors of the Hawthorne Club to succeed Mr. C. C. Kelly, transferred to Kearny. Mr. Ziska will also assume Mr. Kelly's duties as Chairman of the Membership Committee. He has been very prominent in Club affairs for several years, and his friends are glad to see him in a position where previous experience is such an asset.

BANQUET BY BOWLERS OF DEPARTMENT 6108

The spirited bowlers of Dept. 6108 topped off the season by a banquet which was held at the Chateau Desplaines on the evening of April 10th.

After much fun created by the witticisms of Toastmaster Allridge, there followed a musical program, and team and individual prizes were later presented.

Captain C. M. Robert's team walked off with the first prize, C. F. Fuller's team coming in for second, and J. Rulau's team third. Sixteen individual prizes were also presented, the first and second being won by H. Hetzke and J. Jecka, respectively. W. J. Stoll and J. Rulau ran close scores for third prize, until, in the last game, Stoll moved Rulau out by a fraction of a pin.

WHAT'S WRONG HERE?

GIRLS' WEEK

For centuries in Japan a day has been set apart and dedicated to the girls. The holiday is of semi-religious character and is celebrated by giving the girls charms which are supposed to ward off evil spirits and protect them from all harm.

The women in Chicago have also felt the need of setting apart a period of time in which the public would have their attention called to the opportunities and needs of our American girls. Often we hear, "Boys of today are the men of tomorrow". At this time we may remind the world, "That the girls of today are the mothers of tomorrow."

To the girls and women of Hawthorne, the week through its spirit and activities, ought to mean much. Out of it should come a new feeling of self respect in each individual and a sense of solidarity as a whole. We need to remember all the time that every one of us at Hawthorne may have the same desires, ambitions and aspirations, regardless of the hour that we punch the clock. The value of our service to society is the same whether we operate a punch press or a typewriter, the only distinction being whether the individual does her particular job well. The week can do nothing better for us, than to awaken a sense of the dignity of womanhood, its responsibilities, its privileges and its possibilities.

IT'S A GIRL!

March 31st—To Mr. and Mrs. C. E. Cibulka, Elaine Emily. (Dept. 5909.)

April 4th—To Mr. and Mrs. F. P. Madison, Agnes. (Dept. 6113-2.)

April 11th—To Mr. and Mrs. G. L. Callender, Margery Jacqueline. (Dept. 6050-2.)

April 11th—To Mr. and Mrs. Fair, Eona Mae. (Dept. 5528-1.)

ATHLETIC ACTIVITIES

Many different athletic activities have been indulged in during the winter months, and the spring weather is creating much enthusiasm for the summer sports.

Tennis

What's all the racket?—It's because—The tennis courts have been newly prepared; rules governing the use of the courts are already posted on the bulletin boards; and permits may be secured from the various representatives, and because—

Mr. A. C. Jones, Dept. 2415, has been appointed chairman of the Tennis Committee, and Mrs. Mabel Johnston, Dept. 6530-2A, has been selected as member of the Tennis Committee, in charge of the Girls' Tennis Activities and because—

The main events for the coming season are: Interbranch Team Competition; Matches with other Industrial Teams; and Works Single and Double Championship Tournaments, and because—

Some of the members of last year's team have already been out limbering up so as to be in trim for the Association Meets which are expected to start about the middle of May.

The only blight on the enthusiasm of last year's members is because of the absence of Mr. P. F. Hutchison, one of the team's best players. Mr. Hutchison was recently transferred to New York.

Plans for Golf Season Well Under Way

The chairman of the Women's Golf Committee reports that twenty-five young women have signed up for the coming golf tournament, and that arrangements are being made for them to play at the different golf clubs at least once a month and, when possible, even more frequently.

Soon after the daylight savings goes into effect, these young women will play a nine-hole game in order that proper handicaps may be determined.

Members will be notified as to when the first meeting of the Girls' Golf Committee will be held. Those who

desire further information before the meeting is called may communicate with Miss Lillian Sheehy, Dept. 6087, phone 1828.

Glad tidings for those itching palms! The Golf Committee have left undone not a detail in making plans for the members of the Men's Golf Club for the coming season which will open on the tenth of May.

The tournament schedules are now being made up and they will be distributed in about a week.

Reservations for time may be made here at the plant, and they must be in no later than Friday of the week or weeks in which a member wishes to play.

A bus will leave from the plant every Saturday at 12:15 P. M., fare for the round trip is twenty-five cents. Those who care to make use of this service should get in touch with the secretary or the chairman of the committee as early as possible.

Lunch may be had at the Golf Course.

Arrangements have been made for forty lockers, each accommodating two, or, if necessary, three persons. The fee for one locker for the entire year is five dollars.

Further information as to definite starting point, etc., will be sent to each member before May tenth.

Baseball Season Opens

Preliminary practice will begin on May 5th, the regular league schedule going into operation either on the 12th or the 19th day of May.

If possible to secure two diamonds for the noon-hour play, two divisions will be formed; a Major division for boys sixteen and seventeen years of age, and a Minor division for boys fourteen and fifteen years. If only one diamond can be secured, there will be only one division in the league. This division will consist of from four to eight teams, all boys under eighteen being eligible to compete.

Horseback Riding

Cheer up, Dobbin, old darling, you don't have to pass out now! There are just one-half as many of us as there are miles around the world, and if the enthusiasm for horseback riding continues during the coming fine weather as it has during the winter months, there will be many a gentle equestrienne giving you exercise.

Swimming

Shake the moths out of your swimming suits, fair natationists, for there is soon to be an opportunity for you to display your skill in aquatic exercises.

The Illinois Bell Telephone Company is now planning a big swimming meet in which we are to participate.

GIRLS' BASEBALL AND BASKETBALL TEAMS TO GIVE DANCE

The many rooters who have supported the Girls' Baseball and Basketball teams are to have the opportunity of joining them at a dance which the combined teams are giving at the Garfield Park Refectory Saturday evening, May the third, at eight o'clock.

Music by Ston's Syncopators! Nuf said! See Miss Luddy Malina, Dept. 6336, or any team member about your ticket.

OVERHEARD IN 22nd STREET CAR

"Say, Bess, have you heard the news? Marie and Jack have broken their engagement!"

"Yes, it sure is a shame because Jack is a swell sheik, and it was all her fault. You see it was this way, Marie got a brass sliver in her thumb about a month ago while working, and although her gang boss told her to go to the Hospital for treatment, Marie didn't think the injury would amount to much and refused to go. A week later her thumb was so badly swollen she couldn't work, so she went to the Hospital and the Company doctor sent her home. She hasn't been able to work since. Believe me, Marie sure did suffer with that thumb. Well, on account of losing so much sleep and suffering so much pain with her thumb, she got awful cross and had more scraps with Jack than she ever had since they've been engaged. Yesterday the Company doctor told Marie that her thumb would be stiff forever and as she knew it was her own fault, because she didn't report the injury the day it happened, she was cranky and blue and when Jack came up last night, she had a peeve on, and he and Marie had a big fight about her carelessness and now their wedding's all off."

"Of course, it's Marie's own fault because when the Company spends so much cash guarding our machines, giving us hairnets, goggles, and other stuff to protect us while working and that bunch of nurses and doctors are paid to take care of us, it's up to us to go to the Hospital as soon as we get hurt and not wait until an infection sets in, so that we have to be absent a long time, and suffer lots of pain and perhaps in the end lose our fingers and our sweethearts."

Card of Thanks

We wish to express our sincere thanks to the members of the Mill Section of Dept. 2442-1 for the beautiful floral piece and for the acts of sympathy tendered us during our recent bereavement.

—Mr. and Mrs. G. Lange, Dept. 2442-1.

HOW ABOUT IT GIRLS?

(WITH APOLOGIES TO BRIGGS)

WHEN YOU'RE BEGINNING TO THINK THAT MEN HAVE ALL THE FUN.

PRIVATE

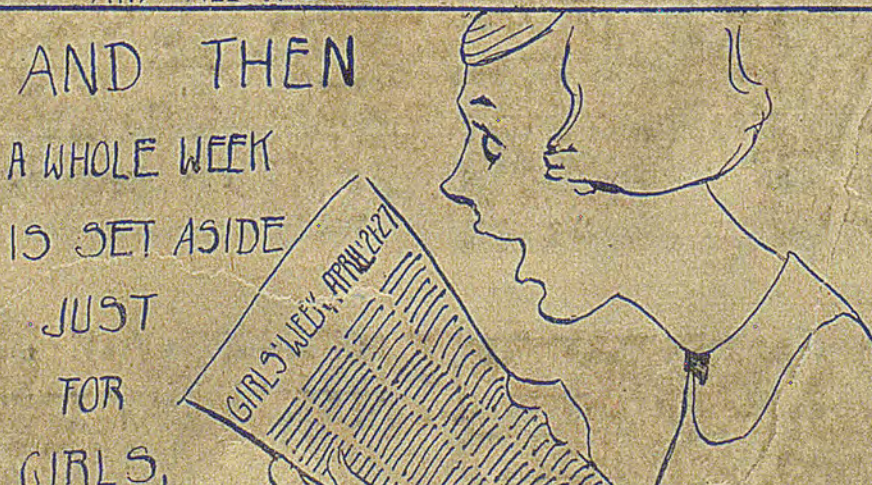

AND ALL THE BEST JOBS.

AND ALL THE ATTENTION, AND YOUR BEST CHUM IGNORES YOU TO TALK TO A MAN.

AND YOU GUESS GIRLS ARE UNIMPORTANT,

AND THEN A WHOLE WEEK IS SET ASIDE JUST FOR GIRLS.

O GIRLS! AIN'T IT A GRA-AND AND GLORIOUS FEELING?

SPRING IS HERE

The Camera Club will open the Spring Season with a trip to Ravinia on April 27th.

They will leave over the North Shore Electric from Randolph and Wabash at 10:00 A. M. (daylight saving time) and detrain at Ravinia. Their hike will lead through the forest preserve where the scenery is exceedingly delightful.

The outdoor fans will prepare and cook their meals enroute and the Club will serve coffee. The entire cost of the outing will be \$1.00, and the trip back to Chicago will be made early enough so that regular Sunday evening appointments can easily be kept.

MARRIAGES

April 5th—Arthur W. Muth, formerly of Hawthorne, now of San Francisco, to Miss Kathylene Lonergan, of Chicago.

April 5th—E. L. Stephenson, Dept. 2423, to Miss Dorothy Wood, Dept. 5938.

April 12th—Arthur Mehning, Dept. 6055-2, to Miss Helen Kolar, Dept. 6133.

HAWTHORNE ENGINEER, TWO YEARS IN JAPAN, RETURNS TO WORKS

**R. P. Ashbaugh Tells of Recon-
struction in Earthquake Zone
—Supervised Installation of
Japan's First Toll Cable**

R. P. Ashbaugh, Hawthorne cable engineer, who has been in Japan for the past two years supervising the installation of the island empire's first toll cable, recently returned to the Works.

Mr. Ashbaugh, who was in the Cable Engineering Division at Hawthorne, left in January, 1922, to superintend the installation of the Kobe-Osaka and the Tokyo-Yokohama toll cables. He was stationed with the Sumitomo Cable Works at Osaka. While in Japan he wrote an interesting account of the installation of Japan's first toll cables, which appeared in a recent issue of the Western Electric News. Since his return to Hawthorne he has been placed in charge of Cable Engineering Dept. 7388.

Mr. Ashbaugh brings back with him an interesting intimate glimpse of Japan's recovery from the earthquake disaster. Permanent building in Tokyo has not yet started, he says, but as you look out from any of the taller buildings a maze of temporary roofs hide every bit of the ruin wrought by the quake and the terrific fire that followed it. The authorities have drawn up plans for a "new and greater Tokyo," with wide streets and beautiful parks, replacing the narrow and congested streets so characteristic of the old city.

The telephone system in Japan's first city has been extended as rapidly as it could possibly be taken care of. About 14 central offices were completely destroyed by the fire and quake, and the three remaining have taken over as much of the increased load as possible. According to present tentative plans nine big central offices will be constructed, large enough to replace the 14 destroyed.

The recently installed toll cable line between Tokyo and Yokohama was quite badly damaged, especially on the Yokohama end. Mr. Ashbaugh found upon examination that replacing segments of cable aggregating about a mile will put the entire 20-mile line back into service. Water, which saturated the cable at the various breaks, did the most damage, breaking down the insulation. If this had not occurred, it might have been possible to patch up the torn cable without very much difficulty.

The Nippon Electric Company, our allied house, was able to salvage much more machinery from the wrecked portion of the Tokyo plant than was at first thought possible. Approximately three-quarters of the equipment on the floors damaged was salvaged. The first floors of the buildings were completely intact, with parts of the second floors also usable. This made it possible to construct a temporary roof over part of the second floor, so that two floors are again in use.

OPERATING BRANCH NEARS 100 PERCENT PIONEER MEMBERSHIP

The Operating Branch, along with its achievements in other fields, bids fair to ring the bell pretty soon in its drive to get 100% membership in Theodore N. Vail Chapter, Telephone Pioneers of America, membership in which is limited to persons with 21 or more years' experience in telephone work. With the largest number eligible of an organization at Hawthorne, the Operating Branch has been a big help in pushing the membership above the 400 mark by contributing 197 members, and it is expecting to furnish 78 more in a short time. Eighteen departments of the branch already have 100% membership.

The work of the membership committee, Miss Gertrude Fries, George Hopf and E. A. Hauser, is well shown in the following list of members secured during the past week or two.

Dept. 6033-1C—J. F. Schmutzer; Dept. 6039—W. M. Smith; Dept. 6048—E. F. Beck; Dept. 6108-2B—William J. McCann; Dept. 7172—C. Wojciechowski; Dept. 6211—Chas. C. Wright; Dept. 6301—Julius Prena, W. C. Luey, Frank Trinko, Albert Ross, Sr., H. V. Courtwright, Charles Nelson, John Klinck, J. A. Mayer, Wm. J. McElroy, Soren Nielsen; Dept. 9303—John H. Hayes, Frank H. Miller; Dept. 6205—Louis Muzikos, Henry Inland, John Salasky, Walter Plagowsky, Andrew B. Nielsen, Charles Olsen, Martin A. Linn; Dept. 6321—Lincoln Mason, Otto Collin; Dept. 6322—Henry Busch, Joseph Grogan; Dept. 6326—Sadie O'Hearn; Dept. 6331—John F. Schmidt; Dept. 6334—Anton Stech; Dept. 6335—Henry Langlois, P. L. Linsey; Dept. 6338—Frank Wolman; Dept. 6344—Joseph Lazarus, Hugo Elmin, Nicholas P. Becker, Anton Elset, E. J. Heller, J. F. Izzo, Thomas Clements, Berni E. Knudsen, George McCarthy; Dept. 6345—

WHEN MURDER'S JUSTIFIED

J. Kraven; Dept. 6350—Albert Phillips, John W. Herck; Dept. 6351—Vito De Bartolo, H. F. Miller; Dept. 6352—Frank H. Barkman, Alfred Anderson; Dept. 6356—C. E. Carroll; Dept. 6356—David H. Milne, Charles Ness; Dept. 6358—John Urwanger, William J. Carroll; Dept. 6366—Chas. R. Evans, Jr., John Koukal, Laurence J. Kitt, S. Dutkiewicz, Wm. Wohrab, John E. Anderson, John H. Longley, Berger Johnson; Dept. 6375—T. L. Martin, Henry Hoehn, C. A. Rylander, Oscar Carlson, P. S. Conklin, J. Unterberger; Dept. 6374—H. L. Spengeman; Dept. 6377—G. E. Perlewitz, Henry Rehling, J. Cervenka, J. G. Sindelar, H. J. Giroux, H. Martin; Dept. 7382—E. Baldinger, Thomas Hansen; Dept. 7383—Andrew W. Amundsen, Alfred Amundsen, Henry Rasmussen; Dept. 7391—Elizabeth McCarville; Dept. 2441—John T. P. Lane, T. C. Conitt, E. Pallrey; Dept. 2441-1—D. E. Sullivan, O. A. Radtke, William Gara; Dept. 2442—G. H. E. Krueger, Charles Grupp; Dept. 2442-1—C. F. Semple, John Cada, F. A. Soter, J. S. Smith, Bernhard Johnson; Dept. 4441—Herman Pape, Edgar Teeters, Andruss Thorsen, Albert Gouwald, J. F. Bishop; Dept. 5569-2—W. J. Hintz; Dept. 6607-5—B. B. Delaney; Dept. 7623—Harry W. Sheppard; Dept. 7682—A. M. Johnson; Dept. 6750—Charles Bollinger; Dept. 5936-A—Andrew Hansen.

The table below shows how the membership is distributed among the organizations at Hawthorne. Of the 433 members, 19 are women.

Organization	Members	Eligible Non-Members
Operating	197	78
Installation	54	0

BOSTON W. E. MAN HIKES HERE

Monday afternoon Herbert P. Hervey, erstwhile W. E. man of Boston, stopped long enough in a trek west to pay us a visit and utter a few "ahs" of astonishment at the size of Hawthorne in comparison with the shops in South Boston that house 350 workers there. Advised by his doctor to go west, Mr. Hervey forsook the Pullman cushions for the macadam highway in the interest of better health. It was his firm intention to walk the whole way, but upon reaching Chicago, he found he had actually walked about 20 miles, the rest of the distance having been covered by the help of tourists' flivvers and limousines.

Flagstaff, Arizona, set down in the midst of zesty atmosphere, is Hervey's objective and if the present rate of traveling can be kept up, he expects to knock on the town gate about a week from Monday at 8:18 o'clock.

OUR PRESIDENT WILL SPEAK

At the dedication of Hawthorne's new Public Address System, to be held Monday noon, June 2nd, just south of Bldgs. 22 and 26 (near Entrance No. 2), President C. G. DuBois, Works Manager, C. G. Stoll, and Assistant Works Manager C. L. Blee will give addresses. Full particulars will appear in the next issue of The Microphone and on the bulletin boards.

LOCAL WRESTLERS PLACE HIGH IN OLYMPIC TRIALS

A quintet of Hawthornites made a splendid showing in the Illinois-Wisconsin Olympic wrestling trials held at Northwestern University, last week.

In spite of the fact that there were only five local wrestlers competing we had more representatives in the finals than any other club entered.

A. Santschi, wrestling in the 134-lb. class, defeated all comers in his weight. In the semi-finals he trimmed Briggs, of the Madison, Wisconsin, Y. M. C. A. and in his final bout his aggressiveness won a decision over Jensen, of the Danish American Club.

E. Furness and Val Vosen also survived the semi-finals and succeeded in taking second place in their respective weights. Furness won over Liebermann, of the Jackson Naatorium, in the semi-finals and met his old rival Fischer, of the Swedish-American Club, in the finals. The burly Swede succeeded in getting a half-nelson and crotch that Furness couldn't break and won in 5' 5".

"Pete" Kogut, who was in anything but his usual fighting trim, succeeded in taking third place in the 174-lb. class in spite of his condition. "Pete" drew a bye on the first night, but allowed Myers, of the I. A. C., to win a decision over him, although it took the I. A. C. star an extra five minutes to do it. Kogut took third place by throwing Brackett, unattached, with a further arm and body hold.

J. Sperling lost in the semi-finals to W. Maurer after a struggle that was featured in the Chicago dailies. Twice Maurer got a bone-crushing body-scissors on Sperling, but the local hero both times succeeded in breaking them. He lost the bout on a decision.

BLDG. & LOAN OPENS 16th SERIES

Hawthorne people interested in a safe and profitable savings plan have a good opportunity offered in the 16th series of the Hawthorne Club Savings, Building and Loan Association, which has just been opened. Subscriptions are being received at the Club offices, Bldg. 22-1, on Tuesdays, Wednesdays and Thursdays between 12:00 and 12:45 P. M. From a purely investment standpoint the series is very attractive. It is not at all necessary that subscribers be home owners.

The association is playing a large part in the financing of homes this year, applications for new loans aggregating \$242,000 being on their books at the present time.

ONE BIG INNING GIVES LOCALS WIN IN BASEBALL OPENER

**Champions Get Off on Right
Foot in Industrial League Flag
Race by One Run Win over
Heywood-Wakefield**

Six hundred fans shivered through the opening Industrial League tilt on Memorial Field last Saturday and were rewarded by seeing our battling ball nine come from behind and cop from Heywood-Wakefield by a count of 5 to 4.

Four innings goose-egged by before either team could chase a score over the plate, but in the fifth frame a Heywood-Wakefield base-runner, aided by a couple of sacrifice flies by his teammates, managed to complete the circuit with the assistance of a big-hearted Hawthorne outfielder, who let a long fly get over his head. They added a second tally after our infield, not to be outdone by the generosity of the outfield, donated a trip to first and Leo Knaak, who was cavorting in the right field garden, lost a high fly in the sun.

During the first five frames there was nothing doing on our side of the tally sheet, but with two of our men down in the sixth the Hey-Fields apparently decided to allow a few Hawthorne runners get acquainted with the sacks. In this generous mood they gave Knaak a free ticket and booted Kubick's grounder toward third, and Schaeffer's fly over first. That would have been a good time to call it a day's worth of errors, but instead they muffed Heywood's easy drive off third and let Knaak scamper across for Hawthorne's first run. Kubick followed a moment later when the shortstop dropped an easy one off Roland's bat. Then Muth, pinch-hitting for Hawthorne, picked out a nice fat war club and crashed out a pretty drive just over the infield that netted him two bases and Hawthorne two more runs. The next man up hit an easy one to the shortstop, retiring the side.

In the seventh Heywood made an attempt to even matters and did manage to get another tally across, but our boys got it back in their half of the same frame when Ostrowsky was safe on a bad throw to first and Jelmek and Kubick slashed out singles that let Ostrowsky romp merrily over the plate with the fifth Hawthorne run.

Heywood was helpless in the eighth, while the only aggression on our part was a pretty single contributed by Ostrowsky.

In the ninth the Heywood boys got ambitious again, and succeeded in getting two men on bases. A sacrifice put one runner across, but Muth ended the contest by slugging a grounder off second and pegging to first for the final out.

"Lefty" Bruno made his first appearance as a Western Electric hurler and did his stuff so well that only four hits were chalked up against him. With Osberg, Dunda, and Knaak to do the northpaw chucking, the pitching staff is one of the strongest the club has had in years.

CLUB TO GIVE AWAY TWO FREE TRIPS TO YELLOWSTONE PARK

As a feature of the final dance of the season, which will be held at Dreamland May the 16th, the entertainment committee has decided to give away to two lucky folks, free trips to beautiful Yellowstone National Park. A glorious eleven days it will be for the two whom fortune favors. The itinerary includes Denver, Colorado Springs, Pueblo, the Royal Gorge, Glenwood Springs, Salt Lake City and, finally, beautiful Yellowstone National Park, with its towering mountain peaks, reaching to the region of eternal snow, its weird, colorful canyons that seem to drop down into the region of eternal fire, its petrified forests, its innumerable breaks in stone and water, and its wild animal paradise.

Although only two will make the trip to wonderland all of us can make the trip to Dreamland, where the famous music mixers carry us away for a care-free trip on the wings of syncope. This will be the Club's final frolic of the year.

Tickets from Club representatives are 60 cents for gentlemen and 40 cents for ladies. Each ticket purchased will be entered in the drawing for the two free trips donated by the Club, so even if your lumbago does get the best of you on the night of the big dance, you may be awarded one of the trips.

HAWTHORNE SOCCER TEAM TAKES CHICAGO DISTRICT OPENER

Our "A" Squad Dishes up Ulster United's First Defeat in 40 Starts—Bad Weather Limits Attendance at Memorial Field

Ulster United, boasting one of the best records in the Chicago and District League, invaded Memorial Field, Sunday, April 27th, for the express purpose of "mopping up" the local eleven. The Ulster boys had a record of 40 successive triumphs to their credit and were out for more. However, the Hawthorne "A" team have never yet dropped a game on Memorial Field and after a thrilling battle they emerged, muddy and disheveled, but triumphant by a score of 4 to 2.

Although a dull, drizzly day kept down the attendance there was plenty of enthusiasm along the sidelines, for the "died-in-the-wool" fans were all present despite the weather.

Blair won the toss and Hawthorne elected to play east against a mild breeze. Ulster kicked off and pressed strongly, but good clearances by Jack Thompson and Andy Stewart stopped all dangerous advances. Bob Hosie, the local goalie, tipped a hot shot just over the bar and the Ulster left-winger took the kick. Al Fink, Hawthorne's center-half, procured and sent the ball up the field to Pook, who slipped a nicely timed pass out to Robertson on the left wing. Robbie in turn centered and Queen headed over.

Ulster looked dangerous following this, but Ramsey popped up from nowhere and cleared what looked like a sure goal. This clearance again went to Pook who slipped the ball to Blair this time. Blair made an individual run for goal, but his shot was blocked by the Ulster full-back. However, the Orangemen overran his mark and left "Jimmy" with another try. This time he succeeded in beating the Ulster goalie for the first point. Ulster centered, but their strong attack on the Hawthorne goal was broken up when Elrpo Gibson intercepted a pass and set the local machinery going again. Stephenson on the right received a well timed pass from Ramsey and sent the ball to Blair in center, who was well placed for a try. "Jimmy" shot instantly and the Ulster United goalie was again beaten out by the ball, which sailed just under the cross bar for goal number two.

Ulster was now out for blood, but their quick shot at the local goal was saved by Goalkeeper Hosie, who dived at the ball and succeeded in turning it around the upright. "Stonewall" Thompson got the ball out of danger and Pook sent Stephenson away on the wing. After eluding two men "Steve" sent the ball to Robbie, who promptly ran it through for Hawthorne's third goal, which ended the scoring for the first half.

Ulster kicked off in the final period and pressed hard. A quick pass across the local goal was cleared by Ramsey and Fink, but a return again endangered our goal. At this point the visitors were awarded a penalty kick on a clearance by Thompson, and "Bill" Truesdale, of the Ulster squad, took the shot. Hosie just failed in a wonderful attempt to save and the Orangemen scored their first goal.

Hawthorne's machine again got into action after this. Pook passed to Stephenson and after a short run the latter placed the ball over the opposing full-back's head to Queen, who beat the Ulster goalie for Hawthorne's fourth goal. This is the greatest number of goals scored against the Ulster goalkeeper in two years.

Ulster again took up the running and Billie Truesdale, their captain, made his way through our defense for their second goal.

Shortly after this Robbie centered the ball, but Stephenson's shot struck the Ulster goalie's knee and bounced for a corner. Blair tried hard to slip another score across, but his "header" went over the cross-bar.

Just before the end of the game Andy Stewart placed the ball well up the field. Fink procured and passed to Pook, whose shot was saved by the Ulster goalie just as the final whistle blew.

BASEBALL GIRLS GET GOING

Summer Season Opens With Dance—Hold Practice Every Tuesday

Preparatory to their return to the diamond, our girls' baseball team limbered up on the dance floor at Garfield Park Refectory last Saturday evening at a dance, given by them and the basketball girls. Sten's Symphony Syncopators furnished the music. About 200 guests joined the athletes in their celebration.

There were two feature events during the evening. One was Miss Violet Jelme's tango, which she danced with J. C. Clifford, of Dept. 6113. Miss Jelme (Dept. 6955-N) is one of Coach Johnson's most dependable players, but it looks as if she is going to dance right off the diamond onto the stage. The other feature of the evening was the singing of Miss Margaret Golden, of Dept. 2414, who gave several selections.

