

# The Hawthorne Microphone

VOLUME 3

FRIDAY, OCTOBER 10, 1924

NUMBER 21

## FILE EXPERTS CARRY HAWTHORNE COLORS IN NATIONAL TOURNAMENT

### Our Rifle Club Members Drill Out Scores that Make National Shooters Take Notice—Return with 25 Medals

Four Rifle Club members, who have been trying their skill in the local tubes or on the Fort Sheridan range during the past year, recently decided to try their hands in a larger way and entered the national matches at Camp Perry. What they did to the targets and list of prizes down there made the rest of the field sit up, rub its eyes and ask where the Hawthorne Club hailed from.

The Hawthorne marksmen who participated were: Miss Freda Switters and J. F. Wegforth, Machine Switching Engineering Department; J. R. Walker, Mechanical Engineering Department No. 2; and R. M. Lindsay, of the Toolmaking and Designing Apprentice Department. This group brought back to Hawthorne 25 medals, 26 bars, 26 prize checks and one bronze arm band. They represented the Hawthorne Club in several club events with the service rifle, Miss Switters using the heavy gun so they could enter a four-gun team. This was a distinct handicap, since the ammunition used gave the rifles a recoil of 32 pounds, just double that of regulation army ammunition, and Miss Switters had previously used nothing but a .22 rifle. Despite that fact, our four gave other clubs lively competition and in one case just missed grabbing the medals by one point.

The representation in the meet was well balanced, with Mr. Lindsay representing the club in large-bore matches, Mr. Walker specializing in small-bore shooting, Mr. Wegforth competing to some extent in both and Miss Switters leading the girls. By the end of the shoot, R. H. Lindsay had corralled ten medals, a bronze arm band and five stars. J. R. Walker succeeded in collecting eight medals, and J. F. Wegforth six. Miss Switters was "out of luck", since no women showed up to compete with her team. Nevertheless she received one medal for high standing on her own team. The record our men made is all the more remarkable because of the fact that at least a thousand entries had to be run off. As the men who had entered were drawn from the entire United States and its possessions, there were plenty of high-class shooters among the entrants.

With the large caliber gun Lindsay carried the Hawthorne colors into the front ranks, landing in the President's Hundred as his premier achievement. There were approximately 1,100 shooting for this honor, divided between civilians and service men. Out of the group of civilians selected Lindsay placed second, losing by one point. His score gave him tenth place when the hundred was finally made up. The match was shot at 200, 600 and 1,000 yards, off hand and prone fire. Winners were awarded a bronze medal and arm bar. Besides this achievement Lindsay made the team that represented civilians in their match with the army, navy, marine corps and national guard; received high honors on the Illinois State team; qualified as an expert rifleman, the highest rank in the army; and made the Herrick Trophy eight-man team and the Fort Clinton six-man-teams. He also did a great deal of shooting in individual matches.

In the small-bore field J. R. Walker placed on the most important team, made up of 20 men selected from contestants representing every state, which competed with Australia, Canada and England for the Dewar Trophy, a four-foot cup that stimulates brisk competition every year. The match was shot at 50 and 100 yards with metallic sights. The team had to do some fancy shooting to beat England, who broke the world's record, but at the final count it was found that the U. S. team had surpassed England's mark.

Walker's work in this event netted him a silver medal. He also made the Illinois state team and secured a sharpshooter's grade in the army tests besides numerous medals, bars and checks in various individual matches.

J. F. Wegforth divided his activities between individual and team work, shooting on the state team of ten in service rifle matches, in the national small-bore individual matches and in the national individual matches with a service rifle.

By the time our team started for home every shooter at Camp Perry knew the Hawthorne Rifle Club was on the map.

Incidentally, Works people who think they might like to have a part in the activities next year will have an opportunity to practice up this winter. The club's winter schedule is well started, but there is still time to enter the various matches.

### PARADISE NEXT STOP

Hawthorne's merry frolickers will step over to Guyon's Paradise for their next dance. Get your passports from Mr. Club Representative.

## HE'S GROWN SINCE 1913

### TELEPHONE PIONEERS, CONVENED IN CHICAGO, VISIT WORKS SATURDAY

Telephone Pioneers, who are in Chicago for the three-day convention of the organization, visit Hawthorne tomorrow morning for an inspection trip through the grounds, and some of the more interesting of our numerous manufacturing departments. This will be the second trip that Pioneer conventioners have made to the telephone workshop since the formation of the association.

Their first visit to Hawthorne was in 1913, during their third annual convention, held on October 17th and 18th. Even at that date the Works gave promise of huge proportions. Those out-of-town pioneers who were here before will probably recognize tomorrow some of the extensions in building or equipment that were being talked about at the time of their last visit.

The trip to the Works will be a feature of the last day of the Pioneers' eleventh annual meeting, which closes Saturday evening after three days of enjoyment. Thursday was registration day, with a general get-together in the evening at the Edge-water Beach Hotel, the convention headquarters. The General Assembly met the same evening at eight o'clock. The annual meeting was held today at 10:00 A. M., with the afternoon left open for trips through the city, theater parties, etc. This evening the entertainment consists of a dance and moving pictures of the telephone business. Following the trip to Hawthorne tomorrow morning the afternoon will be left open for individual amusement. The final event will be an informal entertainment under the auspices of Theodore N. Vail Chapter, No. 1, in the evening.

Incidentally, as the convention drew near, Hawthorne approached a 100 percent membership in the Pioneers, advance news of the event inducing many to hurry in their applications. Hawthorne's membership in Theodore N. Vail Chapter, No. 1, is now 506.

### RETIRED EMPLOYEES VISIT US ON FIELD DAY

#### Return to See Old Companions and Watch Track Flashes

Twenty-five retired Hawthornites returned to the Works on September 27th, to give the old stamping grounds the once over, renew old acquaintances in various departments and watch the events that crowded the oval on Memorial Field at the annual track and field meet in the afternoon.

The group gathered near Gate 1 at 10 A. M. and then proceeded to the Rod and Wire Mill to give our newest manufacturing processes a thorough inspection. Following the trip many of the party visited their old departments.

The group gathered again at 11:45 for a special luncheon in the Works Restaurant. During luncheon E. A. Hauser, general foreman of Machine Division No. 1, acted as toastmaster and introduced the speakers, C. G. Stoll, Works manager, and H. E. Mathisen, president of the Hawthorne Club. Mr. Hauser also looked after the comforts of the party during the afternoon at the track and field meet where a special section of the grandstand was reserved for them, and where they were introduced to the leading athletes.

The party of visiting veterans consisted of: Charles Simmons, G. S. Thompson, Fred Nelson, C. Carlander, V. J. Chopard, L. Leahy, C. Bergquist, Sr., A. Hoffman, L. A. Stone, G. Fisher, A. L. Jacoby, W. S. Maloney, E. Van Rans, C. J. Malmros, E. R. Jeschke, Lou Dillon, S. Smith, J. J. Ludwig, M. Wiggemhouser, F. Reschke, E. Piedfort, J. Harnett, C. Hammer, H. Brahm, and L. Rosene.

### FORMER EMPLOYEES VIEW WORKS AFTER THIRTY-FIVE YEARS

Rip Van Winkle was no more surprised when he returned to his home after his twenty-year visit to Slumberland than were two women travelers from California, former Company employees, who after 35 years paid a visit to Hawthorne Saturday afternoon, September 27th. The visitors were the Misses McBurney, now of Los Angeles but formerly of the old Clinton St. shops, who arrived at the Works right from the road, their car loaded with baggage and covered with the dust and mud of half a dozen states.

Although Hawthorne is rather a deserted village on Saturday afternoon, an escort was obtained and the two former employees were given an opportunity to view the changes wrought in 35 years.

One of the two, who is now a domestic science teacher in California, spent eight years in the Cable Department at Clinton Street in the days when they covered cable by pulling the core through lead pipes, so you can imagine how surprised she was to see the battery of mammoth lead presses, which each turn out more than ten times as much covered cable as the entire cable plant did 35 years ago. Even the time clock was a novelty. Thirty-five years ago there were none. At that time employees were "checked in" and "out" with brass checks, which resembled the tool checks now in use in the shop.

The size of the Works also astounded the visitors. When they left Chicago the Company was housed in one building, a four-story brick facing on Clinton Street. Naturally their eyes stuck out at the sight of our numerous buildings with their total floor space of over 80 acres.

After their brief visit through the shops the visitors looked in at the big track and field meet on Memorial Field.

### GIRLS! EXERCISE THE DICE

A daily work-out with the galloping dominoes will be well worth any Hawthorne girl's time, since the first girls' party of the coming winter season is dated for October 27th and bunco will take up a large share of the evening.

For the entertainment of those who prefer to finger the shiny pasteboards, the committee has decided to add "500" to the program. Figuring that this innovation, coupled with the already known success of bunco parties, will mean a record crowd, the committee is making due preparations. Supper will be served at 5:15, with the tilt for prizes starting immediately afterward.

Club representatives have been drafted into service for the distribution of tickets this year. This means that the girls planning to attend the party can make arrangements right in their own departments.

## WORLD MARK SET AT WORKS ANNUAL ATHLETIC CARNIVAL

### Tom Eck's Girls Make New Relay Record—Ray and Krogh Tie in Mile — Local Marks Shattered as Merchandise-Production Squad Wins

Merchandise-Production athletes annexed the interbranch laurels in the Works annual athletic carnival, held Saturday afternoon September 27th, on the Memorial Field oval, by piling up a total of 68 points, most of them in the men's events.

Helen Dytkowski

Despite threatening mists and gathering clouds a record-breaking crowd of 7,000 witnessed the annual classic struggle.

Some 400 athletes competed on the six branch teams, and furnished the highest caliber competition ever seen under Hawthorne Club's auspices. As a consequence, there was considerable record altering.

A new world mark, a new interscholastic record, nine new Hawthorne marks, and two ties of present records is the total harvest gathered for local track annals as a result of the splendid exhibitions on both cinder path and sand pit. The world mark and the interscholastic record were established by four girl athletes, prodigies of Tom Eck, famous track mentor. They ran an exhibition quarter-mile relay in 56-4/5 seconds, which clipped a second off the existing interscholastic mark and established a world mark for sixteen-year-old girls.

Joie Ray, America's fleetest middle distance man, and Egil Krogh, prominent in Big Ten athletics, and a team mate of Joie's on the relay team which set a new world's record last year, ran a thrilling exhibition mile in which they both crossed the tape together.

Six new local marks are established by men athletes. T. E. Noble, Illinois Athletic Club hurdler, who is a member of Dept. 6108-2, was responsible for two new marks. He finished the 90-yd. high hurdles in 12-1/5 seconds and cleared the 220-yd. low barriers in 27-4/5 seconds as his contribution to the record-breaking. This performance tied him in individual standings for the men's events with Cyril Coaffee and J. O. Stasny. Coaffee (Dept. 2405), who is one of the I. A. C.'s flying meteors, showed the home folks how he stepped away from them on his recent tour of Europe, his demonstration consisting of clipping 3/5 of a second off his own record of 23-4/5 seconds in the 220-yd. dash, and tying the mark of 10 seconds made in the 100-yd. dash in 1920. G. Bamruk, of Dept. 2442-1, set a new shot-put mark when he heaved the 12-lb. cannon ball 46 feet, and R. M. Zolecke, Dept. 5397-2E, tied the present 440-yd. run mark of 55-1/5 seconds.

Helen Dytkowski, an Operating Branch girl from Relay Assembly Dept. 6329, proved the most sensational "find" of the day. A youngster just well started in her teens, she not only walked away with individual honors in the women's events, but made two new Hawthorne records and established herself as the individual star of the entire meet. She leaped 13 ft. 4 1/2 in. in the running broad jump to establish a record and skimmed over the bar at 4 ft. 4 in. for a new women's high jump mark. Miss Dytkowski won three more points for her branch by capturing second place in the women's 60-yd. dash and in addition she was a big factor in bringing her team into the point column in the girls' relay. This relay was won by the Merchandise and Production girls, who incidentally set a new mark in the event.

Four boys' records also fell. E. Curklin-ski leaped 18 ft. 1 in. for a new running broad jump mark, J. Kujawa stepped 60 yards in 7-2/5 seconds for a new record, S. Malac sailed over the high-jump bar at 5 ft. 3 in. for a new mark and the Installation relayers cut down their own record in the 220 event to 28 seconds flat.

The relays again seemed to attract most interest from the spectators. The most interesting was the men's event, in which Coaffee brought the Technical-Development team from second place to a comfortable win in the final lap. Coaffee also figured in one of the prettiest 100-yd. dashes ever run at Hawthorne when he broke the tape

with Wudi (T.&D.) and Sweeney (O.) both panting on his back.

R. W. White was chairman of the meet; J. Behr, athletic director of the I. A. C., was referee; G. B. Mackey, Dept. 2405, was starter in charge of track events; R. T. Alloway, Dept. 5926-2, acted in a similar capacity in the field events; R. B. Douglas, Dept. 6109-3D, was chief clerk; G. Grimes, Dept. 6324, chief judge; A. Michelson, Dept. 2405, chief timer; C. R. Fletcher, Dept. 6087-2, scorekeeper; and J. E. Petersen, Dept. 6025-5A, announcer.

#### Score by Branches

	Men	Boys	Girls	Total
M. & P. ....	50½	8	9½	68
T. & D. ....	49	3	0	52
Inst. ....	8	22½	7½	38
Oper. ....	8	10½	14	32½
Insp. ....	14½	0	13	27½
Cler. ....	2	11	11	24
Total .....	132	55	55	242

90-yd. high hurdles (men):—Noble, 6108-2; Croft, 6159-2; Jelinek, 2442-1; Vosen, 2442. Time, 12-1/5 sec. (New Hawthorne record.)

100-yd. dash (men):—Coaffee, 2405-2; Wudi, 2496; Sweeney, 6372; Beattie, 6652-4. Time, 10 sec. (Tied Hawthorne record.)

Pole vault:—Wisler, 7152-2; O'Donnell, 6663-1; Smith, 5036-1; Miller, 6615; Ramsey, 6518-2. (Miller and Ramsey tied for fourth place.) Height, 10 ft. 3 in.

Running broad jump (boys):—Curklinski, 6517-3; Hallac, 5909-1; Ignowski, 5536-2; Pierce, 6366. Distance, 18 ft. 1 in.

Running high jump (women):—Dytowski, 6329; Just, 7037; Findlay, 5922-2; Lackovic, 5538-2; O'Donnell, 6608-5. Height, 4 ft. 4 in. (New record.)

Shot-put:—Bamruk, 2442-1; Peveare, 5929-2; and Liska, 6529-6, tied for second place; O. Smith, 6109-4. Distance, 46 ft. (New record.)

60-yd. dash (boys 14-15):—Krzawa, 6001; Dolan, 6087-2; Hansen, 6571-1; Makawski, 0046. Time, 7-2/5 sec. (New record.)

60-yd. dash (women):—O'Donnell, 6608-5; Dytowski, 6329; Dolejs, 5946-3; Tyle, Insp. Time, 8 sec.

Running broad jump (men):—Sward, 5903-1; Stasny, 2442-1; Jelinek, 2442-1; Fredricksen, 6356. Distance, 22 ft. 3½ in.

Running high jump (boys 16-17):—Halac, 5909-1; Williams, 6356; Kissell, 6346; Ross, 6528-1. Height, 5 ft. 3 in. (New record.)

75-yd. dash (boys 16-17):—Ignowski, 5536-2; Pierce, 6366; Schroeder, 6544; Kissell, 6346. Time, 8-4/5 sec.

220-yd. dash (men):—Coaffee, 2405-2; Wudi, 2496; Stasny, 2442-1; Beattie, 6652-4. Time, 23 sec.

1-mile run:—McNeil, 6622-4; Christensen, 5771; Leider, 6121-1; Woodside, 6111-1A. Time, 4 min., 50-2/5 sec.

3-star race:—(for employees with 25 or more years of Bell System service):—McCann, 6106-1; Brennan, 5946; Stock, 6313; Randall, 6350. Time, 8 sec.

220-yd. low hurdles:—Noble, 6108-2; Jelinek, 2442-1; Croft, 6109-2; Sward, 5903-1. Time, 27-4/5 sec. (New record.)

Running broad jump (women):—Dytowski, 6329; Kybic, 6056-1; Lyon, 6031-1; Findlay, 5922-2C; A. O'Donnell, 6608-5. Distance, 13 ft. 4½ in. (New record.)

Running high jump (men):—Stasny, 2442-1; Liska, 6529-6; Aiken, 6113-1; Fivick, 2442. Height, 5 ft. 7 in.

440-yd. run:—Zolecki, 5997-2E; Shaw, 6692; Woebel, 6372; Vosen, 2442. Time, 55-1/5 sec.

High kick (women):—Cizek, 6566; Schneider, 6608-5; Sikutz, 6547-3; Just, 7037. Height, 7 ft.

220-yd. relay (boys):—Installation (Ignowski, Kosinski, Schneider, Ross); Technical (Pacek, Minnala, Kucins, Allgren); Clerical (Kucina, Cambora, Makowski, Dolan); Operating (Pierce, Poll, Moeller, Kissell). Time, 28 sec.

220-yd. relay (boys):—Installation (Ignowski, Korber, Payette, Strnad, Dolejs); Inspection (Carlton, Tyle, Braatz, O'Donnell); Clerical; Operating. Time, 31-3/10 sec. (New record.)

½-mile relay (men):—Technical-Development (Coaffee, Stasny, Wudi, Jelinek); Merchandise-Production (Croft, Noble, Vail, Zolecki); Installation; Inspection. Time, 1 min. 41.1 sec.

#### JOLLY WORKERS BANQUET AND ELECT OFFICERS

The Jolly Workers Booster Club of Punch Press Department No. 3 staged their first fall banquet at Garden City Grove, Lyons, recently, and included the election of officers for the coming year in their program of entertainment and eats.

The officers chosen are:—Otto Westphal, president; John Sidor, vice-president; A. Lavin and L. Lockowitz, secretaries, and F. Foertsch, treasurer.

The latest syncopated hits, as interpreted by the All Star Syncopators, opened the evening's festivities and immediately preceded one of the finest chicken dinners on record. Following the charge on the eatables, local talent went into action and surpassed the promises of the entertainment committee. Otto Westphal led off with his own interpretation of George Primrose, famed performer of minstrelsy, and was followed by C. King, whose speciality, an Hawaiian-Spanish dance, was voted okay. M. N. Larson then recited that dreadful tale, "The Shooting of Dan McGrew", with such effect that some declared they could see Lew Cody fall to the sawdust. L. Durland then amazed the boys with some contortionist stunts of his own devising. The committee's big speciality, The Mercedes Dancers, finished the program with several selections of classical and modern dances.

In rushing the performers to the affair, John Sidor ran into the only piece of hard luck reported. He got a ticket from a Cicero con for speeding. The officer wouldn't believe John's story of his need for haste.

#### TOOLROOM GOES INTO FIRST PLACE IN BOWLING LEAGUE

Fliger's expert hook flinging gave the toolmakers undisputed lead in last Friday's round of the Works interbranch bowling league. He scattered 646 maples for the most consistent series of the evening and maintained his lead at the head of the individual standings. As a result his squad rests on top of the heap alone—the first time this year any team has been able to obtain undisputed possession of the top berth.

Technical kept third place by a two to one victory over Final Inspection, which was also featured by some stellar performances. P. Krantzowski, of the Inspectors, scrambled 601 maples during his series while T. Luby, ace of Technical pin scatterers, gathered 614.

Industrial Relations dropped from second place to a five-angled tie for fourth place when Machine ran away with three games in their series.

Jobbing rolled into the berth vacated by the Industrial Relations squad. The jobbers accomplished this by spanking Special Process three consecutive times in a series featured by the most high marks of the evening. J. Jungman topped 634 pins, N. Ketter 626 and J. Kolar 607 for the best series mark, while the Jobbers turned in two 1,000 plus games—one 1005, the other 1030.

Production boosted itself out of the cellar by the help of the two Installation teams. The Producers turned the Installation Draftsmen out into the chill night with a 2 to 1 defeat, while Stock Maintenance obligingly handed the Installation Engineers three slaps in a row. This knocked the Engineers down in the cellar and boosted the Productioners out of the depths. In these series E. Rauch rolled a 600 and R. Schaber a 605.

Switchboard Order took two from Plant and C. R. and I. grabbed two from Pay Roll and Cost. Adamson topped 606 for the only high series in these matches.

There were 72 two-hundred or over scores rolled during the course of the evening.

#### SUB-DIV. 6109 HOLDS FIRST BASEBALL BANQUET

The male members of the Manual Switchboard Output Sub-Division reported at the La Salle Hotel at 6:30 sharp on October 4th, to participate in the first annual baseball banquet, at which members of the team who topped the organization's playground baseball league were honor guests. Sub-Div. 6109 organized the Neversweat League early in the summer and the Southsiders of that organization recently completed their schedule with a percentage of .875.

J. D. Lowery, chief of the Production Personnel Department, acted as toastmaster for the occasion and presented the main trophy of the evening, a large silver cup, to Capt. Tuhey, of the Southsiders. The cup was donated to the sub-division by R. Douglas, with the understanding that the winner each year shall have its name engraved upon it and that the team who first gets three wins shall keep the trophy permanently. Following presentation of the cup, J. R. Reed, chief of the Switchboard Output Division, gave Mr. Tuhey a silvered indoor baseball, mounted on a stand, with the names of his team members painted upon it. Mr. Tuhey promptly returned it to Mr. Reed, to be placed in the division's trophy collection.

Other short talks were made by R. L. Doyle, B. A. Berman and Capt. Lietz, of the Nine Spots, who trailed the league.

An orchestra made up of division members furnished the music.

#### MATERIAL ORDERING DIVISION GOLF TOURNEY ENDS

The Material Ordering Division golf tourney, which has been running on an elimination basis all summer, finished October 4th. All play was held on the Harlem course.

Four prizes were offered for low gross and net among division players in general and among the department chiefs. When the last weary mile had been trodden last Saturday, the score cards showed that F. J. Grosvenor topped the department chiefs' list with low gross and low net, the low gross runner-up being C. W. Hillis, while he and R. Vander Ploeg tied for low net runner-up. G. Planck won the division open championship for low gross and low net. W. G. Le Vahn was runner-up for both scores.

Mr. Grosvenor's friends decided he should receive some reward for his excellent golf, so presented him with a mixed bouquet of flowers and vegetables, as well as an enormous cup. The latter was about three feet high and was one of the finest ever turned out by the Hawthorne tin shop.

#### MYERS HEADS RANKING LIST

##### Tennis Men Wind Up Season With Series of Interesting Battles

Although Franklyn R. Myers left the Company last week, his Hawthorne tennis contemporaries will not attempt to replace him as head of the season's ranking list. They feel that as captain of the tennis team he has done so much for Hawthorne tennis during the past year that it would be unfair to replace him after he has so successfully defended his title all through the season, never dodging a challenger.

In the last matches in the tourney, played last Saturday and Sunday, N. C. Shumway, of Multiple Switchboard Engineering Dept. 6513-2, won the right to first place position when play is resumed next spring.

Mr. Shumway, incidentally, made the most sensational showing in the tourney, rising

from the bottom of the ladder to the top in the two months the tourney has been in progress. This tourney was his first appearance in local tennis, but by no means his first tennis. It develops that he was captain of the Lawhesier Club's team last season and the year previous he captained the La Fayette College tennis squad. He was a member of the team all four years of his college life. A. M. Elliot fell before him on Saturday afternoon and Sunday D. K. Steir met a similar fate in two straight sets, 6-4, 6-3. Later he won from M. F. Fogler, Works singles champion, 6-1, 6-1 and moved up to the head.

D. K. Steir won a hard fought match from Elliot to determine their standings. The first set went to Elliot, 4-6; the next two to Steir, 6-4, 6-3.

The final standings, given below, will serve as a basis for selecting the next year's entries in the Chicago Tennis Association matches:—

(1) F. R. Myers; (2) N. C. Shumway; (3) M. F. Fogler; (4) D. K. Steir; (5) A. M. Elliot; (6) W. Grabelle; (7) C. H. Barnard; (8) B. A. Dahlman; (9) J. W. Lalane; (10) P. McAlister; (11) A. C. Jones; (12) C. I. Richardson; (13) W. A. Harvey; (14) P. F. Brumm; (15) V. A. Newman; (16) W. Aberle; (17) W. D. Baker; (18) O. H. Clark; (19) R. W. Heelan; (20) A. B. Maturne; (21) M. H. Specht.

#### TWO VETERANS RETIRE

After years of busy service in Western Electric departments, two more veterans have retired to quiet home life. One is Paul F. Wassmuth, who was an expert on layout work in Dept. 9396, and the other George B. Anderson, a strander operator.

Mr. Anderson started his service at Clinton St. in 1889, and had accumulated a record of 35 years' service on cable stranding machinery. He has seen some marvelous developments in those 35 years. Cable was pulled through lead pipe when he first started, and 1500 feet of 150-pair cable was a big day's run for the stranders then in use.

Mr. Wassmuth has 39 years of service to his credit since he started at a trim saw table in the Clinton St. shops. He moved to Hawthorne in 1908. His last day at the Box Shop, October 1st, was the occasion of an interesting celebration, which began with a special luncheon engagement in the company of H. Biggar, assistant operating superintendent; J. C. Graham, general foreman of the Iron and Woodworking Division, and F. Terdina, chief of the P. B. X. Woodworking Department, and ended with a reception in the Box Shop office that included an orchestra, much handshaking and innumerable wishes for good luck.

#### CHESS AND CHECKER

##### MEN ELECT OFFICERS;

##### PLAN WINTER GAMES

About 40 wizards of the checkered boards gathered about a heavily laden table in the Works Restaurant on September 26th, to ring down the curtain on their summer activities and arrange for the winter season during the progress of a genuine DuPlain dinner, followed by an old-fashioned smoker. Two important parts of the ceremony consisted of the election of officers for 1924-25 and the award of prizes to summer handicap chess tournament winners. The prizes awarded included inlaid chess boards and books relating to the art and science of chess.

In recognition of his activity in Chess Club circles in the past, B. Plos, of the New and Changed Appliance Division, was elected president for the new year. Other officers are:—F. Weselowski, Sub-Div. 2442, vice-president, captain of the checker team and representative to the Chicago City Checker League; H. Brandner, Dept. 6622, secretary; J. M. Juran, captain of the chess team; B. A. Eliasson representative to the Chicago City Chess League; J. M. Starr, chairman of nominating committee; and T. E. Moon, chairman of prize committee.

To this group of men will fall the job of rounding out the club teams for their attacks on various Chicago teams and our New York engineers, who hold a cup that our club would rather see at Hawthorne. In addition to the all-important matter of team activities, the officers are preparing a series of lectures on chess and checkers, as well as a directory of all known chess and checker players at Hawthorne. Preliminary steps in preparation for winter play have already been taken. The closing date for entry this year has been set somewhat earlier than usual. No entries can be handed after today unless a player already signed up drops out. This regulation was made because of schedule mix-ups that occurred before, when late entries are accepted.

#### RETAINS HER TITLE

##### Mrs. Johnston Holds Tennis Singles Championship Another Year

For the fourth consecutive year Mrs. Mabel Johnston, of Dept. 5530-2A, is a singles tennis champion. For two years she was the woman's champion at the Crane Company, and last year she was the ranking woman player at the Works, and Thursday, October 2nd, she clinched her second consecutive title at Hawthorne by taking two straight sets from Miss Carol Krale, of the Works Library. Miss Krale therefore ranks as runner-up in this year's annual tourney.

A highwind interfered with both players at first, but they soon adjusted themselves to this. Miss Krale took the first game, Mrs. Johnston the second, Miss Krale the third, after which the champion ran out the set for a 6-2 score. She won the second set, 6-1.

## WESTERN GIRLS VETO BIG CLAIMS OF TWO CHAMPIONSHIP TEAMS

### Davis Loses at Memorial Field When Pitcher Slumps — Reversal of Form Defeats Henry Playground Ten

Two teams flaunting championship claims recently scheduled games with Coach Johnson's ten in hopes of making their claims good against our girl go-getters. One aggregation, wearing the blue and white of the Davis Shoe Co., Racine, Wis., claim the interstate title of Wisconsin and Illinois. The other ten, Henry Playground, had claimed itself the champion of the Northwest Playground League and its backers claim the city title unofficially. Both tens lost their sphere swatters. The Davis girls were returned to their former status of Wisconsin champions only by a 23 to 16 defeat, which was the opening feature on Field Day, September 27th, while Henry Playground lost to a 5 to 3 score on its own diamond October 4th.

The Davis team, mindful of last year's victories over us and smarting under our recent victory on its own field, journeyed here determined to tie up the title with a win, looking forward to a third game. Instead, the supremacy was settled definitely in our favor.

For four innings the issue was in doubt, Western gathering but one hit and two runs during that time, against four hits and seven runs collected by Davis. In the fifth, however, the blue and white pitcher started to weaken and Western began to connect with the sphere. In the first half of that frame Davis had gathered four runs jumping their total to 11, but our girls retaliated with six counts, leaving us only three tallies behind at the beginning of the sixth. In this inning Davis jumped their score to 16 and Western also gathered three runs, bringing our total to 11.

Captain Pruscha, who had been taking a two-inning rest, replaced Miss M. Findlay on the mound in the seventh. Our improvement in hitting was reflected in an improvement in the field, Davis spending the rest of the game in futile attempts to circle the bases. Western made its strongest drive in its half of the seventh, marking up eight scores. Our girls then topped off with four more in the next and called it a day.

The score by innings was:—

W. E. ....	0	1	1	0	6	3	8	4	x	— 23
Davis .....	0	0	5	2	4	5	0	0	0	— 16

The Henry Playground battle was an entirely different story. Our girls showed a decided improvement in the field and made but two serious errors. Both of those were the result of lumbering infield flies that would have meant double plays if handled properly. An unusual feature of the contest was a decision by the umpire representing the Playground, Western's catcher, Miss Malina, was on second and when the batter hit a long fly to center field she held her base until the fielder had the ball safely in her hands and then darted for third base. The center fielder figured the play correctly and threw to third, but the runner beat the ball. The third baseman held the ball a moment; then, when the umpire made no decision, she threw to second and he promptly called the runner out, claiming the runner had left second before the ball was caught. The decision killed a good chance to score and caused an avalanche of criticism, even from Henry fans.

The Henry girls got but few clean drives off our pitcher, and when they did the fielders showed a sureness in handling the ball that was in marked contrast to their uncertain performance the previous Saturday. The playground girls showed better baseball ability than Davis displayed, but Western slipped in too many hard smashes when baserunners were in advantageous positions to tally.

The score by innings was:—

W. E. ....	0	2	0	0	0	1	0	2	0	— 5
Henry .....	0	0	0	0	0	1	2	0	0	— 3

#### REPRESENTATIVES NOW

##### HAVE APPLICATIONS

##### FOR BASKETBALL TEAM

Club representatives can now furnish application blanks to basketball players who would like to try out for the Works' basketball team. These should be filled out and returned to D. W. Elwell, Dept. 6553, manager of the squad, immediately, as practice is scheduled to start next week.

This is the opening gun in Hawthorne's campaign to keep the city industrial title at the Works, but it is a mere pistol shot compared with the broadside of applications Club officials expect as a result of this move.

Making a formal application insures every applicant consideration as a possible member of the team, for every player who fills out a blank will get a try-out lasting several weeks.

High school players, playground players, grammar school players, college and university players are all urged to turn out. Even if you feel that you haven't a very good chance to make the Works' team, sign an application blank and get in some practice before the interbranch league is launched.