Practice Starts

Baseball practice is being held Tuesday evenings, on Memorial Field. Coach Johnson is looking for material to strengthen his squad, and eligible girls are requested to report to Miss Luddy Malina, phone 1083. The coach is also looking for an assistant and will be glad to talk the matter over with any qualified applicant. Mr. Johnson is located in Bldg. 106-1, phone 1569, Dept. 7331.

ORGANIZATION CHANGES

E. R. Cooke, formerly chief of Practice Div. 6545, has been promoted to Supervisor of Equipment Practice, with organization number 6589, reporting to superintendent of equipment engineering. Mr. Cooke started with the Company on the engineering student's course in 1912 and upon completing his training he was made an equipment engineer. About 1915 he was promoted to checker and two years later he was transferred to the Standardization Department on engineering work. When the manufacturing department took over equipment engineering, he was promoted to chief of the Analyzing Department. His next promotion occurred last year and made him chief of the Practice Division, the position he held at the time he received his recent promotion.

F. P. Tikalsky, formerly chief of Cost Reduction Dept. 2435, has been promoted to chief of Inspection Cost Investigation Div. 6607. Mr. Tikalsky is a graduate of the toolroom apprentice course, which he entered in 1906. He served a year and a half as a special inspection investigator just after completing his apprenticeship, later returning to the toolroom as a die-maker. In 1915 he was transferred to the Planning Division as a punch press expert, and after serving successively as group and section head, he was made chief of Special Planning Dept. 2433. He was chief of Cost Reduction Dept. 2435 at the time of his promotion to division chief, which took effect Monday, April 2nd.

A. B. Hazard, formerly chief of Cost Investigation Div. 6607, has been transferred to chief of Process Inspection Div. 6640, replacing D. E. Bicknell, transferred to Kearny.

G. A. Parker, formerly chief of Machine Switching Engineering Div. 6529, has been transferred to chief of Circuit and Equipment Div. 6544.

The engineering inspection work, formerly conducted on Hawthorne Manufactured products by the Engineering Department, has been transferred to the Manufacturing Department with J. A. Davidson in charge, reporting to Works Manager, 6003.

R. A. Stevens, formerly chief of Sales Profit Accounting Dept. 5933-3, has been promoted to chief of Accounting Sub-Div. 5934.

M. A. Lamme is chief of the Analytical and Photographic Laboratories Div. 2492.

C. K. Pevear is chief of Warehouse Development Sub-Div. 5929-2.

S. G. Fell is chief of Office Development Sub-Div. 5929-3.

L. E. Davis, formerly chief of Inspection Dept. 5929-1B, has been promoted to Tabulating Specialist.

O. S. Markuson, formerly chief of the Cable Development Laboratory, has been assigned to special studies with organization number 7935-A.

The following have been promoted to department heads: In the Merchandise branch: P. H. Brumm, to chief of 5929-1A, W. C. Breyfogle, to chief of 5929-1B, W. Stange, to chief of 5934-1, R. M. Chandler, to chief of 5934-2, L. Ostrowski, to chief of 5935-1, G. R. Griner, to chief of 5935-3, and N. J. Barbaras, to chief of 5936-2. In the Installation Branch: P. Y. Henneberry, to 5969-5. In the Development Branch: E. Brauneis, to 2492-2, T. W. Edwards, to 2459-1, A. A. Scholl, to 2459-2. In the Operating Branch: H. Rautenbusch, to 6309-3, A. J. Mohr, to 6309-4, and F. Panewicz, to 6309-5.

The following have been transferred to other departments as department chiefs: In the Technical Branch: A. E. Tarry, to 2435. In the Installation Branch: W. W. Jones, to 6545-1. In the Clerical Branch: F. E. Bronder, to 6025-6, P. R. Ander, to 6025-6, and J. M. Campbell, to 6056.

In addition to their present duties the following department chiefs have taken on additional duties: R. R. Winklepleck, chief of Dept. 6515-1, is also chief of 6515-3; J. E. Kemp, chief of 6521-4, is also chief of 6522-4.

LIEUT. MILLER AGAIN FIRST IN PISTOL SHOOT

Of the five men who led Hawthorne police in their pistol shoot last December three held their place during the April shoot. Lieut. H. Miller keeping first in place. When the smoke finally cleared away it was also found that Officers L. Antoff and G. Gibson had nudged their way up the line until they were among the "first five".

The standings of the five leading men at the end of the April match are given in the table below, with December totals entered for comparison.

Name	Slow	Rapid	December
	Fire	Fire	Total
Lieut. H. Miller.....	26	24	50
Officer K. Schoeneman.....	25	22	47
Officer L. Antoff.....	19	25	44
Officer G. Gibson.....	18	23	41
Officer A. Barrett.....	20	18	38

SAND LOT OUTBREAK

Strange Malady Spreading—Successful Treatment Discovered

Warm weather and the start of spring practice by the Works baseball teams has stirred up a pronounced "fever". The attack is spotty at present but bids fair to become an epidemic, with only the strong escaping. The most severe cases causing strange actions for an hour or more on the part of those stricken. These attacks come at noon time regularly and are also in evidence to some extent just after five o'clock.

Experts are consulting on means of combating the disease. They have already agreed that exposure to sun and fresh air combined with vigorous arm and leg exercise is the best way of warding off serious effects. The same method of treatment is used for both men and women with a slight difference in application. In the case of the

men the treatment is more vigorous, the name applied to this method being "Regulation" while a milder method, also used to some extent for the men and exclusively used for women, is called "Playground".

You've guessed it. The malady is the sand lot baseball fever that is following in the wake of our "big gun" outfits. It bids fair to be the greatest method for the generation of pep yet seen at Hawthorne.

Send in your scores!

In the interest of official records and prevention of errors managers are mailing to The Microphone reports on the various games. Games reported so far follow:

Regulation Ball

On April 25th the Cost Division defeated the Wire Drawing Shop, the score being 3 to 0. E. O'Donnell, manager of the Cost Division nine, phone 1248, is ready to book games.

Playground Ball

GIRLS

The "Tigers" of Dept. 7682-1 (Mgr. B. Sachorski) won by forfeit from the "Lions" of Dept. 1394 (Mgr. J. R. McGladdery) on May 1st.

The "Tigers" lost their second game, played with the "Wildcats" of Dept. 7682-2, with a score of 14 to 4. This was played May 3rd.

MEN

The first game in the Clerical Method Playground Ball League between Rogers' "Cubs" and Mann's "Sox", played May 5th, was won by the former, with a score of 41 to 23.

On May 2nd the "Indians" of 7682-1 won from the "Jackrabbits", 7682-3, by a score of 17 to 12. J. Pietrzak is managing the "Indians" and R. Casper the "Jackrabbits".

Jimie Blake's "Spark Plugs" made Bud Johnson's "Grasshoppers" take the count in a fast nine-inning indoor game played on the shell-swept lot next to the Windy City Bowling Alleys. It was a tight contest all the way through, although Sparky, running true to form, finally nosed out the meadow-springers by the close score of 42 to 22. The feature performance of the catastrophe was credited to outfielder Felix Predan, who played through the whole struggle minus one shoe. All of the boys work in the Clerical Shipping Department.

Sixty members of the New and Changed Apparatus Department had a merry time on the evening of April 24th, when they celebrated the close of the bowling season. Fifteen automobiles, loaded with the exultant bowlers and their followers, flocked to a sumptuous repast at Joe's Place at Lyon's, Illinois. The State Comedy Four did the entertaining.

J. J. Houlihan, of Dept. 5376; L. D. Williams, of 5929, and E. W. Harkness, of 5922-2A, reserve officers of the 65th Cavalry Division, U. S. A., are members of the committee appointed by the chief of staff to direct the horse show and military tournament which is being held at the International Amphitheater today and tomorrow. The show is being promoted by the U. S. Army in the interest of national defense. It will be enlivened by exhibitions of crack units of various organizations, including the Army, Navy, Chicago police, and Culver Military Academy.

Miss Anna P. Stahr, of Dept. 2410-S, and her mother, who are to sail shortly for Scandinavia, were guests of honor at a luncheon given by friends of Miss Stahr, Saturday noon, April 19th. Thirty-four Hawthorne girls gathered at Marshall Field's tea-room to take part in the merry-making and wish their guests a pleasant voyage. On May 1st 23 girls of Div. 2410 also honored Miss Stahr at a dinner at the Auditorium Hotel. Piano numbers by Miss Rose Mader and vocal numbers by Mrs. Helen Carroll and Miss Margaret Golden, followed by games, furnished the evening's entertainment. Miss Stahr and her mother will sail from Brooklyn on the S.S. Stavangerbjord the 20th of this month.

Huizinga's "Buzzers", of the Manual and Machine Switching Cable Inspection Department, defeated the "Formers", of the Machine Switching Cable Forming Department, in a three-game bowling match Monday evening, April 28th, at the Windy City Alleys.

The Service Engineering Division staged a bunco party and dance at the Columbus Park refectory on the evening of April 30th, with 25 operators from the State exchange as guests. Mrs. C. F. Doubler, wife of C. F. Doubler, of 6725-L, won the first prize for women in the bunco party. M. Provenzano, Dept. 6724-H, won the first prize for men by tossing a coin with Frank Peterson, of 6724, with whom he was tied. F. J. Schaumbelt, chief of the Engineering Division, welcomed the telephone operator guests and was promptly swamped by 25 invitations to dance. The girls lost.

At the meeting of women golfers Thursday afternoon arrangements were made for a blind bogey tournament to determine handicaps for the coming season. The 29 members of the club promise tournament play that will be as thrilling as can be found at Fairlawn.

Hawthorne's gleeful gleers, under the direction of A. E. Holstedt, made things interesting for the country's radio audience, Tuesday, April 29th, when they broadcast a program from WLS, the new Western Electric equipped station owned by Sears-Roebuck. Their program consisted of thirteen

interesting numbers, including several splendid soprano solos by Mrs. Louise Holstedt and a pleasing cornet solo by Frank De Wire. F. J. Ashley, chief of Hawthorne's Public Information Department, made a brief speech introducing the boys to the invisible audience.

The Hawthorne University Club held a spring dance Friday, May 2nd, at the Webster Hotel. The entire top floor was taken over for the affair, which was one of the most successful dances ever held by the club. "Jinks" Bryan's famous "Tilts" broadcast the melodies.

P. S. McCann, chief of Permalloy Manufacturing Dept. 2461, sailed for London last Saturday for an eight-weeks' visit to our London house. He sailed from Montreal on the "Empress of Canada."

Usually a desk decorated in ceremonial trappings at Hawthorne means that Cupid has scored another hit, but the best he could get in Bldg. 23-5 last week was a fifty-fifty break. One of the festivities was staged for C. T. Fells, chief of the Manual Power Department, who completed his fifteenth year with the Company the 26th of last month. The other decorated desk, however, counted in Cupid's column. It was that of Miss Adelaide Honath, of Dept. 6521-1, who became Mrs. I. W. Lang on April 30th.

E. J. Muzik, The Microphone's newsgatherer in the toolroom, finding news items a bit scarce, brought one in from home the other day, announcing himself the proud father of a new eight-pound boy. On the same day, realizing that the future President would need something to play with, Ed's intelligent family cat produced a litter of six kittens as a birthday present for the new boy.

Here's a challenge to baseball nines. The boys in the Customers' and Installers' Reproduction Service Department have issued a challenge which is open for any other department squad, who would like to play a twilight game. Managers can book games by getting in touch with A. Phillimore on phone 1328.

Do you know where this "Smitty" cartoon feller that draws for "The Tribune" (which, next to The Microphone, is the World's Greatest Newspaper) gets all his ideas on the office boys' league? Well, we're not certain, but it looks as if he has been watching the office boys of the Equipment Branch do their stuff. The other day the Fishpeddlers and the Office Boys wrangled through seven innings of office-boy ball, which ended with the office boys perching on top of a 36 to 3 score. Otto Baumgartner had the Fishpeddlers biting at everything he offered, while his teammates hooked everything the opposing hurler offered them. To date no rival of "Babe" Ruth has come to light, but give the boys a chance. This was their first game.

G. Ferguson, chief of the Clerical Personnel Division, addressed the convention of the American Physical Education Association at Kansas City, April 25th. "Athletic Recreation at the Hawthorne Works" was the subject of Mr. Ferguson's talk, which was given before the industrial section of the association.

One of Hawthorne's youngest departments, No. 6317, which has taken over the protector block job, has already placed itself in line for congratulations by cleaning up all back orders and getting right up to schedule in the space of two months. This department was created the first of March. It produced 3,290,543 blocks during the next 30 days, as compared with 1,781,393 during March of the previous year, when the job was part of the work of another department. With this start the department boomed along through April until it was right on schedule by May 1st.

W. J. Lillyman, assistant general foreman of the Cable and Rubber Division in the Operating Branch, was tendered a banquet the evening of May 3rd, in honor of his transfer to New York as a general foreman. The festivities were staged at "The Farm" on the River Road, Frank Sheridan, Div. 7680, called for the toasts. R. A. Horn, Div. 7390, and Wm. Johnson, Dept. 7381, responded to Mr. Toastmaster and reviewed the past, present and future as it concerned the guest of honor. Professional entertainers furnished music.

The Hawthorne women's bowling league held their first annual luncheon and party at the La Salle Hotel Saturday afternoon, May 3rd. Luncheon was served at 1:30 and was followed by bunco and five hundred. There were 31 prizes. Miss F. Stern, Miss B. Cooper and Miss E. Lalla taking the first prizes. Mrs. Sylvia Olke Riha obliged with some syncopeation on the ivories, enabling the girls to dance while the scores were being verified and the winners determined.

A bountiful shower of rice descended on Earl H. Church, of Machine Switching Cabling Dept. 5528-1, when he returned to work May 2nd, after going through the "I do" stunt. Mr. Church married Miss Grace Henriksen, of Austin, on April 30th.

The Boosters of Punch Press Dept. 6339 started the baseball season with two victories. They bumped the Cable Formers, of Dept. 6356, in their first game by a score of 21 to 7, and last Saturday they trimmed the Light Punch Press squad, of Dept. 6335, by a score of 13 to 5 at 52nd and Ogden Aves. Buick, who hurled for the Boosters, struck out nine of the Light Press squad, while his teammates drove one enemy off the slab in the fifth. L. Cavanaugh, foreman of 6335, pitched the final four frames. A double play by the Boosters was the feature of the game. Bolding caught Hogan's fly and relayed it to Colby, who threw to Krolak, the first baseman, in time to catch a runner who had darted off his base expecting the fielder to lose the fly in the high wind.

HAWTHORNE GIRLS HOLD NOVEL PARTY FOR WOUNDED "VETS"

Hawthorne girls have stepped in and usurped another activity that has heretofore been traditionally considered in the men's realm.

Last Monday night, 85 girls from Light Punch Press Dept. 6335 staged the first exclusively feminine Hawthorne cheer session at the Speedway Hospital. It required 20 automobiles to transport the girls and their generous bundles of prizes to the hospital.

The auditorium was jammed with veterans awaiting the start of activities. When buncos tables were set up and galloping dominoes were distributed many a "come seven" was heard, showing that the boys still remember the chief recreation of their exploring days in the Powder River country.

After the first trump was rolled the boys settled down to a real session of pass work and there was plenty of enthusiasm displayed every time "bunco" was broadcast. With a pair of queens at each table the boys couldn't help winning and when the last trump had been sounded the mass of prizes donated by the girls were pretty generally distributed among the tables.

Refreshments followed the bunco program. The ice-cream strike had conveniently settled itself just in time to allow frigid favors, while the weather man obligingly sent a warm wave over the city to make them even more enjoyable.

During the course of the evening it was discovered that one of the wounded boys worked at Hawthorne at the time he joined the army. He is Leonel C. Panosh, who was an adjustment clerk in the Payroll Division. He joined Co. E of the 132nd Infantry and was in all of the important American engagements with the exception of Chateau-Thierry. He was wounded in the Argonne offensive.

The boys enjoyed the affair so much that they were sorry when the time came to escort their hostesses to the cars and shout regretful farewell as the gasoline wagons swept off into the night.

SUPERVISORS BANQUETED

The Manual Switchboard Output Sub-Division staged its second "supervisors' banquet" Friday evening, April 25th, 35 members gathering at the festive board.

Harry H. Bell managed the program. Two moving pictures, "The Housing Problem" and the "World's Telephone Workshop", were exhibited. B. Berman, the sub-division chief, then introduced J. D. Lowery, who talked on "Budget and Expense", and J. C. Wright, who discussed "The Proper Way to Rate Men".

After the program the production enthusiasts piled into a bus and shot downtown to the Tip Top Inn for a tip-top dinner. That cared for properly, they moved to a loop theater for the evening, there to enjoy various things, among which was G. W. Stack's singing. It seems an accordion player volunteered to play any piece and when Mr. Stack requested "Wait Till the Sun Shines, Nellie", dared him to vocalize.

STANDARDIZERS HOLD FUN SESSION

It took all the various modes of transportation available—street cars, elevated roads and automobiles—to transport the horde of hungry trofickers who attended the Machine and Tool Standardization Division's recent Booster Club banquet at the Hotel Brevoort. The "zoup" was served promptly at 6:30 and was accompanied by Harry Stion at the piano. After this pleasing number had been dispensed with the boys turned to other vocalizing exercises in the form of a miniature Hawthorne Community Sing, but this was soon interrupted by the next course. Following this course the boys hopefully caroled "How Dry We Are", but none of the hotel people seemed capable of taking a hint.

Seeing that the revelers would have to be content with pre-prohibition beverages, Jim Waters ripped forth in a few rounds of his usual blues-chasing fun tonic, which encouraged Harry Mathisen to burst out in a song with as many verses as "It Ain't a Gonna Rain No Mo'", but right in the midst of these hilarities it was announced that the boys had only 17 minutes to finish their meal and transport themselves to the heater.

Naturally the proper place for such a royal group to be entertained at would be the Palace, so they journeyed over, arriving just in time to watch the orchestra at infield practice.

The management put on an exceptionally attractive performance of nine acts, because of the honor conferred upon them, and it was well toward the witching hour when the party divided into groups of five and six and escorted one another home.

"BILL" RANDALL HONORED

Friends Spring Surprise on His 25th Company Anniversary

If you were responsible for seeing that the Hawthorne foundry ran off a heat of 28 tons of iron every day, and just as you got down to work the phone rang and somebody breathlessly told you that the cupola was cracked, would you hustle over to find out how long you'd be tied up?

Well, that's exactly what the boys in the foundry had "doped out", so Friday, April 25th, which was W. P. Randall's 25th anniversary with the Company, they tried it, and it worked like a charm.

The boys had decorated Bill's desk with 25 American beauties—not the kind he picks for the Hawthorne Follies, but roses—and when Bill's voice thawed out enough he

thanked the boys heartily for the way they had remembered him.

After a day of congratulations at the Works, the scene shifted to Fred Berg's Lake resort at Robertsdale, Indiana. Mr. Randall's favorite "fish dinner" spot. Ten carloads, filled to the brim with members of the Foundry Division and the Heat Treating Department, made the long trip. The usual oratorial fireworks were set off at the affair and everybody took a crack at telling what a good fellow Bill is.

Harry Proeme, of the Iron Foundry Department, did some clever sleight-of-hand performing as one feature of the entertainment. Harry Mathisen, vice-president of the Hawthorne Club, proved his qualifications for chairman of the entertainment committee by getting across several enjoyable comedy recitations and songs.

Another feature was a fish eating contest between the guest of honor and John Benz. Heaping dishes of tastefully fried fish disappeared like snow before a July sun, and when the boys informed the contestants it was time to go home, Randall was leading by a score of 42 to 41½.

TWO TENNIS TEAMS ENTER IN CHICAGO NET ASSOCIATION

Tennis enthusiasm went to new heights at the Works when the gates to Hawthorne's splendid courts were again swung open to the racket swingers recently.

Already the men's section of the Tennis Club are hard at work rounding out two teams for competition in the Chicago Tennis Association, while the girls are busy organizing for interbranch competition.

Hawthorne men net-wreckers are out to make a real try for the title in both the "B" and "C" divisions of the association. There are now 16 racket wielders practicing their chop strokes with intentions of earning a berth on one or the other of the teams and there is plenty of room for more.

The locals will meet the best players in the city and will get all the competition they are looking for. A regular series of try-outs have been arranged and it is hoped that this will encourage talent at the Works that has never competed in local matches to get into the game.

Among the players who have already signified their intention of coming out are Myers, Newman, Richardson, Latane, Grabelle, Stier, Fogler, Vogel, Eberly, Harvey, Pond, McAllister.

F. R. Myers, who won the Works title last year, and the Western Conference championship the year before when he was a student at the University of Illinois, has been chosen to captain the team. He is anxious to get in touch with men who have played a pretty fast brand of tennis. He is located in Bldg. 54-1, Dept. 5075-1, 'phone 2033.

The girls' activities this year are being headed by Mrs. Mabel Johnston, Dept. 5530-2A, Bldg. 15-A-2, 'phone 1524. Girls who would like to represent their branches should get out to practice as often as possible, as present indications are that a faster game than ever will be played in the interbranch league. Mrs. Johnston will be glad to give more details to any girls who desire it.

Due to the popularity of the courts the rule of notifying the Hawthorne Club on 'phone 1764 if you find that you can not use your permit should be rigidly observed, as this allows reassignment of the courts.

Tennis court permits can be obtained from any of the following:—

T. A. Shops:—Miss O'Leary, Dept. 2405-3, Miss Kolicek, Dept. 6156, Miss Gillespie, Dept. 6043, Miss O'Callaghan, Dept. 6007-5C, Miss Switters, Dept. 6530-3, Miss Madlick, Dept. 2423, Mrs. Carroll, Dept. 2415, A. P. Lancaster, Dept. 6087-2, C. R. & I. Shop:—C. Kreisher, Dept. 7888; General Merchandise:—Miss E. Kauss, Dept. 5548-1, Miss F. Switters, Dept. 5525-2, Miss B. Gungler, Dept. 5949-A; Central Works:—N. J. Cullnan, Dept. 5040-1D.

HINTS (OFFICIAL) TO MOTORISTS

It looks as if it is going to be rather unhealthy for Hawthorne motorists to hitch their gas wagons to water hydrants or nestle them close to street intersections, for the Cicero police department has been given orders to tow all cars with affections for fire plugs or street corners to the Town Hall, where they will be held until the towing bill is paid, in addition to a fine for illegal parking.

Another Cicero ordinance that is coming in for a good deal of attention lately is the one forbidding parking longer than two hours on 22nd St. between 46th Ave. and 50th Ave. or on 48th Ave. between 16th and 25th streets.

Twelve of the night force were looked up by the Cicero police, a few mornings ago for parking on 22nd St.

The parking space within the plant is available for the night shift and employees driving their cars will probably save themselves trouble by making use of it.

SUMMER CHESS STARTS

Chess players interested in entering the summer tourney will have an opportunity to sign up on May 16th, when a special meeting will be held. It is expected that a handicapped tournament will be arranged. H. Brandner, Dept. 6622, 'phone 925, who will be in charge of summer play, will give any necessary information regarding the coming meeting or registration of players.

After a long-drawn-out discussion, the telegraph match with New York has finally been decided in favor of New York, with a score of 6½ to 3½. The Hawthorne Club is already planning its campaign for next year's battle, preparing to get a hold on the cup, which is now resting in Gotham.

PIN PUNISHERS TAKE ANNUAL 6 CORNERED BOWLING TOURNAMENT

Win Year's Industrial Classic by Narrow Margin—Season Closes With Hawthorne Sweepstakes

Hawthorne's maple maulers invaded Bessinger's Alleys last Friday night for the annual six-cornered bowling scrap between the Elevated Road, the People's Gas, the Commonwealth Edison, the Surface Lines, the Illinois Bell Telephone Company and the Hawthorne Club. So successfully did our relentless rollers bombard the pin boys' retreat that they captured the annual classic. The local hand-grenade artists scattered 2,797 Indian clubs, which gave them a 15 pin margin over the Elevated Road Quintet, the runners-up.

Not only did the local boys capture the first prize shekels in the five-man event, but they also grabbed off a flock of laurels in the individuals. Kubec nosed out Lifka by one pin for high game honors by shooting a 233, when a blow in the first frame brought his team mate down to 232. Lifka also took third place in individual totals, gathering 583 for the honor. Here's how our boys bowled.

	1	2	3	Total
Matkin	171	196	166	533
Seversen	174	190	208	572
Lifka	232	193	158	583
Knoke	186	213	171	570
Kubec	164	233	142	539
Totals	927	1,025	845	2,797

Local Bowlers Hold Sweepstakes

The first "sweepstakes" ever conducted by the Hawthorne Club were rolled on the Windy City Alleys, May 6th. After 60 contestants had each rolled five games across ten alleys, the following were returned winners: J. Kubec, 1,068; M. Camphouse, 1,066; J. Kowitz, 1,050; P. Wehrmeister, 1,039; W. Matkin, 1,037; J. Eliger, 1,025; J. Lifka, 1,021; E. Seversen, 1,014. High game, L. Mulac, 259.

EQUIPMENT BOWLING CLOSED

The Equipment Branch bowling league has just closed one of the most satisfactory schedules ever run at Hawthorne.

Div. 6562 won the five-man team prize. Individual honors went to W. V. Malkins, with an average of 186.450 for 60 games. A. Penrod placed second, with an average of 182.513 for 78 games. A. Thomas won the special tourney, made up of those who could not qualify for the main events.

Saturday, May 3rd, the members of the league gathered at the La Salle Hotel for their annual banquet, to honor the new champions and talk again about bad splits and lucky strikes. The champions of the year received gold medals and those finishing second place received silver ones.

TECH. BOWLERS END SEASON

Technical Division bowlers just completed an enjoyable season with a nine-game tournament. H. J. Bedard, of Dept. 2407-C, won the "All Events", his score of 1,822 for nine games in singles, doubles and five-man teams bringing him an engraved gold bob.

The singles title was seized by Paul Wehrmeister, with a score of 678; L. Dostert and B. Vanderhorst won the doubles event, and the team composed of W. Graff, J. Guido, J. Camphouse, W. Thatcher and M. Amidon took the five-man team honors.

MANUAL DRAFTSMEN DINE

On the evening of April 29th, the 20th anniversary of the first banquet ever given by Western Electric draftsmen, Manual Drafting Div. 6520 staged its first annual affair at Stevens' Restaurant. J. Cerny directed activities from the toastmaster's chair and very active activities they proved to be.

Beginning with their steak dinner "the gang" voted complete approval of the program arranged and presented by the banquet committee, composed of A. J. Rakos, R. Johnson, J. A. Hussers, H. Henderson and E. W. Hawkins. For instance, there were "The Agony Orchestra", mass singing with E. W. Hawkins leading and E. H. Jacobs at the piano, Miss E. Boos and her classical song hits, E. A. Neiderhoff's clarinet solo, Harry Gilbert of Orpheum fame, and piano solos by E. Thorgenson and E. H. Jacobs. In addition Mr. Toastmaster called on F. M. Williams, H. L. Hoppe and J. Harper for short talks. Mr. Harper quoted a poem by A. Thomas, of Equipment Drafting Training Dept. 6549-3, written for the original draftsmen's banquet 20 years ago.

A prize drawing contest completed a fine large evening.

HIKERS TO VISIT SALT CREEK

Now that the woods are fresh with a new spring coat of foliage, Hawthorne's outdoor enthusiasts are longing to take to the trails again. Not content with mere longing the Camera Club are planning to take a seven-mile stroll through the Salt Creek preserves next Sunday afternoon, May 11th. They are extending an invitation to all local lovers of the out-of-doors to come along.

The folks will meet opposite gate No. 12 on 22nd St. at 10 A. M. and will go by way of the La Grange surface car to Stone Ave., La Grange. Those desiring to join the party at La Grange can do so at about 10:45 A. M. the time they expect to arrive at Stone Ave.

From this point the trail will lead through the Salt Creek preserves to Fullersburg,

and through Fullersburg along the highway to Hinsdale, where the voyagers will board a C. B. & Q. train for home. The party will return to Chicago in plenty of time for evening engagements. In case of poor weather the trip will be made the following Sunday.

Tickets for Chicago members are 50 cents, and for La Grange people 40 cents. Bring lunch, cameras and drinking cups. Coffee will be furnished by the club.

Further information can be obtained from L. C. Aldrich, Bldg. 15-A-2, Dept. 5525-2, 'phone 1817.

Cards of Thanks

We would like to thank the members of Divs. 6360, 5569, and Dept. 6361, 6312, 6965, and 6965-P for their kind expressions of sympathy in our recent bereavement.

—A. Turek, A. F. Turek, W. Turek, L. J. Turek, and L. Turek.

George R. Clark (Dept. 6557) and family wish to express their sincere and heartfelt thanks for the kindness and sympathy shown them in the loss of their dear wife and mother.

Dept. 6661-2: Please accept my greatest appreciation for the beautiful floral offering and your kind expressions of sympathy tendered me in the loss of my dear mother.

—Joseph Jeck, Dept. 6661-2.

R. P. O'Connor and family wish to express their sincere and heartfelt thanks to the employees of Dept. 6622 for the kindness and sympathy shown them in the loss of their dear father.

—Robert P. O'Connor, Dept. 6622-2

We wish to express our gratitude to the members of Dept. 6121-3 for the floral offering in our recent bereavement.

—E. J. Wheeling and family.

I wish to extend my heartiest thanks to my many friends of Dept. 6344 for their kind sympathy shown me in my late bereavement.

—Paul Dorsch, Dept. 6344.

BOYS TO START NOON BALL

Major Division of Boys' League Opens Season Monday

E. E. Lofstrom, president of the Hawthorne Club, will officiate at the opening of the junior baseball season on Memorial Field next Monday noon. He will formally start hostilities between the Cyclones and Mudhens by hurling the first ball over the plate.

There are four picked teams competing for the title in the major division of the league: The Cyclones, composed of players from the Merchandise and Cable Plant departments; the Pastimers (Installation and Operating boys), the Tigers (Industrial Relations, Clerical and Inspection lads), and the Mudhens from Technical, Production, and Development departments.

A schedule of games extending throughout May and June has been drawn up, with a championship series as a climax.

Coaches have been appointed for the various teams as follows:—Cyclones, F. E. Hornburg, Dept. 5927; Pastimers, Frank Grabitz, Dept. 6544-5; Tigers, R. E. Peterson, Dept. 5036-1; Mudhens, H. Lucas, Dept. 2411.

Only boys 16 and 17 years of age are eligible in this branch of the league. After the majors have completed their schedule a minor division will be organized for boys 14 and 15 years of age.

MICHIGAN ALUMNI MEET

Thirty-five University of Michigan alumni banqueted in the Company restaurant building at a "get-acquainted" party held Thursday evening, May 1st.

There were "grads" there from the class of '91 to the class of '23 and the affair was in reality a miniature home-coming day, with all the old yells and songs. H. W. Jones, of Phenol Fibre and Shellac Molding Dept. 2481-1, led in the vocalizing.

After a general around-the-table introduction, Toastmaster P. H. Vivian, of Textiles Dept. 2491-2, announced that short, informal talks were in order.

After talks about the recent progress of the university by B. R. Avery and C. P. Beath, H. L. Ward spoke a few words on what the college man learns at school that is of service to industry. He was followed by W. H. Meese, operating superintendent, who in a brief talk showed conclusively the opportunities open to young men at the Works.

INSPECTION LABORATORY RETAINS RIFLE CUP

The Inspection Laboratory team, captained by G. R. Brown, finished first in the recently completed inter-department championship matches. This was the Laboratory team's third win in three years, and as the third consecutive victory carries with it permanent possession of the rifle cup.

The men on each of the first two teams received medals in recognition of their high class marksmanship.

The girls' team, captained by Miss Libby Novak, came back from the slump they were in the first two weeks and moved up to sixth place.

The first ten teams and their standings were:—

	Score
G. R. Brown, Dept. 6610-1	2,469
W. T. Barrans, Dept. 2410	2,444
W. A. Smith, Dept. 6610-2	2,442
F. M. Plambeck, Dept. 5526-1	2,401
R. H. Schulstad, Dept. 2434	2,391
Miss L. Novak, Dept. 6726	2,384
J. F. Wegforth, Dept. 5527-2	2,382
J. R. Walker, Dept. 6725-B	2,344
R. W. Heelan, Dept. 7151	2,343
E. H. Busse, Dept. 5528-1	2,328

VOLUME 3

FRIDAY, MAY 23, 1924

NUMBER 11

PRES. DU BOIS WILL SPEAK AT MAMMOTH DEDICATION PROGRAM

Installation of Public Address System to be Festive Occasion—All Hawthorne to Hear Company's Chief Executive

About 33 years ago, a young man right out of school climbed onto a bookkeeper's chair in the accounting department at New York to write big numbers in a big book.

At about 12:30 on June 2nd that same man is going to climb up on a platform here at Hawthorne and speak to 40,000 of his fellow employees. He is Charles G. Du Bois, now the president of our Company.

Of course, there has been plenty of intermediate climbing before he got that title. After he had climbed out of the bookkeeper's chair he was made chief clerk at New York and he has since been secretary of the Company, supervisor of branch houses, comptroller of the American Telephone and Telegraph Company, comptroller of the American Red Cross, and vice-president of our Company. When H. B. Thayer was made president of the American Telephone and Telegraph Company in 1919, the Board of Directors of our Company selected Charles G. Du Bois as his successor to the presidency of our organization.

Pres. Du Bois has spent his entire business career in the telephone industry and has watched it grow from an insignificant beginning into an industry that employs 64,000 people.

This will be the first time since he was made president of the Company that Mr. Du Bois has had the opportunity to make a speech before so large a gathering of his fellow workers and it's going to be a big day at Hawthorne.

The occasion of his visit will be the dedication of the new public address system, which has recently been installed at the Works—the first permanent installation of one of these systems ever made in an industrial organization.

Through the use of this apparatus, the voice of the president will be audible to every one present at the gathering—the first time in the history of industry that the head of a large industrial organization has been able to appear before so large a gathering of employees and yet have his words carry to every one present.

On only one other occasion has the president spoken before a Hawthorne audience in person and that was on the occasion of the corner-stone laying ceremonies held four years ago, so his coming visit will give many of us our first chance to see what the "Big Chief" looks like.

Activities on the day of his visit will open promptly at noon, when Hawthorne's melody makers will show the president what a lusty voiced crowd of Westerners we are. There will be twenty minutes of musical frolic for the preliminary part of the big event and at twenty minutes after twelve, C. L. Rice, assistant Works manager, will open the oratorical portion of the program. He will be followed by Works Manager C. G. Stoll, who will speak for a few minutes. The climax will be the speech by Pres. Du Bois, who will be introduced by Mr. Rice.

The public address system which Mr. Du Bois will dedicate comprises, for the present, the portable loud-speaking station installed on the west bridge, and the permanent installation, which has been recently put in use in the Restaurant Building.

WORKS TO ENTERTAIN PIONEERS

Hawthorne will be host to the Theodore N. Vail Chapter No. 1, Telephone Pioneers of America, on June 5th. The outside members of the chapter and their guests will visit the shops in the afternoon and will be joined by the Hawthorne members at lunch in the Works Restaurant in the evening, following which there will be an entertaining program.

Twenty-three more Hawthornites have joined the pioneers since our last issue, all but one being in the Operating Branch. This brings the total membership up to 456, with 345 who have not yet signed up. Those who have joined since the last issue are: Jacob P. Fogel and Fred F. Schmidt, 9203; Chas. Scherrer, 6323; Chas. E. Freeman, 6344; Edw. A. Rapp, 6361; Samuel Huston, 6344; Ole N. Jensen, Chas. Resabek, Chas. E. Johnson, 6366; Jos. Lahan, 6377; F. Schnell, 6379; Wm. F. Charlet, August Chessner, Frank O. Henzler, Edw. W. Liberty, Charles Monzin, Paul Wasmuth, 9396; Ole Hanson, 7397; Wm. Peters, 7382; J. H. Barry, 5771; Edward A. Webb, 5945.

Put The "If" In The Right Place YOU CAN SAVE IF YOU THINK YOU CAN

NEW YORK TELEPHONE OFFICIALS VISIT HAWTHORNE SHOPS

Among the visitors to Hawthorne during the past week was a party of prominent officials of the New York Telephone Company, the second group of New York Telephone men to visit the "World's Telephone Workshop" recently. They spent three days of sightseeing here during the early part of the week.

Our superintendents acted as guides to the visitors, and escorted them through the shops to view the actual manufacture of telephone apparatus. The busy cable plant, the telephone assembling departments and the batteries of ambitious machinery, turning out thousands of piece-parts every day, were all shown to the telephone men.

On Tuesday afternoon the new electric locomotive carried the visitors through the huge mountains of lumber in our lumber yards, through the new box factory and to other interesting points.

Those in the New York party were:—J. H. Gordon, Jr., assistant general traffic manager; H. McIver, division plant superintendent, Westchester; G. L. Yates, division superintendent of traffic, New Jersey; J. L. Parker, division superintendent of traffic, Central Manhattan; W. D. Williams, division superintendent of traffic, Northern Manhattan; P. N. Edwards, superintendent of traffic, Manhattan; A. P. Boeri, engineer maintenance studies, machine switching; E. J. Higgins, office manager; H. W. Mandeville, division commercial engineer, Long Island; H. R. Gabay, general commercial engineer; W. R. Adams, division commercial manager, eastern; H. G. Kerr, division commercial manager, New Jersey; W. K. Collins, division commercial engineer, western; F. W. Hearne, instructor; G. O. Keutgen, assistant auditor of disbursements; B. F. Young, assistant chief accountant; Kenneth Lord, assistant to operating vice president; J. L. Timm, executive department, and J. B. Odell and R. Gordon, Western Electric representatives.

INDOOR DANCE SEASON ENDS AS FRIDAY NOON FROLICS START

The final indoor dance of the season was held at Dreamland last Friday, when 1500 local trotters swayed to the jubilant jazzophones of the famous Cooke orchestra.

The feature of the evening's merrymaking centered around the drawing for the two free trips to Yellowstone National Park, donated by the Hawthorne Club. After what seemed an eternity of preliminaries the numbers were called off. Miss Gertrude Sigman, of Stock Maintenance and Hawthorne Service Dept. 6563, the holder of ticket No. 4352, was the lucky lady and S. F. Schmidt,

of the Switchboard Billing and Analysis Dept. 5936, held ticket No. 1919 for the gentleman's prize trip.

During the indoor dance season, the Hawthorne Club's Entertainment Committee has taken local frolicers to Dreamland, to Guyon's Paradise, and to the Trianon, the crown palace of Danceland. It's been almost as marvelous a series of hops as the United States air-men are now accomplishing in their around-the-world flight.

Now that the final indoor hop is over, and we are again back at Hawthorne for the summer season, the committee is providing scintillating harmony for open-air dancing every Friday noon in the courtyard between Bldgs. 26 and 29.

These dances, which were inaugurated more or less as an experiment two summers ago, grew to be so popular last year that the Club decided to make them a regular Hawthorne institution.

Ston's popular syncopators will furnish the melodies this season and the bridge over the courtyard will prevent the weatherman from interfering with the frolic, providing he doesn't get too much in earnest with his rain storms.

The broad truck roadway under the bridge is of smooth cement and provides an ideal dancing surface, on which Hawthornites have spent and can expect to spend many an enjoyable noon hour tripping the light fantastic.

NOTED PROFESSOR TO SPEAK

Dr. Johnston, of Yale, to Address Science Club Meeting

Dr. John Johnston, professor of physical chemistry at Yale University and consulting chemist for our Company, will speak at Hawthorne Wednesday evening, May 28th, under the auspices of the Science Club.

The noted scientist is an interesting talker. He has chosen for his subject, "Solubility Relations of Organic Compounds."

In order to give all Hawthornites interested in Dr. Johnston's lecture an opportunity to hear him speak, the club has made the affair "open house" and anyone can come who will notify the club's secretary, G. L. Schnable, phone 1995, Dept. 2491, not later than May 26th.

Supper will be served in the Restaurant at 5:45 P. M. and following this the meeting will be opened in Room 204, Bldg. 33-2.

NEW YORK BONUS BLANKS OUT

New York State is ready to distribute applications for the new veterans' bonus. Our own American Legion Service Committee will give any assistance necessary in filing requests, but under the state regulations governing distribution of the blanks, our committee must make a special report of the number of soldiers, sailors and marines needing applications before it can secure blanks. Eligible veterans should send their request to E. P. Skubic, Dept. 6529-2H, or call him on phone 1555, so that the necessary list can be sent to New York as quickly as possible.

VACATION TRIPS NOW AVAILABLE THROUGH THE HAWTHORNE CLUB

Club Starts New Service For Members—Also Offers Bargains in Camping Equipment—Works Vacation List Large

The favorite pastime of Hawthornites these days is pouring through the "apple-sauce" folders of every lake resort in the country or greasing up the gasoline buggy for its annual visit to the favorite fishing haunt.

It's vacation time, according to the calendar, at least, although from the kind of weather that's been dished up to us during the past week, it looks as if frost bites are going to be more common than sunburn or mosquito bites.

The hourly rated employees entitled to wrestle with the mosquitoes this year total 4,790 people, or nearly 17% of the entire hourly rated force. The Operating Branch leads in the number of eligibles, with 2,039 men and 635 women on the vacation list, a total of 2,674. The Technical Branch is second, with a total of 933, a large percentage of whom are toolmakers. There are 658 inspectors entitled to lay down the "mikes" and calipers, and the other branches make up the balance.

The same general exodus will take place in the office departments, where about 11,000 are eligible to vacations varying in length from one day to two weeks.

For those of us who are still in doubt as to what to do with our vacations, the Hawthorne Club has come to bat with some very handy information.

The Club has obtained data on a number of trips to the east over the Pennsylvania road that should prove of interest to those who like sight-seeing. The trips vary from one week to ten days, the shorter one consisting of a trip to New York via Washington and Atlantic City for \$92, including hotel accommodations, but excluding meals. This trip allows a day in Washington, one in Atlantic City and four in New York.

There are two ten-day trips. One is to New York via Washington and Albany, with a boat ride on the Hudson River, the return trip being made via Montreal and Toronto. It includes stops at such points as Washington and Niagara Falls. The other excludes the return by way of Canada, but includes all other features of the first trip. Both trips include hotel accommodations. The first is approximately \$115, the second about \$95. A complete itinerary can be found in the Club files.

Another interesting trip arranged by the Club is a 12-day combination automobile and boat trip. The itinerary is by way of automobile coach to Detroit over national highways; by boat across Lake Erie to Buffalo; then again by coach through country rich in historical lore to Washington, where the Capitol, Arlington National Cemetery, and Mt. Vernon will be visited. The tour also includes a visit to the battlefield of Gettysburg and other historic landmarks. One of the de luxe coaches to be used on these trips will make a visit to Hawthorne, where persons interested can arrange to inspect it. This trip can be made through the Club at a saving of 10 percent.

For those of us who plan to visit the lakes to fish or camp the Club has also provided. Through its arrangements you can purchase your favorite fishing tackle and smoking tobacco at discount prices. Even tents can be purchased at special prices, as well as Thermos bottles, camp kits, golf clubs, baseball goods, tennis outfits, automobile tires and accessories—in fact, practically everything for the outdoor enthusiast.

The Hawthorne Club Stores have extended their activities to the 35th Street plant.

Although there is no floor space available at this shop for a permanent store the employees there will soon be able to participate in the special prices the Club offers through a plan that will be put in force in a very short time. This plan provides that on Wednesday of every week the 35th Street folks can write out orders for the materials they wish to purchase and on the following day the Club's truck will deliver the goods.

GIRLS! STAG PARTY COMING

The annual "Girls' Stag" is scheduled for June 12th, with the Works Restaurant reserved for the scene of activities. Details of the plans are being kept a dark secret. The only "copy" furnished The Microphone was to the effect that supper will be served at 5:30, the evening will be chock-full of entertainment, 50 or 60 prizes will be given the fast-throwing bunco players and the tickets, which cost 50c, can be purchased from Club representatives.

It was pointed out to the committee that these details were pretty scant, but to no avail. The chairman simply replied that the surprises on the program were too good for publication.

TENNIS TEAMS WIN AND LOSE IN THEIR CHICAGO NET MATCHES

Men's Squads Get Even Break on First Appearance.—Girls' Interbranch Tourney Starts with More Teams than Ever

Hawthorne's men tennis squads got an even break on the opening matches of the Chicago Tennis Association, played last Saturday afternoon. The "B" squad journeyed to Hamilton Park, where they dropped their match by a score of 6 to 3, while the "C" team, entertaining Palmer Square on the Memorial Field courts, won their opening round by a score of 5 to 0.

Hamilton Park's victory is a reversal of last year's meeting between the two squads, the Park team winning by identically the same score that Hawthorne won by last year. Hawthorne lost the match by dropping all of the doubles, but we got an even break in the singles when Myers won 6-0; 8-6; Stier copped 6-4, 6-3; and Latane took his match 6-2, 6-3 while Fogler, Elliot and Grabelle dropped their matches.

The feature battle of the afternoon was fought between Fogler, of Hawthorne, and Holbrook, of Hamilton Park. The Hamilton Park star won the opening set, 11-9, after a real exhibition of tennis on both sides of the net. Fogler took the next set 6-8, but dropped the final 6-3.

The "C" team made a clean sweep of their games, only one set going into extra games. Dahlman won 6-2, 8-6; McAllister 6-1, 6-0; and Richardson, 6-1, 6-2. Richardson and Harvey won the only doubles match played, 6-4, 6-4, the visitors defaulting the other.

Girls' Tennis Starts

Four hundred girl tennis players swamped the Women's Activities Committee with requests for a chance to participate in the interbranch league this year but it was found impossible to accommodate a league of that size, so nine teams to compete for the Works, title were picked from among the girls who signed up in the early part of the season. This unusual growth in tennis enthusiasm is due to the interesting competition that developed in last summer's matches, when eight teams were organized to compete for the title.

The winners of the tourney that opened recently will be awarded prizes and six of the best players will be picked for outside competition.

Girls who think they could be a help to their branch team can arrange for a try-out by getting in touch with their branch captains, who are as follows:—Installation Methods, Miss B. Horne, 6573-1; Equipment Service, Miss F. Flegel, 6517-6523; Installation Engineers, Miss F. Switters, 5525-2; Production, Miss M. Carstens, 6124-1; Merchandise, Miss M. McCall, 5935-3; Technical, Miss C. Schmiedl, 2434; Clerical, Miss C. Nelson, 5035-1; Shop Clerical, Miss E. Hieneman, 6124-1; Industrial Relations, Miss D. Hoezel, 6087-1.

RIFLE BANQUET SUCCESS

Cups and Medals Awarded—Club to Observe National Rifle Day

The third annual banquet of the Hawthorne Rifle Club, held in the Works Restaurant May 15th, called together 117 members and guests to honor the team which won this year's shoot, the Inspection five, composed of Capt. G. R. Brown, J. R. Felty, B. F. Wiedenhoef, M. P. Ferrell, R. Reiner and L. R. Brown, alternate. The attendance was the largest yet recorded at this annual affair.

The assemblage first accounted for a steak dinner and then turned to the entertainment and other features, with J. F. Wegforth, Dept. 6527-2, acting as guiding light from the toastmaster's chair. Miss L. Novak, Dept. 6726, gave a reading. J. Walker, Dept. 6725-S, presented the trophy to this year's winners of the shoot, who as a result of their ability to keep in first place for three years, now have permanent possession of the cup. Mr. Walker also presented individual medals to the first and second teams in the spring shoot, as well as to all winners of the various special matches held during the past winter. A special cup was also given to the five men in the Works Training Division team, which led the other apprentice teams in the recent shoot. Eight apprentice teams started in the race for the interdepartmental prize, and as an added incentive, R. M. Lindsay, Dept. 6087-1C, donated a cup to be awarded each year. The cup was presented to Capt. Rice of the winning team by Miss L. Sheehy, of the Works Training Division.

As a final touch to the evening, R. H. Schulstad, Dept. 2434-B, who as secretary of the rifle club during the past winter has been largely instrumental in its success, made a few remarks on the club's program for the future.

Nation to Have Rifle Day

Mr. Schulstad also outlined the club's program for June 7th, designated as Rifle Day by the Government. It will keep open house from 1 P.M. until 10 P.M. on that day and has extended an invitation to everyone, shooters and non-shooters both, to visit the range and try out the guns. Matches will be run off all day. There will be novelty matches, specials for boys, women, veterans and the uninitiated. The boys' matches will probably be divided into age classes. Prizes will be awarded for all events, but definite arrangements for the prizes have not yet been made. Announcements of details will be put on the bulletin boards at an early date.

ORGANIZATION CHANGES

B. W. Wilmott, formerly chief of the Employees' Service Division, has been promoted to assistant superintendent of industrial relations, with organization number 6071. Mr. Wilmott started in the telephone industry with the Chicago Telephone Company in 1904, and with our Company in the Engineering Department in 1906. In 1908 he was again transferred to the Chicago Telephone Company, returning to the Hawthorne Engineering Department in 1910. He went to Antwerp as a member of the European chief engineer's staff, and on August 14, 1914, he was chased out by the Germans and went to London, where he engaged in telephone engineering work. In May, 1915, he returned to this country and entered engineering inspection work at New York. He returned to Hawthorne as a sales engineer in November of that year and in 1917 re-entered the regular engineering organization to handle some special foreign government work. When that work was completed, he again entered switchboard sales engineering work. In 1919 he was transferred to the Industrial Relations Branch as assistant chief of the Employees' Service Division, and later in that year became chief of the division, the position he held at the time of his promotion to assistant superintendent of industrial relations, which became effective last Monday.

The General Contract Sales Department at Hawthorne has been expanded from one division to three divisions, promoting E. H. Pierce, Hawthorne price manager, to a rank equivalent to assistant superintendent. Mr. Pierce started in the Switchboard Cabling Department, June 15, 1902. After he had received training in various phases of this work he was sent on the road as an installer. He returned after about six months as an apparatus engineer. Next he took charge of a telephone apparatus cost figuring unit and from there he entered the Engineering Department. He went into telephone sales work in October, 1908, where he took charge of switchboard estimating, and later was put in charge of the Pricing and Estimating Division, with the title of equipment price manager. In 1922 he took charge of the then newly formed Pricing Division of the General Contract Sales Department, as price manager, which was his ranking at the time of the recent expansion.

W. A. Titus, formerly general supervisor of personnel service in the Installation Branch, has been transferred to the Industrial Relations Branch as assistant superintendent, with organization number 5073.

A. E. Holstedt, formerly assistant chief of the Works Training Division, has been promoted to chief of that organization. Mr. Holstedt started at Clinton Street as an errand boy in 1904, later entering process inspection work, where he spent two years in various inspection groups. In 1908 he was transferred to the Japanning Department, but returned to inspection work in the Check Inspection and Investigation Department in 1909. After taking a course in electrical engineering at Armour Institute he became a methods engineer in 1915, later entering the manufacturing engineering group of the Drafting Division. In 1919 he went to Tokyo, Japan, to install switchboard lamp and back enamel wire departments in our allied factory. He returned to Hawthorne in 1921 as head of the Psychological Testing Department of the Employment Division. He was next made chief of the Technical Training Sub-Division, and later assistant chief of the Works Training Division, the position he held up to the time of his promotion to chief of that division, which was effective May 19th.

C. A. Johns, formerly chief of Switchboard Price Policies Sub-Division 5950-1, has been promoted to chief of Systems Price Div. 5996. Mr. Johns started as an engineering student in 1909, entering the Central Office Engineering Department a year later. In 1913 he went to the Apparatus Development Engineering Department; in 1914 he entered the contract sales organization, and in 1916 he took charge of the Associate Companies Contract Department. In 1920 he was made chief of Standard and Development Pricing Department. In October, 1922, he became chief of Switchboard Price Policies Sub-Division, the title he held at the time of his recent promotion.

A. J. Heckenkamp, formerly chief of Switchboard Price Control Sub-Div. 5950-2, has been made chief of Switchboard Price Div. 5997. Mr. Heckenkamp came to the Company in January, 1918, after five years in the equipment and plant departments of the old Central Union Telephone Company. He entered the estimating division as an estimator and in 1920 was made chief of the machine switching section. In October, 1922, he was made chief of the Price Method Department in the Price Division and in December of the same year was promoted to chief of Switchboard Price Control Sub-Div. 5950-2, the position he held at the time of his recent promotion to chief of the Switchboard Price Division.

R. E. Rassweiler, formerly chief of Apparatus Pricing Sub-Div. 5950-3, has been promoted to chief of Apparatus Price Div. 5998. Mr. Rassweiler started at Clinton Street in the Messenger Department in 1896. He next entered the mailing department as a posting clerk. He has had charge of the record vault, has been a voucher clerk, a purchase order writer, and was at one time in charge of the claim section. He entered the Billing Department as a price clerk and from there he went into telephone sales work in charge of price establishing. He then worked his way through the usual group head, section head and department chief channels and in 1916 he was made chief of the Apparatus Pricing Sub-Division, the position he held at the time of his promotion to chief of the Apparatus Pricing Division.

J. J. Garvey, formerly chief of the Works Training Division, has been transferred to chief of College Relations Div. 6077.

R. E. McEwen, formerly chief of the Chicago Division of the Secretary's Branch, has been transferred to chief of Employees' Service Div. 5080.

The following have been promoted from department heads to chiefs of sub-divisions —

S. A. Lenznick, to chief of Price Methods Sub-Div. 5996-1; P. M. Chase to chief of Manual and Outside Systems Sub-Div. 5996-2; P. D. Simonton to chief of Machine Switching Systems Sub-Div. 5996-3; W. C. Tragnitz to chief of Multiple Price Sub-Div. 5997-1; J. N. Burns to chief of Special Apparatus Price Sub-Div. 5998-1; W. H. Baker to chief of Standard Apparatus Price Sub-Div. 5998-2; W. E. Knox to chief of Non-X Service Sub-Div. 5943.

Miss M. A. Shaw, chief of Medical Dept. 5096-2, has also taken charge of Major Surgical Dept. 5906-4.

The following department chiefs have been transferred to other departments in a similar capacity:—In the Inspection Branch, W. H. Haynie to 6608-1; H. L. Chase to 6606-4; J. R. Dobyns to 6606-5; W. A. Noland to 5701. In the Production Branch, C. I. Anderson to 6109-1; J. D. Lowery to 6109-3. In the Installation Branch, I. N. Cost to 6517-2; J. Cerny to 6520-3. In the Contract Sales Branch, L. F. Tellin to 5996-1.