It is urgent that Mgr. Elwell receive applications immediately, so see your Club representative today.

# NEW MEN TAKE HELM IN LOCAL SOCCER COMPETITION

## "A" Team Picks Captains—"B" Team Gets New Manager—Teams All Hit Slump—"B" Squad Plays on Our Field Sunday

Three new soccer officials took up the reins during the past week. R. Turner, of Layout Dept. 6423, was appointed to manage the "B" squad in place of Coach Sample, who recently left the Company, while E. L. Stephenson, of the same department, and "Scottie" Ramsey, of the Hand Screw Machine Department, were elected captain and vice captain of the "A" squad by their team mates.

Mr. Turner, new mentor of the busy "B" 's, is a worthy successor to the industrious Mr. Sample. He has played soccer since he kicked his teething ring out of the cradle and has starred on a number of high-class amateur Scotch teams. He played for the Dundee Violets and was on two of their championship teams and his playing on this squad won him a try-out on one of Scotland's semi-professional league elevens.

E. L. Stephenson, new leader of the "A" team, who is judged by many to be the best all-around player at Hawthorne, has also a fine football record. He played in England for the Blackburn and District schoolboys when they went as far as the semi-finals in the English schoolboys' cup race and the Higher Elementary Old Boys, champions of the Blackburn and District League.

On arriving in Chicago, Stephenson played with the Bricklayers, undefeated champions of the Chicago major league; participated in the Chicago all-star games, and played in the All British-American games.

The new vice-captain, T. R. Ramsey, is a former Scotch professional with a long record of brilliant achievements. He reached the peak class in soccer when he became a member of the famous Glasgow Rangers, one of the star outfits in the Scotch Central League.

Last Sunday proved disastrous for Hawthorne's elevens, for both the A and B teams dropped games. The A team lost to Ulster while the B's dropped a game to Norwegian I.

The Ulster United game was lost before the game started, as only six regulars and four reserves turned out for the match and Hawthorne had to play with only ten men.

Ulster scored the first goal and received a "gift" goal shortly after, when the referee penalized Ramsey for handling. Hawthorne played fairly good ball, with Scottie Maher at left and Sid Fowler at inside right playing good combination. Steve, the lone full-back, kept the ball in Ulster territory most of the time. Robbie had a narrow shave when he missed a pop outside the penalty area by a matter of 2 inches.

In the second half Ulster made a spurt. Stephenson's clearance was returned to the Ulster inside left and Koeppl, attacking, was penalized for tripping. Ulster United scored their second gift goal, and the Western team again kicked off. Several attempts at goal failed by inches following this play. Once Robbie, Fowler and Niel combined well and Hosie centered nicely, but Cuthbertson ended by just missing the upright. Then Robertson secured from Ramsey but Niel's finish hit the crossbar and rebounded for the Ulster back to clear. Finally Robbie received a pass from Stephenson and went through his finishing shot, easily defeating the opposing goalie.

Shortly after this, a clearance from Stephenson resulted in Niel hitting the upright. Then Cuthbertson passed to Fowler, who evened things up by smashing just past the upright with one that the goalie touched but could not hold. With the score even, the Hawthornites pressed strongly. Koeppl centered nicely and Niel passed to Hosie, who placed outside. Then, two minutes to go, Ulster made a run-away attack, the ball going to the Ulster inside right, who got away with one of the wildest goals ever seen, ending the game with a score of Ulster 3, W. E. 2.

The W. E. "A" team drew a bye in the opening round of the Peel Cup competition, but the W. E. "B" are playing a cup game on Memorial Field Sunday.

Norwegian I defeated the "B" 's, 3 goals to 1 in the replay of a protested match. Hawthorne held the Norsemen, 1 to 1, well into the second half. A surprise goal then put the Norwegians in the lead and another goal followed, scored after Whiteman, Hawthorne center half, had been forced to leave the field due to injuries, which left our defense short-handed. Bunge in goal was a star performer for Hawthorne, saving many goals.

The "C" team lost to the Scandinavian-American squad 4 to 0 on Memorial Field. Hawthorne fans watched two local teams split a double header on Memorial Field on Sunday, September 28th.

In the curtain raiser, Hawthorne's newest soccer team, the "C" squad, won from German Club II in the first round of the Immigrant State Cup Competition by a score of 3 to 1.

The Germans were the first to score but before the half Hawthorne had drawn ahead and in the final period our boys convinced everybody of their superiority over their opponents.

On the same day for the first time in local soccer history, Hawthorne's "A" team had to take

a defeat on the home grounds. The newly organized Roosevelt Club administered it by scoring one lone tally and keeping Hawthorne from equalizing.

The "B" 's handed Swedish-American II a 1 to 0 surprise in the feature game of a double-header played at Winnemac and Robey the same afternoon. Two thousand Swedish-American rooters witnessed the contest.

The locals had far the better of the first 20 minutes and during this period we registered our first goal when Woods, our inside right, feinted, dodged the half-back and shot a terrific one into goal just as he was smashed down by the full-back.

Both goalies were kept exceedingly busy throughout the remainder of the game and toward the end of the final period the Swedes made desperate efforts to equalize. H. Bert Bungey, Dept. 6354, in the goal mouth for Hawthorne, made excellent use of his Austin High School basketball training by tipping them around opposing players in all sorts of forms. Once the Swedes had him beaten but luck was with Hawthorne and the ball struck his knee, rebounding out of danger.

Fred Goddard did some centering that was above the average, while a new man on the squad, John Fender, bolstered up the forward wall considerably. Fender is a British world war veteran, who saw much service. He was badly gassed in action and his wind was so affected that for a time he had to give up his soccer. This was his first appearance since the war. Before the war he played at South Shields, England, and before he was gassed he was picked as a member of his division's team, which competed in Italy.

James Foreit, Dept. 6358, and Rudolph Basak, Dept. 6337, were again prominent in Hawthorne's defense.

The girls in Miss L. Hannagan's department decided that she deserved more than a cup as a reward for winning the championship of the girls' golf club, so they turned out in force on September 25th to give a special luncheon in her honor at the Hawthorne Hotel. Before trooping forth to the festive board, they presented her with a bouquet of flowers. Miss Hannagan is employed in the Material Ordering Department.

The cashier's office on the sixth floor of Bldg. 27 appears to have something of a record along service lines, since the total service for the five people employed there is 112 years, an average of 22.4 years for each person.

The girl maple knockers have been slamming the pins all over the Windy City Alleys lately. The evening of September 29th Miss E. Neblung smashed through for first place in the night's scores with 180. The following Monday Miss Mary Berg raised the mark to 205.

P. L. Thomson, publicity manager of our Company, who is here from New York, visiting the Telephone Pioneers' convention, was guest and principal speaker at a luncheon given by the Advertising Council of the Chicago Association of Commerce yesterday. His topic was "Advertising as a Factor in Moulding Public Opinion."

F. J. Ashley, chief of the Public Information Department, was elected a director of the Chicago Press Club at the annual meeting held in the club rooms the evening of October 6th. His term is for two years.

A. C. Kruse, of the Jack and Generator Assembly Department, took his orchestra to Speedway Hospital the evening of October 3rd and scored a decided success. All the boys turned out for the two-hour program of latest "hits" and returned a unanimous verdict in favor of the musicians. Mr. Kruse leads and manages an orchestra of 12 pieces, nine of the players being Hawthornites. A request for a return performance was made immediately at the close of the last number, the date being set at October 29th.

F. C. Harder, assistant foreman of the Test Set and Heating Apparatus Jobbing Department, discovered on October 3rd that an unexpected addition has been made to the program of events leading up to his marriage to Miss Josephine Zverene, of Dept. 6374, on the following day. The addition consisted of a bachelor dinner in the Works Restaurant, given by 67 members of his department. A feature of the entertainment was the antics of a ventriloquist's dummy, who had the guest of the evening bathed in confusion.

W. J. Dawe has discarded golf and bowling as topics of conversation, temporarily at least, to talk over with his friends the latest addition to his family, a granddaughter, Katherine. She is the daughter of Mr. and Mrs. W. G. Dawe. "W. G." works in Dept. 2437.

Those of the younger generation who have been wondering where their elders get their right to hark back to the "good old days" now have the answer right at their finger tips. The latest statistics show that back in the "good old days" voters voted. Lately in the "good old days" eligible voters cast their 1896, 80 percent of the percentage dropped to ballots, in 1900 the percentage dropped to 73, in 1912 it slid to 62 and in 1920 went way down to 49. If the old-timers do base their comments on those figures the younger generation has reason to listen. But may-be both will take a tip from the placards on the Works bulletin boards, register, vote and send the figure hovering around the 100-percent mark.

Any local girls who are interested in forming a swimming class should get in touch

with Miss C. Dykstra, phone 1489, Dept. 5730-S, at once. As soon as a sufficient number of girls have signed up, the class will be organized.

Hawthorne members of the American Institute of Electrical Engineers are requested to send their names and department numbers to S. C. Summerfield, Dept. 6087-6. Mr. Summerfield is compiling a complete list of local men who are members of the A. I. E. E. to be used by a representative of the Commonwealth Edison Company, along with his lists and that of the Bell Telephone Company, as an argument for having a Chicago headquarters for the Institute.

## RADIO CLUB TO ELECT

### Wired Wireless Among Chief Topics for Next Meeting

At the next meeting of the Radio Club, to be held October 17th, the election of president and vice-president for the coming year will be held. A slate of three names has been prepared and one ballot will be cast, the man getting the greatest number of votes taking the presidency and the next man the vice-presidency. The nominating committee has placed on the slate the names of P. S. Baer, Dept. 5702; R. S. McCann, Dept. 6461-3; and L. J. Moller, Dept. 6612.

A. M. Cooper, of the Machine Switching Training Department, will make the principal talk at the next meeting. He will discuss wired wireless and carrier current telephony. He was in the navy in 1908 in the early days of radio, has followed its development from that date and will exhibit a great many charts of circuits, etc.

At the last meeting, R. S. Corbett's talk on "The Control of Radio Frequency Regeneration and Oscillation" caused some interesting discussions.

The next meeting will be held on the second floor of the Restaurant Building.

## SOME FISH LEAGUE NOTES

The Switchboard Inspectors are knotted with the Reay sleuths on the top of the heap in the Inspection Branch League, both with eight victories and one defeat. A. Anderson, chief of Dept. 6652, bowling with the supervisors' team hit dizzy heights with an average of 185-2 for his first three games of the season.

J. Kaspar, the lanky Spartan from the Punch Press Inspection squad, is riding high. He is in second place in the individual standings, rolled second high game with 237, and has the peak average for three games.

Among the leagues knocking the spots off the Green Fan alleys is the Clerical Methods Fish League, an organization 10 teams strong.

The Eels, captained by D. E. Arnold, have been given 'em all the slip so far. They are well out in front in the standings. R. E. Schaefer is chairman of the league and G. W. Miller is secretary and treasurer.

In the Production Branch, the Switchboard Ordering Division fishermen have been baiting the hooks with great results. The Suckers, consisting of Stiebler, Clifton, Engeloinger, Vogt, and Novak, have a one-game lead over the Sardines. Beamesderfer leads the league with an average of 180-4. He is also high man in three game averages with 194-2/3.

Among Technical bowlers H. Bedard is leading with an average of 181-5 for nine games. Among teams the Drafting Department is out in front, with 11 won and 4 lost, and an average of 854-9. T. Luby is on top of the three game averages, with a mark of 205-1. The bowling last night produced nothing unusual in the way of big scores. Everyone seemed to be taking it easy in preparation for heavy competition later on. As it was, P. Vanderhurst topped the field for a three-game total of 581, while Cost Reduction made high game of 958.

Accounting and Clerical Methods are going to fight out the leadership of the Clerical Branch league next week. The Accounters are on top of the heap, with Methods in second place, and the two squads meet next week. Fosse bowled 244 for high game honors in this league.

The Local Layout Department have organized a bowling league of six teams, with 15 weeks of play and three weeks of elimination bowling. The league will operate on a handicap basis, the handicap being figured as 80 percent of the difference between a man's average and scratch, which is set at 185. Team captains are: No. 1, L. Soucek; No. 2, W. C. Hornburg; No. 3, W. Stadler; No. 4, O. C. Rahm; No. 5, H. Scherzer; No. 6, B. E. Solinski.

Box Shop bowlers have a good start on their 26-week schedule and arms that lost their knack of topping the maples during the summer months of inactivity are making better and better scores. Team No. 2, made up of Misk, Nimec, Svoboda, J. and T. Fischer, is in the lead with a percentage of 750. In the drive for the individual high for the season, J. Cinkel is first with a total of 2,081 pins for 12 games.

## Card of Thanks

We wish to use this means of thanking the employees of Dept. 9322 and other friends in the Western Electric Company for the many kind expressions of sympathy extended during our recent bereavement.

Mrs. C. J. Lacey and Family.

## BIRTHS

Sept. 22nd:—To Mr. and Mrs. Robert J. Malek, a 7½-pound boy. (Dept. 6321.)

Sept. 20th:—To Mr. and Mrs. R. H. Van Den Berg, a 7-pound boy. (Dept. 5533-2.)

Sept. 20th:—To Mr. and Mrs. C. J. Andrews, an 8-pound girl. (Dept. 6692.)

Sept. 15th:—To Mr. and Mrs. B. Pravecek, an 11-pound boy. (Dept. 6651-2.)

## ENGINEERS START FALL SERIES OF WEDNESDAY LECTURES

The interesting series of engineering talks launched by members of the Equipment Engineering Branch last year was resumed last Wednesday night when 450 engineers listened with great interest while W. O. Kurtz, chief engineer of the Illinois Bell Telephone Company, showed them the telephone company's side of equipment engineering.

During the winter months various other important men in the telephone industry are to speak before the Equipment Engineering Society on subjects of interest to everybody connected with telephone engineering. These talks are an education in themselves, for every speaker obtained by the committee is a practical expert on his subject.

Preceding each talk a dinner is served for the convenience of those who attend the talks and to promote fellowship among members.

The next of the series of lectures will be scheduled some time in November. The Microphone will announce the speaker and the exact date in the next issue.

## GOLF CHAMPIONSHIP

### GOES TO L. W. MILLER

L. W. Miller, of the Clerical Branch, playing 36 holes of strenuous golf last Saturday, secured the championship crown of the Hawthorne Golf Club for 1924 by defeating V. U. Fischer, of the Installation Branch, two up. The result of this year's round leaves Mr. Fischer runner-up for the second time in as many years. The play was probably the closest that had been witnessed in Hawthorne circles this year, the two men finishing the first 18 holes with Miller two up and two strokes ahead of his opponent, while he evened up with him on both holes and strokes in the afternoon. The play, hole by hole, was as follows:

Morning	
Out	
Miller	.....3 5 5 4 4 4 4 5 5 — 39
Fischer	.....4 5 5 3 4 5 3 4 4 — 37
In	
Miller	4 5 4 4 5 4 4 4 3 — 37-76
Fischer	..4 4 5 5 5 5 4 5 4 — 41-78
Afternoon	
Out	
Miller	.....5 4 5 4 5 4 4 4 5 — 40
Fischer	.....6 4 5 3 4 5 4 4 5 — 40
In	
Miller	.....4 4 5 4 6 5 4 5 4 — 41-81
Fischer	...5 4 4 5 5 5 5 4 4 — 41-81

On the same afternoon the Installation Branch won the interbranch match, while the two duffer prizes for highest hole and highest gross score were won by C. L. Cobb and G. Harner of the Installation Branch. Harry Mathisen, Hawthorne Club president, claimed low net medal play honor, while the blind bogey play for division chiefs went to E. E. Lofstrom.

Taking everything into consideration, October 4th proved a gala day for the club, the kind of an outing they had planned for. The committee had selected the Galewood course.

## To Have Putting Green

The club is to have an 18-hole putting green laid out on the rectangle just north of the tennis courts in Memorial Field. This section will receive special treatment to produce a smooth, lively turf. It is expected that 36 golfers will be able to use the course at one time, starting off in pairs. The green will be scheduled in about the same manner the tennis courts are handled.

## FOOTBALL AND BASEBALL CLASH

### Two Sports Rivals Last Saturday, When Our Nine Met Checkers

Football came pretty close to crowding baseball out last Saturday afternoon when the local nine, scheduled to meet Checker Taxi in a benefit game for the Daily News radio fund, arrived at Justin Park and found a high school football game in progress on the field.

The result was that baseball fans had to wait until close to 4:30 before the national pastime got a chance to pasture. Only four innings of the scheduled game could be played, but in those four innings our boys accumulated four runs, while the taxicab warriors went scoreless.

The contest was originally scheduled for Cermak Park for September 21st, but rain necessitated the postponement.

The Daily News Boys' Band rendered a splendid program during intermissions in both the football and baseball contests.

## WINTER BASEBALL FOR WORKS GIRLS ASSURED

The response to the first announcement that Works girls could have a chance to play indoor baseball has been so satisfactory that W. M. Johnson, chairman of the playground ball section of the Hawthorne Club and coach of the local girls' "big ten", says a real league is assured.

The only chance of the proposition failing lay in the possibility that too few teams would take advantage of the offer, so that an interesting schedule could not be built up. Four teams have already signed, however, and one more tentatively promises to come in. An even bigger list can be accommodated, however, and Mr. Johnson will be glad to talk the matter over with coaches or managers.

The first couple of weeks will be devoted to practice, with league play to start early in November.

- 252-6-rm. fr. res.; all improv.; walking distance; \$2,500 cash, \$40 mo.
- 257-Mod. 2-flat fr. 5-4 rms.; newly decorated, furn. ht. both flats; lot 34 x 125, \$9,800, \$2,500 cash. Mod. 5-rm. bung.; best cond.; large rms.; sun parlor; \$7,000; \$1,500 cash. Both ½ hr. from Wks. on N. W. side.

### Household Goods, Pianos, Phonographs

- 343-Parlor htr.; large size Acorn; excel. cond., reas.
- 345-White enam. bed; oak buffet; like new. Jacobean oak dining set. Make off.
- 347-Cole's ht. blast htr.; gd. cond.
- 348-3-pce. oak parlor set; oak dining set; rd. table, 6 leather seated chrs., reas. A-1 cond.
- 349-Kimball upright piano; mahog. fin.; excel. cond.; very reas.
- 350-Iron fireplace grate, 14 in. x 30 in., \$3.
- 351-Furniture of four rm. hse.
- 352-Med. size hd. coal htr.; gd. as new.
- 353-Dining table; 6 chrs., fumed oak; excel. cond., reas.
- 354-Live Oak htr. No. 7; burns any fuel, \$5.
- 355-Cook stove, h. w. front; 3-pl. gas attach.; A-1 cond., \$15.
- 356-3-pce. mahog. parlor set and table; oak dining table; 6 chrs.; 9 x 12 rug, reas.
- 358-Way Sagless couch, like new, \$8; porcelain top kitchen table, reas.
- 359-100-lb. ice box, white baked enam. exterior; porcelain top; nickel fittings, nev. used, \$27.50; cost \$60.
- 360-"Alaska" ice box, almost new, 60 lbs., \$9.50.
- 361-Gd. mahog. upright piano, \$150.
- 362-3-pce. prir. set; mahog. fin.; like new, \$50; baby buggy, like new, \$20.
- 363-Univ. base burner; 16-in. fire pot; A-1 cond.; very reas.
- 365-Comb. range; prac. new; timer; latest access.; reas.
- 366-Crown range with gas, \$25; roll top desk, \$10.
- 367-Golden oak, Spanish leather duofold, \$8.
- 368-All-white porcelain garbage burner, h. w. front; slightly used. Crown htr., A-1 cond.
- 369-Hd. coal htr., A-1 cond., \$20.
- 370-Mahog. comb. bookcase and writing desk, reas.
- 371-Univ. hd. coal htr., \$20.
- 372-Univ. htr., 2 yrs old, \$25.
- 373-Gd. base burner, htr.; 1½ yrs. old, \$25. Parlor sofa, cost \$250; \$100.
- 374-Jewel kitchen stove, gd. cond., \$25.
- 375-Alcazar steel range, coal and gas; library table.
- 376-Upright mahog. piano, \$100.
- 377-Upright piano, gd. cond.; \$75.
- 378-Graceful Univ. base htr., A-1 cond., \$40.
- 379-Fumed Oak sideboard, serving table style, \$15.
- 380-Home kitchen coal stove; gas oven and broiler; 1st class cond., \$60.
- 381-Oak dining set, 45 in. rd. table, 6 chrs., reas.
- 382-Art Garland cook stove, gas attachment; hot water front, A-1 cond.
- 383-Office, living-rm. furn.; bedrm. rocker; chp., gd. cond.
- 384-Clark Jewel gas range, used 6 mos.; white enam. back, broiler, splasher. Will trade for high-grade comb. range.
- 385-Med size "Home" htr., \$30. Cost \$90.
- 386-Baby buggy and bed, \$15.
- 387-Large gas range.
- 388-6-rm. furn. flat; stm. ht. with lease, reas. 20 min. ride to Wks.

### Automobiles, Motorcycles, Accessories

- 427-Ford touring, '21 model; A. C. brake, wheel lock; access.; dem. rims, A-1 cond., \$128.
- 428-'23 Ace motorcycle, A-1 mech. cond.

- 429-Fordor Ford sedan; runs and looks like new, many extras; barg.
- 430-34 x 4 Honk wire whl.; 2 34 x 4 casings, 1 Michelin; 2 34 x 4 inner tubes, gd. shape; reas.
- 431-Rdstr. \$45. Starter, bumpers and spare tire.
- 432-Oversize tilt-back steering whl.; cost \$30; \$10; nev. used.
- 433-Late '24 mod. Overland touring, like new, many extras.
- 434-2 new 30 x 3½ tires, inner tubes (Cupples Cord and Diamond fabric); chp.
- 435-'20 Saxon Chummy rdstr.; gd. mech. cond.; \$225. All gd. tires.
- 437-Chevrolet touring late '22; excel. cond.; new bat.; 5 cord tires; \$250.
- 438-7-pass. '16 Hudson; \$100.
- 439-Ford '21 touring; starter; gd. mech. cond.; \$75.
- 440-Reo rdstr.; gd. cond.; 5 gd. 34 x 4 tires; starter, extra brake bands newly lined, \$65.
- 441-'23 Studebaker touring, very gd. cond., fully eqpd., reas.
- 443-Semaphore motor meter, spot light and new 34 x 4 inner tube, \$10.
- 444-'19 Davis touring, gd. cond., \$200. A-1 mech. cond.

### Miscellaneous

- 524-Lady's large diamond dinner ring, 9 diamonds and 2 sapphires, sacrifice, \$75.
- 525-12-ga. automatic Winchester shotgun; gd. as new, \$50.
- 526-Tenor banjo, pert. cond., \$20; cost \$60.
- 527-Boxing gloves, Corbett pattern; barg. \$5. Set La Salle Extension Traffic and Interstate Commerce course, \$10.
- 528-\$45 baby buggy, \$15; baby's white enam. bath tub, \$1; large wall mirror, \$10.
- 529-Hunting pups, reas.
- 530-Large size reed baby buggy.
- 532-Dbl. barrel shot gun, like new, reas.
- 533-Comp. football uniform; univ. style; prac. new; Rawlins head gear, size 7; sprint shoes size 7; sacrifice.
- 534-22-cal. Savage rifle; N.R.A. model sling, case and rod; prac. new, \$15.
- 535-Premo No. 9 postal card camera; F 7.7 lens; leather case, 3-pl. holders, \$12.
- 536-"C" melody Wurlitzer saxophone with case, \$50.
- 537-Reed baby carriage, \$5; gd. cond., cost \$30.
- 538-Hopkins and Alley 12-ga. dbl. barrel shot gun, \$17.
- 539-12-ga. single barrel shotgun; 36 in. barrel; sacrifice, \$6.
- 540-18-pce. German silver draftsman drwg. outfit, \$15.

- 541-Canaries; young, gd. singers; chp. Lot on 22nd St., Brookfield; gd. loc.; must sell.
- 542-Home knitting mach.; new, \$75 val.; \$15.
- 543-Thoroughbred Eskimo Spitz; 2 males, 1 female, \$10 up.
- 544-Comp. set 8 vol. Compton's pictured encyclopedia, nev. unpacked.
- 545-Gas radiator; 175 ft. radiation; suitable for home or garage.
- 546-Underwood typewriter, gd. cond., reas.
- 548-Baby's enam. bath tub; collapsible bath rack; like new, \$3.
- 549-75-string banjo, excel. cond.; barg. Harley Davidson motorcycle, 2-cyl., \$80.
- 550-Comp. set drwg. instruments.
- 551-New standard oil burner, comp. with piping valves and tank; for furn. or large stove, cost \$22.50; sell for \$15.

## WANTED

- 614-L. C. Smith typewriter, reas.; W. E. horn without unit.
- 615-4-rm. stove hd. flat, Berwyn or Cicero.
- 616-4-rm. flat, stove ht.
- 617-To trade \$1,700 equity in Maywood bung. for vac. lot and cash.
- 618-"A" bat. chgr., reas.
- 619-Garbage burner, must be reas.
- 620-To exchge. Hawkins Elec. Guide; 10 vol. cost \$10, for set Audio Transformers or other radio parts.
- 621-34 x 4½ or 35 x 5 tires.
- 622-Htr., gd. cond.

## FOR RENT

- 710-Mod. 6-rm. flat; h. w. ht.; 10 min. to Wks. on the Douglas Pk. "L", \$70 mo. 1934 S. Ridgeland Ave.
- 711-3-rm. flat, furn. ht.; Berwyn.
- 712-Mod. 6-rm. h. w. hd. flat; 10 min. to Wks. 1820 S. 48th Ct.
- 713-New 5-rm. h. w. hd. mod. flat, \$65. 1403 S. 59th Ct.
- 714-New 4-rm., sunparlor, stm. ht. apt.; extra mod. conv.; Oct. 15th; 5 min. walk to Wks., \$80.
- 715-5-rms. and reception rm.; furn. h. w. ht.; very reas. 1911 S. 51st Ct.
- 716-6-rm. flat, with or without ht.; new bldg.; 59th Ct. and 16th.
- 717-6-rm. bung., \$35 mo. 47th St. and Center Ave., Lyons.
- 718-5-rm. flat, Berwyn; 20 min. to Wks.; all latest conv.; indiv. hgt. plants. \$60. Garage, \$7.
- 719-Mod. 5-rm. flat, sleeping porch, furn. ht.; \$65. 1302 S. Wisconsin Ave., Oak Park.
- 720-Garage space for 1 car; paved alley. 1903 S. 49th Ct.

### IMPORTANT NOTICE

The Hawthorne Club has been presented with a proposition in connection with the sale of canned vegetables. (Corn, Peas, Tomatoes.) We believe we have a very good quality of merchandise at the right price. However, it is not the intention of the Club to sell less than case lots (24 cans). The weight of a case is approximately 44 lbs. The prices are as follows:— (Carry home from Club Store.)

CORN, No. 2 can (24 cans to a case).....\$3.25 per case.

PEAS, No. 2 can (24 cans to a case)..... 3.25 per case.

TOMATOES, No. 2 can (24 cans to a case)..... 3.25 per case.

If you are interested cut out the order blank below, mail or bring it to the Hawthorne Club, Dept. 6965, Bldg. 22-1.

## HAWTHORNE ENGINEER, BACK FROM EUROPE, TELLS OF CONDITIONS

W. J. Malcolmson, Returning After 18 Months In England, Gives Interesting Facts about His European Experiences

"Telephone exchanges in London practically close down at 6 o'clock, as the telephone is used in but few private homes in Great Britain's largest city," according to W. J. Malcolmson, local engineer, who returned to the Works last week after spending 18 months in London in an advisory capacity to the International Western Electric Company there.

Another thing that struck Mr. Malcolmson quite forcibly was the comparative absence of antennae on London house tops. Radio is not nearly so popular in England as it is in the United States, partially due to lack of variety in the programs. London has only one broadcasting station, while in the entire British Isles there are but seven stations. These are all under control of the British postoffice, which must approve all programs.

London can give Chicago's traffic experts plenty of pointers, though, Mr. Malcolmson states. In spite of its size you can get to any part of the English metropolis in surprisingly short time. The city has subways that are even better than New York's tube system. Street cars are double-decked, as well as busses.

Another thing in which America could well follow is the elimination of all grade crossings. Railroads are either bridged above or under the highways, eliminating the toll of lives due to automobiles stalling on railroad crossings and enabling the trains to run much faster. Incidentally there are no Sunday night automobile parades on the highways, such as there are in entering American cities, for relatively few people in England are able to own machines. Not only is the unemployment situation serious there, but wages are only about one-third what they are in the United States.

Mr. Malcolmson also visited continental Europe during his stay, looking in at our Paris house and factory, the affiliated company at Budapest and our Milan factory. In Hungary he also found unemployment to be very general although the authorities avoid the English "unemployment dole" by finding some sort of work for everyone and paying him for doing it even if the work is of no real use. In Budapest, for instance, some street cars have a crew of two conductors, a motorman, and a supervisor, while the streets and the walls of public buildings are as spick and span as spotless town, due to constant and unnecessary cleaning.

The wage scale in Hungary is also extremely low because of the scarcity of work. Mr. Malcolmson happened to meet a man who had worked in Chicago as a toolmaker and who is now in charge of a group of toolmakers in a Budapest factory. His wages are \$32 per month. The girl workers come to the factories barefooted, while the men have discontinued wearing hats for reasons of economy.

Incidentally Mr. Malcolmson got a real laugh out of money values while in Budapest. Every time he paid his fare on a street car, for instance, he had to count out a stack of paper money totaling 3,500 crowns, which amounted to less than 4½ cents in American money. Before the war, a crown was worth about 20 cents. Money values fluctuate so much that the taxi companies do not attempt to change their meters to keep up with it. Every day the police issue a card of official values in the form of a multi-valued factor, which the taxi companies post over the driver's seat. When Mr. Malcolmson was in Budapest he had to multiply the price the taxi-meter showed by 6,000 to get the amount of his fare.

Mr. Malcolmson returned to this country September 28th and after spending ten days at West Street, New York, came to Hawthorne, where he is now a member of Development Organization 6468.

## WRONG NUMBERS—The Chap Who Claims He Runs the Works

## WHY THE BELL FLAG WAVED OVER THE WORKS LAST TUESDAY

The Blue Bell waved from Hawthorne flag staffs last Tuesday in commemoration of one of the Bell System's biggest telephone achievements of recent years.

It was on October 21st, 1915, just nine years ago that the word came that Paris had satisfactorily heard the human voice speaking from Arlington, Virginia, over the radio-telephone. Just a few days before men on the opposite side of the earth, in far-off Hawaii, had heard the messages from Arlington—a gap of some 4,000 miles. Our engineers had telephoned practically all around the world.

The achievement was the climax to a series of achievements that marked 1915 as an epoch-making year. The first of these occurred when our engineers staged a demonstration of the radio telephone in a talk from New York to California. Army and navy officials listened in while the late Theodore N. Vail, then president of the A. T. & T. Company, talked from New York to John J. Carty, its chief engineer, at San Francisco. Newspapers blazed headlines on this achievement and the secretary of the navy made public an official statement of praise to the engineers who made possible the achievement.

It was at midnight on this same day that the dramatic climax came. At that hour from the Pearl Harbor naval station in far-off Hawaii came a message that they were hearing Arlington so clearly there that even the speakers could be identified by their voices. This Pearl Harbor station, incidentally, used a temporary antenna strung between a smoke stack and a neighboring water tank—an antenna so small that the results obtained were all the more remarkable.