The following men have been promoted to department heads:—In the Inspection Branch, C. Paulson, 6608-4; A. N. Hanson, 6606-3; P. G. Lapp, 5702. In the Merchandise Branch, W. D. Layman, 5943-1; G. F. Wacklerlin, 5944. In the Contract Sales Organization, D. S. Arnold, 5996-1E; M. H. Putman, 5996-2A; Z. Hudson, 5996-3A; P. A. Pederson, 5996-3E; Miss M. Kelly, 5996-4; A. L. Levy, 5997-1A; H. H. Duncombe, 5997-1E; J. F. Ernst, 5997-2E; D. B. Hartman, 5998-1A; E. J. Franz, 5998-1F; J. R. Connelley, 5998-1K; F. E. Conrad, 5998-2A; W. D. Clark, 5998-2F; Miss J. A. Wilson, 5998-4. In the Industrial Relations Branch, A. W. Garner, 9075-5; F. E. Baridon, 5075-6; R. A. Bastian, 6080-5.

Charles Blim, Hawthorne's concertina artist, has delighted the radio fans for the past two successive Saturday nights. On May 10th he was on the Drake Hotel's program and last Saturday he played at KYW. He has also played for Columbia records.

Miss Emily Doser, of Partial Assembly Dept. 6346, returned to Hawthorne Monday after a visit to New York as a Chicago delegate to the Young Women's Christian Association's convention.

E. J. Collins, of Dept. 5920-2C, will play under Hawthorne Club colors in the qualifying rounds of the National Open Golf Tournament at the Oak Park Country Club, May 26th to the 29th. He is the present champion of the Hawthorne Club.

S. C. Summerfield, of the Works Training Division, recently initiated three troops of Scouts into the mystery of telephone communication. He gave an illustrated lecture on May 9th, in the Grace Episcopal Church of Cicero, to Troop No. 6, Girl Scouts, and Troops No. 18 and 19, Boy Scouts.

The Works Training Division apprentices staged their first party the evening of May 14th and it proved to be an enthusiastic success. The Red Pepper Syncopators furnished titillating melodies and the services of a specialty singer for the 200 joy-makers that swarmed about the dance floor.

Just after The Microphone went to press on May 7th it was learned that Mrs. Carl Boldt, who had been employed in Inspection Dept. 6641 since February, was killed by a Douglas Park "L" train at the Lombard Ave. crossing. Mrs. Boldt's vision was obscured by a newspaper, with which she had covered her hat before venturing from the station into the rain, and she stepped directly in front of an oncoming train. Her husband, Carl Boldt, is employed in Dept. 4476-2.

V. J. Grabel, director of our band, addressed the Illinois School and Juvenile Band Association at their first annual convention in Joliet, May 10th. Mr. Grabel outlined to the committee the value of school band work, and reviewed the development of such work in various schools.

Miss Jennie Nemecek, of Jobbing Shop Inspection Dept. 6672-6, who left the Company recently to practice the Lohengrin in preparation for becoming a June bride, was showered with rice and congratulations on the day she left the Company. Miss Nemecek is to marry Otto Jaeger, of Chicago, on June 28th.

A. B. Brown, Development Branch 2487, recently addressed the Student Branch of the A. I. E. E. at Iowa State College. His talk was devoted to the manufacture of telephone cable and was illustrated by use of slides and motion pictures.

Some 15 girls from Sec. 7140 invaded Stevens' Tea Room May 17th and gave a luncheon in honor of their chief, Miss Mary Kane, who is going abroad. The luncheon was followed by a matinee party. Miss Kane expects to leave May 31st.

Four groups of visitors recently inspected Hawthorne:—Twenty-six students from the School of Commerce, University of Chicago, visited us on May 17th; Dean W. N. Gladson and 21 senior engineers from the University of Arkansas were here May 19th; on May 21st we entertained 25 seniors from the Medill High School of Chicago, accompanied by one of the instructors, and yesterday 20

CANADA INVITES

COAFFEE TO MAKE

OLYMPIC TRIP

Cyril Coaffe, of the Machine and Tool Standardization Division, the Canadian flash, who holds a flock of Canadian dash records and has tied three world marks, has been invited back to the Provinces by the Canadian Olympic Commission.

Although Coaffe has received his first papers, he is not eligible to compete for the United States in the Olympic games, so he has accepted the invitation from Canada and will leave Hawthorne next Saturday for Winnipeg. At Winnipeg he will run in the Western Canadian Olympic trials and will then go to Toronto, where he may give an exhibition run in the eastern trials. The finals will be held at Montreal early in June.

The local runner represented Canada in the Antwerp Olympic in 1920, but he was taken sick after reaching Europe and his entry had to be withdrawn.

Coaffe is confident that he will be in good condition for his Paris appearance. Although he pulled a tendon in the right leg in a game a short time ago, the injury is fast rounding into shape and he is now running quarters and 500's to strengthen it.

BASEBALL GIRLS HONOR JOHNSON

The girls' baseball squad invaded Coach Johnson's home in Cicero last Monday evening and took a turn at directing activities themselves by staging a little entertainment and feed. Judging from the pep they displayed and the smooth way the affair ran off opposing baseball teams are going to have their work cut out for them when they tackle our girls.

The team has not had much activity as yet this season, due to the fact that very few teams are playing summer ball and vacation schedules are interfering with the ones that are organized. A game with the Mozarts at Mozart Field was scheduled for last night and it is expected that a regular league schedule will be arranged next month. The Mozart game was played too late for publication of the results in this issue.

The squad has been considerably strengthened by the return of Miss Barbara Pruscha, Coach Johnson's star pitcher, and Miss Martie Jisa, one of the fielders and last year's manager. These two were forced to retire in mid-winter, the first because of illness and the second through injuries received while sleigh-riding. With Miss Pruscha on the pitching staff once more, the coach thinks he has one of the strongest collections of twirlers in the city.

visitors from the National Electrical Credit Association went through the Works.

T. E. Moon, of Dept. 5952-2B, recently gave two talks before the Society of Industrial Engineers. One, delivered April 30th at the annual convention held in the Hotel Statler, Buffalo, New York, was on the subject, "Relation of Illumination to Undue Fatigue." The other, illustrated with moving pictures, was a talk on "Planning Production Ten Years in Advance." It was given at a dinner meeting of the Chicago chapter, May 13th, and gave an insight into our scientific methods of planning manufacture. The audience was representative of industrial Chicago, men from 65 different firms being present.

Several members of the old Plant Output Branch assembled Saturday night, May 17th, with their wives for a "get-together" party and dance. A hall was rented, music furnished and refreshments served. A few of the members entertained in a way thoroughly enjoyed by all present.

Three Hawthornites participated in Cicero's Boys' Week program during the past week. On Monday D. R. Powers, who has charge of the training of Hawthorne's boys, spoke before the two seventh grade and the two eighth grade classes of the Roosevelt School on "What Are We to Expect of Our Girls and Boys?" The same day T. M. Chisholm, of the Industrial Relations Branch, spoke before five classes at the Burnham School on "Why Graduate?" On Wednesday, F. J. Ashley, chief of the Publicity Department, spoke before the Cicero Women's Club on "The Western Electric Company and Its Boys and Girls."

A recent issue of "Commerce Wire" contains the information that John Harper, chief of our Equipment Drafting Personnel Division, who is a member of the Y. M. C. A. School of Commerce faculty, is assisting in the conducting of a vocational bureau started by the school to provide students and their friends with a method of self analysis, rating, and occupational planning.

The Box Shop and P. B. X. Woodworking Department is very much enthused over a horseshoe tournament, in which 20 men are entered, two men on a team. Play started May 8th, and will end in the middle of June. Matches are held every noon, with duly authorized referees and scorers to see that rules are observed. The referees often resort to the good old two-foot rule, for close throws are far from being exceptions.

B. J. Stein, Dept. 6615, was held up May 5th by two men on Wabash Ave., just outside of the loop. Mr. Stein was walking along Wabash about 9 P. M. when two men with a Moon automobile grabbed him and forced him into the car at pistols' ends. The robbers, after driving towards Forbes Road forest preserve, relieved him of about \$80 in change and threw him out of the speeding car at the Desplaines River. Fortunately, however, Mr. Stein was not hurt and he soon found his way back to the city, thankful that the highwaymen had been content with taking his money.

OUR BASEBALL NINE TAKES A TRIMMING IN SECOND LEAGUE TILT

BASEBALL TOMORROW

Central Electric Visits Memorial Field.

Game Called at 2:30.

The plant department has been busy repairing the Memorial Field diamond and the ball squad has been busy repairing the numerous holes that showed up in its defense after a disastrous week end of baseballing, in which the Commonwealth Edison heavy artillery laid low our Industrial champions by the overwhelming score of 22 to 4, wearing deep grooves in the baselines in accomplishing it.

Besides wearing out a set of bases, the Commonwealthies hammered the stitching out of a gross of leather apples, and committed various other atrocities on our amazed squad in their nine inning quarrel, which constituted the second round in the race for the Chamber of Commerce trophy.

The visitors got away to a flying start by scoring a run in the opening round. The next round was a pointless draw but after two were dead in our half of the third Jimmie Laydon led off a rally with a single through the infield and stole second. Lindahl, a new Hawthorneite, drew a pass and Heyke slashed out a pretty hit that allowed Jimmie to pant across with the tying run. Roland sat on one he liked for another single, which scored Lindahl and Heyke. This was enough for any ordinary victory, so the locals quit scoring.

The visitors got ambitious again in the fifth and pushed another run across the plate and Hawthorne countered with a run in the same frame.

It was in the sixth that the Commonwealth tribe started the disturbance that drove most of Hawthorne's pitching staff to the showers and most of their offerings out to the tennis courts.

The visitors scored five in the sixth and eight in the seventh (the details being too humorous to mention), rested up in the eighth and then gathered seven more in the ninth, meantime holding Hawthorne to three scattered hits.

The locals helped things along by exhibiting 57 varieties of bad baseball. Fourteen men were used in an effort to stop the visitors' onslaught—four of them working on the slab.

"Lefty" Bruno started the game and went fine for about four frames, when he lost his control and walked several opponents. Knaak was first to try the relief stunt, but the visitors' voodoo was working strong and they hit and ran bases like wildmen. After Knaak gave up trying to get things back to normalcy, Roland romped in from the garden for a try, and when he got tired of throwing the ball and ducking, Jimmie Jelinek came to the rescue and lasted for the rest of the massacre.

In spite of the lopsided results there were a few bright spots in Hawthorne's defense. "Bill" Heideman picked off three would-be base pilferers during the course of the afternoon and very soon won the respect of enemy base-runners, who remained pretty well attached to the sacks thereafter.

Roland, who plays in the left field garden, led in the hitting by getting three safe blows out of four trips to the plate. Jimmy Laydon did almost as well, collecting three bingles in five appearances with the willow.

"Jimmy" also made a pretty run from deep to shallow center to scoop up a fly that got him a hand of applause from the folks on the shelves.

Besides these good plays there was a gold mine of chuckles in the frolic and the game probably will insure a real game tomorrow, if the weather man is generous, for the boys are feeling as ferocious as a flock of wounded tigers.

THE SAND LOT LEAGUE

Several Departmental Series Well Started—Recent Results

Sand lot league baseball is in full swing. Several departments have teams organized, regular schedules mapped out and series well under way. One of the first groups to get into regular organized playing was the Clerical Methods Division, which organized the Clerical Methods Playground League and played the first game May 5th. There are six men's teams in this league with 30 games scheduled, the series ending July 11th.

Another series, run by the 6106 and 6108 League, made up of men from Depts. 6106, 6108, 6108-1, -2, -3, started action May 6th. The five teams are competing at playground ball and have a series of 24 games that is to be completed June 27th.

The biggest Works league reported thus far, the Equipment Engineering Clerical Indoor League, played its first game Wednesday night, just too late to get the results in this issue. Ten men's teams are on the schedule, which runs to July 24th, 45 games being arranged for.

The above are the only regular leagues reported. A number of individual teams are arranging games with teams of like size and strength. Reports on all games will be found below. There were no girls' games reported.

Regulation Ball

May 9th—Dept. 6334 defeated the "Radio Bugs" of Dept. 6661, 13 to 4. George Bilep, manager of the Dept. 6334 team, is ready to book games.

May 10th—"Single Men" of Dept. 6631 defeated "Married Men" of the same department, 18 to 3.

Playground Ball

May 6th—Dept. 6552 defeated 6553, 20 to 15. Both teams are looking for more games.

May 8th—Bronder's "Yanks" defeated Adam's "Giants", 23 to 11 (Clerical Methods League).

May 8th—Thomas' "Jackrabbits", 7682-3, won over Mooney's "Indians", 7682-1, 21 to 8.

May 10th—Dept. 6554 won its game with Dept. 6553, 18 to 5.

May 10th—Dept. 6643-1 defeated Dept. 6641-2, 5 to 4.

May 10th—Carlson's "Indians", 7120-G, won against Mooney's "Wildcats", 7682-2, 11 to 9. Both S. L. Carlson, phone 1370, and J. F. Mooney, phone 731, are ready to schedule games.

May 12th—Bronder's "Yanks" defeated Anderson's "Indians", 29 to 28 (Clerical Methods League).

May 13th—Mooney's "Wildcats", 7682-2, won over Thomas' "Jackrabbits", 7682-3, 17 to 12.

May 14th—Dept. 6643-1 defeated Dept. 6691-A, 13 to 6.

May 15th—Mann's "Sox" defeated Adam's "Giants", 36 to 20 (Clerical Methods League).

May 15th—Team No. 2 defeated Team No. 4, 14 to 13 (6106-6108 League).

May 16th—Roger's "Cubs" defeated Hemmer's "Athletics", 37 to 13 (Clerical Methods League).

May 16th—Dept. 5526-3 won from Dept. 5526-2, 16 to 14.

May 17th—Dept. 6120 defeated Thomas' "Jackrabbits", 7682-3, 18 to 1.

May 20th—Dept. 5528-2 defeated 5530-3, 16 to 3.

May 20th—Dept. 6108-1 won over 6108-3, 13 to 10 (6106-6108 League).

HAWTHORNE RADIO FANS ORGANIZE CLUB TO KEEP UP WITH DEVELOPMENTS

A group of local radio fans have organized a club at the Works for the purpose of following the latest developments of the radio world.

The local burners of the midnight filaments are now arranging a series of interesting talks on radio subjects to be given by various members of the organization and by outside experts, whom they intend to invite to address the club.

One of these lectures will be given next Wednesday night when S. C. Summerfield will talk on "Radio Progress in Europe". The meeting will be held in Room 204, Bldg. 33-2 at 5:30.

The Radio Club is an outgrowth of the Hawthorne Club's evening school classes in radio. Thirty members of the advanced class in radio were so interested in the subject that they decided to continue their study by analyzing the latest circuits.

Membership in the club is not limited to the students, but is open to all Hawthornites who are interested in studying radio. "Hawthorne Happenings" and "The Microphone" will carry announcements regarding future meetings of the club.

The officers of the club, who were elected recently, are Miles B. Umnitz, Dept. 2405, chairman, and J. A. Sundberg, Dept. 2435, secretary. The members of the arrangements committee are J. E. Kamys, H. E. Kranz, G. J. Zimmeyer, G. W. Fruehlich, and M. Penkal.

COST DIVISION CELEBRATES

Two of Its Organizations Feature Close of Winter Season

The Cost Division personnel has been having a busy time closing up a successful winter season and launching into their summer schedule. The women took a share in the merriment by organizing a dinner-theater party last week.

The Cost Surveyors at their last meeting re-elected three of their officers. F. J. Sheehan was retained as chairman, H. W. Smith as secretary and L. S. Morevic, treasurer. Miss V. Pinger was elected vice-chairman.

The Minnow Bowling League celebrated their third consecutive season, at the Atlantic Hotel May 10th. An innovation was the use of two chairmen, G. B. Hallett and R. L. Miller, to handle the flow of oratory and song. During the evening C. Vesely was elected chairman and E. A. Schremp, secretary and treasurer. High lights of the evening were talks by A. L. Luessenhop, G. B. Hallett, C. Vesely, and R. L. Miller and the match bowling during the later part of the evening.

There was one sad incident, the result of "Doc" Porgan's momentary case of drowsy while he was walking across the marble floored hotel lobby.

Cards of Thanks

W. J. Mackoitch and family wish to acknowledge with sincere thanks the kind expression of sympathy shown by the members of Div. 6156 in their late bereavement.

We wish to thank friends of Depts. 2476-2, 6643-4, 6641-3 and the police and telephone operators for the kindness and sympathy shown us in our recent bereavement.

Carl W. Boldt, Zeta Whittle.

C. A. Mertz wishes to thank the members of Div. 6087 for the kind expressions of sympathy expressed in his recent bereavement.

E. E. Hammond and family wish to express their sincere and heartfelt thanks to Depts. 6335 and 6516-5 for the kindness and sympathy shown them in the loss of their beloved daughter and sister.

A. Mickelsen wishes to thank the members of Div. 2405 for the kind expressions of sympathy expressed in his recent bereavement.

BLIND BOGEY MEET AT FAIRLAWN COURSE BRINGS OUT GOLFERS

Though their spirits were lowered somewhat by threatening clouds and intermittent sprinkling during the early part of the afternoon, 60 golfers drove off the first tee at the Fairlawn course May 19th and started on their way in the first contest play of the year, a blind bogey event.

After the scores had been handed in and handicaps had been deducted from them, it was found that five players were one stroke either side of bogey, and three players two strokes away. Accordingly the relative positions of these eight were determined by lot, with the result as follows:—1st, K. H. Rohrbach, Dept. 6146; 2nd, J. R. Haynes, Dept. 6087-2; 3rd, R. C. Hart, 2421; 4th, J. B. Mudge, 2490-2; 5th, L. W. Miller, 6027-1; 6th, M. O. Scott, 6087-2; 7th, G. B. Hallett, 5036; 8th, W. Righimer, 2423. The prizes were golf balls, eight to the winner, seven to second place, six to third place, etc.

E. A. Hemmer, Dept. 6025-4, gathered in the honor of making the first birdy on the Fairlawn course, getting a three on the first hole.

While the course was not in perfect condition, it provided opportunities for real golf, practically every player having occasion to use all his sticks. Improvements are still being made on the fairways, greens and in the club house.

The golf schedule calls for 18 more events, one every week until Sept. 20th.

GIRLS ADVANCE GOLF PLANS

Further plans for the coming season are being promoted by Hawthorne women golfers. Miss C. B. Turner has been appointed chairman of the games and pastimes committee and Miss Helen Rusch, chairman of the handicap committee.

The officers have also arranged for two talks on golf rules and etiquette, to be given by P. B. Miller, Dept. 6087-3. He will talk May 23rd and 30th.

OUTDOOR FANS TO VISIT DUNES

The wooded wilds of the dune country, wearing Mother Nature's masterful spring creations, will be the objective of the Hawthorne outdoor fans when they leave the La Salle St. station at 8:25 A. M., Chicago daylight saving time, on Sunday, June 1st. The party will leave the dunes for the return trip to the city at 4:29, Chicago daylight saving time.

At this time of the year the dune country is aflame with an unusual variety of blossoms and weather conditions are ideal. A summer objection to the beautiful dune region is the intense heat of the sun beating on the sand, but at this time of the year this is eliminated.

All Hawthornites are invited to join the party. The committee advises everyone to wear hiking clothes and low-heeled shoes. Food and drinking cups should also be carried. Coffee will be served by the club.

Buy excursion rate round-trip tickets for Dune Park, Ind., at the ticket office at the station. Watch the bulletin boards for further details on the trip.

HARDENING CHIEF HONORED

Alfred Anderson, the kindly chief of the Annealing and Hardening Section, had his twenty-fifth Western Electric birthday last Saturday and, incidentally, considerable of a surprise.

"Andy" usually gets down to work at 7:10, for in all the 25 years of his service he has never been late, and he always allows himself a half-hour margin to play safe and protect his record. W. J. Randall headed him off at the door on the eventful Saturday, however, and on the pretense of urgent business, rushed him out to look at a lot of piece-parts. They returned together just before 7:30 and found the folks gathered around "Andy's" desk, on which was mounted a basket of 25 American beauties and other beautiful decorations.

It was considerable of a day all around for the veteran, for the morning celebration was just the opening number on a program of congratulations that grew as the day went on.

SOCCER TEAM GOES INTO TIE FOR SECOND PLACE IN "A" LEAGUE

Hawthorne soccer warriors defeated the Chicago Football Club Sunday, May 11th, at Memorial Field by a score of 3 to 2 in a battle to break their tie for third place.

The victory, which puts Hawthorne in a tie for second place, was a scorcher, filled with as much action as the famous "Signal Corps" film.

Hawthorne was short Al Fink at center half due to injuries he sustained in a previous game and Stephenson was switched from the forward line into Fink's position.

Blair won the toss, but the Chicago Club procured from the kick-off. Hosie saved at the expense of a corner and Ramsey cleared from the kick. Pook temporarily relieved pressure by a cross to Robertson, whose attempted run was blocked. The ball was returned to the Hawthorne goal, but Stonewall Thompson blocked a good shot and sent the ball to Queen, who centered to Blair. Jimmie shot for goal and the Chicago back was penalized for handling the ball. Thompson took the shot and scored.

Chicago kicked off but a dangerous movement was blocked by Gealey, who sent to Pook. After a neat bit of combination Robertson centered and Niel, our latest acquisition, essayed a shot, which hit the Chicago

full-back and went into the net for our second score.

Another Chicago attack brought Andy Stewart into prominence. Andy, after defeating the forwards, passed out to Queen, whose shot grazed the cross-bar. Stephenson blocked the Chicago's center forward and passed to Blair. Jimmie swung the ball out to Robbie on the wing and the ball went out of play to the W. E. team. Ramsey took the throw-in and as the ball came out of the ensuing scrimmage Stephenson took a first-timer that passed the goalie before he could make a motion and marked up goal number three for the local boys.

The Chicago team again attacked, Hosie saving in style, with the full-backs giving him first-class assistance. Another left wing attack by Queen and Niel was stopped by the referee's whistle for interval.

Chicago attacked strongly at the start of the final period and their weight advantage began to have effect on the Hawthorne eleven. The Chicago center forward shot from a scrimmage and Hosie's wonderful attempt to save proved futile.

The locals kicked off, but somehow their kicking seemed to lack the swing of the first half. Chicago converted a penalty kick into a goal and made the score 3 to 2.

The crowd began throwing the "no defeat record on the home grounds" at the players and this spurred on the local squad. Blair and the Chicago center had a nasty collision and both were obliged to leave the field. With five minutes to go the Western men played a safe defensive game and just as the final whistle went Robertson broke away and missed enlarging the local lead by a matter of a few inches.

Final score:—Western Electric, 3; Chicago F. C., 2.

The "B" team was defeated by the Norwegian II the same afternoon by a score of 1 to 0 at Winnemac and Robey.

They had the best of the game, but old man Jinx was against them. They started with three new players in the line-up and two men were hurt during the game. Fowler performed creditably and Palister, Basak and Niotis played their usual stellar games. The Norwegian first team having finished their schedule, the club had loaded the "B" team with "A" players, which practically turned the game into an inter-sectional contest.

LOCAL BALL STAR SIGNS WITH ROCK ISLAND

George Kessl, of Switchboard Framework and Equipment Dept. 6522-3, one of the star outfielders of our last year's baseball team, left Hawthorne May 7th to accept a berth on the Rock Island nine of the Mississippi League.

The Hawthorne star got away to a real start in his new stamping grounds, too, by pulling a 1 to 0 game out of the fire for Rock Island in his first appearance. George crashed out a pretty single that drove in the winning run.

Besides that nice bit of stick work George has already shown the Rock Island manager a trick or two. Shortly after he joined the team the regular first sacker for Rock Island was out of the game and George was called in from the garden to hold down the sack, and he did it so well that it is now his regular position.

The Hawthorne nine is going to miss Kessl's bat in the tight games, for George has a cute habit of coming up to the plate with two on and crashing the apple out of the orchard. Local fans will remember that in the first Industrial championship series, last fall it was his mighty bludgeon that crashed the ball over the right field fence at Fernon's field for the hit that won the game.

Here's hoping we all get a chance to see George poke a few over the right field at Cub's Park before many moons.

SMILING DRILL CHIPS DINE

Smiling Drill Chips, the Booster Club of the Drill Press Department, held another of their get-together dinners Saturday, May 17th, at Draier's Dining Rooms, in Brookfield. A caravan of automobiles wound its way through Berwyn and Riverside, and all but one machine solved Riverside's street puzzle without riding around the town for an hour or two.

The machine which strayed from the fold was piloted by "Pineapple" Buck. He had heard vaguely about heading for Hollywood, so he pointed the nose of his wagon toward the California town. Luckily for Buck, he ran into a ditch or he might still be traveling southwest. With the assistance of the department's strong man, Fred Dowbrunk, and Schrader, Lundberg and Hornberg, the wayward wagon was enticed out of the ditch and the driver instructed that Brookfield was not beyond Hollywood, California, but just the other side of Hollywood, Illinois.

Anyhow, when the wayward son returned to the fold, the fatted calf was slain and the feast proceeded without further mishap.

"SEND-OFF" TO L. MASON

L. Mason, who left for Kearny last Saturday to take part in organizing the Kearny loading and repeating coil department, was tendered a farewell celebration by his Hawthorne friends last Friday morning. Mr. Mason, who was assistant foreman of Hawthorne Loading and Repeating Coils Dept. 6321 at the time of his transfer, was surprised by his departmental friends, who gave him a royal send-off. His new department at Kearny when fully organized, will probably employ 200 operators.

It was quite a day of surprises for folks in 6321, for hardly had Mr. Mason got over his before William Willig received one when O. Colln, chief of the department, announced him as the new assistant foreman. Mr. Willig, who has 15 years of service in the department, was formerly loading coil case assembling supervisor.

PRESIDENT DU BOIS DEDICATES PUBLIC ADDRESS SYSTEM

Huge Crowd Hears President And Works Executives Speak Over Industry's First Permanent Public Address Installation

A seething sea of humanity flooded the quadrangle between the Central Works and the Telephone Apparatus shops, and overflowed onto Barton Ave., more than a block away, Wednesday noon at the formal dedication of Hawthorne's new public address system, the first permanent industrial installation of this wonderful apparatus anywhere in the world.

Movie men were busy cranking cameras, registering the scene for the screen world; panoramic cameras were clicking from every point of vantage to provide the story of the gathering to the papers, but the stir and bustle of these people could not draw one's attention from the crowd.

Here was the dynamic power that has made our industry what it is. Here was the skill and training that made possible the building, not only of the marvel to be dedicated, but those other marvels of communication which serve the world, day in and day out, so efficiently and so unostentatiously that to some they may even seem commonplace.

The big dedication ceremonies started promptly at noon, when the Works Band struck up some stirring music. After twenty minutes' preliminaries, which consisted of a musical pep session, C. L. Rice, assistant Works Manager, stepped before the enormous audience, and in a brief introductory talk explained the essential workings of the public address system. He announced that the first utilization of the new equipment after the dedication ceremonies will be next week, when candidates for offices in the Hawthorne Club will use it to address their constituents face to face. Mr. Rice then introduced the man who is at the helm at Hawthorne, Works Manager C. G. Stoll.

Mr. Stoll spoke briefly on the history of the public address system and the part it has played in important national events. These achievements, the speaker pointed out, have been made possible through our work as Western Electric employees. He expressed his gratification at being able to come into closer personal relation with us, his fellow employees at Hawthorne, through the medium of the system and at being able to congratulate us by word of mouth for the splendid achievements of the factory last year in meeting the country's need of telephone equipment. "We should take pride in the world significance of our business," said Mr. Stoll. "The telephones and telephone equipment that we produce place the peoples of the world in closer touch; personal contacts are established, business is facilitated, nations are made neighbors and the warmth of mutual understanding is better preserved."

Following Mr. Stoll's speech, Mr. Rice introduced to his fellow workers our president, Charles G. Du Bois, who had come on from New York especially for the opportunity to address his Hawthorne fellow-employees of the Western Electric Company.

Mr. Du Bois made a very interesting and stirring talk, which portrayed clearly his faith in Hawthorne's ability to uphold its end of the task of supplying the country's communication needs. He brought out forcefully the great importance of Hawthorne, not only to the industry whose workshop it is, but to our country. He emphasized the fact that the telephone has made neighbors of a hundred million people and he told of the pride he has felt whenever he has had an opportunity to tell the story of Hawthorne and its achievements in business conferences, public meetings and private conversations. He called attention to the fact that everyone at Hawthorne has a right to a very proper pride in the fact that he is doing more than merely a good job—he is doing a good service for the America of tomorrow. Mr. Du Bois also spoke of the huge tasks yet confronting Hawthorne and he said of this: "I care far more to keep our Company in steady volume of business than to make spectacular growth. Steady business for the Company means steady work for us. Our present prospect is a continued large volume of business for at least several years. That has made additions necessary here at Hawthorne and is the reason for the new plant now being built at Kearny, New Jersey. But whether the demand for our products becomes greater or smaller we intend to be fair and honest in all our dealings of every kind. That has been the principle of our Company for the more than fifty years of its history. It is more than a policy, it has become a tradition."

In the formal dedication of the address system, which closed his speech, the president gave in a sentence his mental picture of Hawthorne. He said: "It typifies Hawthorne—fearless in its attempt, skillful in its construction, accurate in its result, and so I dedicate it to the doing of the job, to the tradition of fairness, to the spirit of friendliness. These are the things for which our

FOR ADULTS ONLY

Company and our Hawthorne shall stand to the end."

Among the guests on the speakers platform were the following ten Hawthorne veterans, each with more than forty years of service with the Company: F. W. Loehr, 47 yrs., Dept. 6358; G. Perlewitz, 46 yrs., Dept. 6377; T. De Rusha, 44 yrs., Dept. 2442; W. Miller, 44 yrs., Dept. 6165; L. J. Simon, 43 yrs., Dept. 5376; F. L. Wise, 43 yrs., Dept. 5701; F. Armitage, 42 yrs., Dept. 5929-2; W. Merz, 42 yrs., Dept. 6308; R. A. Horn, 41 yrs., Dept. 7390; J. Farrell, 41 yrs., Dept. 5734.

HAWTHORNE MAN KILLED IN LEAP FROM TRUCK

John Bonkowski Crushed Under Wheel—Mrs. Mann Also an Accident Victim

Two Hawthorne people were the victims of auto accidents recently, one of whom, John Bonkowski, of Jack and Generator Assembly Dept. 6366, later died from the injuries received.

Mr. Bonkowski, a jack assembler in Dept. 6366, was run over by a truck, May 22nd. He was accustomed to "hopping" a truck on 22nd St. and riding to Crawford Ave., where he took a street car to his home. On this particular afternoon he climbed into a truck crowded with boys. When it neared Crawford Ave., he jumped from the left side of the vehicle, struck the knee of a man standing on the step of a passing street car and was thrown under the rear left wheel of the truck. No one in it noticed the accident.

A police ambulance removed the boy to St. Anthony's Hospital, where he died the following morning. He was 18 years of age.

Mrs. R. Mann, of Material Ordering Dept. 7154, whom Hawthornites will probably better remember as Miss Helen Yelsik, a member of the Hawthorne Ladies' cast, was the other accident victim. Mrs. Mann was hit by a Ford truck, May 28th.

She was waiting for a street car at the corner of Ohio St. and Crawford Ave. when the Ford, going south, knocked her to the pavement. Bystanders called an ambulance, which rushed her to the Robert Burns Hospital. An examination disclosed several bad bruises on her head, body and a badly injured wrist, but an X-ray picture showed that no bones were broken. She was able to return to work on June 2nd.

VICE PRESIDENT RETURNS

H. F. Albright, our vice president in charge of the Manufacturing Department, returned to Hawthorne last Saturday from a brief visit to Japan. Mr. Albright sailed for the Orient April 10th, accompanied by a structural engineer, to plan for the rebuilding of the Nippon factory. He was accompanied on the return voyage by J. L. McQuarrie, assistant chief engineer with the International Western Electric Company.

Mr. Albright brought back with him an unusual souvenir of his visit—a curiously wrought, oblong gong, an unusual piece of Japanese art, which is estimated to be in the neighborhood of 350 years old.

PROMINENT VISITORS ENTER-TAINED AT THE WORKS

A sextet of New England Telephone Company officials, accompanied by C. L. Hawes, chief of the Service Department of our Boston Telephone Distributing House, paid Hawthorne a three-day visit last week. They were guests of the Merchandise Branch and were entertained by that organization during their visit here, both at the Works and in the city. They not only made a tour of the Works, but also interviewed a number of our Hawthorne executives. Those in the party were: J. J. Murphy, equipment superintendent, Boston; P. J. Bell, district plant chief, Bangor; L. B. Gould, division engineer, Manchester; E. H. Soule, superintendent of supplies, Providence; H. C. Sylvester, district plant chief, Brookline; C. L. Stone, district plant chief, Salem; J. B. Powers, division toll wire chief, Springfield, and C. L. Hawes, chief of the Service Department in our Boston Telephone Distributing House.

Another party of visitors to the Works during the past week were Messrs. Somers, Ewing and Hocksprung, of the New York Telephone Company; Messrs. Newberry and Fleming, of the Pacific Telephone Company, and Messrs. Mathewson, Sherwood, Covery, Joseph, Horn and Fritz, of the Southwestern Bell Telephone Company. These men were guests of the Equipment Branch and their visit was principally for the purpose of getting acquainted with our engineers and our engineering methods.

Another prominent visitor at the Works was Alexander Cogon, a representative of the Russian government, who is in this country on a tour of inspection. Mr. Cogon is chairman of a committee that has charge of buying supplies for the telephone department of the government. He was escorted through the plant and seemed very much interested in our manufacturing methods.

LECTURER ENDS COURSE

Mrs. Pauline Dunstan Belden Concludes Series of Eight Talks

The development of personality was the theme of a series of eight lectures by Mrs. Pauline Dunstan Belden, which were concluded last Wednesday. These talks, extending over a period of eight weeks, began April 14th. Each lecture was given to three different groups from 4:30 to 5:15 on Mondays, Tuesdays and Wednesdays.

In the course of her talks Mrs. Belden pointed out many of the commoner personal faults that keep individuals from getting along harmoniously with their fellow men, and emphasized the importance of the apparently trivial things that create bad impressions, arouse antagonism and alienate sympathy. As the speaker pointed out various faults, she also suggested methods for overcoming them and for developing the evidences of a good personality.

The course has been productive of much discussion and has served to focus attention on some of the careless or unconscious errors that all of us commit.

Mrs. Belden is a pleasing and interesting speaker and had no difficulty in keeping the interest of her audiences throughout the entire course.

PIONEERS INSPECT WORKS PREPARATORY TO SOCIAL EVENING

Theodore N. Vail Chapter Visits Hawthorne for First Time—Enjoy Dinner and Fine Program in Restaurant

The Theodore N. Vail Chapter No. 1, Telephone Pioneers of America, met at Hawthorne for the first time in a social get-together Thursday evening, June 5th. The program of events, which started early in the afternoon, included a trip through our shops followed by a dinner, a fine musical and oratorical program, dancing and card playing.

The day's events started about 3 o'clock in the afternoon, when non-Hawthorne Pioneers and their guests assembled near Gate 1, preparatory to a trip through the shops and about the grounds. Although it was, of course, impossible to go through the entire huge factory in so brief a time, the visitors were nevertheless able to cover numerous departments, getting a closely connected idea of the progress, involved in the manufacture of telephones and telephone cable.

In the T. A. shops they were first shown the assembly of relays, jacks, ringers, receivers and transmitters, and the winding of relay coils. Further along they looked in on the assembly of keys, machine switching apparatus, desk stands and subscriber sets, as well as the wiring, testing and inspecting of switchboards. A little later in their journey they watched the forming of manual and machine switching cables, and the winding and assembling of loading coils. A side trip was made to the telephone exchange, through the toolmaking department, the punch press department, the hand screw machine department and automatic screw machine department.

In the cable plant the visitors secured a complete story of telephone highways. They first saw the wire being insulated and twisted and then followed it out to the big stranders, which spiral it into cable cores. They saw the core being tested, baked and finally run through the lead press to emerge a finished lead-covered cable. During the cable plant trip the visitors also viewed magnet wire insulating and the making of tinseal.

Following the journey through the shops, the visitors made a tour of the grounds, after which they were joined by the Hawthorne Pioneers and assembled for a large group picture. About 400 people assembled before the camera, 150 of whom comprised the guest delegation, while the other 250 were Hawthorne members and their guests.

Dinner was served at 6:30, the committee having provided a luscious meal of chicken with a full list of "trimmings". Tables were arranged along the north side of the room for its entire length, leaving the space along the south side vacant for dancing.

The entertainment portion of the program began with music during the dinner and continued through to 9:30 P. M., when dancing and card playing was started. The first section of the entertainment consisted of orchestral music, a saxophone and a cornet specialty and several popular vocal selections, the latter given by Miss Loretta Faxon.

At the end of the dinner hour, Toastmaster S. S. Holmes introduced C. G. Stoll, Works Manager, who welcomed the Pioneers on this, their first gathering at the Hawthorne Works. S. J. Larned, of the Illinois Bell Telephone Company replied in behalf of the Pioneers, taking the place of Pres. W. R. Abbott, of the Illinois Bell, who was to have acted as spokesman but who was unable to attend.

Following the speaking program, the joy-makers plunged into the more frivolous phases of the evening's entertainment. "Joe" Curtis pepped things up by leading the diners through several songs of today and yesterday. "Joe" has a couple of theories all his own regarding mass singing and judging from the way everyone's vocal cords responded, his theories are entirely sound.

The next big section of the evening's program was one of vaudeville entertainment, that would have been a wow on any professional circuit. First, there was H. E. Mathisen, who is a first rate "hooper" and a rib-tickling story-teller. Following him Miss Loretta Kane played two piano solos. L. Theriault's operatic singing was as usual, enthusiastically applauded. Hawthorne's instrumental trio, composed of Miss Helen Batony, piano, and Misses Irene and Marie Blasko, violins, were also very well received. The Benson Quartette ended this section of the program with several high class selections that showed golden-voiced Bob and his melody boys to fine advantage.

After the musical numbers were completed dancing started. Card tables were set up in one portion of the hall for the amusement of those who elected to play cards instead of dancing.

This first visit of the chapter to Hawthorne was a success from every standpoint and it is expected that the Works will have other opportunities at playing host.

CANDIDATES CHOSEN FOR HAWTHORNE CLUB ANNUAL ELECTION

New Officers to Be Selected by Voters on June 17th—Mammoth Parade and Broadcasting of Speeches to Feature Campaign

THE CANDIDATES

For President:—H. S. Jackson; H. E. Mathisen.
For Vice-president:—W. L. Denny; T. Wolcott.
For 2nd Vice-president:—Miss E. Peirich; Miss E. Welsh.
For Treasurer:—E. Herbert; F. E. Wilkerson.
For Board of Directors:—Production:—J. P. Collins (Dept. 6195); R. E. Woolway (6192). Operating (elect one man and one woman):—J. Waters (6337), W. Greisz (6331-C), Miss E. Doser (6346), Miss M. C. Anderson (6306-S). Technical:—W. J. Dawe (2423-A), G. E. Bell (2437-E).

A mighty voice from the clouds urging votes for U. R. Choice for president will be one of the modern miracles that will feature the campaign in the Hawthorne Club's annual election of officers to be held Tuesday, June 17th. This volcanic vocalization will be nothing other than the voice of the enthusiastic campaign manager, multiplied about 10,000 fold by the Works' new amplifying apparatus to the volume it has always wanted to have.

The public address system will be used every noon hour during the week preceding the election. Each candidate will appear several times in front of the microphone. A program of entertainment will be interwoven with the campaign speeches.

This up-to-date utilization of the public address system, although a novel introduction in the annual spirited campaign, is far from being the only vote-getter the candidates will use. Already plans are being made in the various camps for a mammoth automobile parade, which this year will rival the Armistice Day celebrations, if indications mean anything. Loaded with enthusiastic supporters and bedecked with garlands and festive trimmings, hundred of cars will wend their way around and through Hawthorne's streets on the Monday preceding the election.

Bulletin boards will blazen forth with campaign literature in a very short time, as the campaign managers are already hurling defiance at one another and promising a fight to the finish.

With the introduction of the public address system into local politics comes the elimination of an old tradition in Club elections—the personal tour of the shops by all candidates for the annual handshaking orgy. So many of the candidates have been making studies on the proper way to shake hands that in order to be fair to the unsuspecting public the committee has decided to eliminate this ritual. Along with the passing the 'You-know-me-Al' hand-shake will go the election pluggers, which made life miserable for the janitorial department in past years. The election committee has decided that they are an unnecessary evil and that the same money spent in floats for the big parade will be better invested. Campaign literature will be distributed only during the parade.

Although it is too early in the campaign to make any sort of prophesy as to who the successful candidates will be, the confidence displayed by the supporters of the various candidates points to one of the closest elections in years.

All Hawthornites with service of a year or more are entitled to vote and special arrangements will be made so that the night force and employees on the Hawthorne roll at various outside plants will also be able to vote for their favorites.

A special number of The Microphone will be issued to tell you what the campaign managers think of their candidates and to give the location of the polling places.

WILD, WEIRD AND WAKEFUL

Order of Razahza Holds Fifth Outing and Fearsome Initiations

The Razahzas, of the Cost Division, beat their tom-toms again, when they foregathered at Griswold Lake on May 24th for their fifth two-day outing, initiation and "Kangaroo Kourt". Sunday's bad weather upset that day's program but did not materially affect the festivities as a whole. About 30 members and 20 initiates made up the group, which motored away Saturday noon and straggled home in the dusk the following day.

Before the pilgrimage started the participants were divided into four clans. They were: The "MacDuffs", led by J. E. Leber; the "MacGregors", led by T. S. Drain; the "MacDougalls", captained by J. Larson; and the "MacIntyres", headed by R. L. Miller. Each clansman wore a large badge.

The program of events literally filled every hour of the outing, since it left no time at all for sleep. From the time of arrival to the time of departure every hour was accounted for. Two ball games, opened activities, the "MacIntyres" and "MacGregors" winning. Appetites amply whetted, the Raz-

ahzas then rallied round the groaning board in Justen's Hotel with G. B. Hallett as toast-master and the orators received their chance. These included C. Vesely, W. Dawe and A. E. Freeburg. Entertainment specialists who took part in the program were:—W. A. Goethe with his Swedish imitations; R. A. Corris, who told stories in Italian dialect; T. J. Drain and his Irish brogue; and W. T. Meyers, who brought along his collection of bird and animal calls. To top off the dinner the "Super-Supper Quartette" gave the latest and the oldest in harmony.

Dinner over, the clansmen started various light pastimes, such as blind man's buff, pussy-in-the-corner, lotto, dominoes, etc., while various impromptu groups of singers broadcasted at irregular intervals. This until midnight, when some welcome nourishment was furnished to the quavering initiates whose hour had come. From midnight until 3 o'clock the rites of the Grand and Exalted Order of Razahzas were administered to candidates, who eventually emerged from the mystic realms as different men. Presiding officers were:—Grand Razahza, T. J. Drain; Asst. Grand Razahza, R. A. Corris; Conductor, C. Vesely; Supreme Guards, A. E. Freeburg, A. D. See, L. S. Morane, R. L. Miller, G. A. Swanson.

Kangaroo Kourt followed initiation, with Judge Hallett serving sentences on uncomfortably short hearings, especially in the case of Sleepers. He had ample precedent for that, since it has been established for years that to sleep is the most grave offense a Razahza can commit.

The annual horseshoe tournament was ushered in at break of day, with W. T. Meyers as ringleader, but the championship decision was thrown to the winds by the cry of "Breakfast". Sunday's program of events had to be abandoned, because of bad weather and, aside from a flower picking contest, the boys were content to doze, talk and smoke until a chicken dinner was served at 1 o'clock, as the climax of an eventful outing.

BASEBALL GIRLS WIN

Defeat Mozart Team in Game Featured by Heavy Hitting

When Hawthorne's girl athletes faced the Mozart team on May 27th they were a little doubtful about the outcome of the game. But when Miss Harriet Findley, first to bat, slammed out a homer, all doubts went fleeing over the field with it and the girls started in to run the score as high as possible. They stopped at 17, which was a long way ahead of Mozart's 4.

Mozart didn't make a rally until the third inning and never struck a stride that appeared dangerous. Almost every Hawthorne girl brought in a run.

Our team's line-up was:—Misses Harriet Findley, ss.; Violet Jelinek, p.; Eva Skrzydlewski, 3rd; Marie McEach, 1st; Fannie Ahceson, 2nd; Margaret Kavanaugh, r.s.; Mary Kavanaugh, l.f.; Mable Findley, r.f.; Clara Nash, c.; Miss Pearl Mahlen substituted in left field and Miss Mildred Strnad in center.

The team is visiting Speedway Hospital on June 7th to play an exhibition game for the veterans. Their opponents will be a team from the Installation organizations, which is being coached by C. E. Cheever, 5530-2A.

BIRTHS

May 28th—To Mr. and Mrs. A. C. Cook, a 7½-pound girl. (Dept. 6723.)
May 22nd—To Mr. and Mrs. A. E. Kaiser, a 7-pound boy. (Dept. 6355.)
May 20th—To Mr. and Mrs. Stanley Sadoski, an 8½-pound boy. (Dept. 6336.)
May 19th—To Mr. and Mrs. H. O. Hartwig, a boy. (Dept. 5528-2.)
May 16th—To Mr. and Mrs. Chester Kuciel, a 9½-pound girl. (Dept. 6334.)
May 14th—To Mr. and Mrs. H. A. Hansen, a 6½-pound boy. (Dept. 5547-2.)
May 9th—To Mr. and Mrs. Chas. M. Reed, a 10-pound boy. (Dept. 7168.)
May 8th—To Mr. and Mrs. Frank Bicek, a boy. (Dept. 6333.)
May 5th—To Mr. and Mrs. A. J. Reardon, an 8-pound girl. (Dept. 6055-2.)
May 16th—To Mr. and Mrs. Chester Kuciel, a 9½-pound girl. (Dept. 6334.)
April 17th—To Mr. and Mrs. J. C. Svoboda, an 11-pound boy, Robert Charles. (Dept. 2405.)
April 17th—To Mr. and Mrs. E. A. Freeman, a 7-pound boy. (Dept. 5528-2.)
April 6th—To Mr. and Mrs. M. Traynor, a 13-pound boy. (Dept. 2482-4.)
April 3rd—To Mr. and Mrs. E. Smith, a 4½-pound boy. (Dept. 6641-3.)
March 15th—To Mr. and Mrs. George B. Gourley, a baby girl. (Dept. 6644-1.)

MARRIAGES

June 5th—A. M. Weese, Dept. 6087-2, to Miss Frances Hartwell, of Loveland, Col.
May 31st—Ralph B. Kling, Dept. 2411-A, to Miss Emily Welshon, of Austin.
May 31st—Victor Ginter, Dept. 6339, to Miss Emma Jordan, of Elgin, Ill.
May 29th—Miss Celia Rolewicz, Dept. 6345, to Stanley Mientkiewski, of Chicago.
May 28th—Miss Frances Domeraski, Dept. 6313, to John Fuka, Dept. 6361.
May 21st—Miss Margaret Krueger, Dept. 6724, to John Nachowicz, Dept. 5376.
May 3rd—D. R. Powers, Dept. 6087-4, to Miss Mabel Castle, of Chicago.
May 10th—Miss Emma Wanek, Dept. 6643-2, to O. Grabow, of Dept. 5766.
April 29th—Ralph D. Naylor, Dept. 6339, to Miss Jewel Cave, of La Marr, Colorado.
April 26th—Miss Edna Bruebach, Dept. 6112, to Wallace Westlund, of Chicago.

TENNIS TEAM WINS OVER SEARS SQUAD —LOSES TO U. OF C.

After Hawthorne's "B" team had romped over their ancient rivals, the Sears Roebuck net-wreckers, by a score of 8 to 1 two weeks ago, they dropped a hard-fought match to the University of Chicago squad last Saturday, 5 to 4.

The only match the Sears squad was able to take was the one in which the veteran Hayes took two sets from Myers, of Hawthorne. The local man made the Sears star do some pretty fast stepping to win, dropping his sets 6-4, 6-3. Steir won 6-0, 6-2; Fogler took his sets 6-2, 6-0; Grabelle copped 6-4, 6-1; McAllister walked off with a 6-1, 6-4 scalp, and Latane with a 6-2, 6-2 trophy for Hawthorne's victory in the singles. The boys made a clean sweep of the doubles, Myers and Fogler winning over Hayes and Doyle 6-3, 6-3; Jones and Steir copping 7-5, 6-4, and Grabelle and McAllister winning a three-set battle, 6-4, 4-6, 6-0.

In the University match, Hawthorne split the singles with the Maroons, but lost two of the three doubles contests, which gave the college boys a 5-4 triumph. Myers dropped his match after three sets that went 6-3, 4-6, 6-4, while Steir lost after a 6-4, 1-6, 6-4 battle and Latane dropped two sets 6-1, 7-5. Fogler was victorious 6-2, 6-3; Grabelle won 6-3, 6-1; and McAllister copped 1-6, 9-7, 6-3. The doubles matches went against Myers and Fogler 7-5, 8-6, and against Grabelle and McAllister, 6-2, 6-3; while Steir and Jones took the odd one 1-6, 6-4, 8-6.

"C" Team in Close Match

While the "B" team was fighting things out with the U. of C. courtsters the "C" squad lined up against the Lawchester contingents for an equally exciting match, which ended with Hawthorne on the short end of the 3-2 score.

The locals dropped two of the three singles matches and lost one of the doubles, which was enough to cost us the contest. Dahhnan lost 12-10, 7-5; Elliot lost 6-4, 4-6, 9-7, while Richardson copped 7-5, 6-3. Dahhnan and Richardson won their doubles 6-1, 6-0, 6-4, while Elliot and Maturne lost 6-4, 4-6, 6-2.

TALK ON TUBE MAKING

Local Radio Club to Hear Lecture on Manufacture of Audions

Hawthorne's newest organization, the Radio Club, will hold another of a series of interesting lectures next Thursday night, when H. E. Krantz, one of the Company's vacuum tube engineers, will give a talk on tube manufacture.

Mr. Krantz is especially well prepared for this talk, as he spoke before the radio section of the Electric Club at the Hotel Morrison on the same subject May 27th. The meeting will be open to general discussion immediately following the talk and Mr. Krantz will be glad to answer any queries his auditors may want to ask.

All Hawthorne folks interested in radio are invited to attend the meeting, which will be held in Room 204, Bldg. 33-2, at 5:30.

Although the Radio Club is a new venture at Hawthorne it bids fair to becoming one of the most prominent organizations at the Works. In spite of the slump in radio enthusiasm that is supposed to occur during the summer season the interest continues to grow. Plans for the future include the comparing of sets and the building of "break" circuits to determine their advantages. It is also thought that a Hawthorne radio exhibition could be run, at which the local builders could exhibit their pet hook-ups.

FIRST BOYS' OUTING SCHEDULED

Hawthorne boys will have their first outing June 14th and 15th, when they will camp in the sand dune region. The boys will gather in the Works Training Department Saturday noon. The committee is furnishing 12 pup tents this year, which limits the participants to 23 boys and one instructor. Hikers will furnish their own food and carfare.

The tremendous success of the camps last year has resulted in a larger program for 1924. Hikes will be held every other week from June 14th to August 23rd, making six in all. Each camp will be under experienced adult supervision and all will be established at different sites.

Information regarding the first camp can be secured during the noon hour from A. E. Hayes or A. L. Twigg in Room 210, Bldg. 33-2.

RAIN FAILS TO SPOIL DUNES TRIP

Outdoor Fans Turn Out In Spite of Weather—Next Trip to Fox River

In spite of a downpour of rain, a good-sized crowd of camera fans gathered at the La Salle St. station last Sunday morning for the trip to Dune Park, a favorite spot with local outdoor enthusiasts.

When they arrived at the dunes the party struck off through the woods, beautiful with wild flowers, and covered the mile to the beach in record time. There they met a party of fellow outdoor fans, who had made the trip the day before, and judging from the appearance of their camp they had found the dew unusually heavy during the night. One of them, whose north and south measurements have won him the title of "big boy", made the discovery that a pup tent is anything but comfortable in a rain storm. He said if he pulled in his number tens his head got wet and if he pulled in his head, his feet got wet, and when he tried to pull both his head and feet in the tent came down.

Through the courtesy of one of the leaders of the Prairie Club, who has a cottage at the lake, the party had a dry place to stay during the rain. The cooks soon had a steaming pot of coffee and heaps of enticing eatables ready and the bunch fell to with a will. Yards and yards of nicely fried steak and a bushel or two of spuds disappeared like magic. The only ceremony connected with the meal was the singing of "H-H-H-Hikin'", sung to the tune of "K-K-K-Katy".

So well pleased were the local outdoor fans with the courtesy extended them by the Prairie club men that they urged local officials to arrange to notify Hawthornites as to when the Prairie Club outings would be held. This the club officials have arranged to do and if anyone at Hawthorne is interested in making trips with the Prairie Club he can get full information from L. C. Aldrich, Dept. 5532-2, phone 1817.

The next outing of the local club will be to the Fox River Valley and will consist of a hike from Five Islands to St. Charles. The Hawthorne hikers will wander over a wooded path that follows the silvery Fox River on some of its most picturesque meandering.

They will leave the Laramie Ave. Station of the Aurora and Elgin Railroad at 5:47 A. M. on Sunday, June 15th. The cost of the round trip will be approximately \$1.50. Bring plenty of lunch and above all, don't forget the drinking cups. That hot coffee the club is famous for will be served. In case of rain the trip will be made the following Sunday.

For tickets see committeemen at the station with Hawthorne Club badges. If any further information is desired Mr. Aldrich will be glad to furnish it.

LOCAL MERCHANDISE SUPERVISORS HOLD PARTY AT GOLFMOORE

It was on the 24th and 25th of May that the original 35 charter members of the Royal Order of Hyijpts decided to further expand their organization and to take in additional members. The Golfmore Hotel at Grand Beach, Michigan, was selected for the ceremony. The party, 137 strong, and some stronger, boarded two special cars at Hawthorne Station at 11:55 A. M. A box lunch was served on the train at tables prepared specially for the occasion.

Upon the arrival at the Grand Beach station at 3:00 P. M. Drum-Major "Red" Hamlin swung his silver baton, the brilliantly uniformed Merchandise Band burst forth in martial music and the entire party marched to the hotel. There the crowd immediately scattered, each to his favorite sport, until the dinner hour. The Ablion College Orchestra, with the assistance of "Bob" Bensen furnished snappy music during the meal.

In the evening, the hotel lobby with its blazing fires, Jack Ernst and his xylophone, the Ablion College jazz band and Tommy Gibbons were the mecca of attraction. A Western Electric broadcasting station in the lobby added spice to the evening's entertainment.

At the mystic hour of twelve Grand Hyijpt Thurston assembled the other Hyijpts and 87 duly submissive, eager candidates were taken into the membership of this most ancient fraternity. While a description of the details of the initiation is not allowed it may be said that "Tim" Ryan and "Herb" Herbert were martyrs to the cause. The ceremony over, many of the outers retired. Some of the more hardy, however, engaged in numerous hard fought games of fiddle-dy-winks and jack-straws until the small hours of the morning.