Although France was then engaged in the grip of war and the flash of guns on the firing lines could be seen in Paris, the French were so much interested in these tests that they co-operated with our engineers by turning over to them the Eiffel tower aerial for a part of each day. In spite of interference from high-powered wireless stations of the warring nations, which were sending continuously, and from heavy electrical disturbances, the engineers finally succeeded in getting messages from Arlington, first on October 12th, when fragments of speech were heard, and finally on October 21st, when the successful reception of messages was achieved.

## W. E. EXHIBIT POPULAR

Hawthorne Machines Interest Visitors at the Illinois Products Exposition

Visitors at the Illinois Products Exposition, held in the Exposition Palace on the Lake Shore Drive, October 9th to 18th, took a great deal of interest in the little bit of Hawthorne on display in the Western Electric booth.

The Works were represented by three machines—a telephone cord braider, a ringer coil winder and a receiver shell profiling machine. The braider was in charge of Miss Pearl Laurin, of the Cord Braiding Department, the winder was in charge of Miss Lottie McChaska, of the Coil Winding Department, and E. Buikens, of the Rubber Department, ran the profiler.

The machinery, with its specialized products and various technical features, drew a

great deal of attention to our booth, which was one of the most popular in the exposition. As far as was possible in so small a space it gave the general public an idea of what efficient telephone service means in the way of manufacturing apparatus.

Various kinds of products were also on display. A 78-inch reel head carried a wide variety of cable, while a glass case contained the several parts of two types of our telephone receivers, arranged to show various stages of manufacture.

Among other items on display were:—A desk stand with the inner construction exposed, a current supply set for use with amplifying outfits, a loud speaking telephone receiver for use with phonographs, a 14A wooden cabinet type loud speaker, a "Chinese hat" loud speaker, a coin collector, and a complete subscriber's set.

## PIONEERS WELCOMED HERE

Telephone Pioneers convened in Chicago for their eleventh annual meeting were welcomed at Hawthorne on October 11th, when some 500 of them came out to look over "the world's largest telephone workshop". It was the second time this organization has paid us an official visit, the first one being made on October 18th, 1913, during the third annual convention.

The visitors found a hearty welcome waiting for them from local Pioneers and guides and in all departments they visited. One thing that made a hit with the visitors was a welcome sign displayed on the desk of Pioneer J. B. Jensen, foreman of the Japanning Department.

The trip to and from Hawthorne was made by motor coaches, which took the west park route on the trip out and returned to the Edgewater Beach Hotel by way of the loop.

## "BUSIEST INDUSTRIAL CORNER" IS NO MORE

The intersection of Barton Ave. and the roadway just east of Gate 1, which was perhaps the world's busiest industrial street corner, became a quiet village street last week, as far as vehicle traffic is concerned.

This was accomplished when entrance No. 28, located at the M. J. Freight House, near 26th St., was opened to Hawthorne motorists using the parking space back of the Merchandise buildings.

The congestion that formerly resulted from motor, pedestrian and street car traffic in front of entrance No. 1 has been entirely eliminated by this move, which was made possible by the new concrete roadway just built at entrance No. 28. Not only are street cars loading more rapidly than before but motorists find easier access to and from the parking space, as they now can get around the street car traffic at 26th St. instead of having to break through it at 24th St.

VOTE AS YOU PLEASE

BUT - - - VOTE!

## ELECTION OF CLUB REPRESENTATIVES TO BE HELD NEXT WEEK

Polls Open at Noon Next Friday—Local Campaigners Mount the Soap Boxes—Woolway Tells Duties of Representatives

"There are 325 departmental representatives to be chosen at the election which will be held Friday, October 31st, during the noon hour," states R. R. Woolway, chairman of the membership Committee, which supervises the election of representatives.

From reports reaching The Microphone office Mr. Woolway might have added, "and there are 325 bitterly contested battles for each position" for campaign managers throughout the Works are out stumping with even more enthusiasm than is being shown in the presidential contest raging throughout the land.

All sorts of election strategy is being used. Some campaign managers are laying low on the stumping and letting their rivals wear themselves out in the preliminaries with the idea that a few days before election they will launch a concentrated drive that will sweep all opposition in front of it and carry their candidates into office. Other managers, wise to this trick, are doing plenty of stumping now, but are saving a fistful of trumps up their sleeves for a grand slam just before election.

In an interview, Mr. Woolway outlined a representative's duties, his term of office, and the qualifications he must have. "The Club's constitution," said Mr. Woolway, "requires that men candidates for the office of representative must have three years' continuous service in the Company and be member of the Club in good standing. Women candidates require only two years' continuous service. Representatives are elected for a term of one year, and in general are proportioned one representative for every hundred club members in the department. However, if there are less than 100 members in a department but more than 25, it is entitled to one representative. Organizations of less than 25 must be placed under the jurisdiction of some other department's representative.

"Petitions for candidates are sent to the membership committee, which picks two candidates for every place to be filled. We determine which candidates shall run by counting the names on each petition. Those with the two highest totals are made candidates. If all of the petitions have about the same total, seniority in the Company is used to decide who shall run.

"The duties of a representative are implied in the name, for he is the official Club representative of his department. There are no set duties outlined in the constitution, but the representatives form the Club's personal contact with its members. Club members wishing information about the Club or its activities should go to their representatives who, if they can not themselves give the information requested, will get it through the membership committee.

Also it is obvious that when half-rate theater or entertainment tickets are obtained or when dance tickets, wrestling show tickets, etc., and are to be distributed, it would be impossible for every Club member to visit the chairman of the membership committee for his or her tickets. The Club representatives have charge of handling such distribution and it is their duty to see that the organization they represent gets its just proportions.

"If there is an especially advantageous sale it is the Club representatives' duty to inform their constituents, either by distributing Club bulletins or by circulating a personal note. Complaints by Club members about the Club or about other matters should also be referred to Club officials by the representatives, so that steps can be taken to remedy any conditions that are unsatisfactory."

## A CITATION FROM THE WAR DEPARTMENT

The War Department liked the patriotic demonstration held at Hawthorne during the noon hour of "Defense Test Day" so well that Major-General Harry C. Hale in command of the Sixth Corps Area has written the following letter complimenting the citizens of Hawthorne for the part they took:—

"Western Electric Company,  
"Cicero, Illinois.  
"Gentlemen:

"Your interest in our national defense policy and your participation, with that of other patriotic citizens, in the exercise demonstrating that policy to the public has made Defense Test Day a glorious success in the Sixth Corps Area.

"As corps area commander, I desire to extend to you my heartfelt thanks for your co-operation in this patriotic demonstration.

"Very sincerely yours,  
"HARRY C. HALE,  
"Major General, U. S. Army,  
"Commanding."

## HAWTHORNE REPRESENTED AT B. & L. MEETING

The Hawthorne Club Savings, Building and Loan Association was represented by J. P. Krivanek, treasurer, at the forty-fifth annual meeting of the Building and Loan Association of the League of Illinois held at Urbana, October 9th and 10th. The league is made up of 672 associations.

Mr. Krivanek said that many interesting facts concerning building and loan work were brought out during the meeting. Among other things, reports showed that in the state of Illinois alone the assets of associations total \$232,000,000, an increase of \$30,000,000 during 12 months. They also showed that during the past year all the associations in the United States were instrumental in the financing of 40,000 homes, thereby providing housing for two and a half million people.

## COMMUNITY SINGS START

Community singing, of Hawthorne talent, was started on its merry way at the first 1924-25 meeting held in Bldg. 34-5 last Monday.

The schedule for coming sings may be found on bulletin boards. Three women and nine men make up the personnel of the group who will lead the meets this year. Mrs. Sylvia Riha, Miss Marian L. McCall, Miss Loretta Kane, H. G. Ston, E. E. Koseck, and E. H. Jacobs will serve as pianists. Song leaders for the season will be J. E. Petersen, A. Hassel, C. Hozak, S. J. Holreiter, J. F. Curtis, P. R. Claxton and T. Steffes.

## GIRL WINS FIRST SHOOT

## Collects Perfect Score to Defeat Big Field—Other Matches Scheduled

Miss Freda Switters, Machine Switching Engineering Department, led the Rifle Club at the end of Match No. 1 on October 11th, capturing the honors from a large field by drilling out a perfect score of 400. J. R. Walker, Mechanical Engineering Department No. 2, took second place; W. T. Barrans, Repeater and Carrier Apparatus Department, scored third; while fourth place went to W. S. Hopkin, Development Branch.

Determining the relative positions of the three leaders was one of the hardest jobs officials had faced in several years. At first glance the first three targets seemed to show 399, while Mr. Hopkin's read 398. Faced with a triple tie, the work of sorting out the contestants' targets was placed in the hands of a special committee, which went over each one with a gauge. Eventually it was decided that a mistake had been made on Miss Switters' score and that she had a perfect score of 400. The decision between the other two was determined on the relative positions of one shot, the one that scored 9.

During the week of October 11th the Club opened up three matches, which will run four months or more. The first match started, open to all members, consists of 100 shots, fired prone, with a diamond medal offered for perfect score. Three other medals and a button will also be awarded. This match ends April 30th. The second match, to end February 28th, is for boys under 17 years of age and consists of 50 shots, fired prone, with three medals offered. The third match is for ladies and is made up of 75 shots, fired in five strings of ten shots, prone and five shots sitting, all to be completed by February 5th. Gold, silver, and bronze medals are offered high shooters.

On October 12th Hawthorne gunners went to Fort Sheridan to complete the Labor Day matches that were stopped by rain. The men's team, made up of Swanberg, Walker, Wegforth, Hood and Lindsay, finished third in team competition. The girls' aggregation, made up of Misses Freda Switters, Helen Sage, Libby Novak, and Charlie Gunn, bettered the men by finishing second in their competition. Aside from those honors, G. R. Brown secured a high tyro medal at 100 yards with iron sights, while J. F. Wegforth secured a similar medal at 50 yards with iron sights.

## DRILLERS CUT UP

If Austin police hadn't known that a perfectly respectable and law-abiding group of citizens were using the Columbus Park refectory Saturday night, October 11th, they might have turned in a riot call for the state militia, for without warning there suddenly burst on the quiet night air of that peaceful, slumbering village a series of staccato explosions resembling pistol shots. There followed occasional stray shots after this for quite some time.

If they had been summoned the police would have found a riot in progress, at that, but merely a riot of fun resulting when the frolickers of the Drill Room's Good-fellowship Club exploded the balloons distributed along with other souvenirs at this, their first dance of the fall season.

Balloon busting, however, was only one feature of the affair, which was crammed full of interest by the ambitious committee. There were plenty of appetizing refreshments and souvenirs for everybody—and as the main feature, of course, the dancing. Two hundred and fifty happy couples swayed merrily up and down the dance floor until the clock was ready to start another trip around the circuit.

It was a jolly, happy, gathering made jollier and happier by some unusually snappy dance music, none of which was allowed to go to waste. In fact, the only bad time in the whole affair was leaving time.

## GIRLS FINISH GOLF SEASON

## Arrange Big Celebration at Oak Hills for Last Event

For the last event of their first season of golf as a Hawthorne organization, the Women's Golf Club staged a two-day celebration, at Oak Hills, October 11th and 12th. The club house management co-operated in the matter of entertainment and donated a golf bag for low net play on Sunday. In addition to that prize, the girls' committee arranged eleven others.

The club members sped to Oak Hills immediately after the noon whistle on Saturday, starting the week-end's events at 2:00 P. M., when the first foursome competing in the afternoon's nine-hole event

drove off. Saturday's play was followed by 18 holes of golf on Sunday.

The prize winners in Saturday's round were: Mrs. Mary Lax, match play against par; Miss Ann Hausner, low net; Miss Esther Mauch, low net on odd holes; Miss Lillian Sheehy, low net on even holes; Miss Lulu Hannagen, low gross; Miss C. B. Turner, low putts; Miss Florence Haines, blind putting.

On Sunday the golfers teed off at nine and at two, playing a leisurely 18 holes, with the golf bag as leading prize. It was won by Mrs. Lax on her low net score. In the blind partner event, figured on net scores, Miss Lulu Hannagen and Miss Emily Lalla gathered in first honors, with Misses Mary O'Malley and Esther Mauch second. Misses Dorothy Golden and Florence Haines won in the blind bogey play; Miss C. B. Turner captured the prize in the midiron play from tee to cup; while Miss Mae Healion secured the consolation.

The committee in charge arranged a special dinner in a reserved section of the main dining hall for Saturday evening and followed it with a long program of games.

## NEXT DANCE AT DREAMLAND

The Next Hawthorne Club dance will be held November 7th at Dreamland Dance Palace. Tickets can be obtained from Club representatives.

## IN DEFENSE OF KEARNY'S MARSHES

## A Story Telling the Truth about Jersey Mosquitoes

The following retort was written by a former chief of the Protector Apparatus Department, F. J. Berg, now of Kearny, who took exception to the explanation of the invasion of Chicago by mosquitoes given in The Microphone of September 12th by John Huntington, of the Permalloy Department:—

"A recent article in The Microphone insinuated that we were trying to get rid of our mosquitoes by sending them to Hawthorne in our shipping boxes. When John Sullivan, former Hawthornite, now of the Merchandise Department at Kearny, showed this article to his packers and asked for an explanation he almost had a riot on his hands. To make it plain—They ain't no sich animle."

"We used to hear a tale about the unusual preparations a native of Kearny would make before retiring for the night. After carefully locking and barricading the heavy screen enclosure around and over his bed, the tale stated, he would retire with a three-pound hammer in one hand and a pair of pliers in the other. As soon as old Mose Skeeter would start his attack, the native would land with the hammer, at the same time quickly bending the skeeter's legs around the wire netting with the pliers. Three or four such captures would unusually be the equivalent of the evening's setting up exercise, after which the native settled back and slept peacefully.

"I must confess that when I left Hawthorne for Kearny I was looking for these superb-bred mosquitoes, but have yet to find them. I had occasion to try various fields this summer when I took an auto trip back to Chicago, through northern Wisconsin and Michigan, camping out as we traveled. Where did the mosquitoes sing the loudest? Chicago!"

## ENGINEERS' SOCIETY TO MEET

A talk on "By-Products of Manufacture" given by D. W. Gee, chief of the Hawthorne By-Products Division, is the next feature on the program of the Equipment Engineering Society, which will be held in the Works Restaurant Friday evening, October 31st.

In addition to Mr. Gee's talk the committee has obtained the new motion pictures of the Hawthorne Works and will exhibit them for the first time they have ever been thrown on a screen at a Hawthorne gathering.

As usual, a supper will precede the program and as tickets are limited it behooves those who want to attend this double feature to act fast.

Department clerks in Equipment Engineering organizations have the supper tickets. Any Hawthornite who cares to attend can purchase them, whether he is a member of the Equipment Branch or not.

## PROPHETIC PROMOTER EXHIBITS

## FAKE "TELEPHONE" IN YEAR 1864

Crooks are always out for profits but it is seldom that prophets go out as crooks. Yet that apparently does sometimes happen, as is shown from the following news item, which appeared in "The Farmer's Telegraph" of August 15, 1864, a dozen years before Prof. Alexander Graham Bell invented the telephone. A reprint of this paper was brought into The Microphone office by R. L. Brown, of Dept. 5545-2C.

"A man about 46 years of age, giving the name of Joshua Coopersmith, has been arrested in New York for attempting to extort funds from ignorant and superstitious people by exhibiting a device which he says will convey the human voice any distance over metallic wires so that it will be heard by a listener at the other end. He calls the instrument a 'telephone' which is obviously intended to imitate the word 'telegraph' and win the confidence of those who know of the success of the latter instru-

## THREE MORE TEAMS

## FALL BEFORE LOCAL

## SOCCER ELEVENS

At a recent meeting of the International League, E. J. O'Donnell, president of the league, paid the following compliment to local soccer:—

"I have seen four football matches this season, three in the Major League and one in the International League 'A' Division, and of those four matches I am pleased to be in a position to state that quite the best was that between the Swedish American II and the Western Electric 'B' players at Winnemac Park on Sunday afternoon, September 28th. Both these International League 'A' Division teams gave an exhibition of clean sportsmanlike football that was a credit to the players and the League alike, and convinces me that where the quality of soccer football is concerned the International League need not fear comparison with any other league in or around Chicago. The Western Electric boys were the winners of the game I have mentioned and I wish to avail myself of this opportunity of congratulating both the Swedes and the Westerns upon the splendid exhibition of soccer football given."

Hawthornes' "A" team handed Gary, Indiana, a trouncing to the tune of three goals to two on Memorial Field in a game that thoroughly pleased a large crowd of followers of both teams. Hawthorne's lineup was juggled up a bit by Manager Lavers in an endeavor to develop a winning combination. Hosie was sent to the defense, Stephenson to the forward line in center, Cuthbertson moved over to outside right and Maher to Robertson's place at outside left. The result was eminently satisfactory, for about 15 minutes from the start Fender put Hawthorne in the lead after a brilliant bit of combination. Shortly afterward we got our second goal when Cuthbertson drove the ball past the goalkeeper, who had just saved a fine shot from Stephenson. Our boys kept most of the play in the visitors' ground. They threatened to score time and time again, but the Gary defense usually stiffened and got the ball out of danger.

The high light of the game was the clever exhibition put up by Hill, Gary's outside left, whose run through our line early in the second half gave Gary its first point. The Western players showed their sportsmanship by congratulating him on one of the prettiest plays ever seen on our grounds.

Shortly afterwards the Western forward line started another of its irresistible advances and Cuthbertson again was the man to put the ball through.

A little while before time was called a mix-up in front of goal resulted in the referee awarding Gary a penalty kick, which they quickly converted into a goal.

Credit is due to our half-back line for their earnest persevering work against such a forward line as Gary boasts, and it was largely due to the co-operation between them and the backs that the score was kept down. Manager Lavers may congratulate himself on the fact that at last he has a smoothly working team, which, barring unforeseen accidents, will very probably finish up at the head of the league.

By scoring a splendid goal in the last few minutes of play Jugo Slavia triumphed over Hawthorne's "A" team September 28th by a score of 1 to 0 in a game featured by the splendid defense work of both teams. The lone tally was registered while the timekeepers were intently watching their time pieces to announce the close of the game, which everybody expected would be a draw. It was scored when a Jugo Slav made a flashing run down the left side, passing to the inside man, who finished with a shot that went obliquely into the net.

Besides showing brilliant defense work, the Western forward line displayed better combination than they had previously shown this season. Several times our boys succeeded in getting the ball up to the goal, but shots by Cuthbertson, Neil and Robertson were either saved or went just wide. Fowler and Cuthbertson on one occasion had the ball right in the goal, but both were knocked down and the ball cleared by the Slav defense. Fowler was hurt so badly in this play that he was forced to leave the field.

One cheering feature for local soccer fans was the return of Andy Stewart, who with his partner, Stephenson, displayed the usual brilliant defensive game that is a character-

istic of Western Electric football. The half-back line did noble work both in stopping the opposing heavy forward line and in feeding the ball to our forwards.

## "B"'s Win Twice

Vienna I, displaying a brand of first class soccer, proved a tough nut for Hawthorne's "B" squad to crack but they did it to the tune of two goals, in the curtain-raiser on Memorial Field October 19th.

Because Vienna displayed such a strong array of high-caliber ball it took our forwards a little while to settle down, but when they did they moved as one man and kept Vienna busy defending its goal. Our first score came in the first half, when Goddard made a perfect center of a direct pass from Basak, which Trense tipped into the net. It was so well-timed that the Vienna goalie didn't have a chance to save.

The second half was even more closely contested, both goalies getting lots of chances to show their skill. "Bert" Bunsie, star defender of the local squad, was again full of tricks and Vienna would have had to dig a subway under him to sneak one into the net. It was "give and take" the entire second half. Vienna gave Hawthorne a second goal when the Vienna right half back handled the ball and we were awarded a penalty kick. Rudolph Basak, usually "king" registered his fifth penalty kick in five attempts. It is costly business sending the ball when Rudolph gets a chance at the penalties.

Hawthorne's "B" squad won its way into the second round of the Peel cup race with a 3 to 0 victory over Sture II on Memorial Field Sunday, October 12th. Fred Goddard scored our first goal with a beautiful shot from the touch line. Sammy Woods added one to the score by swerving and dodging through Sture's defense for another beautiful goal. Bazuk scored the other marker from a penalty.

## FAREWELL PARTY TO COACH SAMPLE

W. C. Sample, the man who made the "B" soccer team, was the guest of honor at a gathering of local soccer players last Friday night. Coach Sample, who is a construction engineer, is being transferred to Kearny in connection with the Company's building project there and the boys got up a surprise farewell party on him at the home of Sid Towler.

Jack Lavers, mentor of the "A" team, was responsible for the preparations and certainly made a success of the job.

R. A. Pook, chairman of the Hawthorne soccer committee, voiced Hawthorne's appreciation of Mr. Sample's work and when he had finished talking the boys burst out with "For he's a jolly good fellow" with a fervor that would have drowned out even a public address system. Mr. Sample responded to this outburst by expressing his gratitude, assuring the boys that he would never forget the happy days he spent with them. He said that never in his life has he had such support as the "B" squad has given him during the time he was their coach—and he is a veteran at coaching.

Quite an elaborate program followed the oratory. The boys got to singing again and rendered all 1001 verses of "It Ain't a-Gonna" A brother of Hawthorne's star half-back, Aretos, sang several operatic selections in Greek, Italian and Bohemian. Sid Towler also sang and Bob Hosie put on a "Harry Lauder" act. The rest of the evening was turned over to story swapping and cards.

Hawthorne soccer loses a big asset when Mr. Sample is transferred. Besides being universally liked, he is a past master at the game. During the war he was a captain in the English army and had charge of an army soccer team, on which were a number of prominent English professionals. He piloted this team through 42 consecutive wins.

## MARRIAGES

October 18th:—J. A. Domas, of Dept. 5536-3, to Miss Helen Ann Revard, of Assumption, Illinois.

September 6th:—R. Stanford, of Dept. 5536-3, to Miss Jessie M. Van Buskirk, of Midlothian, Illinois.

September 27th:—Miss Virginia Keiser, Dept. 6651-1, to Walter Cieszynski, of Chicago.

## BIRTHS

October 17th:—To Mr. and Mrs. John Petraitis, a 13-pound boy. (Dept. 6345.)

## Cards of Thanks

We wish to thank the many friends of Christine Hann who have so kindly remembered her during her illness and for their kind expressions of sympathy in our bereavement, also for the beautiful floral offerings.

Mr. and Mrs. Robert Snasdell  
Wm. H. Hann and Family.

In behalf of myself and family, I wish to thank my friends and fellow employees of the Equipment Engineering Department for the beautiful floral offering and their kind expressions of sympathy during my recent bereavement, the death of my wife.

Louis Cals, Dept. 6525-2.

We wish to thank the employees of Dept. 6566 and 6567 and other friends in the Western Electric Company for their kind expressions of sympathy and for the beautiful floral offering in our late bereavement, the death of Dorothy A. Brinker.

John W. Brinker and Family,  
J. Van Liere.

M. P. Goepfel, of Dept. 6586-2, wishes to thank the members of his department for the kind expressions of sympathy extended during his recent bereavement.

## JOBGING TEAM TIES TOOLROOM SQUAD IN INTERBRANCH BOWLING

They're knotted up again in the Interbranch Bowling League. Since the last issue of The Microphone, the Jobbers, who rolled into second place when Industrial Relations rolled out, have tied the Toolroom for leadership of the league. Had they taken all three of their games with Switchboard last Friday night, instead of a 2 to 1 split, they would have been sitting on top of the world now, for the Toolmakers dropped one to Industrial Relations.

Technical still rides in third place, thanks to a 2 to 1 triumph over the Assembly five. Installation-Drafting, last year's champions, are again getting dangerous. They are now crowding Technical in fourth place.

Machine took two from the lowly Merchandisers, C. R. and I. split the same way with the Plant team. Switchboard Order copied two from Pay Roll and Cost, Financial and Accounting did the same to Special Process, while Process Inspection missed Final Inspection to the same tune.

The Installation Engineers, in a valiant attempt to get out of the cellar, took two away from Production, one too few to succeed in their attempted rise.

Those who bowled series of six hundred or over are:—W. Schwald, 675; R. M. McLaughlin, 661; E. Knoke, 651; E. Bruhn, 634; J. Kolar, 625; E. Lane, 617; L. Heaney, 616; W. Gartner, 615; R. Miller, 614; J. Fliger, 608; L. La Font, 607; J. Pinc, 606 and J. Vyzral, 606.

## GIRL BOWLERS HIT STRIDE

### High Game Record Broken Twice in One Evening

The Installation Team No. 2 girls are showing the way to the rest of the Works lives in the Hawthorne Women's Bowling League. However, they are leading by but two games and are closely followed by Installation No. 1. Both teams swung into the maples in a hearty fashion Monday night and came off the alleys with three wins apiece. This leaves No. 2's record at 13 wins and two losses, while No. 1 has 12 wins and three losses.

Another team that pepped things up during the evening was made up of Merchandise girls. They broke the high game record twice, first rolling 733 and then 752. The previous high was an even 700, rolled by Production the week previous. Miss Ida Bond, Production, holds the three-game record with 506, while Miss Mary Berg, Installation No. 1, rolled high game for October 20th, collecting 188. Her team also has high average honors, 638-5.

## "AD" LOAD REACHES PEAK

Requests for classified advertising space in The Microphone is at the highest point registered since the first paper was distributed. As this issue goes to press, the overflow of "ads" is more than sufficient to fill the next issue, which means that the issue of November 7th is already closed and that advertisements handed in from now on must be held for the issue of November 21st. Unfortunately the pressure can not be relieved by devoting more space to the advertising since the remaining three pages of the paper are even now somewhat inadequate for the news material.

Advertisements are handled in rotation as they come into the office, each being filed as it is received. This assures every advertiser having his "copy" inserted as soon as prior advertisements have been run.

Incidentally, our readers should note that The Microphone does not run advertisements of rooms for rent. Those having rooms to rent and those wishing to rent rooms should address Miss G. Fries, Dept. 5080-4, who maintains a special service along those lines.

## MINOR LEAGUE BOWLERS HARD AFTER THE PINS

The Inspection Branch Bowling League team is rapidly leaving the "fish league" class, due to the high scores being rolled. Slavik, of the Keys and Calling Dials squad, has scored a 244 for the high mark of the league so far this season. Stepanek, of Relays, and Fortner, of the Supervisors' team, have given him a close run for the honor, turning in totals of 243 and 235 respectively. The team standing was considerably upset when the two leading teams each lost three games, while the next two teams each won three, exactly reversing the positions. This leaves the Punch Press squad in possession of first place, with the C. R. and I. squad in second place. All Inspection Branch rooters are cordially invited to come out on Tuesday evenings and watch the boys roll.

The Open Window Club, made up of apprentice training instructors, has organized what is perhaps the smallest bowling league in the Works, made up of but two teams. They bowl Wednesday evenings, the personnel of the teams being completely changed each week. This is accomplished by shifting players until the average of each aggregation is the same.

The Jolly Millers of the Milling Department have organized a bowling league of eight three-men teams, with a schedule that calls for play every Tuesday night.

Just to get in the swim of events, the Piece Part and Stock Apparatus Tracing Division has blossomed out with an eight-team bowling organization, named the "Apparatus

Bowling League". E. W. Harris is president and E. Fortner, manager. It bowls every Monday evening. The "Yellow Sheets" are leading, with six victories and no defeats. A. W. Koenig, of the "Sub-Sels" tops the list of individual averages with 195-5, while he also claims high game with 227.

Down at the Box Shop, Team No. 2 is showing the way to the other five teams, with a percentage of 833, a high game record of 893 and high team average of 742-13/18. J. Cinkel is still leading the individual bowlers, with 3,071 pins for 18 games.

After the fifth round three teams, the Trouts, the Belts, and the Sharks, are tied for first place in games won and lost in the Clerical Methods Fish League pond. However, the Trout five have the highest pin total, leading the Belts by 184 and the Sharks by 315. Bass is proving to be the deep sea fish, occupying the lowest berth in the pond. Cod's 882 still stands as season's high game. Pike set a high average of 832 in the last round, while Ellsworth's 234 game and Lillig's average of 183-1/3 set new high game and average marks.

Oh, girls! Here's a chance to show Annette Kellerman up. That beautiful Sterling Morton High School swimming pool with its blue, lukewarm water, its nice springy diving board and its convenient dressing rooms equipped with electric hair dryers and everything, is going to be turned over to Hawthorne girls exclusively for one night each week. Hawthorne water nymphs who want to be in the big splash this winter should call Miss Clara Dykstra, Dept. 5730-S, on phone 1489, and ask her to place them on the list of the Hawthorne Chapter No. 1, Daughters of Neptune.

C. H. Gerding, of the Safety and Health Department, recently attended the annual congress of the National Safety Council, in Louisville, Ky. The congress is part of the industrial world's program for safety and health in manufacturing establishments.

The Women's College Club held its first fall meeting in the Works Restaurant recently, following a special dinner and a talk by J. J. Garvey, of the College Relations Division, with the election of officers for the coming year. The new administrative staff consists of:—Miss Catherine Congdon, Dept. 5075, president; Miss Eleanor Smith, Dept. 5080, vice-president; Miss Lois Wasson, Dept. 6574, secretary; Miss Anne Clark, Dept. 6055, treasurer.

In the recent track and field tests for Hawthorne boys, 36 contestants came up to the standard required and were eligible for bronze buttons. Of these successful boys, 11 were classed in the minor division and 25 in the major. Edward Dolan, Dept. 6087-4, lead the minors with a mark of 232, while Frank Ignowsky, Dept. 5536-2, was the star performer among the majors, gathering 275 points.

The Northwest Radio Club, which plans to do for radio fans of the Northwest Side what the Hawthorne Radio Club now does for local fans, has recently been organized with four Hawthornites holding executive positions. They are: A. M. Duke, president; A. Dudzik, vice-president; George Mrakuzic, secretary; and A. Rollo, treasurer, all members of the Equipment Engineering Dept. 6516-4. At the next open meeting, A. M. Cooper, of the Machine Switching Training Department, will talk on the "Relationship of Long Distance Lines to Radio Broadcasting."

C. G. Stoll, Works Manager, was one of the speakers at an assembly of executives and engineers held last Wednesday in connection with the third annual national observance of management week. His subject was "Co-ordinating Plant Lay-out with Production." The meeting was held in the Assembly Hall of the Western Society of Engineers under the auspices of the local section of the American Society of Mechanical Engineers, the Society of Industrial Engineers, the National Association of Cost Accountants, the American Management Association, Taylor Society, and the Western Society of Engineers.

The Employees' Service Division stormed the Chicago Bowling Alleys the evening of October 27th, to take part in a battle between the Traumatized, captained by Miss A. Tracy and the Rheumatized, lead by A. Rickl. The Traumatized won with a margin of nine pins, but Captain Rickl captured some glory for his team by rolling high average of 167-2/3.

The College Training supervisors held their second golf tournament recently, with four foursomes participating. Greenview was chosen for the course. E. L. Rasmussen took gross play and A. E. Holsted low net, while S. C. Summerfield trailed the field. The cup awarded to Mr. Holsted is said to be the smallest on record. It measures exactly 3 3/4 inches from the bottom of the pedestal to the top of the cup.

Miss R. I. Stone, chief of the Women's Service Department, returned to Hawthorne October 16th after a four months' tour of Europe, where she studied industrial conditions, particularly the part women play in industrial life.

Dr. Herbert E. Ives, of the Bell System's laboratory, the engineer who developed

the process of sending pictures by wire, told the Western Society of Engineers all about it in a speech he delivered before them last Monday night in their club rooms in the Monadnock Building. There was a good representation of interested Hawthornites in the audience.

When it comes to getting dolled up in sporting clothes, D. Schriber, chief of Men's Hiring Dept. 5075-1, would make a model model for the artist who drew the cover of the September Western Electric News, according to stories his friends tell. You remember the cover that showed the fisherman with the minnow strung on a huge manila rope? It seems that the only difference between Schriber and the cover fisherman is that Dan fishes for ducks with a pump gun. Outside of that he filled the picture complete, even to the leaking hip boot, after a day's "sport" near Elgin recently, during which he cleared (almost every time) all barbed wire barriers and waded through all nature's water holes without once having to be towed out of the mud by a farmer's team. But he saw no ducks and consequently when one floated leisurely down the river past him about evening he experienced a rather natural excitement. Scorning the unsportsmanlike procedure of hitting it over the head with the butt of his gun, which he might easily have done, Dan went after it with the conventional end of the fowling piece and emptied a belt-full of ammunition in its general direction. As his last shell exploded, it waddled sedately up on the bank and with a farewell quack disappeared into a farmer's barnyard.

Hawthorne's Industrial League baseball team ended the season with plenty of glory last Saturday at a banquet given to the team by the Hawthorne Club. H. E. Mathisen, president, and T. Wolcott, vice-president of the Club, both spoke in appreciation of the team's efforts and presented each member with a small trophy. There was a feast fit for a Roman emperor, with choice cuts of veal and roasts of beef with all the trimmings. It was resolved by those present that next year's banquet would be in celebration of the Industrial title's return to Hawthorne.

Twenty pins cost J. Fliger, of the toolroom, \$75 each in the finals of the bowling sweepstakes recently held on the Peterson Alleys, for it was a margin of 20 pins that kept him from winning the \$2,500 prize for first place. As a result Fliger had to be content with the paltry thousand offered as second place money.

The Telephone Power Board Department, located at 74th St., put power boards to one side the afternoon of October 18th and journeyed to Swallow Cliff for an outing. A ball game feature nearly ended in a riot when F. Schmidt hit what looked like a sure homer with three on and a desperate fielder collected the sphere with a wild lunge. G. Hedge, in charge of the "weenies," almost started another riot by reporting that his charges had escaped, but saved the day (and his own life) by sharp detective work. L. Towler, "chef," accidentally started his fire in the oven of the stove and put the coffee pot where the stove pipe should go, but turned out a plentiful supply of hot dogs and java just the same.

R. E. Clifford, chief of Accounting Div. 6054, and E. E. Loistrom, chief of Shop Clerical Div. 6030, were sailing homeward over one of our great wide ways in Clifford's "coop" the other evening when suddenly a deep "Woof! Woof! Woof!" sounded under the car. "Must be a Newfoundland from his bark," remarked Clifford. "Watch me run away from him." And he stepped on the gas. But apparently Black Gold had nothing on that dog for speed, for his rhythmic woofs continued to come from exactly under the car. Finally Clifford stopped, whereupon the woofs promptly stopped also. However, a look under the car failed to reveal the offending canine. Instead it showed one rear tire, exceedingly flat. The air sucking in and out of the valve stem as the wheel turned was the mysterious dog. "Did you find the cyoodle?" called Loistrom from the car. "Yes, doggone it," answered Clifford. "Get off your coat and help me fix him."

Last Saturday night Hawthorne Club entertainers broadcast a radio program over the Daily News station WMAQ from the Illinois Products show. Those who took part in the program were Miss Emmy Rentzman, soprano; J. E. Petersen, basso; Elliot Oakes, violinist; Charles Blum, concertinist, and Loretta Kane, piano accompanist.

## WESTERN GIRLS ELECTED BOWLING LEAGUE OFFICIALS

Two Hawthornites received executive positions when the Women's Industrial Bowling Association of Chicago met for its annual meeting October 9th. Miss Jennie Simpson, of the Merchandise Voucher Department, was elected vice-president, and Miss Ida Bond, Material Records Department, was appointed to the executive committee.

The league is made up of eight concerns this year and is bowling on the Thomas Alleys Wednesday evenings. Teams entered are from the Wahl Eversharp Pencil Company, the Illinois Bell Telephone Company, the Edison Electric Appliance Company, Montgomery-Ward, the Chicago Tribune, the Daily News, the Wrigley Chewing Gum Company and our Company.

In the first night's bowling we landed in fourth place, losing one of the three games we played with Montgomery Ward.

**VOTE NOVEMBER 4TH**  
VOTE AS YOU PLEASE  
BUT - - - VOTE!

## ARMY OF CAGE STARS OUT FOR COMPANY TEAM; MORE INVITED

Two hundred basketball players answered the call for candidates for this year's Industrial League quintet, broadcast by Manager D. W. Elwell through these columns and the Works bulletin boards.

The list of schools represented by the candidates looks like a roster of all the colleges in the country and most of the high schools. Practice will be held three nights a week, with three shifts on Saturday afternoon, in order to accommodate this record-breaking turnout. Last Wednesday night the first squad went into action at the Sterling Morton High School gymnasium. Next week practice will be held Tuesday, Wednesday, and Friday nights and three shifts Saturday afternoon.

Additional candidates who would like to come out should not report at the gymnasium but should call Manager Elwell on phone 2051 or see him in Dept. 6558-B, Bldg. 25-4, for assignment to one of the squads.

Although the Interbranch League will not start much before January, players who do not feel they are good enough for the Industrial League team but who think they can make one of the interbranch squads are invited to sign up with Manager Elwell to get in condition through these practices. It may even be possible to give branch teams a chance to play as a unit at a little later date.

## BOYS' LEAGUE STANDING

The Junior Playground Ball League standings for the week ending October 18th are given below. Games in this league are played on Memorial Field during the noon hour. As was the case in the previous league, standings are determined by points, not percentages.

Team	Points
Dynamos	300
Bush-Leaguers	247
Knockouts	200
Sluggers	200
Broken-Arms	144
Pirates	100

## RADIO CLUB ELECTS

### New President Is Chosen—Data Sheets to be Distributed

P. S. McCann, chief of the Permalloy Manufacturing Methods organization, was chosen president of the Radio Club in the election held Thursday, October 16th.

At the same meeting, A. M. Cooper, of the Machine Switching Training School, gave an interesting talk on "Wired Wireless", in which he discussed "phantom" circuits and "carrier current" circuits. He pointed out that without the carrier current it was only possible to have two or three conversations over a pair of wires, but with it engineers have obtained as many as 11 conversations over two pairs of wire. So interesting was his talk that the Radio Club is going to ask him to repeat in the near future.

At the next meeting of the club, which will be held November 6th, H. G. Johnstone, chief of Circuit Engineering Dept. 6544-1A, will speak on "Intermediate Frequency Transformers in the Super-Heterodyne".

Everybody who attends this meeting which will be held in the Restaurant, will be given a set of the newly compiled data sheets, which cover tubes and other standard radio equipment.

## A. MIKLEBUST RETIRES

A. Micklebust, of the Wood Finishing Department, has retired from active Company service. Mr. Micklebust's service with the Western Electric began at Clinton St. in 1905, in the Woodworking Department. Eventually this original woodworking department was split into several sections, Mr. Micklebust specializing in finishing. He finally became a cabinet maker and was employed on switchboard woodwork at the time of retirement.

## WINTER CHESS TOURNEY STARTS

The opening night of the winter chess tournament saw 50 players ready to take places at the boards, the largest field that has reported since 1916. The first night's play had few high-lights, but it indicated that the committee was pretty successful in arranging the various classes, since the result of games showed no great inequalities among players. There are four classes with a captain in charge of each one. The captains are:—Class A, T. E. Moon, Sub-Div. 5952-4; Class B, F. J. Novak, Dept. 6379; Class C, W. A. Johnson, Dept. 6136; Class D, A. F. Hoban, Dept. 6156-4.

Tonight the club will start its series of lectures, with B. Plos, president, first on the program. He will discuss the principles and rules of chess.

## Deliberate Injury

"Were you ever injured in an accident?"  
"No, sir."  
"What's that?" pointing to a scar.  
"A rattlesnake bite."  
"Well, wasn't that an accident?"  
"I should say not. The snake bit me on purpose." —Employees' Safety Magazine.

### IMPORTANT NOTICE

The Hawthorne Club has been presented with a proposition in connection with the sale of canned vegetables. (Corn, Peas, Tomatoes.) We believe we have a very good quality of merchandise at the right price. However, it is not the intention of the Club to sell less than case lots (24 cans). The weight of a case is approximately 44 lbs. The prices are as follows:—(Carry home from Club Store.)

CORN, No. 2 can (24 cans to a case).....\$3.25 per case

PEAS, No. 2 can (24 cans to a case)..... 3.25 per case

TOMATOES, No. 2 can (24 cans to a case)..... 3.00 per case

If you are interested cut out the order blank below, mail or bring it to the Hawthorne Club, Dept. 6965, Bldg. 22-1.

## CLUB BUILDING AND LOAN ASSETS PASS THE MILLION MARK

End of Fourth Year of Business  
Finds Employees' Organiza-  
tion Ranking Among Strongest  
in the State of Illinois

The yearly report of L. E. Mulac, secretary of the Hawthorne Club Savings, Building and Loan Association, shows that the business of the organization has increased tremendously since its inception four years ago, present assets totaling \$1,015,535.07. This is an increase of 900 percent over the first year's assets and an increase of approximately 50 percent over last year.

These figures do not give a complete story of the association. More are needed to complete the picture of its growth and give an idea of the service it renders. Organized in August, 1920, the charter membership numbered but 27 subscribers, whose total deposits were \$125 a week. Today 3,400 employees are paying in \$12,000 per week in subscriptions, while average returns in the form of interest for the same period are close to \$5,000.

Aside from the increase in assets, the increase in the number of homes financed each year has kept pace with the general growth. During 1920 and 1921, 24 builders received loans sufficient to enable them to complete their homes. The following year the number jumped to 40. It went to 78 in 1922-23 and reached 121 last year. The total loans on these homes amount to a little more than \$900,000, with \$65,400 invested the first year, \$130,727 the second, \$245,088 the third and \$483,650 the fourth. Some of the loans made have already been paid off of course, and the total of outstanding real estate loans at the end of the past fiscal year stands at \$880,740. On a conservative estimate, the real estate on which these loans have been made is valued at more than twice that amount, which reduces to a minimum any possibility of loss to the association. Furthermore, the risk assumed decreases steadily, as loans are repaid in weekly or monthly installments.

The assets accumulated by the association have increased proportionately with the loans made, \$102,108.44 being the total at the end of the first year, \$270,180.38 the second, \$569,613.72 the third and \$1,015,535.07 the fourth. If this remarkable increase continues for the next three years the Hawthorne Savings, Building and Loan Association will be the biggest in the State of Illinois in 1928.

The total outstanding real estate loans do not merely represent money profitably employed. They mean that the employees' savings are invested with maximum security and maximum returns, since the association is of the mutual character. Benefits do not cease here, however. A good many borrowers were saved the 3 percent to 5 percent commissions usually charged to secure a loan from outside sources, while in numerous cases the association's officers, attorney or board of directors have assisted employees in various phases of home financing.

Continuing its upward climb, the association is issuing a new series of stock beginning with December, subscription to be filed beginning November 10th. Those interested can secure complete information regarding the issue at the Hawthorne Club offices during the regular Building and Loan hours.

The financial report of the secretary includes the following statements of assets and liabilities:

Assets	
Loans on real estate	\$880,740.00
Loans on stock pledged	68,065.80
Installments on stock due and unpaid	15,232.61
Furniture and stationery	500.00
Cash in hands of treasurer	50,996.66
	\$1,015,535.07
Liabilities	
Regular installments paid in on stock	\$886,606.763
Installments on stock paid in advance	5,372.983
Installments on stock due and unpaid	15,232.61
Cash payable	33,400.00
Contingent fund	1,500.00
Profit (divided and undivided)	71,319.91
Accounts	94.05
Expense	8.75
	\$1,015,535.07

## HAVE YOU THESE MAGAZINES?

The Works Library needs one copy of Journal of Industrial and Engineering Chemistry for October, 1922, and copies of Chemical and Metallurgical Engineering for September 10 and December 10, 1923, to complete its file of these periodicals.

The Library asks Microphone readers to locate these copies. If you have one or both of these issues and are willing to sell them bring them to the Works Library in Bldg. 27-6. Or if you know where they can be obtained please call Miss M. Gillespie, Works Librarian, Dept. 6043, ne 1357.

IF IT WORKS WITH THE SCRUBS IT WILL WORK  
WITH THE VARSITY

## HAWTHORNE GIRLS' FIRST FALL PARTY GOES OVER STRONG

When the evening whistle blew on October 23rd, nearly 600 girls dashed to the Works Restaurant in excited anticipation of their first fall "stag" party. When the last die was cast and the final bid in "500" was completed, 75 of them started home with some sort of prize tucked under one arm. One and all they voted it a perfect evening.

Dinner was first on the schedule, a dinner guaranteed to sustain the hardest working buncos player. An unscheduled scramble for playing tables followed the dinner and the merry tournament started.

When the shuffle of pasteboards had ceased it was found that the "500" prize winners were: Misses I. Bond, Dept. 6137; A. Bond, 6478-1; C. Steha, 5035-1; K. Chlad, 6567; K. Newton, 6100-A; M. Dillon, 6292; G. Newton, 5561; and Mrs. Mary Lax, 6518-1B.

Winners at buncos were: Misses M. Barnick, Dept. 6671-6; L. Halaska, 6087-4; J. Nemecsek, 6045; L. Rusy, 5075-4B; P. Polacek, 6316; V. Kalemka, 6332; E. Melka, 5035-1; A. Anzalone, 6408-3A; E. Peklo, 6468-1; R. Hoppe, 6329; M. McCarthy, 6136; E. Malkowsky, 6319; A. Heroy, 6528-2; C. Dilling, 6111-3B; S. Killhoff, 6319; M. Ruszicka, 6087-4; M. Matusek, 6526-2; E. Germann, 6671-6; S. Hoffman, 6100-A; M. M. Smith, 6729; M. Hobarth, 6642-3; A. Miadek, 7031-3; E. Kazda, 6604; J. Lenski, 9074-3; M. Klaus, 6301; B. Boukal, 6271; P. Bradley, 6472-8; F. Schultz, 2408; L. E. Maly, 7391; H. Novak, 5075-4; H. Cullicott, 6017-4; F. Julovsky, 6316; B. R. Kyska, 6325; M. Heidler, 6124-2; M. Franz, 5922-2; A. Anderson, 6643-1; M. Latoski, 6323; E. Ouern-gesser, 6652-6; M. Angelina, 6335; E. Darling, 7682-2; M. Dusek, 5335; M. Erelack, 6335; S. Jesnoweck, 7681-2; H. Callahan, 6161; B. Jeffery, 6566; M. Padborsky, 6045; A. Grass, 6319; M. Strnad, 6124; L. Daly, 5074; E. Rempert, 7682-2; R. M. Beckett, 6729; M. Beckley, 5040-1; M. Meritz, 6319; A. Barizal, 6374; L. Lorr, 6045; F. Rider, 9074; M. Pipek, 6619; R. Kosinski, 6316; H. Karel, 6045; J. Kryskowski, 5538-4; J. Ehlert, 5074-1; E. Hunt, 6033-1; S. Kasber, 6316; G. Quwas, 6729; L. Basell, 6569-5; T. Stanke, 6366; Frances Trampola, 6361.

## WRESTLERS TO FIGHT FOR BRANCH AND INDIVIDUAL TITLES

Competition for branch honors, as well as competition for individual championships, will feature this year's wrestling carnival, the committee announced early this week.

There will be bouts in six weight classes, 126, 135, 147, 160 and heavyweight. The qualifying preliminaries and semi-finals will be wrestled privately at the Works during the next few weeks. The 12 finalists will wrestle before a gathering of Hawthorne fans at the Maestri Hall on Madison St., just west of Cicero Ave., Tuesday evening, December 2nd.

A cup will be awarded to the branch obtaining the highest point total, while champions in the various weights will be awarded suitable merchandise prizes.

Lining the branches up to fight for the cup is expected to stir up even more interest

in this annual feature event than has ever been shown previously. Branch leaders are already taking steps to get their wrestlers to sign up.

Application for entry can be made with any member of the wrestling committee. All wrestlers are urged to sign up early, so that preliminaries can be started.

W. Merz, Jr., Dept. 6146, 'phone 788, is chairman of the committee. The other members are: R. C. Tomlinson, Dept. 6133-H, 'phone 854; W. C. Crampton, 6106-1, 'phone 758; D. B. Martin, Dept. 6121-2, 'phone 1594; R. Ballou, Dept. 5595, 'phone 599; A. M. Bladen, Dept. 6532-1, 'phone 1562.

## POPULAR NOON DAY DANCES END TODAY; INDOOR SEASON OPENS

Today is an eventful day for Hawthorne dancers, for this noon the last of the season's "outdoor" dances was held, while tonight the Club will hold its Balloon Dance at Dreamland. In addition to this the entertainment committee also announces that the next indoor frolic will be a "get-together" dance at Guyon's Paradise on November 21st.

The outdoor dance season, which passed into history when the 12:55 whistle sent the last of the dancers scurrying back to their posts, set a new popularity high mark for Hawthorne Club activities.

Every Friday noon, rain or shine, Hawthorne's dance fans have packed the rectangle under the north end of the west bridge to its utmost capacity, while the dancing space was lined with hundreds who enjoyed listening to the syncopated melodies and watching the whirling couples.

Although the orchestra, which consisted of nine pieces, under the direction of Harry Ston, played all the latest novelties, the most popular request numbers were two songs that are both old enough to go to kindergarten. One of these was "Sam", which is six years old, and the other was "Some of These Days", which is just about as mature. "Charlie, My Boy", was one of the most popular of the more modern selections.

If requests received by the orchestra during the last few weeks are any indication the waltz is growing in popularity. Milton Wild's "Sally" was an extremely popular waltz number.

The entertainment committee is centering its attention on the indoor dance season with the idea of giving Club members the very best frolics that can be planned. There are a number of surprise features included on the tentative program that has been arranged.

The dance, November 21st, has been named the "Get-Together Dance", as its primary purpose is to get Hawthornites better acquainted with one another. During intermissions shake hands with your nearest neighbors and tell them where you work and who you are.

Club representatives now have tickets.

## CAMPAIGN ORATORS OUTDO THEMSELVES IN CLUB ELECTION

Army of Clerks and Judges Put  
Through Department Representative Election Without a  
Hitch—Some of the Stunts

Outdoing even the Hawthorne Club's presidential race for enthusiasm, departmental managers displayed all sorts of ingenuity in boosting their candidates in the departmental representative election held Friday, October 31st.

Although it lacked the pomp of the festooned presidential parade, there was just as much excitement manifested in the campaign as was ever exhibited even in the major local elections.

What's more, the voters didn't have to wait at their radio until four o'clock in the morning to get results either, as some Hawthornites did following the national election. Complete returns were in the hands of C. L. Durbin, secretary of the membership committee, just two hours after the polls closed at 1 o'clock.

The election machinery necessary to accomplish this was almost as ponderous as that required in an election in a fair-sized city. There were 242 "precincts" and close to 30,000 ballots were cast. It required a force of nearly 800 people to handle this flood of votes. There were 242 clerks and 484 judges, serving in the "precincts", with several "district managers" in each branch supervising the balloting, while it required a score or more to recheck the ballots when they were delivered at election headquarters in the Restaurant Building.

A number of the races were so close that recounts had to be made to determine the winners, while several ties had to be adjudicated by the committee.

No ballot boxes were stolen, so The Microphone can not regale its readers with any of the post-election scandals they are accustomed to in the daily press. The only irregularity reported is that a number of ballots were thrown out because voters made their ballots illegal by writing an explanation as to why it was wise to vote for the candidates of their choice.

Reams of campaign literature and several gas tanks of oratory were used by campaigners. Operating Branch campaign managers especially deserve mention for their energetic activities.

Bulletin boards all through the Works were covered with slogans and cartoons and in a number of departments silver-tongued orators harangued from bench tops during the noon-hour. Joe Kaubeck, of Manual Switch-board Wiring Dept. 6358, was one of these local spell-binders, while Jim Whitelaw, successful candidate in Inspection Dept. 6622, sang his way to votes and victory in a series of strenuous noon-hour campaigns.

The battle that took place in Dept. 6300 was one of the most strenuous staged. In this department a four-cornered fight was launched, which split the organization into rival camps and produced as snappy a campaign as anyone would wish to see.

In Jobbing Dept. 6377 a regular art gallery was displayed in promoting one candidate. F. J. Riley, one of Hawthorne's most clever ink slingers, had an exhibition some very amusing cartoons featuring his candidate, "Big-hearted Joe" (J. Zahlava). One cartoon, entitled "He Helps the Other Fellow", showed Joe strolling along with a piano stool, while his "helper" is "oting the piano. Another bit of humor was supplied by an election contribution box perched in front of Joe's desk, displaying as fine a collection of cigar butts as ever graced a bar-room floor—and two cents in change. Joe's rivals hint that Joe himself slipped the two cents into the box as a "nest-egg", but in spite of such calumnies Joe romped in, a winner.

In another department a variant on the "Andy Gump" slogan, "He wears no man's collar", was the feature. Friends of "Scottie" McClay in Jobbing Dept. 6372 altered it appropriately to, "He wears no man's kilts".

A sign in the Works Training Division instructed the citizenry in 16 different languages, including Japanese and Chinese, on the correct way to vote.

Altogether it was a very lively election and the members of the Club can congratulate themselves on having chosen a fine group of representatives for the coming Club year.

## ARMY DRIVE FUNDS HIGH

The Salvation Army drive for funds recently carried on at Hawthorne netted a goodly sum. While a few representatives have not reported, \$4,703.53 has already been turned in. It is expected that \$200 more will be collected before the complete check-up is made.

# ER MEDALS ARE FINALLY AWARDED TO "B" SOCCER PLAYERS

**Settlement of Disputed Games  
Gives Locals Second Place  
Honors—Play Double Header  
Here Sunday—Notes on Last  
Week's Games**

## Soccer Players Needed

To bolster up the squads, all three teams are looking for more players. Candidates are urged to report on Memorial Field either tomorrow afternoon or on the following Saturday afternoon at 12:15

Members of last season's "B" soccer team are sporting shiny new silver medals as trophies of their march to runners-up position in the "B" division of the International League last fall. Because of a number of disputed games, which have been awaiting decision since last season, the medals were not awarded until the latter part of this week, when the disputes were definitely settled in our favor.

Hawthorne fans will get a chance to see both the "A" and "B" teams in action against some high class competition Sunday, when both teams are slated to play on Memorial Field. At 1 o'clock the "B" team will meet the strong Norwegian-American I in a Peel Cup game. At 2:30 the "A" team will line up against the Hammond Hungarians.

## "A's" in Practice Game

The Western Electric "A" team was entertained by the Roosevelt A. C. in a practice game Sunday, November 2nd. In order to test out some new theories Manager Lavers instructed the players to aim at better combination work in this game instead of playing for a victory.

The game was fast and furious, and no fewer than five goals were registered, two by the Western Electric and three by the Roosevelt A. C., though the Western marksmen could have rendered a better account if they had been a bit more familiar with the irregularities of the ground. The first goal obtained by the Western came after a combined movement that swept the ball into the mouth of the goal. After a back had failed to clear, Stephenson ran it through. Stephenson was also responsible for our other goal, shooting from about 20 yards out and placing it in the upper corner of the net on the right hand side.

As the Western endeavors to keep the ball on the ground as much as possible and ruts in the ground disturbed this style of play, there were several miskicks recorded on account of the ball doing some unexpected hopping.

The defense played their usual steady game. Hosie and Stewart looked good in the full-back positions—nothing seemed to disturb them. They were afforded excellent support by the half-back line. A little more steadiness by the forward line, especially in front of goal, will render the Western Electric one of the most feared teams in the forthcoming Challenge Cup game.

## "B" Team Ties Germans

Our "B" team tied the German Club, Sunday, November 2nd, in an Immigrant State Cup game, 1 goal to 1.

In the first half the game was evenly contested, each side scoring once. Our goal was made by S. Woods. Sam sent in a peach of a shot, which the goalkeeper saved, but before he could clear it, Sam rushed in and headed the ball into the net. In the second half, the Western "B" team did everything but score and great credit is due to our new players, Johansson and Crothers, for the fine display of soccer they put up. J. Best was in great form, his rushing tactics completely upsetting the defense. A word of praise is due to the goalkeeper of the German Club, who gave a great display. Sand dunes in the goal mouth saved the German team on at least two occasions, as the ball instead of bouncing stuck fast in the sand with nobody to beat in goal.

## "C" Team Plays German II to Standstill

The "C" team, with a score of 3 to 3, also drew in their battle with German II. Hawthorne's newest team played a splendid game, although still a little weak on combination. Repnicki, center forward, netted two goals for our score, while S. Basak, full-back, registered a penalty kick for our third goal.

J. Boyes, manager of the team, is still looking for more players. Candidates for the team should come out Saturday just as soon after 12 o'clock as possible.

## BASEBALL GIRLS WIN FIRST

**Opponent's Errors Prove Costly And  
Our Team Takes 11 to 8 Victory**

Our girls' baseball team won the first game of the winter season on October 29th by defeating Gary Playground, 11 to 8. During the game Gary made seven costly errors, each of which resulted in a score by one of our aggregation. These mistakes, plus better base running by Western, proved too much for Gary's ten.

Our first score came in the opening inning, when Gary's catcher juggled the ball and Mabel Findlay slipped across the plate before the backstop could recover. Two more runs were tallied the next inning in

the same way, giving us a comfortable three-run lead that was never threatened.

Misses Bobby Pruscha and Eva Skrzydlewski made up Western's battery, the latter replacing Catcher Malina, who broke a finger a few days before the game. The opposing batteries showed a pretty even performance by the end of the game. Both allowed nine hits. Western's struck out 16, while Gary's collected 17. To off-set this, Gary allowed four bases on balls, while Miss Pruscha gave none.

This marks the opening of a good many city battles for our girls, most of them to be played at the Morton High School on Tuesday evenings. Last winter our ten emerged on top of the heap on the city battlefield and brought home a shiny, silver cup. No promise of a cup for championship performance has yet appeared on the horizon, but Coach Johnson's ten plans to struggle through to the top just the same and be ready for it if one arrives.

## FRACTURED SKULL CAUSES DEATH

**Machinist Injured in Fall Caused by  
Heart Attack—Was Hawthorne  
Veteran**

A skull fracture received when a dizzy spell resulting from a sudden heart attack caused him to fall and strike his head against the bath tub, recently caused the death of James Zima, of C. R. and I. Machine Dept. 7441-2.

Mr. Zima, who had been away from work a week due to heart trouble, was in the bathroom of his home, 2531 S. Ridgeway Ave., on October 18th, when he became dizzy and fell to the floor, striking the bath tub. He was rushed to the St. Anthony Hospital, where it was found his skull had been fractured. He regained consciousness several times, but succumbed to the injury Saturday, October 25th.

Funeral services were held Monday, October 27th, with interment in the Bohemian National Cemetery. Hawthorne friends sent a floral piece as an expression of their regard for Mr. Zima and their sympathy for his family.

Mr. Zima was well known at Hawthorne, especially in the C. R. and I. shops, where he had worked for about 11 years as a member of the C. R. and I. Machine Department. He started as a helper February 20, 1911, but was soon promoted to bench hand. Some time ago his heart troubled him so much he was forced to take a leave of absence for a long period. Upon his return he was assigned to light work on a small hand screw machine and it was on this work he was engaged just prior to his fatal injury.

Mr. Zima is survived by his widow and three small children.

## GIRLS' BOWLING TEAMS MEET WITH SURPRISES

Teams in the Hawthorne Women's Bowling League have met with more than a few surprises during the past two weeks. The Merchandise aggregation replaced Installation No. 2 for first place by three straight wins on October 28th, starting a shift that affected five teams. On November 3rd, however, they lost two games, and Installation No. 1 became close rivals for the premier place by taking three games in a row themselves.

In addition to those changes, the Technical team, which started the season rather low in the list and has moved up rather slowly, went into a triple tie for third place with Installation No. 2 and Clerical.

Miss Ida Bond still holds the record for three games. Miss Mary Berg took high honors October 28th with 187, while Miss Dilling secured them on November 3rd with 180.

# THREE OLD CAMPAIGNERS MEET

That the wide, wide world is a small place after all was again demonstrated recently when a former German marine and a former Russian general, who, twenty-four years ago, participated in the relief of Peking during the Boxer uprising in China, "discovered" one another in the same department at Hawthorne.

COMRADES IN ARMS. G. Hulsweh on left; B. Tcheslavsky on right.

## BOYS' HALLOWE'EN POW-WOW HELD IN RIVERSIDE WILDS

Weird, white, glimmering specters were beginning to flit through the Riverside woods in that creepy, thrilling way these mysterious spirits move at the very moment when a much-abused street car delivered its load of 200 Hawthorne youngsters there Tuesday evening, October 28th, for the third annual boys' Hallowe'en Pow-wow.

Three of these supernatural beings, emitting unearthly cries, danced through the woods alongside the boys as they started for the scene of the festivities. For awhile the effect was all that could be hoped for. The youngsters' hearts thumped, their backbones tingled and their knees trembled until suddenly one ghost ran abruptly into a tree and started "talking golf" in a decidedly vigorous and unghostly way. Just three seconds after that, a quorum of the boys present parked on the "specter" and removed the garments of mystery, revealing a very much perturbed member of the Boys' Activities Committee.

To greet the youngsters at pow-wow headquarters there were three big fires shedding warmth and dispelling the gloom and mystery of the dark woods and there were seemingly tons of weenies, grosses of buns, the entire crop of a huge apple orchard, and last but not least, a big barrel of sweet cider, providing sufficient provender to satisfy even a boy's appetite.

And we haven't even got to the real show yet! All of these features that created so much fun for the boys were merely preliminaries to the pow-wow, which was conducted in an opening surrounded by giant oaks.

It was a splendid night. The wind was just sharp enough to make the circle of boys appreciate the huge fire. The fine carpet of grass was blanketed in gaily hued leaves, which crackled underfoot. Every now and then the flickering flames would reveal the tree tops, ablaze in autumnal glory against the clear, starlit sky. Shadows danced a weird frolic in the foliage. And then suddenly nine Indians came stalking into the picture! Five braves and four squaws filed silently and majestically around the fire and squatted.

There followed an hour crammed full of interesting Indian lore, strange fascinating dances, and picturesque ceremonies. An eloquent chief told how the Indian hunter had stalked through those very woods. As he talked it seemed that hosts of Indian spirits had returned to their home to dance with the shadows, and the circle of boys steadily crept toward the fire.

Following the interesting introductory talk the Indians performed war and peace dances, an Indian wedding ceremony, and a peace pipe ceremony.

A dancing contest for Hawthorne boys was the wind-up of the entertainment. Prize winners were:—Dan Svehla, Dept. 2405-3; Harry Loss, 6124-4; George Savage, 5916.

## CHAMP GOLFERS TO EXHIBIT

Four Hawthorne golfers of championship caliber will play an exhibition game tomorrow afternoon on the Columbus Park course. The foursome will be made up of L. W. Miller, 1924 Hawthorne Club champion; W. P. Hart, 1922 champion; H. J. Bedard, 1920-21 champion and V. U. Fischer, a member of the foursome that won the Cook County Municipal Golf Association championship.

The players will tee off at 2 P. M., so those who wish to see the match will have plenty of time to reach the course.