Sunday morning found the gang roaring for breakfast, after which, in spite of the wind and rain, the golf tournament was played. In the afternoon the weather man smiled again and the other scheduled events went on until 8:10 P. M. when a weary but satisfied crowd dragged themselves aboard their special cars for the trip home.

In the competitive events the prize winners were as follows:—Tennis:—1st, Reezie Combs; 2nd, Duke Hummel. Horseshoes:—(singles)—1st, Bill Bryetogle; 2nd, Harry Rausch; (doubles)—Bill Bryetogle and Doc (C. A.) Williams. Golf:—(winning foursome)—General Wood, Patsy O'Dell, Harry Leddom; (blind bogey)—Reezie Combs; (individual low grass score)—General Wood; (consolation blind bogey)—Keith Pevear; (best prize)—Dale Foster. Story Telling:—Zetterlund.

In the free-for-all drawing, Bo Brennan, Dave Smith and Major Burns won head-sets. Fred Landrebe slipped through for a 522-W victrola attachment, and Marly Rink landed heavily on the grand prize, a 521-CW loud speaker.

In the baseball game the fourth floor took revenge on the third floor for their last year's defeat to the tune of 17 to 5.

Much credit is due the members of the different committees for the smooth management of the entire outing. A 100 per cent attendance is assured for the third.

FRIENDS HONOR O. N. JENSEN

O. N. Jensen, who has been made an assistant foreman in Dept. 6361, was honor guest at a dinner given by friends from his old department on May 29th. Mr. Jensen, a former section chief in Dept. 6366, was also awarded his 25-year service badge recently.

Guests at the dinner included chiefs from the Jack and Generator Assembly Department, as well as several of the older service men who entered the department at the same time Mr. Jensen did. About 35 were present.

Music was furnished by a five-piece orchestra, four members of which were from 6366.

TOOLROOM STAGES BIG FESTIVITIES FOR 35 YEAR SERVICE MAN

When John Schetter, of the toolroom, punched in Saturday, May 24th, he was amazed to see how many of the boys in the department had managed to get to work ahead of him. For genial John is the early bird in the toolroom. In 35 years he has been late but twice. But although he isn't in the habit of rushing in at the last minute gasping for breath he certainly gasped this time, when he swung the door open and found a crew of busy workers putting the finishing touches on a beautiful canopy of flowers that almost completely hid his planer from view. On his arrival still others flocked around the machine and soon the numbers swelled to the 300 mark.

After John had been engulfed by the waves of congratulations that swept over him, the Hawthorne Club's piano was tuned up and the department's banner singers held a regular Hawthorne songfest by the dawn's early light. Several vocal solos also added to the program, in the course of which J. D. Schindehueite voiced the sentiments of the veteran's co-workers in a neat speech.

By now you've probably guessed that there was some sort of celebration in the toolroom this particular Saturday, and you are certainly correct. It was the 35th anniversary of John Schetter's start with Company and was celebrated in proper style. After the program ended, John was taken on a tour of the plant.

On Saturday afternoon the festivities were transferred to the Schetter home at 2207 N. Kedvale Ave. Twelve Hawthorne veterans insisted on going home with John, but Mrs. Schetter had been "tipped off", so no domestic complications arose when the party trooped in.

Another big celebration followed with plenty of reminiscences interwoven. A canvas taken of the service of those present totaled 227 years, or an average of nearly 19 years of service apiece. Most of the guests had known John from the time they started with the Company.

Mr. Schetter began his Company career at Clinton St. as a lathe man, and continued on this work until 1892. He then took up planer operation and is still engaged at this work in the toolroom.

GIRL TENNIS PLAYERS ACTIVE

Interbranch Teams Clash — Outside Competition Starts

Although inclement weather has caused the postponement of many of the scheduled matches in the Women's Interbranch Tennis League, interest continues to run high. The Installation Engineering girls have jumped into the lead by taking two matches and Merchandise is in second place with one victory and no defeats.

The local girls will meet Hamilton Park Saturday afternoon, June 14th, in the first outside match of the year. The Hamilton girls have an unusually good reputation and it will take the best team we can put together to get a win over the Park squad. Girls are being tried out every night on the courts, so that the best possible team may be obtained. If you want a chance to make the team, call Mrs. Mabel Johnston, 5530-2A, Bldg. 15-A-2, phone 1524.

WORKS EXECUTIVES MAKE ANNUAL PILGRIMAGE TO NIPPERSINK

A caravan filed through Hawthorne's portals Saturday noon, May 24th, and headed north, loaded with a jubilant contingent of Manufacturing Branch executives, bound for the annual fun conference at Nippersink Lodge.

Just north of Higgins Road the caravan halted in a wooded grove, where the motorists got a chance to rest at the "Woodland Cafeteria", operated under the personal supervision of G. "Delmonico" Du Plain, manager of the Company's restaurants. Huge quantities of sandwiches, hot coffee, green onions, radishes, and (yes, they had no bananas) were served. There was also ice-cream, but the boys were so chilled from the ride that "Delmonico" had to heat it before anybody would consent to partake. After most of the eatables had been submerged, the motorists took up their added burdens without a murmur—that is with the exception of that belonging to "Duke" Duclos. This car, overloaded by the large acquisitions of sandwiches taken on board by Jimmy Hayes, Jack Shea, "Ceramerit" Bellamy and its owner, and evidently partially overcome by the powerful and pervasive perfume of onion, started a peculiar shimmying motion, in which the front wheels got so confused that they didn't know which direction to head for. The left wheel remained loyal, but the right shot off at a tangent which, if persisted in, would have tangled the quartet up in the ditch. After a thorough investigation by the engineers the phenomenon was explained in this manner:—The aroma from the onions had apparently penetrated the intake manifold of the carburetor. Since the car was of the air-cooled type, it had no tears to shed. Of course, the effect on its nervous system of its inability to weep untied the "e-rod. However, a piece of double-sh... chewing gum that "Duke" found par... under one mudguard solved the repair problem.

Upon arrival at the Lodge the machines were immediately abandoned, while the golfers in the party swarmed onto the links for a final workout preparatory to the annual golf meet, which was scheduled for Sunday morning. Those who were not afflicted with golfitis indulged in horseshoes, boating and cards. The feature of the golf practice was Bogy Man Willard trying to dig a subway through one of the bunkers, which led an

innocent bystander to remark:—"Say, Willard, I didn't know you played golf". "I don't," replied Willard as he tore lose another square yard of turf, "but somebody started me at the gol-durned game and now I can't stop."

In the evening the song-birds gathered around the piano and, led by A. E. Holstedt, staged a typical Works noon-hour sing until they discovered that their efforts were being rivaled by some excruciating noises issuing from the locker room. Investigation revealed, not three stray tom cats, as was first suspected, but Argo, Clifford and Just broadcasting "Sweet Adeline" for the whole family. Jack Kasley, hearing all the steam-whistling, assumed that it was a Fourth of July celebration, and blazed away with a toy pistol until the place resembled a miniature powder river. Following this outbreak of what must, for the sake of politeness, be referred to as harmony, the assemblage gathered around the festive board for the evening's devotion—to good things to eat. It was observed by all the diners that Charley Robbins, Doc Smith, "Mike" Quigley, Charley Bergquist and Bill Fisher were particularly attracted to the appetizer, which consisted of weenies and sauerkraut, until they discovered that the perspiring puppies were products of the rubber department. Wary Willie Hosford, with characteristic development methods, started first on his sauerkraut trimmings and refused to be enticed as far as the camouflaged canines. That course insured making the dinner a howling success in every sense of the word. Over the clamour of the artificial noisemakers furnished by the entertainment committee and the human ones provided by nature, could be heard Frank Sheridan's, "We want song number 36 in the blue book" and for his ability to cut through this maze of broadcasting stations, he was presented with a suitable prize.

After an evening of entertainment provided by members of the party, assisted by several popular radio artists, a few strenuous rounds of "put-and-take", lotto, jack straws, and stag bunco were indulged in before the crew turned into their bunks.

Unfortunately for their rest, however, Jack Kasley discovered a package of torpedoes in his golf togs (left there the last time his young hopeful wore them), and he just couldn't wait till morning to use them up. It was not until he ran out of torpedoes that the weary executives were allowed to resume their slumber.

Although the weather prevented the running of the Nippersink golf sweepstakes scheduled for Sunday morning, the skies cleared enough to allow the golfers to take another round. After flattening out a few dozen golf balls and offering the usual offerings of a dozen or two brand new ones to appease the water god who reigns over the water hole, they called it a day. Dinner then drew its proper share of attention and the two days of frolicking came to a close.

The Packard touring car formerly used by the Hawthorne executives on business trips about the city recently underwent a re-incarnation. As its Hawthorne service had been completed and a new car had usurped its job, it was sold and it has now been transformed into a taxi.

Visitors to Hawthorne who desire business appointments with Hawthorne executives are now escorted into a spacious, soft-carpeted room, where a pleasant attendant makes the appointments for them. While this is being arranged they can read their favorite magazine or even write letters, for the room is furnished with an oblong table and all the latest magazines. This new information bureau is located in Bldg. 27-6 and is in charge of Miss M. Vale, formerly of the Voucher Department.

Three Hawthorne soccer players have been picked for the Chicago and District "all-star" team, which will meet a major league "all-star" team in an exhibition game in the near future. Those chosen are E. L. Stephenson, inside; A. F. Robertson, inside; and J. Thompson, outside. This is an unusually large representation from any one team.

A Western Electric entrance card was the means of bringing a lost purse back to Miss Marge Gruberman, of Material Ordering Dept. 6136. A motorist who saw the purse lying in the road on Chicago Ave. picked it up, and found eight dollars and a Western Electric entrance card in it. Although he was not a Western Electric man himself, he turned it over to a Hawthorne employee who brought it in to the Microphone Office last Monday morning. As Miss Gruberman is now on her vacation, the purse was sent to her home address.

Miss Lillian Kosar, of Printing Dept. 6318, was pleasantly surprised when she arrived at the Works last Saturday morning and found her desk bedecked in fancy trimmings and her friends surrounding it to shower her with well wishes for a happy future. Miss Kosar left the Company's service the same day and in the near future will be married to Christopher Grevas, of Chicago.

The whole Drill Room's talking about the interest stirred up by eight of the girls in the office, who came to work in their Sunday scenery preparatory to attending the "Whole Town's Talking", at the Adelphi. Before the show the girls dined and danced at the "Golden Pheasant".

Girls in the Machine and Tool Standardization Division, in carrying out a "dare" by

one of their number, may have started a new fad among the fair sex. About a dozen of them arrived at the Works one day last week without a bit of cosmetics to mar "the skin you love to touch". The contrast with others less brave created such a sensation that perhaps—we say perhaps—it will soon be a fad to let each cute freckle show, as well as the ears.

Among the other celebrations for service men was one held in the Woodworking Department in honor of E. Olson, chief of the department, who had his 25 year Company anniversary last week. The Foremen's Club locked over early in the morning and showered congratulations on the 25 year youngster, while his department "said it" with a huge bouquet of American beauties.

E. Thomas of 2441, who had his thirtieth birthday with the Company last Monday, is going to celebrate the anniversary by taking a trip through the west. Mr. Thomas has obtained a month's leave of absence and will make a tour through the scenic west to California. He leaves tomorrow, accompanied by his wife and daughter.

R. M. Lindsay, Dept. 6087-3A, was initiated May 21st into the "Open Window Club", the ancient fraternal order of Training Division instructors. The initiation started at the La Salle, where the assemblage of eleven sat down to a dinner of Watertown goose, allowing the initiate to pay the bill. The rest of the evening was spent at Bensinger's, where they rolled duck and candle pins. The newly elected number received the biggest shock of the evening when he was presented with a cigar box containing the amount he had paid for the dinner, in pennies.

The Clerical Training Department held a picnic in the forest preserve along Salt Creek the afternoon of May 24th, 22 people being present. The two office boys were the leaders in all movements, from knocking home-runs in the baseball game to the assault on hot dogs, eggs and coffee at lunch.

Girl golfers are being urged to turn in official scores, so that handicaps may be figured. As plans develop for this summer's tournaments the need for some basis on which to figure initial handicaps becomes greater. The officials are still anxious to sign up aspirants for low scores. Miss L. Sheehy, phone 1828, can furnish necessary information.

Although it's a little out of season for bowling dope, Hawthornites may be interested in knowing that the local bowlers walked off with over a \$1,000 worth of prizes in the Chicago Industrial Tourney. Our winners comprised 27 five-man teams, 44 doubles, and 82 singles. Four Hawthornites placed in "all-events" and several others in various high games. The Complaint Section five rolled 2,894 pins for third place in the final standings.

The Good Fellowship Club of Dept. 6336 held their first annual picnic at Riverside, Ill., on May 31st, about 700 people being present. A game of playground ball between "The Girls" and "Old Men", led off the list of events. "The Girls" winning, 6 to 5. For purposes of comparison the ages of the participants were added up and it was found that those of "The Girls" totaled 182 and "Old Men", 439. Three men's teams also played a series of playground games. In the various races that were scheduled three Works employees took first places. F. L. Reeves (Dept. 6336) won the married men's race, J. Zeman (6641-3) the young men's race, and W. Pokorny (6336) the fat men's race. Music and dancing completed a successful outing.

If there is anybody at Hawthorne who has been successful in an attempt to lose the family cat, Jack O'Brien, of the C. R. and I Stores Department, would like to have a chat with him. Jack wants to try the same method on a family flivver, which is altogether too fond of its master to suit him. Three times Jack has stood on the front porch and with a sigh of relief watched some proud purchaser of the old family chariot shake along down the street in it, and an equal number of times he has had the peace and quiet of his domicile disturbed when Old Faithful came rattling home again. You see, the trouble is that Jack is too reasonable. He is a great exponent of the "your-money-back-if-you-are-not-satisfied" slogan, and each of his purchasers has been instructed to return the rattler if not satisfied. So far they have all followed instructions to the letter. In spite of the seemingly unanimous unpopularity of his faithful flivver, Jack still claims to have a better salesmanship record than Pete Dink established in disposing of his Senseless Six. At least Jack hasn't as yet offered to trade for a motor-boat.

Cards of Thanks

We wish to thank members of Depts. 5529-2, 5528-3, 5528-4, 6356, 6661-3 and 6108 for their kind expressions of sympathy in our recent bereavement.

H. A. Thompson and family.

To Dept. 6642: With deep appreciation and sincere gratitude we extend our heartfelt thanks for your kind expression of sympathy in our recent bereavement.

Gustave and Claus Heurlin and family.

Esther and Oscar Johnson.

Mrs. Mary Hanus and family wish to acknowledge with sincere thanks the kind expression of sympathy shown by their Hawthorne friends in their recent bereavement.

We wish to thank our friends of Depts. 6672-6 and 6756 for the kindness and sympathy shown us, and for the beautiful floral offerings during our recent bereavement in the loss of our beloved mother.

Wm. Witt and family.

BOYS' NINES AT HALF WAY MARK

Cyclones Nose Out Tigers in First Half of Major League Schedule

The Cyclones, of the Merchandise and Cable Plant departments, have assured themselves of participation in the annual Works junior baseball championship series by winning the first half of the league race.

The Cyclones won this honor by taking a 5 to 1 tilt from the Pastimers which tied them with the Tigers in games won and lost. However, scoring in the league is on the point system, with demerits for such offenses as razzing the umpire or an opponent, and when the points were totaled the Cyclones had three more to their credit than did the Tigers.

Much interest has been shown in the local boys' league, which stages its games on Memorial Field every noon hour. Attendance has often numbered in the neighborhood of 400, while the peak attendance mark was 750. Many folks enjoy eating their lunch out to the basketball bleachers while watching the boys cavort.

The second half of the league will be even more interesting than the first, as the teams are now organized and playing an unusually snappy brand of ball for youngsters.

Cold, wet weather has checked activities in the Sand Lot League, especially in the case of girls' games. Most of the games played were on league schedules, which have to be run off as regularly as possible. Some postponements were necessary, however.

Despite unfavorable conditions 23 games were played since the last issue, all but two being playground ball, men's games. The only girls' game was between H. A. Parson's aggregation from the cable plant and Miss L. Malina's ten, which represents Dept. 6031. Parson's squad of players is one of the most active and aggressive tens in the plant.

Two new playground ball leagues have swung into operation. One is the Outlaw League of our 74th St. plant. This is made up of four men's teams. The other one is the Neversweat League, a Works group, made up of six teams, which has arranged for a series of 30 games.

Recent results follow:

Regulation Ball

May 23rd:—Div. 2420, 24; Div. 2406, 4.

May 29th:—Foam Blowers (Dept. 5905), 3; Blue Print Dept. 1, "Wallie" Moesch, manager of the Foam Blowers, 'phone 860, is looking for games.
May 26th:—Grasshoppers (Dept. 5916-B), 9; Hams (Dept. 5916-A), 2.

BASKETBALL GIRLS HAVE PARTY

The girls' basketball squad gave a party at the home of Miss Luddy Malina on May 25th. Special guests of the occasion were Miss M. Roddy, chairman of the Women's Activities Committee, Hawthorne Club; Coach Brown and Mrs. Brown, and Coach Kurtz.

Most of the evening was spent playing bunco, dancing and competing in a "bean game", which some enterprising basketball player thought up. Each participant was given ten beans and instructed to shoot as many as possible into a large-mouthed bottle. Miss Elveretta Smith won. Mrs. Brown won the first prize at bunco.

Miss Fanny Acheson, who starred as a basketball player all winter, also starred as an artist by providing original hand-painted place-cards.

ELECTION EXTRA

CAMPAIGN MANAGERS GIVE INSIDE INFORMATION ON THEIR CANDIDATES' MERITS

H. E. MATHISEN

Candidate for President

Candidate for President, HARRY E. MATHISEN, present Vice-President of the Club, has unquestionably satisfied all of our members and stands on his record insofar as the year's entertainments are concerned. His experience as Vice-President will help him to sense what the Club members want. He possesses

enthusiasm; is democratic and progressive. Without these qualifications it would be impossible to promote events, such as the last Trianon dance and the large number of dances that have been held at Guyon's and Dreamland. Just stop and reflect what has been accomplished; isn't it enough said?

We cannot afford to overlook our opportunity to put a man at the helm who appreciates the fact that nothing can be accomplished but through tireless effort and who is willing to give such effort for the pleasure and satisfaction derived by others.

HARRY MATHISEN is a man of service. That is what is required when you want a man at the top to represent you. You are the individual looking for service. Remember—Vote for HARRY E. MATHISEN. It is a vote for personal service.

WILLIAM P. RANDALL,
Campaign Manager.

H. S. JACKSON

Candidate for President

The success and usefulness of your Hawthorne Club depend to a great extent upon the quality of the officers whom you elect to direct its affairs.

The Club is doing more each year of benefit to the employees of the Hawthorne Works. Organized primarily for the development of recreative, social, and educational facilities advantageous to Hawthorne folks, it has more recently developed merchandising facilities resulting in large savings for our people. The administration of Club affairs has now become a project of such magnitude as to require as President a man of character, vision and experience.

Before deciding how to cast your vote for President in the coming election, may it not be well to weigh carefully the qualifications of those who desire your support?

Mr. H. S. Jackson, popularly known to his many friends as "Jack", has been associated with us at Hawthorne

for the past nine years. Beginning as draftsman, he has constantly advanced to more difficult and responsible work, as chief draftsman, personnel man in the Plant Branch and later, personnel man in the Production Branch. In 1917, he enlisted in the Radio Company organized here, and saw active service in the World War.

Throughout his career as a draftsman, a soldier, and a personnel man, "Jack" has exhibited those characteristics of tact, good judgment and a keen understanding of human nature which are required in administering the increasingly important affairs of the Hawthorne Club. He knows how to play, as well as work. He is at home in the Shop, the Office, at the Social Gathering, and on the Golf Course. He is a good fellow and a good golfer. In 1922, Mr. Avery, then President, found in him a good executive in handling the responsible duties attached to the Chairmanship of the Athletic Committee.

In casting your vote for President, it is well to bear in mind that the success of the Club depends upon you. You will find in Jack the kind of man who will administer the Club affairs with the discretion and "punch" which you desire. Give him your vote and insure the continued development of the Club in the interest of Hawthorne people.

J. H. O'NEILL,
Campaign Manager.

W. L. DENNY

Candidate for First Vice-Pres.

Walter L. Denny, candidate for Vice-President of the Hawthorne Club, joined the Western Electric family in January, 1910. He began his career with the Company in the Piece Part Tracing Department. He was transferred to the C. R. & I. Piece Work Rates Department a year later, and in 1915 was promoted to chief of that department.

In 1919 he took on additional duties as chief of the Plant, Clerical, and Production Piece Work Rates Department, and in 1920 became chief of Layout Department 2432.

On December 17, 1923, he was promoted to chief of Operating Personnel Division, the position he now holds.

Mr. Denny has always been interested in Club affairs and was particularly active in its development. During the years of 1914, 1915 and 1916, he served as Entertainment Committee sub-chairman in charge of sports in connection with annual outings. He has also served on the Membership Committee.

"Walt" is strong for athletics, entertainments and music. Vote for Mr. Denny and elect a booster for the Hawthorne Club.

H. RAUTENBUSCH,
Campaign Manager.

T. WOLCOTT

Candidate for First Vice-Pres.

EXPERIENCE COUNTS. "Tom" Wolcott has been active in Hawthorne Club activities for the past 10 years and through his vast experience and thorough knowledge of the functions of our Club is the logical man for the job.

He has been an employee of the Company for 22 years, evenly divided between New York and Hawthorne, and is now Foreman of the Millwright Department.

He was the originator of the noon-hour dances, which no doubt have been enjoyed by all Club members; also organizer of the Rod and Gun Club and eventually its president. He has served on the Entertainment Committee, assisted in the arrangement of all wrestling and boxing exhibitions and in the arrangement of entertainments for the disabled soldiers at Speedway Hospital. He is at present Chairman of the Dance Committee.

He solicits your vote and through his broad knowledge and experience in the entertainment field, will, if elected to this office, continue to give you in return the high-class entertainment and recreation you have been enjoying in the past.

R. H. EPSTEIN,
Campaign Manager.

MISS EDITH PETRICH

Candidate for Second Vice-Pres.

If you want action and plenty of it, elect Miss E. Petrich as your next Second Vice-President.

Miss Petrich began her career with the Western Electric Company 14 years ago in the Inspection Branch, has been in the Shop Clerical Division a number of years as a clerical supervisor and is now a member of the Clerical Methods Division. She has been active in Hawthorne Club affairs from 1920 to 1924, and was a member of the Board of Directors from 1920 to 1923, always serving with a view for the betterment of Hawthorne Club activities.

She is known throughout the Works and makes friends wherever she goes.

Her experience in Hawthorne Club activities, both as a member of the Board of Directors and as a member of different committees, will be used to your advantage as Second Vice-President.

By placing a cross before Miss Petrich's name on your ballot on Tuesday,

June 17th, 1924, you are not only helping a deserving candidate but yourself as well.

H. E. RUDOLPH,
Campaign Manager.

MISS EDNA A. WELSH

Candidate for Second Vice-Pres.

Ready to smile, always ready. A smile that radiates good will. One that you, knowingly or unknowingly, gladly return. Who? Yes! Of course, EDNA A. WELSH, candidate for Second Vice-President.

Her smile is one of her many assets. Since September, 1915, she has been displaying those necessary attributes which are essential in the position for which she has been nominated, namely, her ability to originate, and organize, to manage, to do and above all to get along with her fellow employees and to help them in many ways. Her public career started in September, 1921, when she served as the representative in Department 6121. In June, 1922, she was elected as a member of the Board of Directors, where she has taken a very active part, serving as the Secretary of the Board for the year 1922-1923. For the last two years she has served as a member of the Entertainment Committee.

At present Miss Welsh is in charge of Department 6593-2, handling the personnel work for the women employees of the Equipment Engineering Branch, and smiling all the while. A vote for her is a vote for the winner.

H. F. ALLISON,
Campaign Manager.

F. B. WILKERSON

Candidate for Treasurer

Mr. F. B. Wilkerson, Candidate for Treasurer of the Hawthorne Club, started with the Western Electric Company in 1902. During his entire time of employment he has worked for various branches of the Engineering Department, and is now located in the Equipment Methods Organization.

He is a member of the Telephone Pioneers of America, Theodore N. Vail Chapter, No. 1.

Mr. Wilkerson, better known as "Wilkie", is a lover of sports, such as golf and bowling, has acted in the capacity of treasurer to bowling organizations, and is well qualified to fill the position of treasurer for the Hawthorne Club. He radiates good nature, good fellowship and efficiency, is well liked

THE MAMMOTH HAWTHORNE CLUB ELECTION PARADE WILL BE HELD AT NOON NEXT MONDAY (JUNE 16TH). ALL CANDIDATES WILL BE REPRESENTED. LINE OF MARCH:—NORTH ON CICERO FROM GATE 1 TO 22ND, EAST ON 22ND TO 44TH, SOUTH ON 44TH TO GATE 24, THEN WEST THROUGH WORKS ON BARTON AVENUE TO GATE 1.

by all his business associates, and being a bachelor, has quite a taking way with all the ladies.

A vote for Wilkerson means increased efficiency and absolute assurance that the funds of the Club will be accurately looked after. No doubt, the method will be changed, as he is a "Methods Engineer."

DON'T FORGET ELECTION DAY, JUNE 17, and place the proper indication opposite the name of "F. B. WILKERSON".

H. E. PRINE,
Campaign Manager.

E. HERBERT

Candidate for Treasurer

WELL! WELL! WELL!

The Hawthorne Merchandise Branch has at last been put on the Hawthorne Club's map.

While always willing and capable of producing men of character and ability, for some reason or other this Branch has been overlooked when candidates for the more important offices of the

Club have been chosen.

Now that one of our men has been chosen, we feel that it is up to us to try and convince the remaining Branches that our Mr. E. Herbert is the man for the job. We want to do our share of the Club's work, but we have not enough votes in our organization to elect our man, so we will make an earnest appeal for everyone to vote for our candidate.

Give Mr. E. Herbert your support and help us show the entire Works that the Merchandise Branch is willing and capable of doing a 100% job.

If you don't know Mr. E. Herbert, let me tell you something about him. He has a wonderful personality and is liked by everyone that comes his way; is sincere and earnest in everything that he does, from golf to going to church; believes that it is good to eat, drink and be merry; in other words, he is a fellow well met. His affiliations with the following organizations to me are sufficient to vouch for him and sufficiently qualify him for the office of Treasurer:

Member of the Board of Directors, La Grange Civic Club.

Secretary, Board of Governors, La Grange Country Club.

Chairman of Finance Committee, Emmanuel Episcopal Church, La Grange.

Member of the Finance Committee of the Diocese, Episcopal Church of Chicago.

Member of the Board of Education, Lyons Township.

Member of Boy Scout Council, La Grange.

We need help to put our man over; we can't do it alone. Our candidate will do the job, and we want it. Will you help us? Thank you!

C. A. ZETTERLUND,
Campaign Manager.

WALTER GREISZ

Operating Branch Candidate for Board of Directors

Here is the man who, without having any direct connection with the Hawthorne Club, has served us all in the past five years to our entire satisfaction. It is hardly necessary to mention that our friend, MR. WALTER GREISZ, has all of the qualifications and more to make a good director, as those

who know him will gladly tell you.

Those not acquainted with him surely have heard of the wonderful work by the "State Comedy Four", which Mr. Greisz manages, who have entertained

at numerous functions given by the Hawthorne Club. This election now affords us an opportunity to show our appreciation of work well done.

Your vote will be an approval to inspire more worthy service of this nature.

ED. SLABY,
Campaign Manager.

JAMES W. WATERS

Operating Branch Candidate for Board of Directors

Jim is the man for the job. Most of the readers of The Microphone have seen Jim in a great many of his stunts in the Hawthorne Follies; also for various Plant organizations, as well as outside of the plant.

He has been in Club activities for ten years and very actively engaged in furnishing enter-

tainment for the disabled soldiers at Speedway Hospital, which is a great work the Hawthorne Club has engaged in.

Jim Waters has taken an active part in all the shows that have been run by the Hawthorne Club. He has been an active member of the Entertainment Committee for two years, also Chairman of the Transportation Committee for the Follies of 1923.

Jim has been in the Hawthorne family for the past 12 years.

Cast your vote for James W. Waters, as he knows more about entertainment and will see that you receive it.

I. R. HACKETT,
Campaign Manager.

MISS MYRTLE C. ANDERSON

Operating Branch Candidate for Board of Directors

Miss Anderson, candidate from the Operating Branch, is well qualified for the office for which she has been nominated.

She is very efficient, energetic and capable, and has plenty of real live ambition.

At the present time Miss Anderson is secretary of Operating Branch 6306.

A vote for Myrtle means a great gain to the Hawthorne Club members and will assure you of active representation throughout the coming year.

Don't forget the date, Election Day, Tuesday, June 17th, and cast your vote for Myrtle.

J. C. BETHKE,
Campaign Manager.

EMILY DOSER

Operating Branch Candidate for Board of Directors

A pleasant little girl is energetically engaged at a big bench in Partial Assembly Department 6346, adjusting governors used on automatic telephones. She is Miss Emily Doser, Operating Branch candidate for Board of Directors.

However, her qualifications for this important office consists of more

than her pleasing personality, as the following brief sketch of her accomplishments will show:

Miss Doser has just returned from attending the Y. W. C. A. National Convention at New York as Chicago's delegate. She is very active in Y. W. C. A. work, especially in the sports, for she is an athletic girl herself. Be-

sides electing her as delegate the "Y" girls have conferred numerous other honors upon her, the principal one being the presidency of the Industrial Service Center's self-governing body. She was also chosen to represent Chicago's industrial girls at Bryn Mawr College and while there her abilities were recognized by her classmates to such an extent that she was chosen chairman of athletics and member of the council that ran the school.

Her ability, as demonstrated in outside activities, and her experience in outside clubs would be of undoubted value to the Hawthorne Club. Besides all this, Miss Doser has had three and a half years' actual experience in shop work and knows what the Shops want. In voting for her the Operating Branch has an opportunity to elect a director not only capable of ably representing her branch but one who will make the Club as a whole a bigger and better organization.

LET'S PUT A GIRL FROM THE BENCH ON THE BOARD.

HENRY GROTH,
Campaign Manager.

G. E. BELL

Technical, Plant and Development Branch Candidate for Board of Directors

FELLOW EMPLOYEES AND CO-WORKERS:—

On Tuesday, June 17, 1924, the Annual Election of the Hawthorne Club will be held.

We take great pleasure in complimenting the Nominating Committee on their selection of Mr. G. E. Bell, Department 2437, as one

of the candidates for Board of Directors to represent the Technical, Plant, and Development Branches.

Mr. Bell, who is in his eighth year of service with the Company, is very popular with all who have come in contact with him.

It is our belief that the experience obtained in fraternal and social organizations in the communities where he has resided well fits him for the duties which this office imposes, and you can feel assured that if elected, he will exert his efforts to assure adoption of such policies by the Hawthorne Club as will make the Club the greatest benefit and service to all of us.

H. F. NORTEN,
Campaign Manager.

W. J. DAWE

Technical, Plant and Development Branch Candidate for Board of Directors

Let's put BIG BILL over BIG!

BILL who? Well, I thought everybody knew W. J. Dawe, of Department 2423.

Big Bill solicits your vote for member of the Board of Directors from the Technical, Development, Plant and Tool Room.

The man you want as a member of this board is one who has had years of experience on Committee work of various kinds, such as:—

Captain of the W. E. Soccer Team, year of 1912 and 1913 inclusive.

Manager of the W. E. Soccer Team, year of 1922 and 1923 inclusive.

Chairman of Technical Bowling League, year of 1921 to 1924 inclusive.

Chairman of Bowling Committee, Hawthorne Club, year of 1923 to 1924 inclusive.

Manager of Technical Bowling Team, Hawthorne Club League, 1921-1924.

Member of the Hawthorne Club Golf Committee of 1924.

One who is willing to take the responsibility of office demands, wherever there was committee work to be done "Big Bill" was there like a Trojan for the benefit of other Club members.

He has considerable shop experience in ironwork and is head of Switchboard Manual Ironwork Section 2423-A of the Technical Division.

Investigate the past record of "Big Bill" and you will find that he is just the man you are looking for to fill the chair.

If you want as your representative on the Board of Directors a man who has been "through the mill", who understands your viewpoint, who has ability and the will to go through with what he undertakes, then vote for "Big Bill" Dawe.

A man who says, "Let's go."

W. J. RIGHEIMER
Campaign Manager.

R. R. WOOLWAY

Production Branch Candidate for Board of Directors

R. R. Woolway has been an employee of the Company since June 21st, 1906.

"Pete", as he is more familiarly known among his friends, has creditably filled various positions in the Production Branch, and he is at present chief of the Philadelphia Shop Service Department, 6192.

For the past six years he has been associated with the different entertainment committees of the Hawthorne Club and he has always been a familiar figure in the box office of the "Hawthorne Follies".

Your support is earnestly requested at the coming election. Give your vote to "Pete" and you will be represented by a man that has your interest at heart.

H. B. ESHELMAN,
Campaign Manager.

J. P. COLLINS

Production Branch Candidate for Board of Directors

AN IDEAL MAN FOR THE JOB.

In the selection of Mr. Collins as a candidate for

this office, a wonderful opportunity is knocking at the door of the Production Branch employees. Do not fail to grasp this wonderful chance of electing this candidate by placing your cross sign alongside of his name on the ballot.

Mr. Collins is fully equipped with all the necessary qualifications to fulfill the duties of this office. His eight years of service within the Production Branch of the Company have familiarized him with the social and beneficial needs of the Production Branch employees.

For two successive years he acted as Property Custodian of the Hawthorne Follies Show and was of great assistance to the management in making the performances a wonderful success. He has also represented the Production Branch in various track and field meets as a participant in the running and broad-jumping races.

J. P., as he is familiarly known, is chief of the Lumber Supply Department, Organization No. 6195.

Don't forget that Election Day will be held on Tuesday, June 17th, and we want to again remind you not to miss the opportunity of placing an active, energetic, go-getter in the office of Board of Directors representing the Production Branch.

M. E. DRINANE,
Campaign Manager.

WHERE AND HOW TO VOTE

ELECTION DATE—TUESDAY, JUNE 17th, 1924

In general, the following arrangement of polling places is by Branches, but some few departments are listed outside of their Branches where a more convenient voting place could be arranged with some other Branch.

Everyone with one year or more of Company service is eligible to vote for Pres., Vice-Pres., 2nd Vice-Pres., and Treas. and for one candidate from his Branch for Board of Directors, EXCEPT that members of the Operating Branch will vote for one man and one woman.

Judges will require each applicant for a ballot to identify himself by name and clock number, so that the clerk may check his name against the list of eligible voters. After marking his ballot the voter is required to fold it once and place it in the ballot box.

No electioneering will be permitted within 100 feet of any polling place. Polls open during noon hour only.

Eligible voters who will be on their vacation the week of the election can vote in the Restaurant Building on Saturday morning, June 14th, from 9 to 11.

5903, 29, 31-1D to 31-1K, 31-2J to 2M, 33, 34, 45, 46, 48, 49, 51, 58, 95, 96, 97, 98, 36-2:—Bldg. 15-A3, Miss Kerrins' desk.
5910, 11, 15, 16, 19, 52, 80, 81, 82, 83, 31-1A to 1C, 5913, 5078-1-2:—Bldg. 55-2, West End, J. Ptacek's desk.
5912, 13-2, 18:—Bldg. 55-2-C, A. Schultz's desk.

CLOSE RACES FOR PRESIDENT AND FOR TREASURER FEATURES

Heavy Vote Cast in Election Attributed to Record- Breaking Parade

H. E. Mathisen, last year's vice-president and chairman of the Entertainment Committee, has been elected to the Club's presidency by a majority of 766 votes in one of the closest elections in years. Many times during the tabulation of returns the vote favored first one candidate then the other. Jackson jumped to an early lead, but Mathisen slowly overcame it and finished the winner.

Tom Wolcott, who was elected vice-president, and Miss Edna A. Welsh, who was chosen second vice-president, both jumped into the front at the beginning of the count and stayed there all the way.

Almost breathless excitement for those interested in the race for treasurer prevailed all the way up to the unsealing and tabulating of the final ballot. After all other groups had been tabulated there were still two missing—one from the Merchandise, Herbert's stronghold, and one from 74th St. The 75 clerks and watchers were on needles and pins as a chase for these tardy returns was made. Wilkerson was leading by around half a hundred votes but an almost solid Merchandise turnout swung the election to Herbert by 183 votes, the closest race in the election. The official votes for the various candidates follow:

PRESIDENT	
H. E. Mathisen.....9,437	H. S. Jackson.....8,721
1st VICE-PRESIDENT	
T. Wolcott.....10,188	W. L. Denny.....7,875
2nd VICE-PRESIDENT	
Miss E. Welsh.....10,501	Miss E. Petrich 7,399
TREASURER	
E. Herbert.....9,016	F. B. Wilkerson 8,833
BOARD OF DIRECTORS	
Operating Branch	
J. Waters.....4,894	W. Greisz.....2,064
Miss Anderson 4,274	Miss E. Doser 2,782
Technical, Plant and Development	
W. J. Dawe.....1,737	G. E. Bell.....1,232
Production Branch	
R. R. Woolway.....1,002	J. F. Collins.....704

The Campaign

The "big doings" that preceded the election furnished the most novel campaign ever staged at Hawthorne.

A week previous to balloting day, the various factions launched their campaigns over Hawthorne's public address system. Each noon hour, huge audiences gathered before the big transmitting horns to listen to the haranguing of the political spell binders. Musical entertainment by Hawthorne talent was blended into the program. In fact, Walter Greisz, Operating Branch candidate for board of directors, did most of his campaigning with his "State Comedy Four".

Interest grew as the week progressed and by Saturday enthusiasm had almost reached the bursting point. Over Sunday it was even more intensified and at exactly twelve o'clock on Monday, it exploded into one of the most spectacular election parades ever staged at the Works.

Close to five thousand campaigners, decked in carnival trimmings crowded into a thousand trucks and cars and loaded them to far below the water line. The vehicles were decorated with paper festoons, gay colored bunting and banners with myriads of unusual slogans. Attractive floats, bands, orchestras and pretty girls flashed continuously past the throngs that jammed the sidewalks to view the unusual spectacle.

As the candidates neared their own ballistics, ovations greeted them, while overhead from fifth and sixth story windows, other campaigners launched an aerial attack of balloons and pluggers. Cut-outs were wide open, horns screeching, brakes grinding, engines backfiring, and added to this din was the output of thousands of mechanical noisemakers, worked overtime by the campaigners.

The mammoth parade encircled half the

Works, starting at Gate 1 on Cicero Avenue and proceeding north to 22nd. From there they swerved east to 44th St. and then south to Barton Ave., returning through the Works. It took the big parade almost an hour to pass.

CHESS CHAMP PLAYS HERE

F. J. Marshall, chess champion of the United States, gave an exhibition of simultaneous play before members of the Hawthorne Chess Club on June 4th. He played 26 games and lost three, one to F. J. Novak, another to R. P. Neumann, and a third to H. L. Morgan.

The past few weeks in the summer tournament have seen quite a bit of shifting in the positions of the contestants, but B. Plos, the secretary of the Chess Club, has held first place steadily. During the play on June 13th, H. Brandner, second place man, saved himself from almost certain defeat by the clever sacrifice of a knight and a strong follow up. During the same evening W. Zitt lost his first two games of the season, dropping from second to fourth place.

The various contestants at present place in the following order:—B. Plos, H. Brandner, W. Slavo, W. Zitt, A. F. Hoban, K. Marrow, F. J. Novak, F. Kratochvil, L. Vogelle, J. Knapic, R. Schwab, C. A. Cavan, A. M. Della Torre, A. K. Leupold, N. O. Bastarash, E. Greber, J. Hobbs.

USE YOUR "RIGHTS"

Hawthornites who hold stock rights issued by the American Telephone and Telegraph Company, enabling them to purchase stock of the new issue at \$100 per share, should make use of them, either by disposing of them or by purchasing new stock.

To take advantage of the value of these rights they must be used before August 1st, for after that date they are worthless.

The Financial Division has opened a bureau to help Hawthornites make transactions in rights and to advise them on any question they may wish to ask concerning A. T. and T. stock. The bureau is located in Room 624 in Bldg. 27-6, and is open between 9 a.m. and 4 p.m. every day. A. F. Rhode is in charge and he will be glad to help you in every way that he possibly can.

Stock rights will be bought and sold for our people at prevailing market prices through the bureau, with no handling charges attached. If, for instance, you hold three rights and you wish to purchase a share of the new stock, you may buy the other two rights.

It would be playing safe to neither sell nor buy rights without first consulting this bureau for they will make sure that you pay only the current price if you are buying, and get full value for your rights if you are selling. The last time stock rights were issued a number of people paid either too high prices or sold them for a song, while a consultation with the bureau would have prevented such occurrence. Last Wednesday each right was worth \$3.58½ on the market.

Remember that these A. T. and T. rights must be used or disposed of during June or July for they must be in New York on August 1st to be of value.

A THOUGHT FOR YOU

Hawthorne people who travel to work on the Burlington will find something worth thinking over in the following letter we have just received from J. P. Falk, division superintendent of the "Q". Mr. Falk writes:—

"I am going to ask your help. A great many W. E. people live out on our line, and use our trains both east and west bound. Some of these people are taking awful chances in getting off and on trains. They run helter-skelter over our main tracks and in the approach of trains moving east and west. This is noticed especially in the early hours of the morning. Men and girls get off eastbound trains and instead of using the subway leading to Cicero Ave., cut across our main tracks. If the practice is not stopped, someone is going to be killed. We have had our special officers stationed there but their efforts do not seem to be able to break up the practice.

"Thanking you,
"Yours very truly,
"J. P. Falk"

STAGE PROGRAM FOR WOUNDED "VETS" AT SPEEDWAY HOSPITAL

A breezy program with Hawthorne Follies atmosphere and caliber of cast entertained wounded veterans at the Edward Hines Memorial Hospital at the Speedway on Friday evening, June 13th.

Just to prove there is nothing in that Friday-the-13th story, the affair was probably the most successful and best received of all the shows ever given by Hawthorne talent at the big hospital.

The affair was under the auspices of the Hawthorne Club and Harry Mathisen closed his term as vice-president of the Club with a bit of entertainment that will long be remembered by the boys at the Maywood institution.

The program was opened by Miss Eleanor Kacinski, who sang some pleasing popular songs that were well received by the audience. She was followed by a bit of piano-tonguing by Miss Loretta Kane, after which Miss Ruth Schultz, cavorted through some very pretty fancy dances. A quintet of Hawthorne girls, togged in "kid clothes", next staged "In the Little Red School House", and made a wonderful hit. Later these same girls donned Hawaiian costumes and "Hula Loued". Those taking part in these two numbers were Misses Bess Dolejs, Louise Suchy, Sylvia Kase, Rose Smith and Harriet Findley. Two Columbia record concertina artists, Elim and Harris, played several splendid selections, after which Harry Mathisen and Miss Kacinski presented a little comedy skit that went over big. The next number was a ukulele duo by Misses Alice Lowe and Orielda Taudler, who certainly know how to tickle out tantalizing tunes. Miss Loretta Faxon sang "Jealous of You" as she walked through the audience and the boys were exceptionally well-pleased by the number. Professor Morgan, Hawthorne's chalk-talk art artist, was next, followed by the State Comedy Four, who wound up the program with one of their harmony treats.

PIONEER MEMBERSHIP GROWS

The list of Hawthorne Pioneers in the Theodore N. Vail Chapter continues to grow. New members have run the total up to 468, with 108 still eligible. Those who recently joined are:—G. H. Crane, Dept. 5925-1; Edmund Erickson, Dept. 6300; Louis Martin, Dept. 6300; J. J. McKenna, 6100; John Schilling, 2431-C; Bernhard Norem, 2442; Frank Just, 6345; W. M. Jouris, 2432; J. Klingensmaler, 7382; A. F. Gierz, 6355; F. M. Warner, 5036.

Nowadays it is getting so that if a man with 21 years of telephone experience isn't a Pioneer, the rest of the 21 year men hold a special session and debate on the phenomenon. Those who went to the Pioneer get-together held at the Works recently are especially sure everyone will want a badge of membership and have urged G. Hopf, phone 1559, to be on deck for receiving inquiries all the time.

SOCCER SQUAD WINS TWO MORE GAMES AND STAYS IN TITLE RACE

"A" Team Defeats Sparta Union Pros In Practice Tilt — Win From Y. M. H. A. By Big Score In Regular League Game

The Hawthorne "A" squad started the Chicago soccer world Saturday, June 7th, by taking a practice tilt from the strong Sparta Union Professionals, members of the strongest soccer league in the Chicago region.

The game was quite a struggle and if anything the Sparta team had a little the edge on Hawthorne in field maneuvers, but the clean tackling and kicking of Hawthorne's squad soon made the home team supporters sit up and take notice. Blair held the forwards together nicely and it was he who scored the first goal. Sparta replied instantly and Jack Thompson, attempting clearance, was brought down, the ball going to a Sparta man, who demonstrated why Sparta has such an enviable reputation in local soccer circles by defeating the Western goalie with a first timer.

The Niel brothers, two recruits who have played splendid soccer in Canada, proved their worth time and time again. Robertson on the right made numerous solo runs and in one instance was just about to score when he was "laid out". Toward the end of the first half Jack Thompson took a penalty kick, keeping clean his record of no goals missed by sinking Hawthorne's second goal.

The Spartans again attacked after this, bringing Gealy into prominence. That worthy saved a hot shot and headed the ball for a corner. The kick was a good one and though cleared was at once returned, defeating the Western goalie and knotting the score for the half at two goals each.

Shortly after the start of the second half Jack Thompson again put Hawthorne in the lead after a combination started by Robbie. Sparta pressed hard all through the period but the Western defense was too strong and Hawthorne emerged bruised, battered, but a goal ahead.

Defeat Hebrew Institute

Hawthorne triumphed over the Young Men's Hebrew Institute in a Chicago District League battle last Sunday on the Hebrew club's grounds. The Niel brothers were again present and along with Andy Stewart and Bob Hosie were responsible to a large extent for the way Hawthorne romped over the opposition.

The Jewish defense held for just 10 minutes. "Firpo" Gibson started things by centering to Niel, who took a first timer, beating the goalie with ease. A few minutes later he scored another goal from a pass from Ramsey. Every now and then a Hebrew combination would sweep up the field and Hosie was called upon to save some hot shots, but he proved equal to all occasions. Just before interval Stephenson passed to Robbie, who dropped another one to Niel, which very shortly after was reposing in the net.

Blair kicked off in the second half and Niel made headway, passing the ball to Jimmie, who scored goal number four. The Hawthorne defense time and time again blocked Hebrew rallies. Then after Stephenson headed to Blair, starting a combination, Robbie centered and Niel dropped in the fifth goal. This ended the scoring for the day, and Hawthorne practically kept the ball in the Hebrew half of the field all the way to the final whistle.

In a Peel Cup benefit game played Saturday, June 14th, between two picked squads of Chicago players, Stephenson and Fink, of the "A" team, and Towler, of the "B" team, played with the major league picked squad, while "Jock" Thompson played with the Chicago and District League team.

TWO BIRTMAN HURLERS CHASED TO SHOWERS IN BASEBALL TILT

**Locals Collect Fifteen Runs Off
Three Hurlers for Win Over
"Beevac" Squad—People's Gas
Wins From Locals, 7-6**

Hawthorne's corps of baseballers hit their stride for the first time this season, and also hit the ball for 15 runs in last Saturday's pastime on the Memorial Field diamond against the Birtman Electric Co.

In capturing those 15 markers, the local hitting artillery bombarded two Birtman hurlers so heavily that they were forced to retreat to the showers. The third Birtman hurler managed to stop the batting practice. Introduced by the umpire to the crowd in the sixth, he held Hawthorne to two runs and four hits in the four final frames. Counterattacks during the nine-frame battle gave the enemy only two runs and six hits.

Leaders in accumulating avoidupis on their batting averages were Janda and Ostrowsky. Janda got four safe bingles in six trips to the plate, while Leo Ostrowsky knocked three out where nobody lived in five visits to the batter's box. Leo's favorite tune must be "Runnin' Wild," for that's certainly what he did every time he got on the sacks. Altogether he stole four bases without once being arrested.

Although the game was played on our diamond it classed as a "visiting game" for us, giving our boys the first rap at the apple, and they had a run across two minutes after the umpire had broadcast the rival batteries. We got two more in the next three minutes. After the second inning Birtman's only hope was a sudden cloud-burst, for "Pepper" Brown, on the slab for the locals, was spitting "Beevac" batsmen to death. He allowed but six hits in nine innings and had opposing batsmen so well mixed that they were swinging at the bad ones and passing up the good ones. The team gave him excellent support all through the game. In fact, Jelinek at short and Muth at second were butting heads half the time in their anxiety to field everything in their vicinity.

Paulie Schaeffer, cavoring in center field, gave another of his exhibitions of fleet-footedness by running down a fly that looked as if it couldn't help but fall safe. It's a mystery how the Olympic scouts missed this little sprinter.

The victory was Hawthorne's second in four starts and fans are hoping there will be many more consecutive.

Gas Team Trims Us

Although Hawthorne's defense showed its last year's sparkle for the first time this year in the mix-up with the People's Gas tribe, staged on Memorial Field Saturday, June 7th, erratic twirling practically donated the battle to the Gasmen.

In spite of the defeat it was good to see Herbie Thompson stepping around as usual and his team mates celebrated their captain's return by pulling two pretty double plays and slamming out two homers and a total of nine safe bingles. Even this fielding and slugging, however, could not make up for the hurling deficit. The B. T. U.'s got away to a four-run lead in the first two frames, but Bruno, who relieved MacGregor at this point, held them to but one more hit in three innings. Then his floater got away from him in the fifth and sixth and although the visitors only got one safe blow in each of these frames, they received so many free passes that three more runs crossed the plate.

Hawthorne, held to one hit in five innings by a Gas twirler who knew how to mix 'em, got started in the sixth, and after two were dead, filled the bases. At this juncture the Gas squad's second-sacker pulled a sensational stab of Bill Heideman's Texas leaguer that looked good for two bases, preventing the locals from scoring.

In the seventh Jelinek started things by bunting one to 22nd St. for four bases, with nobody on a base. However, that revived Hawthorne's fast fading hopes to such an extent that three more runs crossed the plate.

In the ninth after two were out and rooters were already pouring out of the stands, Hawthorne staged its last rally, which fell short of tying the score by one run. Rolands got a free pass, and Matson brought him in by flattening another ball out against the side of the 50th St. "L" station for a homer. The rally ended when the next batter flied out. Score:—People's Gas 7, Hawthorne 6.

HAWTHORNE GIRLS PLAY BASEBALL AT SPEEDWAY

Western Electric girl devotees of our national sport journeyed to Speedway Hospital on June 7th for an exhibition game between the Works' team and a team from Div. 5530. The 250 vets who turned out seemed to enjoy the battle thoroughly, if loud laughter, indiscriminate cheering, plenty of "wise-cracks" and a running fire of jest directed at the umpire can be taken as indications.

Both teams motored to the hospital right after work and ate a basket lunch on the grounds. A slight drizzle of rain started about 1 P. M. and continued intermittently during most of the afternoon, but it did not dampen the enthusiasm of either the spectators or participants.

Heavy hitting by the regulars dominated the game and ran their score up by leaps and bounds, 16 runs being tallied in the sixth, which was the biggest inning. About half of the scores were made by home runs. The final score was 62 to 6.

The line-up for the Western team was:—Misses H. Findley, ls.; P. Atcheson, cf.; M. Micuch, 1st; M. Findley, p.; E. Skrzydlewski, 3rd; B. Dolejs, 2nd; L. Malina, c.; M. Kavanaugh, rs.; J. Vladike, lf.; M. Strnad, rf.; V. Jelinek, p.; M. Stejskal, rs. Captain Pruscha went out to see her team in action, but did not play.

The Machine Switching Engineering Clerical Division line-up was:—Misses M. West, rs.; M. McCall, lf.; C. Kross, cf.; H. McClellan, ls.; B. Lackovic, 1st; L. Deranek, rf.; F. Switters, 2nd; B. Howell, 3rd; A. Lackovic, c.; Mrs. Mabel Johnston, p.; Misses Mabel Kirwin, lf.; F. Salmki, c.; B. Horn, rf.

Captain Johnston's team is having difficulty in getting practice games and would like to arrange for some with men's teams at the Works. Managers can schedule games through Miss L. Malina, phone 1083. The team has also challenged the playground team of the Cicero Rotary Club.

SONG, DANCE, BUNCO ENLIVEN GIRLS' PARTY

The program of the girls' "stag" held in the Works Restaurant Building June 12th, offered a plentiful variety of entertainment, with bunco occupying the bulk of the evening. Two child dancers, Misses Bonnie Svasta and Dorothy Janicek, the first only four years old, won the hearts of their audience with several dainty dances. Both girls are pupils of Miss Betty Skolka, Dept. 6136.

Another popular number was the singing of Miss Loreta Faxon, who was accompanied by Miss Loreta Kane. Community singing and the dance numbers were followed by Hawthorne's instrumental trio, composed of Misses Helen Bafony, piano, Irene and Mary Blasko, violins.

Bunco occupied the rest of the evening and revealed some experts with snake-eyed cubes. From the time the first point was called until the last bunco was reached the air was filled with a sharp, continuous rattle of dice. Well, just imagine 400 girls rolling the ivories at a mile a minute clip.

There was a reason; the committee had arranged for 72 prizes. The three main prizes were won by:—1st, Misses A. Pesek, 2490-S; 2nd, H. Pollack, 6317; 3rd, C. Galka, 6100-A. Other prizes were won by: Miss M. Kuta, Dept. 6323; R. Skala, Dept. 5074-2; M. Labow, Dept. 6366; G. Ouvas, Dept. 6729; M. Boike, Dept. 5074; S. Torde, Dept. 6642-3; B. Svasta; R. Koblih, 6335; B. Hanzlik, 6087-1; J. Stee, 6574-2; A. Stasek, 6372; M. Latowski, 6323; M. Planomins, 6642-3; V. Miller, 7394; L. Roche, 6319; E. Pratt, 5035; G. Schuz, 6325; V. Haynes, 6156-3; J. Ehlert, 5074-1; M. Christy, 6644-3; R. Zenna, 6332; J. Shields, 5035-1; E. Farmer, 6124-2A; A. Schroeder, 6671-4; M. Pilarski, 6333; R. Beran, 6352; E. Cisar, 6032; S. Daley, 6729; M. Cerny, 7391; M. Chebher, 6325; M. Branski, 6332; M. Plakarski, 6366; E. Krawizak, 6366; S. Dudys, 6270; M. Walsh, 6571-2; A. Danlik, 6641-2; S. Mirek, 6643; A. Ujak, 6325; C. Kozderka, 6323; R. Schroeder, 6571-2; K. Kraemer, 6571-2; F. Freezloch, 6335; K. Moroso, 6671-6; M. Glom, 7391; A. Bryda, 5074-2; M. Veseley, 5074-1; M. Turder, 6366; S. Bartell, 6100-A; B. Kulka, 6573-2; H. Lisaka, 5074-1; E. Trapp, 5653-4; R. York, 6033-2; J. Kingston, 6641-2; F. Hammond, 6332; A. Draiziger, 6321; H. Hyndman, 6156-2; T. Prokop, 6366; M. Rohde, 6319; P. Braneski, 6332; A. Kara, 6121-1A; D. Palky, 6329; J. Domarski, 6319; A. Blavka, 6333; S. Radcliffe, 6162; A. Zuko, 6162; E. Breischneider, 6332; M. Janovsky, 6033-1; A. Thiene, 6328; B. Adler, 6333.