## MINOR MAPLE MAULERS

The Inspection Branch Bowling League race is getting quite warm, the five leading teams being very close together and each team fighting hard. On No. 1 the Supervisors are holding down first place with the C. R. & I. team and Switchboards following. In the individual standings Sterly, of the Methods team, holds first place and Krajewski, of the Sub-Set team, has 254 for high game of the season, Werkmeister, of Keys and Calling Dials, ranking next with a 245.

The Box Shop bowling league underwent a decided change two weeks ago, all the teams being re-arranged to make them more equal in strength, as competition had narrowed down to two or three teams because of the inequalities. In the first night's bowling under the new arrangement, Team No. 2 stepped into the lead with three straight wins and also gathered high team honors for one game, high evenings average and high season's average.

The toolmakers were rather surprised to read in the last issue of The Microphone that the Inspection Branch bowlers considered themselves out of the "fish league" class, because of high marks of 244, 235, and 235. Although there are but eight teams in the "A. B. Peterson" league, they have a high individual game mark not only 21 pins higher than the Inspectors but seven pins better than the best game roled in the Interbranch League so far this year. E. Severson, of the Jobbing Section, is the proud father of a 265 game that's keeping the toolmakers busy trying to beat it. For fish leaguers these other too-room high marks aren't so bad, either:—High individual, three games, J. Pinc, Small Tool Department, 213; high team game, Jobbers, 995; high team average, three games, Punch and Die Section, 917-1/3. The Small Tool Department team, twice league champions, are again at the front of the pack, with the Jobbers snapping at their heels. In the last session of the league, the Jobbers got a severe set-back by A. B. Smith's Punch and Die squad. The Smith boys have twice made the Jobbers take the count, and to date have won five out of six games from them.

The Good Fellowship Club of the Hand Screw Machine Department has organized an eight-team bowling league which is spending every Thursday evening, slamming the pins through the back stop. After two weeks of play the Spark Plugs and Hookers are leading the tribes, each having a percentage of 833. Three teams are tied for third place and two are tied for sixth. The line-up of the last six teams is:—Crows, 500; Rinky Dinks, 500; Night Owls, 500; Shrimps, 333; Bears, 333; Wildcats, 117. C. Werner copped high game at the session held October 30th, marking up 202.

The Yellow Sheets, who led the Apparatus League at the end of the second night of their bowling schedule, were tied by the Receivers on October 28th and have since slipped to fourth place. The Receivers have mounted the ladder to first place with a record of 12 won and 3 lost. The high individual game of the season is held by Walton with 234, while Koenig's holds high average for three games with 201-1. Walton also bowled high game, 234, on November 3rd, with Shefflett rolling 233 for second place.

The Methods team is leading the Switchboard Planning Division League by three full games. Last Monday they rolled high average for the evening with a 773 mark. The Wood team, in last place, surprised everybody by rolling 866 for high game. "Bill" Dawe, head of the Hawthorne Interbranch League, is leading in the season's individual averages with a 171-9. Kossian with 168-15 and Hays with 167-1 are next in line. Kossian rolled three for an average of 188-2/3 last Monday. Star's 218 was the highest individual game bowled.

## RIFLE CLUB FINISHES

## SECOND SHOOT WITH BARRANS IN THE LEAD

While one contestant in the Hawthorne Rifle Club Match No. 2 is to shoot his targets over again, which may upset things, the present line-up of the finals in that event show W. T. Barrans leading with 388. R. H. Schustad is next with 384 and G. R. Brown third with 382. This is quite a different line-up than reported for medals in the first match. Mr. Barrans being the only one to repeat. He took third place in Match No. 1.

Match No. 2 was a 40-shot, two-position affair, fired in four strings. Not many perfect scores were turned in, but G. R. Brown and J. R. Walker both collected two perfect targets out of the four allotted them. The other two medal winners each made one perfect score. There was a pretty wide range of scores among the 24 turned in. They ran from 388 for the winner to 153 for the tag-ender.

The next session of powder burning will start the evening of November 17th, when everyone at Hawthorne is invited to shoot for a Thanksgiving turkey. The Rifle Club promises plenty of turkeys, good accommodations for shooters and a barrelful of fun for the entrants. In fact, everyone, but the turkey is promised an extra good time, since the committee is planning an entirely new way of handling the match. Iron sights will be used and firing will be done from a standing position. The entry fee will be ten cents a shot for men, but girls who want to try their skill at the cardboard gobbler's head need pay no entry fee.

Following the turkey shoot rifle experts will get in training for the Tribune Trophy Match, which starts the first week in September. Teams entered will consist of five marksmen. A silver cup goes to the winning team and prizes to individuals.

# HAWTHORNE CLUB ELECTS REPRESENTATIVES

## Candidates Successful in Election and Departments They Will Serve

The candidates elected Friday, October 31st, to represent the members of the various departments of the Works in Hawthorne Club affairs during the 1923-24 season are shown in the following list. These representatives, as responsible officers of the Club, will keep constantly in touch with all movements promoted by the Club and will keep members informed of what is being done in the wide range of Club activities. Due to the large membership of the Club, it requires intelligent and untiring efforts on the part of these representatives to care properly for employees' interests. They must be awake to suggestions regarding Club activities, and ideas or plans for bettering the Club's service to its members along any line should be taken up with them. They will refer all such matters to the proper official or committee.

### ADMINISTRATION, CLERICAL AND INDUSTRIAL RELATIONS BRANCH

6043-1:—Miss J. Horne.  
6023, 25, 29, 48:—A. W. Jensen.  
6030 Offices:—Miss I. Emming.  
5035-1A, 55-1:—Miss M. Cullom.  
5035-1B, 35-A:—Miss N. Mariner.  
5035-2, 10:—Miss B. Stelmo.  
5036-1, 37-2:—J. A. Leavy.  
5036-2, 5045-J, 5990:—E. A. Schremp.  
5036-3, 36-4, 36-5:—C. Beuthin.  
5040-1, 39-A:—Miss P. Hanley.  
5040-2, 40-3:—P. Smytka.  
6045:—Miss I. Smutzer.  
6046:—Miss B. Blastik.  
6047:—M. Hyland.  
5050-1, 50-2B, 50-2S, 50-2W:—Miss L. Groess.  
6055-2, 55-4, 55-6:—A. J. Reardon.  
6055-3, 53:—C. K. McCann.  
6056-1:—Miss M. Moudry.  
6056-2, 27:—L. W. Miller.  
6056-3, 55-5, 50-2:—F. A. Berg.  
6056-4:—V. Grisco.  
5073, 80, 78:—C. Sebek.  
5074-1:—Mrs. M. Kebrdle.  
5075:—Miss C. Walters.  
5092:—Miss N. Olsen.  
6087, 87-1, 87-4B:—Miss A. L. Baker, R. Hoeksema, Miss L. Navotny.

### PRODUCTION BRANCH

6100, 02, 03, 04, 06, 07, 92, 93, 94, 95:—C. Zimmerman.  
6106-1:—T. F. Moore. (Appointed.)  
6108, 09:—Miss S. Kirk, A. F. Bielan.  
6110, 11, 12, 20:—C. W. Morley.  
6111:—Miss A. Porthouse.  
6112, 46:—Miss V. Herholzer.  
6113:—Misses R. Thygerson, J. Harker.  
6121-1:—H. C. Rayspis.  
6121-2:—Miss L. A. Kuchynka.  
6121-3:—G. Bucher.  
6121-4:—D. A. Thomas.  
6121-6:—H. Kosins.  
6119, 23:—J. J. Hacker.

## ORGANIZATION CHANGES

F. W. Bierwirth, formerly equipment service superintendent, has been promoted to assistant general accounting superintendent.

Mr. Bierwirth started with the Western in the Piece-Part Tracing Department at Hawthorne in 1912. Six months later he was promoted to chief of a piece part tracing group, and in 1914 was again promoted, this time to chief of the apparatus tracing section. In January, 1920, Mr. Bierwirth was transferred to the Equipment Engineering Department, where he was assigned to special work for J. Danner. He was promoted the following June to chief of Switchboard and Apparatus Tracing Dept. 6106 and rose the following year to chief of Switchboard Tracing and Scheduling Div. 6105. Mr. Bierwirth was transferred to the Installation Branch in July, 1922, as head of Installation Service Div. 6501, and became chief of Installation Service and Scheduling Div. 6553 the following December. On July 2, 1923, he was made equipment service superintendent, the position he held when promoted to his present position on November 1st.

M. J. Raab, formerly head of Scheduling Div. 6552, has been promoted to equipment service superintendent, organization No. 6550, replacing Mr. Bierwirth.

Mr. Raab started in the Blue Print Department at Clinton St. in 1907. He was transferred to the Engineering Department as a draftsman in 1909 and was promoted to chief of the cabling layout section two years later. In 1912 he rose to chief of the Cabling Drafting Department and in 1916 was promoted to assistant chief of Switchboard Drafting Service Div. 6122. Mr. Raab was transferred to New York on installation service work in 1921 and returned to Hawthorne as chief of Installation Scheduling Sub-div. 6556 last December. On July 2, 1923, he was made chief of Scheduling Div. 6552. His recent promotion became effective November 1st.

H. A. Ewing, formerly chief of Manual Scheduling Department, has been promoted to chief of Equipment Scheduling Div. 6551.

Mr. Ewing started with the Company in 1920 as an equipment engineer. He next entered non-associate sales work in a technical capacity. He later returned to the equipment engineering organization, where he served successively as engineer, checker, and spot checker. In September, 1922, he was made a section head and January 1, 1923, was promoted to chief of the Coordination Department, handling manual and machine switching schedules. Later in that year he was transferred to the Manual Scheduling Department as chief. His promotion to chief of the Equipment Scheduling Division took effect November 1st.

G. E. Booth, formerly warehouse manager, organization No. 5910, has been promoted to general stores manager, ranking as assistant merchandise manager.

Mr. Booth started as a payroll clerk in 1909. The same year he was promoted to the position of claim clerk in the Claim Department. In 1910 he entered the Billing Department. He became chief of the Claim Department in 1911. He next transferred into the Apparatus Service Department. In 1917 he took up stock maintenance, working on prospective apparatus. In 1918 he transferred to the Service Department, handling lead covered cable and apparatus. In 1920 he was promoted to warehouse manager. At the time of his recent promotion to general stores manager, Mr. Booth was chief of the Warehouse Division with the title of warehouse manager. His recent promotion took effect October 27th.

E. Herbert, formerly chief of A. T. and T. Sub-div. 5921, and Returned Goods Sub-div. 5928, has been promoted to chief of the Salvage Division in the Merchandise Branch.

Mr. Herbert started with the Company in February, 1900, as a dynamo tester. A year later he was made a chaser on power apparatus. In 1903 he entered the Engineering Department, where he rose to section chief in charge of sub-sets and telephone machines. He became chief of the Commercial Engineering Department in 1906. In 1908 he was made chief of the Repair Service Department and in 1911 he was chief of the Returned Goods Department. Nine years later he was made head of the Returned Goods Sub-Division and in 1922 he was a'so given charge of the A. T. and T. Stock Sub-Division. His latest promotion became effective October 27th.

L. S. Baker, formerly in charge of Stock Maintenance Sub-Div. 5925, has been promoted to chief of the Switchboard Equipment Division.

Mr. Baker came to the Company in 1910 as a service clerk in the New and Changed Apparatus Department. In 1915 he was made head of this department and about five years later he was made chief of the New and Changed Apparatus Sub-Division. In January, 1923, he was transferred to the Stock Maintenance Sub-Division as chief. His recent promotion to chief of the Switchboard Equipment Division took effect October 27th.

A. J. Wood, formerly chief of New and Changed Apparatus Sub-Division 5926, has been promoted to chief of the Miscellaneous Equipment Division.

Mr. Wood started as a "chaser" in 1910 but was transferred to chief of the P.E.X. Output Department soon afterward. He served as head of a number of apparatus scheduling and similar departments during the next seven years. In 1919 he was transferred to the Merchandise Branch, entering the New and Changed Apparatus Department. In 1923 he was promoted to chief of the New and Changed Apparatus Sub-Division, the job he held at the time of his recent promotion to chief of the division on October 27th.

C. K. Pevear, formerly chief of Warehouse Development Sub-Division, has been promoted to chief of the Warehouse Division.

Mr. Pevear, who is an industrial engineer of long experience, came to the Company last January as chief of the Warehouse De-

velopment Sub-Division. He was in charge of this organization at the time of his recent promotion to chief of the Warehouse Division, which took effect October 27th.

R. C. Benson, formerly chief of Special Studies Sub-Div. 5922, has been promoted to chief of the Stores Clerical Division.

Mr. Benson started as an office boy at Clinton St. in 1898. He soon rose to chief office clerk. His next promotion was to chief of the Shop Order Department. In 1905 he organized the Apparatus Piece Part and Output Department. He has since been chief of several stock maintenance, tracing and ordering departments and in 1912 he was transferred to the Merchandise Stock Maintenance Department. In 1920 he was made chief of the Stock Maintenance Sub-Division and in 1922 he organized the Special Studies Sub-Division, the position he held at the time of his promotion to chief of the Stores Clerical Division, which took effect October 27th.

C. E. Anderson, formerly of Production Personnel Dept. 6193-1, has been promoted to assistant chief of Div. 5080-1.

The following have been promoted to department chiefs:—J. D. Lowery, 6193-1; W. J. Malcolmson, 6468-3; F. B. Rinck, 6490-5.

In addition to his duties as chief of Dept. 6513-2, G. D. Milne is chief of Dept. 6513-4.

## THE MISSING "LINC"

### Baby Lincoln Gets Temperamental in Traffic and Hurts Its Tow

Members of Dept. 6691-1 have awarded the noiseless traffic whistle to Charles Filipeck for his ingenuity in solving a most perplexing traffic problem.

While driving on State St., near Madison, in the thriving village of Chicago a few days ago, Charley suddenly became aware of the astounding fact that his new henry was refusing to percolate. While traffic and profanity flowed around, there it stood, deaf alike to the entreaties of its driver and the efforts of the self-supposed to-starter. Finally, with a mental resolve to trade the balky benzol buggy for a pair of roller skates or a kiddy car at the first opportunity, Charley dismounted and wound the engine up for ten minutes with no results other than increasing the sarcasm of the traffic cop's comments. Finally, accepting the unkind advice of that hard-boiled individual and the kind assistance of by-standers, he pushed the stubborn lizzy to the curb, and telephoned his brother for aid.

Soon after a panting flivver rushed up, equipped with tow chains and all the other necessary paraphernalia. The crippled car was attached and everything was set to go, but when the attempt was made, lo and behold, the mechanical disease with which Charley's car was afflicted proved contagious. His brother's car was likewise stricken and absolutely refused to go ahead.

Charley's mechanical ingenuity proved equal to the emergency, however, for after testing the pressure in the tires, dismounting the windshield, etc., to determine the cause of the trouble, he found to his great surprise that his brother's car had recovered sufficiently to enable it to move in reverse. In other words, the car would only go forwards backwards. Nothing daunted, Charley backed the car in front of his own, hooked it on and started for home with the radiators facing, one foot heavy upon the gas lever and the other on the reverse pedal.

He navigated some 10 or 20 blocks successfully in this novel fashion, but then unfortunately failed to see a through-street stop sign and was promptly apprehended by the long arm of the law. The copper attached to said arm wanted to know where in (etc., etc.) Charley was going, if he was going, and where in (ditto, plus more etc's.) he was coming (in case he was coming instead of going). Also, and very emphatically, why he failed to stop at stop signals.

However, explaining things is the best little trick Charley does and he soon convinced the officer that inasmuch as he was going backwards he ought not to stop until he was on the other side of the street. His flow of eloquent oratory so completely won over the bewildered officer that he not only released Charley but congratulated him for being the only motorist he had ever seen who drove properly.

To cap the climax, when our backward chauffeur arrived home he found to his great astonishment that one car had recovered completely and the other was convalescing nicely. Hence the "shingle" now on Charley's porch, to wit:—"Dr. Filipeck—Painless Fordistry."

## FAREWELL PARTY TO J. L. SHANE

Some 40 Plant Branch friends of J. L. Shane, who recently resigned his position as construction superintendent to go into business for himself, gathered at Napoleon's Restaurant October 24th to bid him farewell. Following a plentiful dinner several of the guests took part in an impromptu program of entertainment, Captain O'Toole, of the Watch and Fire Service Department, featuring with Scotch songs.

Mr. Shane left Hawthorne to start an architectural and construction business in the west town suburbs.

# BASKETBALL PROGRAM WILL BE LAUNCHED LATE THIS MONTH

## Kearny and Clinton Street Enter Teams in Hawthorne League —Industrials in West Division of Industrial Basketball League

Eighteen teams will compete this year for Hawthorne's basketball crown, according to tentative plans released by L. A. Peters, chairman of the basketball committee.

Both Kearny and Clinton Street will be represented in the league this year, which will make it more than a battle for inter-branch honors. The "Kearny Club", composed of future Kearnyites in training at Hawthorne, will be out after the title, while Clinton Street will send out a fast team and a crowd of enthusiastic rooters every week.

The local teams have been proportioned according to the "population" of each branch. The Equipment Branch will be represented by three teams—Equipment Service, Equipment Engineering and Equipment Methods. Clerical, Technical, Merchandise (Legal, Traffic and Distributing House), and Production will each have two teams, while Operating, Development, C. R. and I., Inspection and Industrial Relations will be represented with one squad each. Games will be played on Saturday afternoons, starting either the last part of this month or early in December, depending entirely on how promptly the branches get their teams organized.

Teams already organized within a branch should report to their personnel organization, which is responsible for determining the team management.

As soon as managers are appointed they should report to C. R. Johnson, phone 1144. Mr. Johnson has been selected to manage the Interbranch League this year and the committee has shown good judgment in appointing him. Ever since his high school days he has been a keen follower of the sport. He played on the South Haven, Michigan, high school five, made the freshman team at the University of Illinois, and was a member of the Illinois varsity until he gave up basketball to take a place on the swimming team. Last year he was a member of our Industrial League champions.

When all teams have registered a meeting will be called to map out the season's play.

The Industrial squads are now practicing diligently three times a week. There are some mighty fast boys among the 200 players out for the team and Coach Elwell has a job in front of him in picking out his squad. A number of the stars that won the Industrial title last year are back again and with these men as a nucleus, and such splendid re-inforcements lined up, it looks like not only another Industrial title for Hawthorne but a Central States championship as well. Hawthorne fans will soon get an opportunity to see the boys in action.

## "L" HITS HAWTHORNE MOTORIST

### S. O. Nelson and Mother-in-Law Injured When Train Smashes Sedan

A seven-car "L" train crashed into a Ford sedan driven by S. O. Nelson, of Planning Organization 6402, Tuesday night, October 21st, severely injuring Mr. Nelson and his mother-in-law, and completely wrecking the car.

The accident occurred at the 54th Ave. crossing of the Douglas Park elevated as Mr. Nelson was returning home from the office. He had stopped to pick up Mrs. Caldwell, his mother-in-law, who had been visiting with friends in Cicero.

As eye-witnesses tell the story, Mr. Nelson, who was going north, had just started to cross the track when the watchman waved for him to stop. He immediately put on the brakes but before he could back off the tracks or start on across an eastbound train struck the car about at the driver's seat, throwing it to one side, hurling Mr. Nelson into the back of the car and rendering him unconscious. In addition to the severe bruises they suffered, flying glass also inflicted serious cuts on both occupants of the machine. They were given first aid treatment by the Hurley Machine Company doctor and then rushed to the West Suburban Hospital.

Mr. Nelson received some serious cuts which required several stitches but was only confined to the hospital for a few days. Mrs. Caldwell was more seriously injured, but is also reported as getting along nicely.

## ENGINEERS HEAR ABOUT BY-PRODUCTS

### D. W. Z. Gee Gives Interesting Talk—A. F. Dixon Next Speaker

Certain parts in the family flivver from junked telephone parts was one of the interesting revelations made by Dan Z. Gee, head of our By-Products Division, in his talk on "By-Products of Manufacture" at the Engineering Society's October meeting, in the Works Restaurant on the 31st. Mr. Gee explained that certain parts junked at Hawthorne are made into brass bushings by one of Ford's suppliers. He also told how junked copper wire is made into brushes by a wire brush manufacturer, how our junked-out electric bulbs are converted into

fire-extinguisher hand-grenades, and recounted many other interesting destinations of our by-products.

Following this talk the engineers saw the new Hawthorne films.

At the next session, which will probably be held early in December, A. F. Dixon, systems development engineer of our Company, will be the speaker. Mr. Dixon's subject will be "Function of the Systems Development Organization". In addition to his subject material, he intends to give some of the more important developments with which Hawthorne engineers are not familiar.

Information on the exact date of this talk will be broadcast on the bulletin boards. Tickets will be available at the head clerks' desks in the equipment departments.

## MEN AND WOMEN

### PLANNERS HOLD RIVAL

#### HALLOWE'EN STAGS

When the men of Switchboard Manufacturing Planning Division planned a stag dinner and theater party the girl planners refused to be left at home, so they made some deep, dark plans of their own.

The result of all this planning was that on October 30th, when about 75 men planners walked into the Backhawk Inn, a score of girl planners walked into Powers' Restaurant, and when the fire curtain at the Palace Theater started on its skyward journey later in the evening, both the men and girl planners were very much among those present.

The men's dinner at the Backhawk Inn was a real feast. There were cocktails—of the fruit variety—huge, browned tenderloins and French fried potatoes with rolls, ice cream, cake and coffee. Between courses "African golf", played with cube sugar, was the most popular pastime, with cross-word puzzles a close second. E. M. Miller was crowned golf champion and was duly presented with Lincoln medals by his opponents in recognition of his abilities.

After topping off this splendid dinner with pale-face peace pipes of the Havana-wrapped or walk-a-mile variety, the party departed for the theater, where four rows in the balcony were reserved for them.

The girls went the men one better by getting main floor seats—a fact that was even recognized by the actors, who throughout the evening centered many of their witticisms on Hawthorne's delegation.

The local trotters surprised Palace patrons by letting out a chorus of war whoops as an ovation to C. F. Scheel, chief of the division, who arrived late.

Community sings are lightening the noon time hours, as of yore, with the very latest hits produced in the very latest ways. The music committee is close on the trail of new songs and plans to revise the song leaflet month by month.

Hawthornites who are interested in patent reports will be glad to know that the Chicago Public Library has decided to keep the patent report room open until 10 o'clock on all week day evenings hereafter.

Purdue engineering students to the number of 175 visited Hawthorne on October 31st. They made the journey in motor buses. Following a trip through various manufacturing and assembly departments, lunch was served in the Works Restaurant.

Howard P. Savage, newly elected commander of the Department of Illinois of the American Legion, has just written in to commend our American Legion Service Committee for its work for ex-service men, especially in connection with the Federal Compensation Act, and for the Defense Day celebration at Hawthorne.

Hawthorne songsters will be "on the air" over WMAQ during the noon-hour on November 11th in a special radio program. Those who live near enough to the Works to get home during the noon-hour will find it well worth while to tune in.

Y. Iwadare, son of K. Iwadare, managing director of the Nippon Electric Company, of our allied house in Japan, who has been at Hawthorne studying our methods, last week said good-bye to the many friends he had made here during his stay. He left for Washington, D. C., where he is to continue his study of American business methods at our Washington house.

## GIRL GOLFERS ELECT

Following their struggle to the polls for the national election in the morning, girl golfers gathered for the election of their own officers the afternoon of November 4th. The new administration will serve for the season of 1924-25.

Those who will be responsible for next year's activities are: Miss Emily Lala, Dept. 6555-S, president; Miss Mae Heaton, 5931-1B, secretary and treasurer; Miss Lulu Hannagan, 6136, chairman games and pastimes committee; Miss Helen Rusch, 2404, chairman handicraft committee; and Miss Lilian Sheehy, 6087, chairman membership committee. Three of the officers held positions last year. Miss Sheehy being the former president and Miss Rusch chairman of the membership committee, while Miss Heaton held the same office that she does at present.

## RADIO CLUB TO HOLD DINNER

### Will Hear New York Engineer Talk on Cone Type Loud Speaker

The new cone type loud speaker will be discussed by C. H. Gray, of the New York Engineering Laboratory, at the Radio Club's "get-together" dinner, which will be held in the Works Restaurant Friday, November 21st.

Mr. Gray took part in the development of the new loud speaker and his talk will undoubtedly be very interesting and instructive to radio fans.

The purpose of the "get-together" dinner is to get Hawthorne's radio fans acquainted with one another. Tickets for it can be obtained from either P. S. McCann, Dept. 6461-3, Bldg. 26-5; J. E. Kamys, Dept. 6405-1, or E. T. Ball, Dept. 6548.

Those who are unable to attend the dinner can still hear Mr. Gray's talk if they can get to the restaurant by 6 o'clock. It will not be necessary for Hawthornites who do not attend the dinner to purchase tickets.

## AUTUMN'S CRISP DAYS

### ARE REFLECTED IN RESTAURANT MENUS

"When the frost is on the punkin, and the fodder's in the shock" down on the farm, it's time for "ma" to start making those spicy mince and pumpkin pies and for "pa" to start offering cider to the visitors.

The Works Restaurant has taken up both "ma" and "pa's" task for us Hawthorne folks and is now offering cider with that autumn tang, and both home-made mince and pumpkin pies.

A fresh keg of cider every other day gurgles out tasty glasses of this refreshing beverage. At this rate of consumption, nobody need fear for his stability, for the cider never even gets a chance to lose its sweet disposition.

The pumpkin pie was very appropriately introduced the day before Hallowe'en. The pastry cook baked 75 big pies and they vanished from cafeteria counters and the service supply counter like magic. Hawthorne has an enormous appetite for pastry, for 300 pies are "heat-treated" in Hawthorne's bake shop every day, in addition to home-made fried cakes, wheat muffins and corn muffins by the stack.

The "vegetarian dinner" recently introduced in the service section at the restaurant is steadily gaining in popularity. Each day a different combination is offered to the vegetarians.

Hawthornites still maintain a healthy appetite for meats, however. Each week 1,500 pounds of beef, four whole lambs, five whole calves, 700 pounds of pork and 400 pounds of "Grade A" corned beef are consumed by Hawthorne's hungry, while every Friday Hawthorne gets away with 208 pounds of fish.

The special service counters on the first floor of the Restaurant Building, opened to supply sandwiches, fruit, cakes, cookies, etc. to those who desire a light lunch and to furnish such supplementary articles as ice cream sandwiches and bottled milk, are also proving very popular features of the restaurant.

## CHESS MEN WELL STARTED

### Three Weeks of Play Show Considerable Shifting—Checker Standings

Three weeks of tournament chess play has resulted in considerable shifting in the ranks of all classes of players, though the leaders have managed to keep their places. Last Friday the most active group was Class B, where ten players bumped each other around for a new line-up. At present the leaders in the various classes are: Class A, Golay; Class B, Brandner and Deardorff; Class C, Fernekes; Class D, Morrow.

A lecture on principles of chess and the rules of the game was given by B. Plos on October 24th. Next Friday T. E. Moon will give a talk on chess openings.

Ten clubs have signed up for the Chicago City Chess League tournament, in which our team is entered, so Western is scheduled for some lively competition.

In the checker tournament, Larson is leading in Class A, with Wesolowski second. In Class B, Van Eynde is first and Housen second.

## W. E. GAINS IN GIRLS' BOWLING LEAGUE

The Western Electric team moved up a notch in the second round of play held by the Chicago Women's Industrial Bowling League. Our girls defeated Edison Electric Appliance three straight games and moved into a triple tie for first place. Illinois Bell Telephone Company and Wm. Wrigley, Jr., Company are the other members of the triangle.

The Illinois Bell Telephone Company displaced the Tribune team in high game and high total for three games, chalking up marks of 1802 and 2,220. Miss L. Patterson, of the Tribune, took high individual honors for one game with a score of 193, while Miss E. Klingbeil, of Montgomery Ward and Company, holds the three game honors with 175-2.

## Cards of Thanks

I wish to thank my friends one and all for the kindness bestowed upon me during my recent illness.

Sylvia H. Had, Dept. 9522.

Miss Mae Karlicek wishes to thank the members of Depts. 5931-1B, and 5916, for the kindness extended to her in her recent bereavement.

# TOOLMAKERS ROLL THREE SUCCESSIVE GAMES OVER 1,000

## Set New Hawthorne Mark in Friday's League Round—Main- tain League Leadership—Other League Bowling Notes

By sweeping the alleys for three successive 1,000-or-over games, the Toolmakers set a new record in local pin circles and maintained their two-game lead over Technical in league standings.

There have been higher three-game totals registered in the local league, but never before has any team ever bowled three games in succession in the 1,000 class.

The Toolmakers toppled 3,108 maples for their new mark, breaking and rebreaking the season's high team game record and establishing a new season's high team average of 1,036 in the bargain. In their first game they collected an even 1,000 pins. In the second they broke the season's previous high mark of 1,051 with a 1,053, only to surpass this in the third game with 1,055. O. Jenkins was high man with a total of 667. The other scores were: J. Fliger, 624; J. Smid, 622; Prochaska, 600; and J. Pine, 595. The Stock Maintenance boys were the unfortunates who had the hard luck of lining up against the rampaging Toolmakers.

The same evening "Pete" Wehrmeister, Technical, rolled a 707 series for a new individual series total for the season. It was the first mark above 700 rolled so far this year. Other high individual scores bowled were: J. Anderle, Installation Drafting, 643; M. Hruby, Assembly, 631; J. Russel, Process Inspection, 616; J. Vyzral, Jobbing, 605; and J. Jirik, Special Process, 601. There were 54 individual games over the 200 mark. The standings held in this hectic bowling very well, only a few important changes occurring. Technical's three-game victory over Special Process, while the Jobbers lost 2 to 1 to Payroll and Cost, enabled the Technical boys to shake off the Jobbers and take undisputed possession of second place, two games behind the record smashing Toolmakers and two games ahead of the Jobbers. Although Installation Drafting dropped 2 out of 3 to Assembly they still have a one-game hold on fourth place. Machine made a sensational climb from eighth place to tie for fifth by grabbing three in a row from Production.

In the other games Installation Engineering won 2 out of 3 from Final Inspection; Financial and Accounting copped from Plant, 2 to 1; Process Inspection beat Switchboard, 2 to 1, while Industrial Relations took all three games in its quarrel with the C. R. and I. shops.

## GIRLS TO STAGE

### CAGE OPENER ON

#### NEXT FRIDAY NIGHT

Girl basketeers will launch their season's activities at Sterling Morton High School next Friday night, when they will line up against the Bethlehem Congregational Church five.

It will be a real test of strength for our girls, as the Bethlehem team has two wins to its credit already this season, while this is Hawthorne's first appearance.

Coach Kurtz is confident that the local girls will give a very commendable account of themselves. He believes this year's squad is better right now than last year's team at the close of the season. Spectators are invited to come out and watch this first appearance and judge for themselves.

As a nucleus for this year's team the coach has most of last year's players back in the line-up, while several new girls look as if they are going to develop into fast players.

However, in order to build up a team strong enough to compete with the high-class competition entered in the Central States League, more girls will be needed on the team. Hawthorne girl athletes are invited to try for the squad. Call Miss Mae Splitt, captain, on 1545 for details.

## MILLWRIGHTS GET BIG MACHINE

The Millwright Department recently decided that a shearing, punching and coping machine powerful enough to handle half-inch construction steel of different forms would make a valuable addition to the other "delicate" instruments in its shops. Consequently a purchase order was sent through accounts payable by high hopes for the new "boy".

When it arrived, however, the machine looks chime somewhat exceeded expectations. It had seven tons of dead weight and in a day that got the job of taking the machine apart. Then the millwrights got in this new issue too big to go through Hawthorne Club offices door frame had to be knocked down and the machine moved in. It was found that it was 5 to 6 o'clock moving the machine in, and 5 to 6 o'clock shop, and well.

be laid on which on making applications for However, little to act quickly. There has day affairs for in applications this fall and chime is now that all available cash will stuff.

(At Works Restaurant)

### INTRODUCTORY SERVICE ON

Jewelry, Leather Goods, Silverware and Carving Sets.

Ladies' Wearing Apparel.

Automobile Accessories and Tires, with special prices on Bumpers and Springs.

Also a 33-1/3% discount on Irving Winter Auto Fronts of Automatic and Shutter Type.

Introductory Service has been arranged on the above articles whereby employees are accorded special prices by outside concerns. Full information and a card of introduction is given at the Secretary's office in Bldg. 22-1.

### SPECIAL SERVICE ON CANNED GOODS

The Hawthorne Club has been presented with a proposition in connection with the sale of canned vegetables. (Corn, Peas, Tomatoes.) We believe we have a very good quality of merchandise at the right price. However, it is not the intention of the Club to sell less than case lots (24 cans). The weight of a case is approximately 44 lbs. The prices are as follows:—(Carry home from Club Store.)

- CORN, No. 2 can (24 cans to a case) ..... \$3.25 per case
- PEAS, No. 2 can (24 cans to a case) ..... 3.25 per case
- TOMATOES, No. 2 can (24 cans to a case) ..... 3.00 per case

If you are interested cut out the order blank below, mail or bring it to the Hawthorne Club, Dept. 6965, Bldg. 22-1.

Hawthorne Club, Dept. 6965, Bldg. 22-1.  
Please order for me

Date.....

## "THE BIRD OF A NATION" TO PUT ON HIS ACT

### HAWTHORNE INVITED TO CO-OPERATE IN SCIENTIFIC TESTS

**National Research Council to Conduct Experiments of Nation-wide Interest on Effects of Factory Lighting**

The National Research Council of the American Academy of Science has chosen Hawthorne as the laboratory for the first of a series of studies on lighting conditions in industry. The experiments will be under the general direction of Prof. Dugald C. Jackson, of the Massachusetts Institute of Technology, who is chairman of the Research Council's committee on industrial lighting. Associated with him in the work are some of the country's leading psychologists, physiologists, ophthalmologists, and illuminating engineers.

The National Research Council is a scientific body organized with the co-operation of all the principal scientific and technical societies of the United States, for industrial research of benefit to the community as a whole. A certain part of its investigations are for the purpose of determining how to make working conditions safer, more pleasant and easier for workers.

The Council plans to conduct numerous experiments throughout the industries of the country, wherever they can secure the necessary co-operation, since only in that way can scientific and practical conclusions be reached concerning the effects of variant factory conditions.

The experiments to be conducted at Hawthorne, will, as stated above, be on lighting conditions. Three types of work will be investigated in the present experiments—receiving coil winding, the assembly of flat type relays and the inspection of relay springs. Special lighting units will be installed in Bldg. 47-5, Bldg. 39-5 and Bldg. 37-4, by means of which the amount of light in the departments under test can be varied.

A major consideration in the investigation is the restfulness and pleasantness of different light intensities, the aim being to determine as far as possible what lighting conditions are most nearly ideal from the standpoint of the operators.

Undoubtedly every effort will be made to obtain conclusive results that will cover every phase of the subject, including relief from eye-strain, lessening of eye fatigue, reduction of general fatigue and the effect on the earning power of the individual and on the quality of the work performed.

To determine facts of this nature the National Research Council's scientists in charge of the tests will perhaps request the operators involved in the experiments to co-operate with them by taking eye-tests and supplying other data that will aid in the interpretation of the results.

We, at Hawthorne, have always been proud of our contribution to the welfare of the nation through our production of telephones and telephone apparatus of universally acknowledged excellence. We therefore feel that we have justly earned the honor of co-operating with the scientists of the country in an investigation that should be of benefit, not only to ourselves, but to our fellow workers in other industries, and to the community as a whole.

### U. OF C. PHYSICIST TO SPEAK

**Science Club to be Addressed by Dr. A. H. Compton in Restaurant Bldg.**

Dr. A. H. Compton, professor of physics at the University of Chicago, will speak at Hawthorne under the auspices of the Science Club on "New Evidence on the Nature of Light" on Wednesday, December 3rd.

Dr. Compton, although still a young man, is already widely known throughout the country for his research in physics. He is an excellent and entertaining speaker.

The Club feels that everyone interested should have an opportunity to hear Dr. Compton, and is, therefore, holding "open house", cordially inviting all who wish to attend.

Dinner will be served on the second floor of the Restaurant Building at 5:45 P. M. and will be immediately followed by the meeting. Those who intend to be present should make reservations with the club secretary, E. E. Blankenstein, Dept. 6471-4, phone 1300, not later than noon on December 1st.

"Do not always think that the man who yields ground in a discussion is weaker than you are. Perhaps his desire is to seek the truth rather than to win an argument."

### HAWTHORNE ENTERTAINS BUSINESS GROUPS

**New York Telephone Co. Officials and Utility Companies' Publicity Men Visit Works**

A group of officials from the New York Telephone Company and a party of Chicago publicity men made trips to the Works last week.

The telephone men made a three days' visit, which began November 10th. Members of the party included engineers from the traffic, engineering, plant and commercial departments. Those from the traffic department were C. A. Hess, L. H. Griffiths, E. B. Russell, R. P. Rice and J. P. Andrews. The engineering department sent R. Maizel, C. H. Klein, H. H. Brackett, E. K. Boyce, A. B. Morris, W. H. Farlinger, and F. L. Arland. The eight members of the plant department in the party were E. W. Appleton, A. E. Linde, P. L. Johnson, W. M. Van Deusen, A. De Muth, J. W. Savane, G. R. Sharpless and H. D. Saunders. The commercial department was represented by F. H. Van Winkle and C. J. Harcourt.

Two Western Electric men, W. F. Weitzenberg and G. A. Griffin, also accompanied the party from New York.

### Publicity Men Visit Us

On November 12th ten publicity representatives of local public utility companies had luncheon in our restaurant and took a trip through the plant later on. The visitors represented the Illinois Committee on Public Utility Information, Commonwealth Edison Company, Public Service Company of Northern Illinois, People's Gas Company, Chicago Rapid Transit Company, and Northern Indiana Gas and Electric Company.

### TIPS FOR HOME PLANNERS

**Works Library Has Some Practical Books on Homes and Home Beautifying**

If you are planning a home you will be interested in several of the new arrivals in the Works Branch of the Chicago Public Library.

There is one book, "The Home Builders' Plan Book," which contains 50 plans of small houses submitted in competition by architects and architectural draftsmen in connection with the own-your-home exhibitions in New York and Chicago.

"The Bungalow Book," another new volume, contains a short sketch of the evolution of the bungalow from its primitive crudeness to its present state of artistic beauty and cozy convenience. It is illustrated with drawings of floor plans, exteriors, interiors and cozy corners of bungalows that have been built from original plans.

Another interesting book is "Low Cost of Suburban Homes." It is chockfull of suggestions for the building of moderately priced houses.

"Home Planning and Furnishing," a book that is a regular course in house planning, and "Be Your Own Decorator," a volume of hints on combining comfort with beauty at the least possible expense are other new arrivals that will prove a great help in planning that "dream home."

ning that "dream home."

The Works Library is located on the second floor of the Restaurant Building and is open during the noon hour. Anyone at Hawthorne can get a library card, entitling him to the use of these and other educational books, as well as the numerous volumes of good fiction available at the library. A Hawthorne entrance card is sufficient identification.

### CHRISTMAS SHOPPING SEASON DECLARED OPEN BY OUR CLUB STORES

There are only five Saturday afternoons left in which to do the Santa Claus act, but Hawthornites need not be alarmed, for the Club Store has been in touch with old Saint Nicholas for a long time and has all the inside tips on what the old fellow is going to use to fill Christmas stockings this year. In short, the store is all set to help us all forget shopping list troubles.

Mr. Claus (who is familiarly known as Santa) states that holiday candies and nuts are going to be more popular than ever this year, so the Club has obtained special prices on the most popular of the holiday blends. Price lists are now being prepared and will be ready for distribution soon. The store advertisement on page four of this issue gives an idea of the bargains. Club members are urged to do their ordering early, since a few days before the holidays there always is a congestion due to the "last minute" buyers just waking up.

This year you can do most of your Christmas shopping right in your own departments as a result of a new service the Hawthorne Club Store has inaugurated. Your representative will serve as the Club Store's sales clerk and you will be able to order anything on the Club's "holiday list" right from him. The Club has arranged special trucking service, so that everything a Club representative orders will be delivered right to his department hereafter.

The holiday lists will be distributed throughout the Works as in past years, but this year stubs will be attached, which can be torn off and used as receipts for cash collected by representatives from Club members. The representative will then turn the orders and the money over to the Club Store, which will give him a receipt for each order submitted.

When the store has filled the orders the merchandise will be delivered by truck to the Club representative, as stated above, who will distribute to the purchasers.

It is expected that this plan will enable the store to give Club members better service than ever this season.

### NOV. 11th REMEMBERED

At 11 a. m. of November 11th the plant whistle sounded and throughout the shop and office departments there was an instant of quiet reverence, in honor of our war heroes. Then the whistle blew again and Hawthorne returned to its duties with the solemnity of the occasion still reflected in many a thoughtful face.

### RESTAURANT PLANS TO SERVE A TON OF ROAST GOBBLER

**Browned Turkey, Cranberries, Hot Mince Pie and All The Trimmings — Oh, Boy!**

"A huge flock of distinguished visitors will be here next Wednesday noon," George J. Du Plain, head of Hawthorne's Restaurant, told a Microphone reporter early this week. "I am planning to have everything ready to give them a warm reception—in fact the hottest time they've had in their young lives."

"Yes, yes! Go on!" urged the reporter. "Who are they? What is the occasion?"

"Just think a minute," returned the restaurant chief. "Every year on the day before Thanksgiving, as you'll doubtless remember, the Works Restaurant is invaded by a huge delegation of turkeys and most Hawthornites make it a point to leave their lunches at home on that day and spend their noon hour in the restaurant showing their respects to these honored guests. Four thousand Hawthornites attended last year's festivities—a thousand more than usually dine at the Works."

"M-m-m! Turkey!" ejaculated our scribe fervently. "Sure listens good to me. How about the cranberry sauce and the mince pie and the—"

"Come on and ask," Mr. Du Plain invited hospitably, and he led the way to the artists who make the digestive tract rejoice and be exceedingly glad.

In the bake shop our news sleuth found the pastry cook planning to bake 500 pies for Wednesday's celebration. "Yes," she said, we are going to have plenty of homemade hot mince pie, pumpkin pie and cranberry pie—you know the kind with that tart tang—besides our usual apple, peach and pineapple pies."

Then followed a visit to the kitchen, where the chief added to our reporter's rapidly growing appetite with an account of his plans to cook 150 quarts of cranberries, 12 bushels of white potatoes, five hampers of sweet potatoes and several hampers of turnips, besides all the other usual vegetables. "It's going to be rather hard on the turkeys," he admitted. "We've got things cooked up to give those birds a real roasting. They go strutting around, proud as peacocks, all year, and the only way to cure them of their haughtiness is to operate, insert plenty of well-seasoned dressing, take several stitches—and then heat-treat them in an oven."

"Hold! Desist! Cease!" implored our suffering scribe, as his wistful imagination jumped into high. "Do you want to see me starve to death from longing? Roast turkey! Cranberry sauce! Hot pies! Pumpkin—oh boy! Cranberry—gee whizz! Hot mince—wow! And mashed potatoes! And sweet potatoes! And stuffing! And gravy! And—and—and-hot dog!"

"No," corrected Mr. Du Plain, "no hot dogs. Merely something over a ton of stuffed roast turkey, 2,000 large bunches of celery, 300 heads of lettuce, plenty of fruit cake, ice cream, tangerines, pomegranates, oranges, apples and bananas."

And as the reporter hurried away in a frenzied effort to catch up with next Wednesday and get his share of that gorgeous meal, Mr. Du Plain added, "The restaurant will also carry the usual bill of fare in addition to the special dinner."

But unless you are good at resisting temptation we've got a pretty good notion what your order will be.

### B. & L. SUBSCRIPTIONS START

The new series of stock issued by the Hawthorne Club Savings, Building and Loan Association got away to a good start. At the first of this week, six days after the books opened, a trifle more than 1,000 shares had been sold, approximately 200 shares a day.

Hawthornites interested in this new issue of securities can get complete information regarding it from the Hawthorne Club offices during regular Building and Loan hours. These are 12 to 1 o'clock on Tuesdays, Wednesdays, and Thursdays, and 5 to 6 o'clock Thursday evenings.

People planning on making applications for loans will have to act quickly. There has been no let-up in applications this fall and the board expects that all available cash will be spoken for within a very short time.

## INDUSTRIALS ALL SET TO MAKE THEIR BOW IN CAGE LEAGUE RACE

When the west division of the Chicago Industrial Basketball League opens its season at the Crane College gym on Friday night, December 5th, the Hawthorne Club will be represented by a team worthy of its colors.

Local basketball experts who have seen the squad in action assert that it is the equal of any college team in the country. And there is no reason why it should not be, for the men who have made the squad are the pick of over 200 players, most of whom were either college or high school stars during their school days.

There are five strong teams in the west division, which our boys will have to conquer to get a chance to defend our industrial title in the finals. They are the Illinois Bell Telephone Company, Grand Trunk Railroad, Brman Electric, Caumet Baking Powder, and the People's Gas Company.

Coach Danny Elwell, who has devoted evening after evening to the team during the past months, is more than satisfied with the result. He is anxiously awaiting the league opener, for he feels that our boys are going to "eat 'em alive." At a recent practice the team scrimmaged continuously for one solid hour, which is a good indication that the boys are in the pink of condition.

A. Van Zoeren, now in Dept. 6558, who has just completed the students' training course, has been chosen to assist Coach Elwell in the capacity of manager. Van Zoeren is one of those reliable standing guards that never let a forward slip in between him and the basket. While at Kalamazoo he acquired considerable training as a student manager of athletics. Last year he played center on the Industrial Relations interbranch five. Van Zoeren will be in charge of the team's affairs hereafter, as Coach Elwell is temporarily transferred to Division 6 on special work in connection with the new Superior office being installed in Chicago. Coach Elwell will still be able to handle the team in practices, however.

To date the men who have made the team are: C. D. Evans, Dept. 5532-4 (captain of last year's squad), forward; Earl Drew, 6310, center and guard; James Hallberg, 6108-2C, forward; E. Banek, 5535-2 (a member of last year's Equipment Engineering five), guard; C. A. Von Hoene, 6156-3 (former pivot man at the University of Iowa), center; A. Zdzewski, 6611-1 (star performer on last year's manufacturing interbranch five), forward; G. H. Medley, 6501-A (star forward of last year's City Industrial Champions), forward; C. F. Johnson, 6056-2 (former coach of the Industrial Relations quintet and now manager of interbranch basketball), guard; P. H. Kurtz, 6435 (member of last year's Industrial Champions and coach of girls' cage team), guard; C. H. Barnard, 6424 (one of the stars on the strong Technical interbranch team last year), forward; A. Van Zoeren, (recently made manager of this year's team), guard; and H. F. Gaylord, 6473-1 (a member of last year's Industrial cage champions), guard.

Hawthornites are entitled to see the boys in action in some of the fastest competition in the city, admission free. The games will all be played at the Crane Junior College gymnasium, located at Oakley Blvd. and Jackson Blvd.

Works goodfellowship clubs could spend a very enjoyable Friday evening occasionally watching these interesting pastimes.

### GIRLS SLIP IN CITY LEAGUE

The girls' team representing Hawthorne in the Chicago Women's Industrial Bowling League has slipped to fourth place. While we have been going down the Illinois Bell Telephone Company team has been getting a firm grip on first place with straight wins, while the Tribune team has recovered from the slump that sent them to fourth place on October 22nd and is now trying to match the telephone operators' performance.

Western's percentage is only .533 and our average is about 35 pins below the averages of leading teams but our schedule for the next few weeks is a little easier and offers a good opportunity to get back in the running.

### NOT SO GOOD! NOT SO GOOD!

#### Soccer Squads Drop Three Matches After Winning Two Peel Cup Games

All three Hawthorne soccer teams dropped their games last Sunday. Western Electric "A" went down to defeat after an evenly matched game with Jugo-Slavia, league leaders, by a score of 2 goals to 1. Playing against both wind and sun in the first half, the Western attacked their opponents' goal time and time again and eventually Cuthbertson put one into the net for the first goal of the match. Rough tactics in front of goal shortly before had caused the referee to penalize the Jugos, but Ramsay failed to convert the penalty shot, his effort going just wide of the posts. Both of the Jugo-Slavia goals came as a result of the ball getting near the front of our goal, allowing their forwards to take a shot before they were tackled and giving Gibson no chance to deal. Neil was hurt on two occasions by being kicked in the stomach when the Western attack was storming our opponent's goal and this not only deprived us of one player but seemed to demoralize our forward line. The half-back line played an unusually good game, the showing of Gealy after a month's absence being most impressive. Fink, who changed places with Stephenson during the latter part of the game, twice had hard luck with his shots, which hit the posts when he had the goalkeeper completely beaten.

The "B" team fell before Sture, leaders in the International League, by a score of 3

goals to 0. Because our outside left was out, Manager Turner had to re-arrange the whole forward line. For just about a half hour it looked as if our boys would be able to hold their strong opponents, but the Sture team slapped two into the net inside of one minute, after which our forward line crumbled and our defense had to stand the brunt of a Sture attack. Willie Woods and the whole half-back line made special efforts to start a rally but were unsuccessful. Sture scored their third goal on a penalty kick.

In the curtain raiser to the "B" game our "C" team held Sture II to two goals—both of which we donated to them. One of our backs actually scored their first goal when in an attempt to clear a shot he miskicked and shot the ball into our net. The second goal was also made in a freak fashion. One of the members of the "B" team players warming up behind the goal, kicked onto the field just as Sture shot for the net. The two balls struck each other and our goalie was so confused for a moment he didn't have a chance to save a rebound off a Sture forward.

#### Teams Take Peel Cup Games

Two Hawthorne soccer teams copped a twin bill on Memorial Field Sunday, November 9th, before a crowd of more than a thousand, while our other team, away on a visit, came home with a tie.

The "B" team triumphed over Norwegian-American 1, 3 goals to 0, in the curtain raiser on Memorial Field, while the "A" team handed the Hammond Hungarians a very decisive trimming, scoring nine goals to the visitors' one. Close combination work by our forward line completely baffled the Hammond team. Neil sunk the first goal, after which Stephenson sent in five and Robertson one, while Ramsay shot one from 20 yards out.

The "B" forwards slapped three goals into the net inside of 20 minutes, while their backs held the Norwegians scoreless throughout the contest in the curtain-raiser, which was the more exciting game of the two. S. Woods was easily the star of the game. Aretos played a strong game at half-back, while Bungey did stellar work in goal.

Our "C" team visited the Norwegian-American grounds the same afternoon and succeeded in drawing with the Norwegian IV. Repnicki scored our goal by heading one through in the first few seconds of play.

Repnicki's score was made in the first few seconds of play and the Norwegians retaliated just before the whistle in the first half. It was nip and tuck in the second half, with the Norwegians having slightly the better of the argument, but E. Knoff's splendid display in goal made it useless for the Norwegians to attempt to score. Clark, a new man with the team, played a wonderful game at right full-back.

### BASEBALL GIRLS REPEAT

#### New Tactics Prove Successful Against Mozart Team for Our 8th Win

Mozart Playground, which had lost seven games in a row to our girls, went down to its eighth defeat on November 11th, when our ten slammed their way to a 13 to 5 victory. The game was played on the "home grounds" in the big gym of the Morton High School on Austin Blvd. at 25th St.

The Western Electric girls gathered too many hits for their opponents' uncertain fielding, collecting 16 to Mozart's six during the seven innings of play. A goodly number of ours were driven out in the very first inning, during which we tallied six runs. The speedy base-running that helped win our first winter game showed up in this one as well, with an unusual example of the team's aggressiveness on the sacks given by Miss M. McEach, 1b, who stole second, third, and home in rapid succession, after gaining first on a hit.

Our battery consisted of Misses Mable Findlay and Eva Skrzydlewski. Captain Pruscha, who usually pitches, took a rest on the third sack. By the end of the game the Mabel-Eva combination had given but six hits and one base on balls, while their opponents, Misses Marion Searloss and Dolores Drager, had allowed 16 hits but no walks. Our battery's performance was marred, however, by errors at the plate that let in four of the six runs Mozart got.

The majority of Mozart's plays for runs was checked by the same obstacle that has bothered all of our recent opponents—our fast outfield. This new stumbling block has been built up by Coach Johnson with the help of "Wally" Madura, who joined his staff early in August. "Wally" played in the outfield of the Cornell Square team for a good many years and Coach Johnson had him start drilling outfielders in new tactics as soon as he reported, with special attention to backing up the infield. This last has proved valuable in holding runners to bases, for the outfielders, running in on all infield plays, have been able to recover on many fumbles and put the ball back in play much faster than the infielders could.

Our new bunting game, another part of the coaching staff's designs on our opponents, is also showing results in this way of advancing runners with maximum safety. On an ordinary hit the girls run the risk of a double play unless they delay. With a bunt play called for, they rush the base and can often gain two sacks on a wallop that is really worth but one. With these stunts added to its bag of tricks our team plans to duplicate its record of last winter. The games should prove interesting.

### GIRLS' LEAGUE TEAMS SHIFT

Teams in the upper half of the Hawthorne Women's Bowling League, excepting the Merchandise five, have been doing considerable shifting about of late. The Merchandise team is holding the lead it gained on October 27th, being three games ahead of its nearest competitor, Installation No. 2. This latter five took a jump from fourth to second place on November 10th with three straight wins, bumping Installation No. 1 to fifth place. The Clerical outfit took third place on the same night by winning two games, the Technical team, which had held the berth getting only one. No changes occurred last Monday.

The present line-up is: Merchandise, Installation No. 2, Clerical, Technical, Installation No. 1, Production, Installation No. 3, Inspection Service.

Miss J. Simpson now heads the list of individual three-game scores with 501, replacing Miss Bond, who resigned. Miss M. Malkin has taken second place with 498, forcing Miss Lasky to third position with 495. Miss E. Below took high game honors on November 10th with 203, while Miss Malkin won them on November 17th with 201.

### CAGE GIRLS GET

#### OFF ON RIGHT

#### FOOT THIS YEAR

Hawthorne's girl cage team started the season in whirlwind fashion by grabbing off their practice game with the Bethlehem Congregational Church quintet at Sterling Morton High School last Friday night by a score of 14 to 2.

The "five-man defense," introduced in girls' basketball by our girls last year, again worked like a charm. In fact the Bethlehem girls failed to score a single field goal, both of their points coming from free throws.

The local team looked as if they were going to continue winning basketball games. They were a little erratic at first and missed a number of easy shots, but this was due to the excitement of their first public game. The girls settled down and showed some real basketball after a while, although they lacked speed enough to completely smash Bethlehem's pass work. Our scoring was pretty well distributed among all the players.

Our girls will meet the Bethlehem quintet again in their first Central States League game next week.

There are 18 girls' fives in the Central States organization this year. Hawthorne will try to schedule a league game with one of these teams at Sterling Morton High School every Friday night hereafter, so local fans will have ample opportunity to see the girls in action. The team will try hard to bring the beautiful championship trophy to add to Hawthorne's family collection of silverware in the Works Restaurant.

Those who participated in last week's game were: Misses F. Acheson, M. Findlay, A. Smith, M. Splitt, C. Schmedl, M. Kavanaugh, A. Spusta, L. Hoffman, and A. Yogan.

### CLASS B CHESS HAS SHAKE-UP

Chess leaders in Class B went through a considerable shake-up during the past two weeks, while the other divisions of the tournament maintained a comparative quiet. H. Brandner started the shift in Class B on November 7th by slipping to second place while J. H. Deardorff, who was second, went to third and B. Plos jumped from fourth to first. The following week Brandner went to third place and was replaced by Deardorff, while Plos maintained his lead.

Another unusual change occurred in Class D, where J. Hobbs jumped from eighth to third place on November 7th.

In Class A, W. Slavo moved from fifth to fourth and then to second place with three wins and a draw.

There have been no changes in the leaders of the checker tournament. F. Wesolowski being first in Class A, while E. A. Van Eynde is first in Class B.

On November 14th T. E. Moon gave a talk on chess openings, explaining some of the variations on a large wall board.

### DYNAMOS WIN IN JUNIOR LEAGUE

#### Finish First with Clean Schedule of 10 Victories and No Losses

Paul Schaeffer's Dynamos, representing the Merchandise Branch and Cable Plant, cleaned up in the Junior Playground League with ten straight wins and a loss of only six points, leaving their final standing at 994. The team in second place, the Knockouts, Technical Branch, made a record all their own by turning in a perfect record for reliability and sportsmanship. Their final score was 900 points. The league winners topped the other teams in batting, their team average being 338, with their nearest competitors, the Bushleaguers, hitting 293.

As was the case in the major and minor ball games during the summer the point system of scoring was used for determining team standings. The highest score possible for each game was 100, with 50 points given for winning, 20 points for reliability and 30 for sportsmanship. Deductions were made for 10 different offenses. The final standings of the league figured on this basis were:—

Team	Won	Lost	Pts. Off	T. Pts.
Dynamos	10	0	6	994
Knockouts	8	2	0	900
Bushleaguers	6	4	3	797
Pirates	3	6	6	594
Brokenarms	1	9	6	544
Sluggers	2	8	100	500

## WORKS WRESTLERS TO COMPETE FOR TITLES ON DECEMBER 2ND

### Two "Pro" Matmen Will Stage Fast Bout as Opening Number —Musical Program Also on Card

Eight fast amateur bouts to decide the Works titles and a bout between two Chicago professionals is the dish the local wrestling committee has prepared for Hawthorne wrestling fans for the evening of December 2nd.

A pep program led by a snappy jazz orchestra and some live-wire musicians will precede the wrestling.

The big show will be staged at the new Majestic Hall on Madison St., west of Cicero Ave., near Laramie Ave. This hall will handle an audience of only about 2,600, so it is expected that tickets for the show will be at a premium. The wrestling committee will only distribute tickets to those Club representatives who request them and Hawthornites who want to see this show will do well to see that their representatives get some tickets before they are all grabbed off.

The two professional wrestlers who will open this year's annual wrestling show have not yet been picked, but they will be a real fast pair. The committee is now negotiating to get a couple of good scrappers for this event—wrestlers who can be counted on to give local fans a real thrill. It is rumored that two of the present luminaries in professional wrestling circles are anxious to perform before Hawthorne fans, but the committee is afraid they will pull an "exhibition act". The committee wants to get a couple of grapplers who will crowd every minute of their bout chockful of action and are trying to line up a pair in a "grudge" match.

Over 50 wrestlers are now scheduled to compete in the "prelims", which will be held a week before the big show. All the old favorites will be in the ring to defend their laurels, while there is also quite a field of newcomers with good reputations, who threaten a number of upsets.

This year competition will be not only for individual titles but also for interbranch honors. In the musical end of the show, it is expected that Tom Faxon, of Leo Feist fame, will put on a few popular song stunts, while Charles Blim will be there with his phonograph record recording accordion and a quartet will warble a few barber shop chords. The doors will open about 7 o'clock and the jazz orchestra will start up some snappy numbers immediately.

To get to the hall from the Works take a northbound Cicero Ave. car to Madison St. and either transfer to a westbound car or walk west to the Majestic Hall.

### 74th ST. PLAYS FOOTBALL

Gridiron enthusiasts at 74th St. decided a lot of fall weather was going to waste about a month ago. As a result a couple of eleven, Roy's Fencebusters and Johnson's Dew Drops, started a period of intensive training and staged their first battle on November 8th. The Fencebusters finished on top with a 2 to 0 score, a safety making the only tally.

### Cards of Thanks

I hereby wish to express my deepest gratitude and appreciation to my friends in Dept. 6692 for their kind expression of sympathy and the beautiful floral offering in my recent bereavement, the death of my father.

Raymond J. Arn.

In behalf of myself and family, I wish to thank my friends and fellow employees for the beautiful floral offering and their kind expressions of sympathy during my recent bereavement, the death of my mother.

Theodore L. Lawson, 565-4.

We wish to thank our Hawthorne friends, especially the members of Depts. 6442, 6441-1 and 6324 for the kind sympathy extended to us in our recent bereavement.

G. O. Berg, S. B. Berg, Earl Johnson.

### MARRIAGES

October 25th:—John J. Kuralko, of Dept. 6377, to Miss Rose Andel.

November 5th:—Frank H. Beamesdefor, of Dept. 6377, to Miss Lucille Niles.

### BIRTHS

November 5th:—To Mr. and Mrs. H. Skoldager, a 10½-pound boy. (Dept. 6312.)

November 2nd:—To Mr. and Mrs. J. J. Mazanec, an 11-pound boy. (Dept. 6161.)

November 1st:—To Mr. and Mrs. C. C. Woirowicz, a 10-pound girl. (Dept. 6377.)

October 10th:—To Mr. and Mrs. J. Turpin, a 9-pound girl. (Dept. 6161.)

### Long Distance

Mr. Barnum recently saw a death notice of a man whose initials were the same and so was the name. He called up a friend and said:

"Have you noticed my death notice in the papers?"

"Yes," replied the friend. "Where are you speaking from?"

— Exchange.

## THOUGHT FOR THANKSGIVING

Continuously since 1864 Thanksgiving has been a national holiday in the United States by proclamation of the Chief Executive. Several Presidents before Lincoln had from time to time set aside days for national thanksgiving, and many of the states had long followed the annual observance of such a day, but from 1864 Thanksgiving has been a yearly holiday throughout the entire nation. The observance, which dates back to early colonial times, was started by the Pilgrims in 1621, when they set aside a day of thanksgiving for their first harvest in this new land.

The custom has always been a graceful one. People who do not just smugly accept their blessings as merely their due are possessed of a proper modesty and a correct sense of proportions—the principal attributes that make human beings into fit folks to live with.

Although originally the day was one set aside to give thanks to God for the blessings of a bountiful harvest, it is equally appropriate in lean years, and whether or not we believe that Providence intervenes directly in the affairs of men. Well-off and ill-off are merely relative terms. No matter how badly things are going with us we can always find some one else much worse off than we—assuming, of course, that we are not of the whimpering sort, cancered with self-pity. In such times of stress a review of the things we have to be thankful for strengthens our courage and fits us better to play our parts in the world as men.

But it is when our blessings are greatest that we are apt to appreciate them least. Today this country is the most prosperous in the entire world. Never in history has a population possessed the material goods and the opportunities for happiness that we possess. And yearly the danger grows that we may develop the pride that goeth before destruction—that we may grow to believe our blessings are due to our superiority to other men, rather than to a happy combination of circumstances.

Our prosperity is the heritage of our land's pioneer ancestry. We are the heirs to the estate they carved out by stupendous industry, colossal courage and a great and unquenchable love of liberty. Only as we emulate these traits can we hope to hold our inheritance. If we place our private affairs and material comforts above our duties to the state, if we give a cynical acquiescence to incompetence and dishonesty in high places, if we refrain from voting and working for the most efficient government on the specious plea that our vote and our influence means nothing, we are bound the way of Babylon and Carthage and "the glory that was Rome."