GIRL BRIDLE PATH DEVOTEES START SEASON

Hawthorne girls have started the summer season on the bridle path. Some 20 girls enjoyed the ride on the Columbus Park course Wednesday night (June 11th), which was the second taken this season. Future rides will probably be scheduled for Tuesday evening of each week.

Horses are being hired at the Columbus Park stables, but under different arrangements than were made last year. During 1923 one member of the riding class made all stable reservations. This year each girl will arrange for her own mount. Details can be secured from Miss M. Roddy, chairman of the Women's Activities Section, phone 1024.

HAWTHORNE NET TEAM DEFEATS SOUTH PARK IN TENNIS FINALS

Hawthorne's "B" net squad won its final match last Saturday, June 14th, from the South Park team by a score of 8 to 1. The local squad had easy sailing, dropping only one singles match and cleaning up on the doubles.

This match concluded the "B" schedule, but the "C" team has several more matches to play.

Three of the first team players are now competing in the City Tennis Championship, which start today at the Chicago Tennis Club courts. The local contenders are F. R. Meyers, M. Fogler and D. K. Stier.

Summary of South Park Game

Singles:—O'Connell (S.P.) defeated Stier (H.) 6-1, 6-1. Fogler (H.) defeated Gelder (S.P.) 6-2, 6-3. Grabelle (H.) defeated Nickel (S.P.) 6-4, 7-5. McAllister (H.) defeated Northrup (S.P.) 6-1, 6-3. Elliot (H.) defeated Jackson (S.P.) 6-2, 6-2. Latane (H.) defeated Wall (S.P.) 6-3, 4-6, 6-1.

Doubles:—Fogler and Elliot (H.) defeated O'Connell and Jackson (S.P.) 6-1, 6-3. Stier and Jones (H.) defeated Nickel and Weber (S.P.) 6-3, 6-4. McAllister and Grabelle (H.) defeated Gelder and Northrup (S.P.) 6-2, 6-3.

Score:—Hawthorne, 8; South Park, 1.

BOYS CAMP AT DUNES

The first hike for boys of Hawthorne came to a successful conclusion the night of June 15th, when the 13 young huskies were returned to their homes in time for supper.

The boys left the Works Saturday noon, went direct to Dune Park, Ind., by train, and then hiked to the lake shore.

The afternoon was spent struggling with the new pup tents, short explorations up and down the shore, a ball game and preparation of supper, each boy cooking his own "grub". In the evening, another ball game and then a camp-fire gathering filled the hours until taps. Eventually the camp slumbered, to wake in a drizzling rain. Rah for pup tents!

However, the weather didn't dampen the boys' spirits a bit. Breakfast, a hike, a baseball game, boating and swimming followed each other in rapid succession, dinner time coming before it was realized. Another ball game was started after dinner, but had to be abandoned midway in order to get to the station on schedule.

The boys are now looking forward to the next camp, June 28th and 29th. It will be pitched at Warrensville, on the DuPage River. Boys desiring information regarding these camps can get it from A. E. Hayes or A. L. Twigg, Room 210, Bldg. 33-2.

The past two weeks has seen plenty of pep in Sandlot League circles with the help of Old Sol. The athletic field has been in a fairly crowded condition almost every night, with three, four and five games being played at the same time. A good proportion of games have been between girls.

An outstanding achievement of the week was the work of M. J. Gniadek, who pitched a no-hit, no-run game of regulation ball for Pete's Editors in their game with Adamson's Layout Tribe.

Among the playground ball teams, the Rink-ey-Dinks stand a chance of grabbing every game, since they have come into possession of a home-run cap that J. D. Lowery, 6109-3, brought with him from Mississippi.

Down at 74th St. a girls' league has gone into action, four teams being lined up. Recent results are given below.

The biggest drawing card was the game between Mann's Sox of the Clerical Division and Clifford's Daffodils of the Accounting Division, won by the Sox. Over 300 loyal rooters turned out to rant and rave along the side lines.

When a score on a game of regulation ball is given a special note will be made, instead of giving a general classification as heretofore.

Recent results are:—

GIRLS

74th Street Girls' League

June
3rd.—Bobbed Haired Bandits, 14; Window Busters, 12.
3rd.—Chicken Fighters, 15; Powder Puffs, 3.

TRACK GIRLS CALLED OUT

Aspirants for positions on Hawthorne's track squad will find a welcome waiting for them when they report. With an eye to developing a winning team for the fall meet, Miss Margaret Kavanaugh has already arranged for practice on Thursdays and is now looking for girls who can help build up the team. W. T. Foreman, Div. 6606, will coach this year.

Events in prospect for the fall meet are:—60 and 100-yard dashes; standing and running broad-jump; and running high-jump.

Girls who would like to participate are invited to call Miss Kavanaugh on phone 703, or to visit her at noon time in Dept. 6045, Bldg. 26-6.

TWO HAWTHORNE GIRLS

HURT WHEN ELEVATED AND FORD CAR CRASH

Miss Helen Caveny, 4349 W. Congress St., a member of Payroll Distribution Dept. 5035-1, and Miss Eleanor Flight, of 4431 W. Van Buren St., who works in Equipment Scheduling Dept. 6554, were badly injured when a Ford in which they were riding was struck by a Douglas Park elevated train at the 62nd Place crossing late Thursday evening, June 12th. The other occupants of the car, Morris Kline, 4442 W. Congress, and Frank Stanton, 343 S. Kilbourn Ave., were also seriously injured, Kline most seriously, although it is believed he will recover.

The party was driving North on 62nd Place at about 10:30. They failed to see or hear the approaching train until it struck their machine. Luckily the impact of the train threw the motorists out of the car, for the machine was dragged quite a distance before the train could be stopped, and there was nothing left of it but a mass of wreckage. Miss Flight was thrown across the track and the rest of the occupants into the street.

Both of the young women were quite badly hurt. Miss Flight received a cut over the head and a broken arm. Miss Caveny suffered a broken hip and several broken ribs, in addition to several bad bruises. Mr. Kline, the most seriously injured, has a fighting chance for recovery. He has a fractured skull and one arm is broken in several places. Mr. Stanton apparently escaped with a few bad bruises and cuts.

O. CARPENTER GOES TO KEARNY

O. Carpenter, principal of the Hawthorne Evening School and chief of the College Student Training Department, left Hawthorne, Friday, June 13th, for Kearny, where he has been transferred to take care of training work at the new plant.

Mr. Carpenter was a much banqueted guest during the week previous to his departure. Practically every evening he was attending some farewell gathering. The biggest of these occurred on Tuesday, June 10th, when all the graduates of the college training courses since Mr. Carpenter has been chief of the organization (1922) assembled in the Mandarin Inn for what was anything but a tearful send-off. After a very touching ceremony in which Mr. Carpenter was made chief mosquito of the Kearny marshes and armed with a mammoth mosquito swatter to serve as his scepter, the departing guest was presented with a pink pajama costume, which he was compelled to try on before the gathering. By the time he had struggled into them, he was blushing so generously that it was impossible to tell how much of the roseate tint of the scenery was furnished by the recipient and how much by the pajamas.

Mr. Carpenter started with the Company as a student in 1915. At the completion of his training course he was transferred to the Production Methods Division, and in 1918 he was promoted to chief of College Training Department 6087, the position he held at the time of his transfer to Kearny. He also served as principal of the Hawthorne Club evening School during the 1923-1924 school year.

74th ST. CHAMPS DISCOVERED

Keeping up with the pace set by its playground ball leagues, our 74th St. plant has developed a pair of barnyard golf champions in the persons of J. Gross, Dept. 9113-5, and W. Mitchels, Dept. 9108-3. In the final games of a tourney just completed they won by scores of 21-4 and 21-19.

In search of further activity, two 74th St. ball teams will play a double header against our 35th St. plant at Sherman Park tomorrow.

EQUIPMENT GROUP SPENDS WEEK END AT GRAND BEACH

In spite of threatening weather, 132 department heads of the Equipment Branch journeyed to Grand Beach on the shores of Lake Michigan, the afternoon of June 7th, for a week-end outing that has not been surpassed in history.

Planning your work and working your plans applies as effectively to outings as it does to work, and this party proved it. First of all the transportation committee gathered up a thousand or more golf bags, grips, lunch boxes, trunks, etc., at the Works and delivered every one to its owner on the train. Every one agreed that was a perfect start.

A box lunch prepared everyone for the train ride and the afternoon's activities, which started as soon as the train stopped. At the end of a quarter-mile hike the party found the hotel and S. M. Wilson, general chairman, waiting with a cordial welcome. Immediately, golfers, horseshoe experts and baseball fans climbed into proper togs and sallied forth to try their skill.

Dinner started at 7:30. J. Harper, toastmaster, calling for a toast to his excellency "Equip-tor." It was given amidst many joyous "Ahs!" During the dinner hour A. Krevis put a banjo through its paces. E. H. Jacobs tickled the ivories and H. J. Derby gave a vocal solo. J. Harper rendered a new Scotch song and danced the sailor's hornpipe. Also, radio songsters H. F. Allison, F. A. Pekar and E. F. Salter broadcast a thousand or more "How-do-you-do's", managing to work in a clever punning on practically everyone.

The evening was spent in calm disdain of bad weather, the party whiling away the time playing cards until initiation time came, when the unlucky Equip-teens prepared for translocation to Equiptors. By morning they were full fledged members, tired perhaps, happy without doubt.

At 9:30 A. M. on Sunday the regular golf tournament started, despite the all night rain. There was but one sad incident, the failure of the photographer to get a picture of R. R. Winklepleck when he flopped into the water hole. Baseball games and horseshoe contests filled the day for those who didn't golf. During dinner the winners were announced and applauded.

By that time the end of the outing was fast approaching, and shortly thereafter the Equiptors climbed aboard the train, a little stiff and a trifle tired, but none the less firmly convinced that they had attended one of the best little outings ever scheduled.

DRILLERS STAGE BIG PICNIC

"Smiling Drill Chips" Spend June 14th Jolly - Good - Timing at White Eagles Grove

About 800 merry-makers were present at "White Eagles Grove" Saturday afternoon, June 14th, when the drill room, officially known as Dept. 6333, opened festivities in their first picnic. The affair was under the auspices of "Smiling Drill Chips", the department's fellowship club, and it was certainly a winner.

Benz's famous jazz band arrived at about 2 o'clock and got things started by flooding the grove with syncopation. Then followed two games of baseball. One, between the Western Electric girls' baseball team and the drilling department men, ended disastrously for the men when in the final inning the girls scored 15 runs to win 18-12. In the other the White Sox of 6346 beat the Cubs of 6333 by a score of 21 to 3.

A very interesting novelty program followed the ball games. There were foot races for fat ladies, fat men, young men and children, besides a wheelbarrow race for girls and a football kicking contest for women. About a dozen boys gathered around generous pieces of loosely constructed blueberry pie for a good old-fashioned pie-eating contest, while a crackerjack parade was staged for the kiddies. The program ended with two dancing contests, a waltz and a fox-trot, after which everybody enjoyed walking the waxed boards.

About 10:30 the band packed up their music while "Home, Sweet Home" was played by the flutters.

RIFLE DAY GOES BIG

New Shooters Win Prizes and Old Marksmen Show Their Skill in Rifle Club Events

The Hawthorne Rifle Club threw open the doors of its range, June 7th and invited all comers to take part in their Rifle Day program, an event sponsored by our Government, which is desirous that Americans become better acquainted with a distinctly American weapon. About 150 people took advantage of the opportunity.

Six matches were arranged, including two specials for novices, one for boys and another for women. The first match was a novelty event. The winners were—1st, S. H. Davies, Dept. 6662-1 (\$5 merchandise); 2nd, J. R. Walker, 6725-B (\$3.50 merchandise); 3rd, Miss L. Novak, 6726 (\$1.50 merchandise). Experts had an opportunity in the next match, a Swiss event. The winners were—E. D. Swanberg, 5996-2A (silver medal); 2nd, W. T. Barrans, 2419 (bronze medal); 3rd, J. R. Walker, 6725-B (bronze medal). The third event was a special for boys. Winners were—1st, Frank La Rue, 5653-2 (silver medal); 2nd, Carl La Rue, 5653-2 (bronze medal); 3rd, Gordon Greene, 6020-S (bronze medal). Match No. 4 was for ladies only. When the smoke cleared away the positions were—1st, Miss Helen Sage, 2431 (silver medal); 2nd, Miss Dorothy Swenson, 2433-C (bronze medal); 3rd, Miss L. Novak, 6726 (bronze medal). Match No. 5 was another novelty event.

Winners were—1st, G. G. Overpeck, 5997-1F (\$5 merchandise); 2nd, D. Swenson, 2433-C (\$3.50 merchandise); 3rd, J. R. Walker, 6725-B (\$1.50 merchandise). Match No. 6, a three-position event, resulted in remarkably close shooting, the winners getting exactly the same score. Their positions were determined by taking one section of the score, the score made in a standing position. Winners were—1st, W. T. Barrans, 2419 (silver medal); 2nd, J. Shimek, 2413 (bronze medal); 3rd, E. D. Swanberg, 5996-2 (bronze medal).

This is the last competition to be held until fall. Some of the members of the club expect to enter the small-bore shoot of the Chicago and Illinois State Rifle Association in Chicago July 5th and 6th.

A special ventilation system for the range went into operation on June 7th and improved the vision remarkably. A vent has been cut in the bottom of the tubes about ten feet from the shooting end, all gases and smoke being drawn off by suction.

The Advertising Council of the Chicago Association of Commerce visited Hawthorne June 6th. About 150 of the members had luncheon in the Works Restaurant, where they were welcomed by S. S. Holmes, assistant Works manager. Their reply was given by C. A. Tupper, president of the International Trade Press. Following the luncheon the guests were shown through the factory.

"Goodbye, boys", sang the Equipment Engineering quartette last Friday evening. They were serenading G. E. Counihan, Dept. 5544-1, who had transferred into the ranks of the benedicks. Of course, that wasn't all there was to the celebration. A couple of hundred friends crowded down to the corner where his desk was, a shower of rice clouded the air for several minutes, following which he contracted a case of President's arm from congratulatory handshakes.

The Hawthorne Club has received word that the West Side Y. W. C. A. will give a course of swimming lessons during June, July and August for \$3.50. Classes will be held three times a week. Other information regarding the lessons can be secured from Miss M. Roddy, 'phone 1024.

Friends of Miss E. M. Heerdt, Dept. 7394, showered her with congratulations, a ton or less of rice and a bushel of confetti on June 6th, when she announced her engagement. Gay decorations on her desk added to the spirit of the occasion. Miss Heerdt is soon to be married to Martin Galema, of Lafayette, Ind.

A group of 24 girls from the Cost Division were guests at the home of Mr. and Mrs. E. P. Kersten, Chicago, on June 4th. It was an all-around Cost Division gathering. Mr. Kersten is a member of Dept. 5036-3 and the hostess was one of "the gang" until quite recently.

When you've lost your purse, and in it was a goodly sum of money, besides your entrance card, and your favorite etceteras, and you go home and try to forget it, and the next morning your boss calls you over and tells you that there is a package for you and you unwrap it and find the lost purse—ain't it a grand and glorious feeling? That's what happened to Miss Sarah Donohue, of Relay Dept. 6326. The purse was found and returned by Miss Sophie Wilowski, of Relay Assembly Dept. 6329.

Two sections of the Cost Division tied for first place in the attendance record contest for May. Both 5036-3E, headed by H. G. Wurtz, and 5036-4C, headed by R. L. Miller, came through the month with a perfect record. Mr. Wurtz's section also won the contest for April.

About 35 members of Dept. 7682 journeyed out to Diamond Lake for a day's outing on June 15th. They left Chicago early in the morning by motor truck, arriving at the lake about 9:30. A basket lunch kept the outers in the proper frame of mind to enjoy the dancing, fishing and boating, that filled the afternoon and evening.

Hawthorne's youngest social organization, the Hawthorne Wire Inspection Club, had its first "big time" at the Chateau Des Plaines in Lyons, June 12th. Following their chicken dinner the 19 participants sat back to enjoy the vaudeville that had been arranged by J. Malang, and finally pronounced the one as good as the other. The recently elected officers of the club are—F. Weinberg, president; L. C. Walden, vice-president; F. Schoenke, secretary-treasurer.

V. S. Shortinger, of Dept. 6328, was recently awarded a medal for heroism in saving a young man from drowning on July 6, 1923. The presentation was made before a Boy Scouts Court of Honor held at Lincoln, Ill., where Mr. Shortinger's parents live.

GIRLS' GYM CLASS ENDS

The last lesson of the girls' gymnasium course was given June 13th. The course, which was under the direction of Miss Olive Swanson, consisted of 15 classes, one being given every week in the Works Restaurant Building. About 30 girls were enrolled.

At each class the preliminary work consisted of setting-up and limbering exercises, which was followed by instruction in aesthetic and ballroom dancing.

APPARATUS TRACING DIVISION HOLDS ITS PICNIC ON DES PLAINES

An old-fashioned basket picnic was held Saturday, June 10th, by members of Piece Part and Stock Apparatus Tracing Div. 6113, their families and friends at Schulz's Grove, located on the banks of the Des Plaines River. From the time the first basket toter arrived until 9:00 P. M., when the last dancers, tired but happy, went their way, everything in a well-arranged program went over on "scheduled time", which was not unusual considering the expert tracers on hand to see that no "back schedules" were carried.

After a short skirmish, followed by a concentrated drive on the contents of the baskets, the entire company, clad in gay paper hats and armed with noise makers, formed in a grand march to the ball field to watch the single and double harnessers fight out their claims to baseball supremacy.

In the game that followed the well-known God of Fortune decided to smile on the benedicts by way of change, said god being personally represented by E. J. Hanley in the role of umpire, who permitted the long-suffering married men to carry off the honors by the score of 2 to 1. On one occasion, a batting rally in the ranks of the single men's team was ruthlessly nipped in the bud by the umpire calling a runner out when he was touched by the ball after having crossed the home plate by only five feet, thus retiring the side. Hanley later announced the discovery of spots on the sun and the incident was passed over. Another feature of the game occurred during the fifth inning, when to all appearances the second baseman, Rossiter, decided to take matters into his own hands. In an attempt to stem the tide of victory, he grabbed baserunner Cheney by the foot and apparently tried to bite him in the leg. Cheney, however, continued on his way and Rossiter gamely stayed in the game, making light of the fact that three of his fingers were completely numb and hanging limp.

Following the ball game came the races of various kinds, which provided entertainment as well as opportunity to gain one or more of the numerous prizes allotted to the winners. The racing program was completed about four o'clock and from then on interest centered on the dancing pavilion.

First of all came the distribution of prizes to the winners. An interesting feature here was the presentation to Mrs. Hanley of a basket of beautiful flowers, just after she had passed out the last of the prizes.

Entranced by the music furnished by Chapman's Orchestra ("home talent") the crowd was reluctant to leave the dance floor to make way for more special features in the afternoon's entertainment.

An excellent interpretation of the Argentine tango was given by Miss Jean Haydock and Reo Bartney; and Miss Violet Jelinek and Jack Clifford. This was followed by a novelty dance and buck-and-wing dance given by Phyllis, the eleven-year-old daughter of Mr. and Mrs. S. L. Huffman. Ballard Smith, well known to radio fans who tune in on KYW, followed with a baritone solo. The entertainment was concluded with two soprano solos ably rendered by Miss Bessie Rezac.

The crowd then gathered on the ball field and a group picture was taken, after which the finishing attack was directed at what was left of the contents of the picnic baskets and the big day wound up with community singing and dancing.

MISS STONE TO VISIT EUROPE

Miss R. I. Stone, chief of the Women's Service Department, has been granted a three months' leave of absence, during which time she will tour Europe.

Miss Stone leaves New York June 28th on the S. S. California, which goes direct to Glasgow. From there she will travel through England, after which she will cross to the continent and visit practically every large city and industrial center, except those in Spain and Russia.

Preparatory to her departure, numerous groups of Miss Stone's Hawthorne friends have been giving parties, luncheons and dinners, ranging from a reception at the Piccadilly Club in the Fine Arts Building to a garden luncheon in Wheaton.

Miss M. S. Patterson will have charge of the Women's Service Department until October 13th, when Miss Stone returns.

GOLFERS STIR UP TURF

Tournaments Attract Big Entries— Girls to Play at Hillside

Hawthorne golfers have been swinging their clubs pretty briskly of late, with better conditions on the course helping to reduce gross scores. The increased activity has thrown an extra amount of work on the Sports and Pastimes Committee in the way of refiguring handicaps.

On June 7th, 150 members turned out to the medal play class handicap, which was won by J. R. Haines, in Class A, and E. A. Hemmer, in Class B. The two winners were awarded iron clubs, the others who placed receiving golf balls. The final line-up, with net scores, was as follows:—

Class A	Class B
J. R. Haines.....70	E. A. Hemmer.....70
J. B. Mudge.....71	R. Snyder.....71
C. L. Callender.....72	O. Beardsley.....74
A. Miller.....72	W. H. Smythe.....75
H. J. Bedard.....72	J. Larson.....77
E. L. Allers.....73	L. Slad.....78

The following Saturday about 100 golfers turned out for the qualifying flights of the spring handicap. The following placed in the order given:—Class A:—M. Scott, R. C. Hart, K. H. Rohrbach; H. J. Bedard, R. C. Miller, W. Hart, W. J. Dawe, S. Morgan, J. Mudge, P. Nylen, C. R. Mason, E. C. Noss, V. U. Tessler, E. Allers, W. H. Smythe, R. Grant. Class B:—C. W. Cushing, A.

G. Koldoff, J. A. Quinn, L. M. Wheeler, E. L. Kinlock, C. J. Solawetz, E. L. Malhoit, P. W. Lofstrom, W. G. Mery, E. A. Hemmer, E. Lane, J. Larsen, H. J. Ryan, S. A. Weller, L. J. Linden, W. F. Hamenberg.

During the day R. C. Hart, playing in championship form, made a record gross score of 84.

With spring events out of the way the club is ready to swing into its summer events, which are scheduled for every Saturday right through to August 30th. It is expected that the Fairlawn's permanent greens will be opened in a week or two. When they are, golfers expect to cut their gross scores a few strokes.

For the benefit of those seeking information the following committees are listed:—Sports and Pastimes:—K. H. Rohrbach (chairman), 'phone 854; C. S. Kistler, 'phone 715; P. E. Kern, 'phone 1676; P. W. Lofstrom, 'phone 1009. Membership:—G. L. Callender (chairman), 'phone 1612; W. D. Dawe, 'phone 1503; C. W. Cushing, 'phone 1803; C. J. Solawetz, 'phone 654.

Women's Tourney at Hillside

The girls will play a blind bogey tournament at the Hillside course on June 21st. Four prizes, all golf balls, will be awarded to those who place.

OUTDOOR FANS TO CELEBRATE FOURTH

Will Make Big Trip to the Sand Dunes On Independence Day

The outdoor fans who made a scouting trip to the dune region a few weeks ago brought back such an interesting report of the latest creations of Mother Nature in that beautiful country that a big 4th of July outing has been scheduled for the same place.

In addition to enjoying the picturesqueness of beautiful Dune Park, the party expect to get a chance to don bathing suits, as the south end of the lake warms up rapidly and should be comfortable for swimming by July.

All Hawthornites who would like to spend the Fourth in the heart of this Indiana fair-land are invited to join the party. You are assured of a rollicking good time if you go out with these enthusiastic outdoor fans, for they are a jolly crew. In addition, the leaders know where to pilot the party to all the prettiest spots in the region.

Those who make the trip are urged to bring cameras, lunch, drinking cups and bathing suits. Coffee will be provided by the club and dressing room accommodations will also be secured.

The cost of the trip will be \$2. Excursion tickets can be purchased at the station from the Hawthorne Club committee men with the blue badges.

The party will meet at the La Salle Street station and take the 8:25 A. M. train to the dunes. For further information call L. C. Aldrich, Dept. 5532-2, 'phone 1817, or Miss C. Graff, 6601, 'phone 1486.

RADIO FANS THROG CLASSROOM TO HEAR TALK ON TUBES

A large group of Hawthorne radio fans crowded into a classroom in Bldg. 33-2 on Thursday, June 12th, to watch H. E. Kranz dissect a Western Electric vacuum tube into its elements. The speaker, who is a development engineer, outlined every step in the manufacture of the Company's tubes and the radio fans "ate it" all with a real relish. After his talk the fans showered the speaker with questions not only on our tubes but also about various other makes.

So enthusiastic was the gathering that, although this was to have been the last meeting until September, there was an almost unanimous vote for another session to be held Thursday, June 26th.

In the brief business meeting that followed Mr. Kranz's talk, the suggestion was made that the club start a print service for its members, furnishing data sheets and circuits on any radio apparatus in which members are interested. Much of this data, it was thought, could be worked out by the members themselves at a regular meeting and then compiled.

Miles B. Umnitz, chairman of the club, made a few remarks, urging those present not only to take a whole-hearted interest in the club themselves but to tell their friends about it. "There are 40,000 people at Hawthorne," he continued, "and at least 10 percent of them are radio fans. There is no reason why every one of those radio fans shouldn't be a member and make this the biggest radio club in the country."

Cards of Thanks

Miss Elsie Hayek and family wish to acknowledge with sincere thanks the kind expressions of sympathy shown them by members of Dept. 6574-5 and Dept. 6111 in their late bereavement.

Mrs. Marie Havin wishes to extend her thanks to the members of Dept. 6522 for the beautiful floral piece and the kind sympathy shown in her bereavement; also to those who have shown their kindness during her son's illness.

To Dept. 5913:—We wish to express our sincere appreciation for the sympathy extended to us in our recent bereavement.

Mr. Buresh and Children

To Dept. 6336 and Div. 6562:—With deep appreciation and sincere gratitude we extend our heart-felt thanks for your kind expression of sympathy in our recent bereavement.

Frank Dusek and family

New York City has over five times as many telephones as all of Russia, and nearly twice as many as the whole of France.

Classified Ads

Articles or property advertised in these columns must be owned by Hawthorne employees. Advertisements must not exceed 25 words in length and must be submitted signed with owner's name and department number. Address all communications to Miss R. J. Proctor, Dept. 5078-2, telephone 1949. These advertisements are printed without charge and The Microphone disclaims all responsibility for the accuracy and veracity of statements contained therein. Advertisements will be printed only once unless a renewing request is received for each issue. Saturday preceding the date of publication is the latest date on which advertisements can be accepted for any issue.

As The Microphone does not reach everyone at the same time on Friday, information regarding articles advertised will not be given out before Saturday morning.

FOR SALE