Recently there has been all too much evidence of such a trend in our affairs. Whether it is to continue depends entirely on you and me.

Next Thursday when we give thanks for our blessings it will not be amiss also to give some sober thought upon how far we are truly beneficial to us. If we grow more comfortable more than we love freedom, we are certain to lose both. "Eternal vigilance is the price of liberty."

## 1911 RADIO HEARD VOICE

## C. R. Salter "Picked Up" Naval Vessel on Home-made Set 13 years Ago

More information has been received by The Microphone on the subject of old time wireless sets that received radiophone messages. This time it comes from C. R. Salter, of the Production Routines Department, who received radiophone messages in 1911 on a set he built.

Describing his equipment, Mr. Salter says:—"The set was composed of a crystal detector, one-inch spark coil, test tubes lined with tinfoil for transmitter condenser, an interrupter made of a 32 c. p. lamp with the top broken off and the filament removed, leaving the platinum wire exposed out of the center standard. This lamp was screwed in a socket vertically and filled with a dilute solution of sulphuric acid and water."

"The first voice I heard via radio was over this set. I am not positive, but I think it was the U.S.S. Nebraska. Anyway it was a United States navy ship experimenting with the telephone."

## AROUND the SHOP

Nearly a hundred boys have signed up for the horseshoe tournament that is being played during the noon hour on the area between Bldg. 56 and Bldg. 22. They are representing six different divisions of the Works: Merchandise and Cable Plant, Production and Purchasing, Installation and Operating, Clerical, Technical, and Industrial Relations. It is expected that play will finish about December 8th.

The first meeting of the girls' swimming class was held at Sterling Morton High School last Friday evening. The class proved popular, more than 50 turning out for the start of the season. The guard in attendance at the pool is giving swimming lessons and promises to introduce the more technical crawl strokes before the novices are through being surprised that they can stay afloat.

Pullman Company officials saw a pictured story of Hawthorne's history and activities last week when the Publicity Department showed movies of the Works at the Pullman Club. While the movies of course were not quite the equivalent of an actual trip through our "telephone city" they saved a lot of walking.

November 6th some 50 girls from the Payroll Division invaded the loop for their initial winter frolic. The first stop was made at the Fort Dearborn Hotel, where a chicken dinner had been scheduled, to be followed by "home talent" entertainment. The entertainment went way above par in popularity, with impersonations of the Duncan Sisters and Al Jolson leading the program. Following dinner the girls invaded the Palace Theater, but found the stage attractions below the standard of their own artists.

A carom billiard league has been organized by the Welworth Club of Dept. 6346. Last

Saturday at 12:00 o'clock they held their opening session at the Windy City Billiard Parlor. Play will continue every Saturday till the end of the season. During the course of the opening afternoon there were many "unconscious" billiards made, but some very fair cue work was displayed, too. High run was made by J. Novak.

Recently the feminine members of Dept. 7168 decided to join the purists and refrain from slang each lapse to be fined and the fine deposited in a box for that purpose. When the slang-meter had achieved a rather formidable ponderosity they opened it and found a staggering amount within, so feeling the need for relaxation they reserved 11 seats at the Harris Theater for "No! No! Nanette" on November 13th and there proceeded to enjoy the sparkling comedy after a typical Russian dinner with all the trimmings at the Russian Tea Room. The affair was such a success they are planning a Christmas party for next month.

## WANT TO SAVE MONEY?

## Club Budget Books Show Where the Pennies Go

The Hawthorne Club has stocked up with budget books again and is ready to distribute them to Hawthornites who wonder where the pennies go and would like to find out. The books are sold for ten cents each.

Two pages of the book are used for "Planned Expense", which allows a monthly estimate of expenditures that can be compared with the actual expenses. Twelve pages more are devoted to a detailed division of household and personal costs and allow the keeping of a day-by-day record. A form on the last page permits a monthly comparison of actual costs throughout the year.

The book eliminates the most arduous task the householder faces, the proper division of expenses when studying household costs.

Hawthornites with designs on the elusive penny can secure these budget books at the Club Store in Bldg. 22-1.

## MISCELLANEOUS MAPLE MAULING

Box Shop Team No. 2, which started off the re-arranged schedule by grabbing first place on October 29th, has slipped a notch. Team No. 1 now being in the lead. Team No. 2 still has plenty of honors tucked away, however, since it holds the record for high game, high average and high three-game series. J. Cinkel, of Team No. 6, heads the list of individual averages with 172.5 and also claims high game for the night of November 12th. Second high went to Polkowitz, of Team No. 4, and third place to Waszak, of Team No. 3. After the league games R. Pondelicek and J. Schramek staged a special five-game match, the latter winning. A surprise of the evening was the retirement of "Tom" Norton. An official statement regarding his move could not be obtained, but his friends intimate that he was getting too fast for the league.

The Goodfellowship Club Bowling League of Dept. 6336 has seen some lively shuffling of teams lately. On October 31st the bowling resulted in a tie for first place between the Spark Plugs and the Hookers. The following week, November 6th, the Spark Plugs dropped three games in a row, and fell to fourth place, leaving the Hookers in a triple tie with the Crows and the Rinky-dinks. November 13th saw the break-up. The Crows and Rinky-dinks each lost a game, but the Hookers cleaned up the Bears and annexed a percentage of 750, which put them on top of the heap. The leading team also has high game honors chalked up, with a score of 830. J. Siblik, of the Rinky-dinks, has individual high score of 234.

The Bowling League of Jobbing Dept. 6372 has finished the first round of their schedule, with the Lathe Hands in the lead with 16 games won and 11 lost. The Drillers have high average of 946 for three games. Novak, of the Lathe team, is leading in the individual standings with an average of 176.24 for 27 games. He also has high game for the league with 244.

Methods increased its lead one game in the Switchboard Planning League last Tuesday night and Finishing won out in the triple tie for third place in the most important changes in the standings. "Bill" Dawe, head of Hawthorne bowling, broke loose with a 213 game and maintained his leadership in the individual columns. His average is 171.13/30, while Kossian, his nearest rival, now registers a 167.5/30. Story and Hays are tied for third place with averages of 164.6/30.

George Luthman, of the Whales, lived up to his team name and whaled the pins for a new high game of 258 and a high average of 208.2/3 in the Switchboard Ordering Division League. The Suckers are showing their speed to the other teams by continuing in the lead with 23 games won, 7 games lost. The Dogfish are in second place, four lost. The Dogfish are in second place, four lost. The Dogfish are in second place, four lost.

Receivers are leading in the Apparatus Bowling League, with the Relays in second place and Calling Dials third. Walton recently jumped his high game record to 237, taking high game honors for November 17th with the same score. Gardner took second high with 236. Relays hold high team game record of 961.

The 6108 and 6108-1 Bowling League, which meets Wednesday evenings, had no changes in its line-up last week. Team No. 4, cap-

tained by Jecka, is leading with a record of 15 and 6, while Team No. 1, captained by Moore, is a close second with a record of 13 and 8. The league awards weekly prizes for individual high and team high. MacDonald took the individual prize on November 5th, while Zelinsky's Team No. 2 collected the team reward. The following week Ewing and Team No. 7, captained by Moore, grabbed the money.

In the Inspection Branch the Relays shot a new league high mark for three games when they careened 2,786 maps into the backboard in their series against the Subsets. Two more stellar contributions to the Inspection bowling book were Rohrbach's average of 204, and O'Connell's two double centuries. Methods hit another run when they shot 959 in their final while trimming the Supervisors, two out of three games. Sterk's 580 total puts him in the lead for individual average.

J. Pinc, of the Small Tool team, hung up a season mark of 681 for three games and tied the season's high game of 265, held by E. Severson, of the Jobbing Section, in the week's feature in the "A. B. P." League. Jobbing got a two-game margin over Small Tool and grabbed the lead in the standings. A turkey "shoot" will be a feature of the toolroom's Thanksgiving week. There will be one turkey for every squad of 10 bowlers and the high man in each squad will get the gobble. Forty toolroom pin-slingers are now signed up for this event.

Drafting has a lone game lead on first place over the Manufacturing Planning team in the Technical Bowling League, thanks to the efforts of the Plant bowlers who took two out of three from the Manufacturers while the Draftsmen were knocking off the Tool Equipment squad to the same tune. H. Bedard with an average of 186.19 tops the individual column. D. Croy with 183.3 is second, and L. Mulac with 181.24 is third. Plant has high team game with a 1,001 mark. The Manufacturers have high average for three games with 904.2; W. Nagel has high individual average for three games with 213, while D. Croy's 237 is the high game.

Frank Stejskal's "All Stars", from the loading coil inspection section, who are free lancing on local alleys, clashed with the repeater gang on the Windy City Alleys and would have conquered in the fray if a pair of professional bowling shoes hadn't interfered. Mueller, of the All Stars, belonged to the "pro" shoes and Stejskal expected at least a 200 from him. However, Mueller figured the co-efficient of friction wrongly and when he wanted to glide to the foul line his new shoes refused to slide. His elbows came to the shoes' rescue, but sliding on his elbows is rather hard on man's anatomy. The accident was just as hard on Mueller's score as it was on his elbows and he turned in a 141. This was a damper for the whole squad and the Repeaters won by 47 pins.

G. W. Miller, of the Shrimps, got going in the November 9th round of the Clerical Methods fish league and rolled a new season high game with 240 and new season three-game average with 208. As a result he is now in second place in the individual standings, while his team climbed another rung of the championship ladder—the only team to do any moving that evening.

## CONSECUTIVE 1,000 GAME RUN BROKEN AGAIN BY TOOLROOM

## Bowl Three More Games Over 1,000 Mark, Making New Record Six—Win Fourteenth Consecutive Game—Other Notes

They've gone and done it again! The record for consecutive thousand-or-over games is now six.

In the issue of November 7th The Microphone told how the toolmakers had spilled 3,108 maps for the first set of three games over a thousand ever bowled in the local league—and the very night that the paper was distributed the hook-slinging toolmakers shot their second set of three for a total of 3,036 and set another league record of six consecutive games over the one-thousand mark. Although they didn't shoot any more thousand games, last Friday they took three more games, making their record 14 wins in a row.

Fourteen Straight Wins and Six in a Row over a Thousand Is the Record of These Toolroom Pin Scatterers. Left to Right, Standing:—O. Jenkins, C. Prochaska, E. Severson, and J. Pinc. Seated:—J. Smid and J. Eliger (captain).

Just to show what a terrifically fast brand of ball is being rolled this year, in spite of the epoch making pin massacres the Toolmakers have been inflicting they are only three games ahead of Technical. One of those three games was gained last Friday, when Technical dropped one to the lowly Plant squad while Assembly bowlers lost a complete series to the Toolmakers.

There were 59 games over 200 and 13 series over 600 in last Friday's round. Process Inspection bowled a 1,028 and Plant a 1,007 for the evening's high games.

Assembly rolled against the Toolmakers and had a fruitless evening, as stated above. C. R. and I. won two from Stock Maintenance; Jobbing took a pair from Merchandise; Installation Engineering copped two from Switchboard; Switchboard Order dittoed against Production; Industrial Relations annexed three from Financial and Accounting; Payroll and Cost helped themselves to a couple from Process Inspection; Installation Drafting took two from Special Process and Machine won two from Final Inspection.

## ORGANIZATION CHANGES

H. L. Ward, formerly head of Development Div. 6466, has been promoted to assistant superintendent of development, organization No. 6457.

Mr. Ward entered the Company's services in the Manufacturing Methods Department at Hawthorne in 1911. He was made head of the finish methods section in 1914 and was promoted to chief of the Chemical Methods Department in 1916. In 1920 he took up engineering work in Manufacturing Development Div. 6480 and was promoted to chief of Development Div. 2435, May 5, 1922. He was transferred to chief of Development Div. 6466 on September 29, 1923. His promotion to assistant superintendent took effect October 23rd.

W. A. Scheuch, formerly in charge of Ferrous Alloys Development Organization No. 6490-2, has been promoted to development engineer in charge of Metallurgy Development Organization No. 6477.

Mr. Scheuch is a West St. man who came to Hawthorne September 15th as head of the Ferrous Alloys Organization, the position he held at the time of his recent promotion.

H. Rossbacher, development engineer, formerly in charge of Transmitter Carbon and Precious Metal Development Div. 6467, has been transferred to chief of Electrical Equipment Development Organization No. 6471.

T. J. Realey, development engineer, formerly in charge of Finishing and Assembly Development Organization No. 6472, has been transferred to head of Kearny Switchboard Plant Development Organization No. 6433.

J. T. Griffin, development engineer, has recently returned from Europe, has resumed his former position as head of Magnetic Materials Manufacturing Development Organization No. 6478.

T. H. Forster, formerly with the Engineering Inspection Department at New York, has been transferred to Hawthorne as assistant chief of Check Inspection Div. 5700.

The following department heads have been transferred to other departments as chiefs:—J. H. O'Neill to 6156-1; A. G. Tegmeyer to 5921-1; R. V. Morse to 5926-2; F. A. Pekar to 6513-5; L. A. Gross to 6516-2.

The following have been promoted to department heads:—J. H. Barniston, 5540-4; G. G. Johnson, 6526-4; T. R. Oberg, 6594.

# Classified Ads

VOLUME 3

FRIDAY, DECEMBER 5, 1924

NUMBER 25

## WORKS MUSICIANS OPEN INTERESTING MIDWINTER SEASON

**Girls' Chorus Scheduled for WLS  
—Christmas Sing to Be Holi-  
day Feature—Plans for Band  
Concert Under Way**

The Hawthorne Club Girls' Chorus, which held its first rehearsal on September 22nd, will make its debut on the 11 o'clock program of WLS the evening of December 9th. Director Petersen, who is chairman of the Club music committee, promises that the entertainment will be worth including in your evening's radio entertainment.

The first public concert of the Girls' Chorus follows a remarkably rapid development. When the movement for such an organization was started early in September, the number of applicants soon reached the limit that could be conveniently handled and by the time the first rehearsal was held a well-balanced chorus was assured. That first rehearsal demonstrated that the organization was sure to be a success. Its forty-five voices form a valuable addition to Hawthorne's musical possibilities.

The WLS program will include two vocal soloists and one piano soloist. The singers will be Miss E. A. Rentzmann, of the Employment Service Division, and Mrs. Gertrude Schleske, of the Hawthorne Price Division. Miss Marion McCall, of the Suppliers' Radio and Foreign Billing Department, the piano soloist, will also accompany the singers and the chorus. The complete program will be found below.

Hawthornites will get their first opportunity to see the chorus during the Christmas program on December 24th, when it is planned to hold several sings in various parts of the Works. The Hawthorne Glee Club and the Boy Carollers, an outside organization under the direction of John W. Norton, of Chicago, will also take part in the event. The final details on this program have not been worked out but it is expected that the sings will be run in four locations, with the three musical organizations singing one or two selections in each place. Their numbers will be interspersed with mass singing under the direction of one of our regular leaders. A complete announcement regarding this event will be made at a later date.

Another important announcement made by the music committee concerns an event that has already made a place for itself in Chicago's musical history, the annual concert by our Works Band. It will be called the inaugural band concert this year, with the feature a special inaugural march, composed by Victor J. Grabel, the director. Last year musical critics had nothing but praise for the band's work. There is no doubt that they will find another opportunity for superlatives in this year's program.

Practice for the concert is already well started. The first rehearsal, which was held a few weeks after the close of the summer season, has been followed by regular weekly practices. At the present time Director Grabel is planning to add a few pieces to his organization, especially clarinets and French horns. He can also use another drum, an alto saxophone and a cello. Men who would like to play in the band are requested to visit Mr. Grabel, who is located in the Hawthorne Club offices.

## CONE-TYPE SPEAKER EXPLAINED Radio Fans Hear Interesting Lecture— Will Visit WLS Tomorrow

"As nearly a perfect loud speaker as has been developed" is one of the things A. C. Link, of Sub-Station Apparatus (Dept. 6411, Bldg. 170) radio fans about the new Western Electric cone-type loud speaker at the Radio Club dinner in the Works Restaurant Friday, November 21st.

He then proceeded to explain why it is so nearly perfect and illustrated his explanations by dissecting one of the instruments, so his audience could actually see for themselves. He emphasized the extreme sensitiveness of the cone-type speaker and its ability to reproduce low or high pitched tones equally well. The apparatus is so sensitive Mr. Link stated, that it is best not to have the speaker on the same table as the set, for it will pick up the distortion of the set and rebroadcast it.

Being both timely and interesting, Mr. Link's talk was very well received.

The Radio Club has been invited to inspect station WLS on December 6th. The number that can be accommodated is limited, so the club has confined the registration for this trip to persons who attended the last Radio Club meeting. Those who would like to see WLS in action should call J. E. Kamys, Dept. 6405-B, phone 655, at once.

"Shooting Trouble" will be the subject at the next meeting of the club, which will be held in the Works Restaurant on December 12th. H. E. Krantz, who delivered such an interesting talk on vacuum tubes before the club several months ago, will tell the fans

## Christmas Seal Your Christmas Mail

**Buy Christmas Seals from your Club Representative. The proceeds are used by the Chicago Tuberculosis Institute in combating the disease.**

how to go about checking up what's wrong with their sets. There are certain definite trouble centers in a set, just as there are in an automobile, and Mr. Krantz is going to point them out in his talk.

The second group of free data sheets will be distributed at this meeting, along with the second number of the "Radio Club Bulletin."

## PIONEERS ORGANIZE FOR WINTER ACTIVITIES

At a recent meeting of the Executive Committee of Theodore N. Vail Chapter No. 1, Telephone Pioneers of America, tentative plans for the winter's activities were made and several committees were appointed. It is planned to have the first dinner, entertainment and dance at the Bell Forum on December 17th.

Several Hawthornites were placed on the various committees. A. H. Huemmer is a member of the auditing committee; George Hopf, E. A. Hauser and Miss Gertrude Fries are members of the membership committee; while Miss A. M. Johnson is an active member of the entertainment committee. Associate members of the latter committee are John Benz, J. F. Schnell, C. E. Silet, A. L. Shelstrom and Miss E. A. Rentzmann. G. W. Mann was made vice-chairman of the visitation committee.

The local chapter has for sale some gold-filled buttons, which were not disposed of during the recent meeting of the general assembly. Hawthornites who are interested should get in touch with Geo. Hopf, Dept. 5087-5, phone 1559, Bldg. 56-1.

Several Hawthornites recently joined the chapter. They are—J. L. Hoppe, Dept. 5652; J. E. White, Dept. 7383; and J. P. Sloan, Dept. 7383.

## BALLOONS AND SNAPPY MUSIC ARE PROMISED FOR NEXT CLUB DANCE

Polish up the dancing pumps, girls! Sharp- en up those razor creases in those stepping togs, sheiks—there's another feature frolic all lined up!

This time the bunch is shuffling over to those very merry "Merry Gardens" up North ways. That's the place with the reputation for serving the snappiest syncopation in Chicago and T. Wolcott, chairman of Hawthorne's entertainment committee is sure they are going to live up to their reputation when the Hawthornites make their visit for "Ethel and Jack" told him they are planning on springing an All Star Orchestra on the Hawthorne frolickers.

A "popping" good time is also among the good things promised. Thousands of balloons are going to be released at one time and its more fun than duck hunting. You can catch all you want and you can break all you want—however, rifles and pistols are barred—you must get them with a pin or a knife.

The date of the frolic is Friday, December 12th but don't rush the poor club representative at the last minute, get in line over at his desk, right away. Tickets are here now.

## Fight Tuberculosis

## WAR DEPARTMENT WANTS VETS TO HURRY CLAIMS

The War Department is very much concerned over the three million veterans who have failed to apply for their adjusted compensation. Every day there come to its attention cases where veterans, who have thought themselves in the best of health have died or been killed by accident without having submitted their application for adjusted compensation. Their widows and children, many of them in needy circumstances, receive in such cases the amount of the adjusted service credit, an amount equal to about one-third of the amount that would have been paid had the veteran made application prior to death.

This means that three million veterans are neglecting to give their families maximum protection.

If the ex-soldier does not care to take advantage of the act the War Department requests that he inform them of the fact.

Another matter that claims the attention of veterans at this time is the final date for filing claims under the Illinois bonus law, which is December 31, 1924. All claims must be in Springfield by that date.

## BOYS LAUNCH WINTER SPORTS

### Chess and Checker Tourney in Recreation Room and Rifle Matches Slated

The boys' annual chess and checker tourney starts December 15th in the Recreation Room. It is the opening shot in a regular broadside of indoor activities, which the Boys' Committee has planned for the cold winter months. Winners will receive silver cups for first places and medals for second and third.

The boys will be divided into two divisions—the major for boys between 16 and 17 years of age and the minors for youngsters 14 to 15 years old. Registration can be made with any member of the Boys' Activities Committee or in the Recreation Room during the noon hour. Entries close Thursday, December 11th.

Although the Recreation Room will be well occupied with chess and checker games Hawthorne boys may still bring their lunches to the room and make use of its many other facilities.

In preparing for the winter the committee has obtained nine new magazines and six new games, bringing the total to 30 magazines and 16 games. Among the new Magazines are "Boy Citizen", "Forest and Forest Life", "The Open Road", "Boys' Magazine" and several sport magazines. All Hawthorne boys under 18 are entitled to make themselves at home in the Recreation Room during the noon hour. It is Room 210, Bldg. 33-2.

Another activity scheduled to start soon is the Boys' Gun Club, which will shoot on Monday or Tuesday nights. Hawthorne boys will be taught how to handle a rifle during a period of instruction that will precede the tournament. There will be suitable prizes for all winners. A. E. Hayes, Room 205, Bldg. 33-2, phone 1111, is handling this event. Boys interested should see him as soon as possible.

## WRESTLING TITLES DECIDED BEFORE HUGE CROWD OF FANS

**Only Three Titles Change Hands  
—Vosen Stages Comeback—  
"Pro's" Put up Feature Battle  
—Opening Musical Program  
Takes Well With Crowd**

All kinds of "pep" was displayed at the annual Works wrestling show held last Tuesday night at Majestic Hall, Laramie Ave. and Madison St.—plenty of it on the mat, but just as much in the vast audience that jammed the hall to its utmost capacity.

The walls of the auditorium rocked to the thundering strains of "Hall Hail" and other favorites for a whole half hour in one of the peppiest "sings" ever staged by a Hawthorne crowd.

There was also a fine musical program given by a group of exceptional entertainers. Little Master Jimmy Walsh sang "Follow the Swallows" and other popular melodies; Miss Loreta Kane, the community sing artist, gave some snappy piano numbers; Tom Faxton, of the Leo Feist Co., golden-throated baritone, who is as necessary at a Hawthorne wrestling show as a referee, got his usual number of encores. Tony Trince, the Columbia phonograph artist, and his laughing accordion occupied about five minutes of the program, although the audience was almost violent in its efforts to have him make it twice that. As a climax, the State Comedy Four did their tricks with fifteen minutes of new songs, and several encores for the old favorites. Ston's Syncopators did their "pep" stuff in all the intervals and kept over 2,000 feet tapping the floor in time to their offerings.

Then the lights and all eyes were centered on the mat.

J. Krivickas, Dept. 5376, who won the 118-lb. crown at last year's wrestling show, successfully defended his laurels against J. Mastrangelo, Dept. 6319, by being uppermost oftenest in a 15-minute humping act that opened the wrestling program.

Val Vosen, of the Toolroom, who for nine consecutive years held the 126-lb. wrestling title, but who last year succumbed on decision to A. Louckes, staged a real comeback against P. Vorres, 6332, this year and won a decision and his old title in one of the feature bouts of the evening.

Johnny Vorres, Dept. 5912, who has held the title in the 135-lb. class since 1920 with the exception of 1922, when he won the 147-lb. crown, made short work of defending his title this year. He dropped C. Stadler, 6478-3, in 2 min. 20 sec. with an arm lock and cross-body hold.

A. Santschi, of Dept. 6474, slapped L. Armando, Dept. 6661, on his shoulders with a bar arm lock and a half-nelson in 12 min. 35 sec. for the 147-lb. title.

F. Stejskal, Dept. 6336, retained his 160-lb. title after C. Grendahl, Dept. 9375, had put up a game struggle to take it away. Frank flopped his opponent with a body scissors and arm lock in 6 min. 52 sec.

J. Sperling, Dept. 6662, won the title in the heavyweight class when A. Allen, of 6405, conceded a fall on a jack-knife hold after 10 minutes of wrestling.

There were two exhibition bouts—one, a sort of international affair between O. J. Brown, Dept. 6455, formerly of Brighton, England, and C. T. Brummiger, 8087-8, former University of Colorado star. This pair put on a very fast bout in which the westerner succeeded in carpeting the English bone-twister with a body scissors and deep nelson after 9 min. 38 sec. of muscle-bending.

The wind-up was a feature "grudge match" between two Chicago professionals, Martie Cutler, who has just returned to Chicago after a six-weeks' boxing engagement with Jack Dempsey, and Jack Cribbs.

The bout started as a wrestling match, but after "Herb" Eselman, who refereed this bout, had cautioned Cribbs to "cut out the rough stuff" both contestants agreed to put on the gloves. After some hectic assault and battery both men were dropped to the mat but at the count of eight Cutler managed to regain his feet. Of course, it was all a burlesque, but it had a good many in the audience fooled for awhile and it certainly provided a thrilling wind-up for the show.

S. Vorres, wrestling coach at the University of Chicago, refereed; C. J. Mahmros, Sr., was timekeeper, and F. J. Sheridan did the announcing. The show was arranged by the Club wrestling committee, of which W. Merz, Jr., is chairman.

## STICK

Stick to your aim, the mongrel's hold will slip.

But only crows loose the bull-dog's grip. Small as he looks, the jaw that never yields. Drags down the bellowing monarch of the fields.

—Oliver Wendell Holmes.

## THE JOYS HAVE IT AT INDUSTRIAL RELATIONS BRANCH GET-TOGETHER

The Industrial Relations Branch held its first winter party on November 26th, practically 100 percent of the personnel punching in at the scene of activities, the Columbus Park refectory.

Dancing formed the main part of the evening's entertainment, but it was interspersed with numerous presentations of appropriate gifts that the committee thought various people needed, as well as by trips to the flowing low—which, however, was flowing with pineapple punch only. Gifts of the evening included a nice lead golf stick for C. W. Bergquist, a rich brown derby and cane for H. D. Agnew, a small dinner bell for B. W. Wilcott, a pair of iron soled shoes for R. E. McEwen, a big tin loving cup for A. E. Holstedt, an efficient little gas station for F. J. Ashby and a specially designed golf score recorder for W. A. Titus.

All the regulation stunt dances were scheduled, with a few extra ones thrown in, notably a miltie dance, during which cruising privateers circulated out on the floor, "slipped the miltie" to an unsuspecting victim and slid off with his or her partner. The mix-up would have stumped Alexander, who finished the Gordian knot puzzle. The balloon dance resembled the opening of the duck-hunting season at Fox Lake.

The time clock that was installed at the refectory proved a happy thought, for this was one occasion where everyone had a good time card.

## FOREMEN'S CLUB STAGES DANCE

### Play Host to Asst. Foremen and Other Operating Branch Executives

It looked for a while as if the entrance fee for ladies attending the Foremen's Club entertainment and dancing party held last night at the Lawndale Masonic Temple was a home-made cake, for among early arrivals especially, practically every lady came carefully balancing a sample of strictly home-grown pastry. There were luscious chocolate covered cakes, white frosted cakes, layer cakes, jelly cakes, and every other variety of cake, each delicious enough to tempt any boy into spoiling his Sunday school record or strict observance of the "shalt not steal" commandment. It seems somebody whispered into the committee's ears that he didn't believe modern women knew how to bake a real cake any more and every member of the committee and several other foremen who happened to hear about the whisper told "the missus". The result was those wonderful cakes that made a man appreciate his organs of taste at their real worth. No one who had his soft palate caressed by any of that superb pastry will ever again say that the art of building real cakes has died out.

The entertainment committee also showed their culinary ability by cooking up a delightful dish of amusements, treating close to 400 foremen, their families and their guests, the assistant foremen, general foremen and superintendents of the Operating Branch, to five hours chockful of things to see, do and eat.

The fun started with a vaudeville show—six snappy acts, with an orchestra doing the accompaniment stung in big league style. There were musical novelties, a "personality" girl, a ventriloquist, a country girl fiddler, "The King of the Story Tellers" and the State Comedy Four, singing comedians.

Then came the dancing. Besides the usual every-day strutting there were a few of those graceful old-fashioned waltzes and some two-step numbers.

Even the refreshments were different. Instead of the ordinary hot-dogs and buns, there were buns with the hot-dog baked inside. There were towering mountains of delicious sandwiches, piping hot coffee, ice cream and (as mentioned above) cake.

And balloons bursting in air gave proof through the night that the kiddies were all there and that the committee hadn't forgotten them. The youngsters also had ample opportunity to exercise their sweet teeth.

It was well after the witching hour before engines started to sneeze and snort their homeward lullaby.

## MARRIAGES

November 29th.—Miss Marie Mayer, Dept. 6346, to Joseph Belma, of Chicago.

November 26th.—Miss Bessie Novak, Dept. 6346, to Otto P. Haack, of Chicago.

November 26th.—Miss Helen Dlouhy, Dept. 6346, to Frank Rebeck, of Berwyn.

November 26th.—John W. Meiers, Dept. 5913, to Miss Eva Franz.

November 21st.—Miss Edna M. Kelly, Dept. 6032-A, to W. A. Stenberg, Dept. 5533-2.

November 15th.—Miss Freida Panzer, Dept. 6377, to Emil Spring, of Chicago.

November 27th.—Miss Anna Babst, Dept. 6372, to Rudy Kuntzler, of C. & W. T. Ry. Co.

November 27th.—Miss Mary Ray, Dept. 6379, to D. Patterson, Dept. 6513-1-G.

November 26th.—L. Novak, Dept. 6642-2, to Miss Angeline Majocha, of Chicago.

## BIRTHS

December 1st.—To Mr. and Mrs. W. Lech, an 8½-pound girl. (Dept. 6323.)

November 24th.—To Mr. and Mrs. F. J. Hoffman, a 10-pound boy. (Dept. 6727.)

November 17th.—To Mr. and Mrs. Stanley Kosiek, a 12-pound boy. (Dept. 5352-B.)

October 29th.—To Mr. and Mrs. Cy Colender, an 8½-pound boy. (Dept. 6377.)

November 18th.—To Mr. and Mrs. O. J. Baumruk, an 8½-pound boy. (Dept. 6514-4.)

## GIRLS DEFEAT CORKERY BALL TEAM, 32 TO 12

Western's baseball aggregation, minus one-half of their regular battery, managed to trim Corkery Playground 32 to 12, last Tuesday evening. With our regular hurler out of the line-up temporarily Miss Eva Skrzydewski pitched, with Miss Luddy Malina back in the game behind the bat. Both teams played with nine players.

Our hitting ability proved too much for the Corkery outfield, two and three-baggers being common incidents during the game. Our girls also made the most of their opportunities by rushing the bases on every hit and error.

The high light of the game proved to be an unusual blunder by a Corkery player, who caught a drive over first base while she was a base runner. The laughter that followed the play temporarily demoralized both teams.

Our line-up for the game was:—Misses H. Findlay, ss.; Mildred Sarnad, rf.; Marie Mleuch, lb.; Eva Skrzydewski, p.; Bess Dolejs, 2b.; Bernice Payette, 3b.; Joe Vladika, lf.; Mary Kavanaugh, cf.; Luddy Malina, c.

## ENGINEERS HEAR DIXON

### Head of Systems Development Organization Gives Interesting Talk

"Nobody ever woke up in the middle of the night with a great idea suddenly popping into his head," A. F. Dixon, head of the Company's Systems Development Organization, told 470 Hawthorne equipment engineers and draftsmen at the Works Restaurant last Tuesday night in his talk explaining the functions of his organization. "It takes long hours of labor and much midnight oil to develop new ideas."

Our public address system had to be used to carry his message to the large gathering and the little microphone has never conveyed any more interesting story to its listeners.

The development chief told of the years of careful study that must be undertaken to develop something new in the telephone business. His verbal picture of what his organization does showed his audience how painstakingly data is gathered to aid the development work and how thoroughly the apparatus developed is tested before it becomes standard equipment. It was a picture behind the scenes of a great brain factory and it was a picture of what is to come in the future, and everybody present was glad he had attended.

The committee in charge was swamped with last minute requests for tickets and as a result George Du Plain had to spread the potatoes just a little less thickly than usual, as he was not given ample time to

prepare for such a sudden increase in guests.

Incidentally Mr. Dixon got his start in Chicago among the very men he addressed Tuesday night. He started in the Drafting Department at Clinton St. about 21 years ago.

## CHESS PLAY DEVELOPS TWO TIES

The past two weeks of play by chess contestants developed two ties for first place, one in Class A and the other in Class B. The first change in Class A came on November 21st, when W. Savo won his game and stepped ahead of M. J. E. Golay, who had held the lead for several weeks. Then on November 28th Savo lost a game to J. M. Juran, who was in third place. The result gave both of them league scores of 5½ and 1½, one-half game better than the next player.

The situation in Class B is somewhat different. In that group H. Brandner had the lead the early part of November, then slipped to third place and finally jumped to a tie for first by a decisive win on the 28th.

The only other change among leading players occurred in Class D on November 21st, when J. Hobbs replaced F. P. Swallow in second place.

Another tie was chalked up by the checker players when E. C. Boldt won 6 and lost 2 on November 28th, matching his percentage of 750 against that held by F. Wesolowski.

The lecture last Friday night considered pawn movements at the end of the game and was given by J. M. Juran. On December 12th, F. Wesolowski will give a special talk on checker playing.

## Cards of Thanks

Frank Kozlik and family wish to express their sincere and heartfelt thanks to Depts. 6033-1C and 6672-6 for the kindness and sympathy shown them in the loss of their beloved wife and mother.

In behalf of myself and family, I wish to thank my friends and the employees of Depts. 6691-1 and 6691-2 for the beautiful floral offering and their kind expressions of sympathy in my recent bereavement, the death of my mother.

Charles Kowalski and Family.

I hereby wish to express my deepest gratitude and appreciation to my friends at the 74th St. Plant for their kind expression of sympathy and the beautiful floral offering in my recent bereavement, the death of my mother.

A. E. Wage, 9673-2.

I hereby wish to express my deepest gratitude and appreciation to my friends in Depts. 6356 and 6661-3 for their kind expression of sympathy and the beautiful floral offering in my recent bereavement, the death of my brother.

William Keefe.

## MINOR LEAGUERS PUNISH THE PINS

The Apparatus Bowling League has not had many changes in the line-up during the past two weeks. The teams hold the same positions, with a little tightening up of league scores. Only four games separate the first and sixth team, but the last two fives are far behind. The first six aggregations are Receivers, Calling Dials, Relays, Yellow Sheets, Sub-Seis and Jacks. The high game for November 24th went to Brinane, with Bilek second, while high game on December 1st went to Gardiner. On the same night Shifflet and Walton tied for second place with 224. The Relays are holding high game record with 935 and high series with 2,552.

The 6106-6108 Bowling League is another one with a tie for honors. Team No. 4 and Team No. 2 each hold a percentage of 667. The line-up has not changed in the past couple of weeks, but Team No. 7 made a clean sweep at the last tilt and is promising a hard try for the lead at the next session.

Team No. 1 retains its lead in the Woodshop Bowling League at 26th St., having a percentage of 600. Teams 5, 3 and 6 are tied for second place with averages of 555. Team No. 2 still holds the honors for high game and high average, while Marose, of Team No. 6, has high individual average of 190. High individual game goes to Burke with 229. Cinkel still leads with total pins of 1667, while Kayarek holds honors for high game on the last night of play, with Brunke second and Polkowich third.

Fish leaguers who visit the Ace Alleys recently received a treat in bowling contests when two 15-man teams from the Milling and Partial Assembly Departments clashed. Each team rolled three games. The Millers finished the first set-up with a lead of 37 and followed with another 37 in the second, putting them 74 ahead. Their opponents, calling themselves the Welworths, in the meantime were closely scrutinizing the alleys for defects and peculiarities. The study bore fruit in the third game, for they started crashing through in the best style of the evening and finished in the lead, 6,928 to 6,805.

The Good Fellowship League is in a tie for first place again, for the third time since the pins first started to topple. The Hookers, who have figured in all ties heretofore, are matching a percentage of 667 against the same figure held by the Rinky Dinks. The Crows hold third place with 600. Spark Plugs and Shrimms come next and are just two games away from the traces for first place. The next night on the alleys will probably result in some careful bowling.

Our 74th St. Plant's bowling club, made up of the personnel of the Telephone Power Board Department, recently reorganized the various teams to bring them more nearly on a par. The effort was certainly a complete success, for three of the teams are tied for first place and the other three are tied for last. The first group is made up of the Sea-Gulls, the Crocodiles and the Lizards, while the second consists of the Pelicans, the Bullheads and the Turtles. F. J. Gedras, captain of the Crocodiles, got high game last Friday with 191, while the Sea-Gulls tumbled 649 pins for high team game and 1,774 for three-game total.

Dept. 6761 is showing the way to the Div. 6722 Bowling League with 27 won and 6 lost, a six-game lead over Dept. 6726, in second place. Dept. 6724 is third. Dept. 6761 has high team record with 933, while 6722 has high team average with 860-2. Jan-24 featured the alley activities last week with an average of 183.

In Clerical Methods Bowling League circles the Dels have lengthened their lead from three to four games, with the Frogs and Trout tied for second place. The remainder of the teams line up as follows:—Sharks, Snails, Pike, Bass, Shrimps, Whales and Cod.

Brandner's Pikes, of the Clerical League, played a special game with Hougey's Frogs on November 29th and went home with a win, the final score being 2,374 to 2,215. They played three games, the Frogs winning but one.

Methods have a comfortable five-game lead in the Switchboard Planning Bowling League, their score being 26 to 10, with Iron next, 21 to 15. Kossian took honors at last week's games with 211. W. J. Dawe getting high average with 176. Methods took high game for the evening with 851.

Drafting maintains its lead in the Technical Bowling League, with the Plant and Manufacturing teams three games behind. Drafting replaced Manufacturing Planning as high team for three games, turning in a card that averaged 946-2, 22 pins above the previous high. V. Kozeny now holds individual average for three games with 220, while J. Kayaspis has individual high record of 276. The league ran off a "turkey shoot" November 24th, giving five different merchandise checks. The winners were:—W. Scott, R. Griffith, E. Gunderson, E. Cichy and J. McBride.

## RIFLE CLUB HAS BIG TURNOUT FOR ANNUAL THANKSGIVING SHOOT

The Hawthorne Rifle Club Thanksgiving shoot, held November 20th, 24th and 25th, was voted a complete success by everyone concerned except the turkeys.

Over 200 people, from crack marksmen to merest novices, turned out to the affair, hopeful that the Goddess of Chance might be waiting to help along what skill they had. Apparently she was in a favorable mood on the nights of the contest, for several of the names that went up on the winners' list were new in reports of successful contestants. Twenty-two turkeys were up as prizes, one of them being donated to the girl contestants, who went on the range November 20th. The shooting on the other two nights was open to everyone at 10 cents a shot, with a turkey awarded after each 50 shots. If you smoke a good brand of arithmetic you will be able to figure from these facts that over a thousand cartridges were fired during the two evenings.

Miss Betty Bender, Dept. 5907-3, with an annual of Thanksgiving Dinner.

Luck played an important part this year primarily because the contestant was allowed but five seconds in which to fire. The target consisted of a cardboard turkey's head with a black spot for the eye. The contestant shooting closest to the center of the eye during each 50 shots won the turkey. Only one bird was allowed to a contestant.

The lucky sharpshooters were:—Miss F. Switters, Dept. 5535-2; D. Pfennig, 6671-2; J. F. Wegforth, 6553; G. R. Hausner, 6652-5; G. F. Raymond, 6613; J. R. Felly, 6613; T. W. Sals, 6724-G; Sam Kelly, 6442; G. R. Brown, 6611; L. F. Murray, 6652; P. J. Foley, 6552; R. C. Snyder, 6549-2; E. C. Johnson, 6552-5; B. F. Wiedenhooff, 6611; E. L. Nelson, 6529-3; H. Nelson, 6441-1; D. Grigsley, 6552; E. D. Swanberg, 5996-2; F. E. Hood, 6417; J. R. Walker, 6725-2; R. C. Reiner, 6612; L. E. Johnson, 6613.

## Hopkins Upsets Shoot

The first reports on shoot No. 2 stated that Barrans was leading, with Hopkins the dark horse. Since then Hopkins fired his string and went into the lead, leaving Barrans in second place and Schulstad third.

This second shoot counts in the grand aggregate score that is being kept to determine the Works champion. H. F. Hopkins is leading with a score of 792. W. T. Barrans being second, G. R. Brown third, J. F. Wegforth fourth and R. H. Schulstad fifth. The next shoot to count in this grand aggregate is the Chicago Tribune Trophy match, the opening rounds of which have already been fired.

While we have only two five-man teams officially entered in the Tribune race, every member of the club is allowed to fire the course. Therefore, club members need not be on the team to be able to turn in a score for this meet. This is the third opportunity for members to run up their aggregate score, there being but five meets that count.

## ORGANIZATION CHANGES

S. T. Rockwell, formerly supervisor of statistics at New York, has been transferred to Hawthorne and promoted to equipment accountant, with organization number 6501. Mr. Rockwell started at Hawthorne as a shon clerk May 15, 1915. He was transferred to the payroll in September, 1916. Mr. Rockwell was promoted to chief of the Hourly Roll Department in January, 1918, and to assistant chief of the Pay-Roll Division in September, 1920. He was promoted to head of merchandise accounting in July, 1921, and was transferred to head of the Installation Accounting Division in December, 1922. He was transferred to New York as supervisor of statistics in June, 1923, the position he held at the time of his recent promotion, effective December 1st.

N. J. Barbaras, formerly head of Switchboard Billing Analysis Dept. 5936-3, has been promoted to chief of Switchboard Billing Sub-Div. 5936.

The following were promoted to department heads:—G. A. Barry to 5931-2E; H. V. Kingdon to 5935-3A; P. W. Dawson to 5926-3; J. M. Redmond to 6441-1.

The following chiefs of departments were transferred to other organizations in similar capacities:—H. F. Nisbet to 5929-3; R. A. Izzo to 5926-4.

# Classified Ads

Articles or property advertised in these columns must be owned by Hawthorne employees. Advertisements must not exceed 25 words in length and must be submitted signed with owner's name and department number. Address all communications to Miss R. J. Proctor, Dept. 5078-2, telephone 1949. These advertisements are printed without charge and The Microphone disclaims all responsibility for the accuracy and heracity of statements contained therein. As The Microphone does not reach everyone at the same time on Friday, information regarding articles advertised will not be given out before Saturday morning.

### 6109 BEATS 6108 AT FOOTBALL

The "Four Horsemen" got loose again last Saturday. This particular four played in the backfield of the Wildcats from Sub-Div. 6109 and romped away from the Toronados of Sub-Div. 6108 to the tune of a 26 to 0 score. The battle was staged in Douglas Park. The game started at 1:45, with ten-minute quarters and no substitutes allowed or used. Of the winning backfield only one failed to score. Prouty, f.b., made one touchdown, Smith, h.b., made another while Havens, h.b., made 2 touchdowns and a safety. F. Wire captained the eleven from 6109, while W. E. Luessenhop captained the victors. About 100 spectators turned out to watch the fight.

## CLUB TREE TO BE CHRISTMAS FEATURE AT WORKS

### COMPANY PERFECTS ARTIFICIAL LARYNX FOR CANCER VICTIMS

**Helps Throat Specialist, Who  
Conceives Idea for Apparatus  
That Enables Victims of  
Throat Operations to Talk**

Our company has succeeded in making one more contribution to humanity by perfecting an artificial larynx, which enables people to talk after operations involving loss of the larynx.

The idea was conceived by Dr. J. E. Mackenty, a throat specialist of New York City. Numbers of people lose their speech through operations made necessary by cancer of the throat and Dr. Mackenty thought it might be possible to remedy the defect. He not only saw the removal of a tremendous impediment to people who had gone through with an operation but a means of actually saving life, since many patients afflicted with cancer of the throat hesitate over the operation because of the dread of losing their speech and often delay so long that an operation can no longer save their lives.

The doctor's first attempts to get his device constructed proved disheartening since manufacturers were afraid to undertake the research and experimentation necessary when the field of sales was so small. He finally managed to lay the matter before the A. T. and T. and Western Electric officials. They agreed to do the work and turned the job over to our West St. laboratories. A successful demonstration before a group of physicians in Baltimore recently was the result.

Cancer of the throat invariably requires an operation that destroys the larynx and forces the patient to breathe through a hole in the neck. When he tries to talk the only result is a sighing of the breath in and out of the hole in his throat with a few sibilant, unintelligible sounds formed by his lips. The mechanism of the mouth is still intact and can operate as well as before but the person is unable to force a tone into it for the formation of words. The Western Electric engineers perfected a method of putting this tone into the mouth.

Essentially, the apparatus is an artificial larynx built in a form resembling a "Gen. Daves" pipe. A pad is placed over the hole in the neck, and a rubber tube connected with it leads to the "bowl" of the "pipe". The air forced out by the lungs forms a tone by setting up vibrations in the mechanism contained in the bowl and this sound is projected into the mouth by the pipe stem. This is all that is necessary. Once the sound gets into the mouth the person can form words almost as well as he could before the operation.

The most striking difference from an ordinary voice is the steady monotone. The human throat can vary the pitch at will. The new mechanism cannot do that. But that feature detracted not a bit from the interest of the doctors who first heard about the new invention at the Baltimore meeting. During that meeting it was shown that the three patients there could be heard anywhere in a normal sized room. More than that, the apparatus placed no undue strain on either speaker or listener and it could be kept on all day long. One of the patients said he could converse over a telephone quite easily.

Some of our engineers worked on the instrument. They are Dr. Harvey Fletcher, Dr. W. G. Wegel and C. E. Lane. All of them are specialists on acoustics and allied subjects. Dr. Fletcher has already received recognition for his work on speech and hearing. Franklin Institute recently awarded him its Louis Edward Levy medal for his article on the nature of speech and hearing.

#### NEW PRICE ON A. T. & T. STOCK

Subscription price for A. T. & T. stock under the Employees' Purchase Plan will advance to \$121 per share, effective January 1st, 1925.

Further subscriptions at the present price, \$118, must be filed with your immediate superior before the close of business December 31, 1924.

The total number of shares to which an employee may subscribe under this plan will be based upon the rate of wage in effect on the first day of the month in which the subscription is filed.

See Bulletin Boards for Details.

There are now 10,640,000 Bell-owned telephones in the United States.

  - 10- TIME INTERVAL THAT CAUSES BIRTHDAYS IN LADIES UNDER 23 YEARS OLD

### A MILLION BALLOONS BURST AT CLUB'S MERRY GARDEN FROLIC

A million balloons were showered on the heads of the dancers who attended the Hawthorne Club dancing party at Merry Gardens Friday, December 12th.

They provided so much sport for the crowd that close to five hours ticked away before anybody noticed it. A mechanical device shot the balloons out into the hall. There were balloons everywhere and the dancers gave a phonic reproduction of the battle of the Marne by smashing them.

In the special balloon blowing contest that was run Miss Josephine Sterbenz, 2336 N. Halsted St., was first and Miss Alice Adamson, 5028 W. 22nd St., of Dept. 6033, was second.

The two mammoth ball rooms were used to accommodate the crowd and, thanks to the recently installed Western Electric radio amplifier, the super-syncope produced by the Gardens' all-star orchestra was carried throughout both rooms. The Merry Gardens' ball room is the first in the country to adapt the Western Electric amplifier to this use and the Hawthorne frolicers were the first to dance to the music reproduced by it.

### REPRESENTATIVES ARE GUESTS AT BANQUET IN RESTAURANT

The banquet given to the recently elected Club representatives by the Hawthorne Club Thursday, December 11th, was just crammed full of good things to eat, hear, see and do.

The committee hardly gave "Big Pete" Petersen, Hawthorne's ace sing leader, time to finish his fried chicken and trimmings before they had him up on the platform "doing his stuff" on the "things to do" part of the program. The old restaurant walls swayed to the rollicking melodies that rolled across the tables as close to 300 voices "Doodle-Do-doodle" and cautioned one another against saying that naughty word. Miss Loreta Kane played the accompaniment.

The committee next coaxed Harry Mathisen, president of the Club, away from an enticing pie a la mode long enough for him to say "Howdy" and to impress upon Club representatives the importance of their posts. He summed up the duties of the representatives by calling them the "backbone of the Club".

There followed a program of things to see and hear that was very fascinating and entertaining. Miss Margaret Golden treated the representatives to some well-rendered vocal music. Mrs. Sylvia Olke Riba, pianist; Elliot Oakes, violinist; Elmer Jacobs, pianist; Leon Theriant, the toolroom's golden-throated tenor; Miss Mary Beth Weber, graceful solo dancer; and Miss Bess Dolejs and her schoolgirl trio completed the entertainment end of the program.

Dancing to the strains of A. C. Kruse's melody boys, with Jim Waters putting on some impromptu comedy stunts during intermission, kept the crowd happy all way past the usual bed time.

R. R. ("Pete") Woolway, chairman of the membership committee, was master of ceremonies.

The arrangement committee consisted of G. H. Bennett, C. L. Fournier, G. Driscoll, C. Durbrow, A. F. Grimm, Miss L. Sladnick, F. Just, I. R. Hackett, F. Msek, O. Jenkins, Miss E. Lax, Mrs. H. Emdard, F. A. Lanaghan, D. L. Smith, D. Harden and A. C. Konopasek.

### "DON'T PAY TO JOIN"

#### IS RADIO CLUB'S WARNING TO FANS

Don't pay any money to anybody for a membership card in the Hawthorne Radio Club, officers of the local radio guild warn. Everything connected with the club, including membership, data sheets, bulletins, discount arrangements, etc., is absolutely free to Hawthornites.

This warning is being broadcast because in several instances individuals who claimed to represent the club have collected membership fees from persons desiring to join, according to reports received by Radio Club officials.

The way to become a member in the local radio organization, with all privileges, is merely to attend the club's regular meetings, which are held every other week in the Works Restaurant or, if you prefer, write to J. E. Kamys, Dept. 2405, secretary of the club, and ask to be placed on the mailing list.

The club will close its 1924 activities tonight with a feature meeting, at which one of the Company's radio experts, H. E. Kranz, will tell the fans what a simple thing it is to find out what is wrong when the family set isn't operating efficiently.

At this meeting another set of free data sheets will be distributed, covering audio frequency transformers. Several interesting curves have been prepared to accompany this summary of transformer characteristics. The November-December radio bulletin, containing many other valuable radio tips for the fans, will also be distributed.

Last week 75 members of the club were entertained at "WLS" the Sears-Roebuck broadcasting station. They were taken behind the scenes to witness the inside working of a transmitting station and were given an interesting explanation of the apparatus by the operating engineer.

### SPECIAL HOLIDAY PROGRAMS ARRANGED

**CHRISTMAS CAROLS TO BE  
SUNG THROUGHOUT  
THE WORKS**

"No Christmas is complete without a tree," declares the Hawthorne Club. So a graceful conifer, almost as much a symbol of the season as jolly St. Nick himself, will be an addition to the annual Christmas program next Wednesday. It will be a very prominent part of that program, in fact for late in the afternoon it will sparkle with many colored lights, while the mingled voices of the Works women's and men's choruses grouped around it will carol forth "Peace on earth, good-will towards men".

The tree is located on the grass plot opposite Bldg. 28. The choruses will start singing at closing time on Christmas Eve and will give approximately 12 numbers.

Erecting Hawthorne's First Christmas Tree

This is not the only innovation for December 24th. Forsaking the mass program of singing used in previous years, the Club, through its Music Committee, has planned for carols in four different parts of the Works with three organizations taking part and community sing leaders on hand to direct general singing. The locations decided on are Bldg. 38-1, Bldg. 47-3, Bldg. 33-5 and Bldg. 35-6. The organizations that will take part are the Hawthorne Club Girls' Chorus, the Hawthorne Glee Club and the Boy Carolers from St. James Episcopal Church, Chicago.

The program will start at 12:10, with one group of singers in each of the first three locations given. They will give two numbers and then exchange locations with one of the other groups until each organization has visited each of the three buildings. As a grand finale they will move to Bldg. 35-6 at 12:30, to sing under the direction of J. E. Petersen. During the intervals the song leaders present in each building will lead in a few numbers.

These three groups are already known to Chicago music lovers, as their voices have been broadcast from city stations at different times, and two of them have also made public appearances in concert or choir work.

The Boy Carolers of St. James' Church are well known at Hawthorne, as they took part in the outdoor program at the Works last year, while the Glee Club assisted the Band during its downtown concert last spring, has made several trips to hospitals in this vicinity and has entertained over the radio on several occasions.

The Hawthorne Club Girls' Chorus of 30 voices will make its first appearance here during the noon program, following a marked success over WLS, the Sears-Roebuck Station, last week. Music lovers state that these young women provided an hour of rare enjoyment to listeners, singing with the confidence generally acquired only through long experience and with a freshness and charm that was delightful. Such a success at a first performance forecasts splendid accomplishment in the future and their addition to the Christmas celebration will undoubtedly be a welcome one. The soloists of the chorus, Miss E. A. Rentsmann, contralto; Mrs. Gertrude C. Schloske, mezzo-soprano, and Miss Marion McCall, pianist, also received unstinted praise for their part in the broadcast program, but the limited time will not permit their inclusion in Wednesday's program. The chorus will be directed by J. E. Petersen.

The Boy Carolers are 15 boy soloists from the St. James Episcopal Church choir. This organization has long been famous in

Chicago's musical circles and is one of the oldest boys' choirs in this part of the country having celebrated its 30th anniversary on December 7th. The boys will be directed by John W. Norton, the St. James choir-master and organist, who is a musician of national renown, being dean of the Illinois Chapter of the American Guild of Organists at the present time.

The Hawthorne Glee Club is made up of 30 male voices directed by P. E. Claxton, who is a prominent choir director in Chicago and one of the most recent additions to the Hawthorne Club's list of community song leaders. The Glee Club is the oldest of the two choral associations here, having been organized three years ago by A. B. Holsted, chief of the Works Training Division, who has since resigned as director due to press of other work. While it has broadcast several times and sung at several hospitals in this vicinity its best remembered performance was given at the Band Concert in Orchestra Hall last spring.

The program is full of the spirit of Christmas, but it is also a prelude in one sense of the Inaugural Concert to be held March 4th, since the Hawthorne carolers will assist Director Grabel at that time.

The practice for next week's celebration is going hand in hand with Director Grabel's activities. He started planning his own program some time ago and his musicians have been practicing for several weeks. At the present time he is planning additions and would be glad to interview players. J. Burkhardt, Dept. 6372, string bass, and I. Meszaros, Dept. 6514-1, cello, are the two newest members of his organization. He can also use one more cello, a solo cornetist, flute, clarinet, alto saxophone, and French horn. Musicians applauded without stint at the performance last spring and Mr. Grabel is expecting to give them an even better concert next March.

## MARRIAGES

November 26th.—Miss Lucille Parulski, Dept. 6146-K, to Sylvester J. Rejman, Dept. 6081-2.

December 10th.—Miss Anna Keller, Dept. 6641-2, to Godfrey Christ, of Chicago.

November 27th.—Miss Catherine Wilkie, Dept. 7391, to Eugene Service, Dept. 6661.

November 26th.—Miss Eleanore Maly, Dept. 7391, to Nick Malchatiot, Dept. 7383.

November 25th.—F. J. Kolak, Dept. 6663-1, to Miss Aileen Longway, of Mitchell, Ontario, Canada.

## BIRTHS

December 7th.—To Mr. and Mrs. Joseph Praydich an 8-pound girl. (Dept. 6312.)

December 12th.—To Mr. and Mrs. Joseph Velasco, an 8-pound boy. (Dept. 6312.)

December 1st.—To Mr. and Mrs. W. Lech, an 8½-pound girl. (Dept. 6323.)

## BUDGET ON CHRISTMAS LISTS

The budget books that the Hawthorne Club placed on sale a couple of weeks ago have been included in several Christmas lists. Evidently the purchasers got to thinking about living costs during the other eleven months when they were counting up their Christmas purchases.

The Club has enough books to start a goodly portion of the Works on the search for leaks in the family bank. For a cost of ten cents anybody can secure one and start an economy campaign that will rival the one promised by our government.

## EVENING SCHOOL SEMESTER ENDS

### Students Can Enroll for Second Semester January 5th and 6th

This week marks the close of the first semester of the Hawthorne Club Evening School year.

At this, the mid-point of what promises to be one of the school's most successful years, the 44 instructors and some 1600 students approach the holiday season with the feeling of having accomplished a full semester's work.

The new course in Step-by-Step Machine Practice has gotten well under way and now takes its place alongside of the other 16 courses in the curriculum.

The second semester, in which the courses already begun will be continued, and in which other students not now enrolled may begin new courses, will start early in January. The enrollment dates are January 5th and 6th.

## MERCHANDISE AND CABLE PLANT BOYS WIN AT HORSESHOES

The Merchandise and Cable Plant youngsters won the boys' horseshoe tournament, which finished December 12th, with a perfect score of 500, which means that the team won five group matches without losing a single one of the 30 individual games. The complete standing was: Merchandise and Cable Plant, 500; Installation and Operating, 450; Clerical, 400; Industrial Relations and Pay Roll, 350; Technical Development and Inspection, 300; Production and Purchasing, 200.

There were some remarkably close results among the individuals trying for the prize offered the best pitcher. A. Thill, of the Installation and Operating team, finally won with an average of 20.8, but F. Predan, of Merchandise and Cable Plant, was a close second with 20.7 and E. Ignowski, of In-

stallation and Operating, finished in third with 20.5.

The horseshoe tournament was a remarkable success this year and afforded plenty of diversion to spectators, as it was held inside of the Works. There were six teams entered, each one consisting of nine boys, two of them substitutes. The games started on November 17th and were played every noon hour except on three days made unsuitable by melting snow. On a couple of days when the weather was cold enough to prevent melting, the boys played, snow and all.

### Indoor Activities Begin

True to traditions of boyish eagerness in everything under the sun, the boys turned to indoor sports this week, starting off with a checker tournament during the noon hour. Games will be played every day. Next Monday night they will troop to the rifle range for the opening gun in their powder-burning tournament. In both cases the competition will be between individuals only.

## WOMEN WIN THREE IN CITY BOWLING LEAGUE

Western girls bumped Edison Electric for three games last week and moved up a notch in Chicago Women's Industrial Bowling League in consequence. However, we are still a long way from the leaders, the Illinois Bell Telephone girls. They have 25 wins and only two losses. The Tribune and Wm. Wrigley, Jr., Company are tied for second, each having 20 games to their credit.

### Merchandise Batters Lead

The Merchandise team bettered its lead in the Hawthorne Women's Bowling League by winning six in a row during the past two weeks. This puts them six games ahead of the second team, Technical. Technical was in third place until last Monday, when it took three games and Installation No. 2 dropped three. This resulted in the two teams switching places.

The same night Miss B. Dolejs, of the Merchandise aggregation, took the honors for high game with 187 and set the second highest mark for three games with 523. This makes the line-up of individual high series read: Misses M. Makin, 527; B. Dolejs, 523; and J. Simpson, 501.

### Cards of Thanks

Mr. and Mrs. M. J. Elzig and family acknowledge with thanks the expressions of sympathy extended them by their Hawthorne friends on the occasion of their recent bereavement, the loss of their daughter, Rose.

I hereby wish to express my deepest gratitude and appreciation to my friends of Depts. 5376 and 5553 for their kind expressions of sympathy and the beautiful floral offering in my recent bereavement, the death of my father.

Lillian Karvasek, 5376.

In behalf of myself and family, I wish to thank my friends and fellow employees for the beautiful floral offering and their kind expression of sympathy during my recent bereavement, the death of my sister.

A. Zvonar, 6305.

We wish to thank our Hawthorne friends, especially the members of Depts. 6651-2 and 6366, for the beautiful floral offerings and their kind sympathy extended to us in our recent bereavement, the death of our beloved daughter Myrtle.

Mr. and Mrs. J. Scholl.

We wish to thank the employees of Dept. 6377 for the beautiful floral offering and their kind expressions of sympathy during our recent bereavement, the death of our daughter.

John Furiek.

We wish to take this opportunity to express to members of the Payroll Service Sub-division our deep and sincere appreciation of the beautiful wreath sent on the occasion of our recent bereavement.

Mrs. J. Rendha and Family.

## CLUB STORES ARE SANTA HEADQUARTERS FOR LOCAL SHOPPERS

### Hawthorne Gift Seekers Avoid Christmas Crush — Shop at Their Desks With a Pencil — Gifts for Family Displayed

#### DON'T BREAK THE SEALS

Merchandise purchased at the Club Stores are now sealed with an official Hawthorne Club tape. Officers at the gate will pass such bundles if they have not been opened, but if the tape on a parcel is broken the officer is obliged to take it up and return it to the Club Store.

All out for the finals in the annual Christmas gift collecting contest! Next week will see the introduction of the "Gosh-I-haven't-bought-a-single-Christmas-present" shopper, known better as the last-minute shopper, the wildest and most violent variety of all the wild and violent shoppers that turn the loop into a football gridiron during the Yuletide hunting season.

Hawthornites, who haven't had time to get downtown can give a loud guffaw to the shoppers' lull, for the Club stores have transported the choicest varieties in Christmas gifts right to the Works, where we can do most of our Christmas shopping with a lead pencil.

But, speaking of pencils, have you seen those attractive pen and pencil sets, all wrapped up in cute plush boxes?

And speaking of plush boxes, are you interested in jewelry? On the first floor of the Works Restaurant one of Chicago's largest jewelry houses has established a branch, where a full line of jewelry is being offered to Hawthornites at wholesale prices. Almost any amateur Santa can please a lady with a garland of pearls, or a wrist watch, or an ivory set or silverware.

If you don't find what you want at the jewelry counter or if Friend Wife doesn't care for any more jewelry take a look at the silk hose the Club is offering at \$1.50 a pair. A woman can't have too many of those.

It's sure a pinch picking out things for the men. Dad would be "fiddled pink" to have Santa give him one of those automatic windshield wipers the Club has for sale—and you can buy them at a saving of \$1.75 on the junior model, which sells at the club for \$3.25, and \$2.50 on the bigger model, which sells for \$4.50 at our stores.

Those automatic winter fronts that motorists find so handy for curing an engine's cold can be purchased through the Club at about one-third off list.

There are radio parts for the radio fan, and for the out-of-door sportsman—and woman—you can buy fishing tackle, golf equipment, automobile accessories, etc. by obtaining a card from the Club secretary.

Gift givers can fix their men friends and relatives up with hours of smoke pleasure by taking advantage of the complete assortment of cigars and tobacco being offered at below retail prices.

For the youngsters there are toy metal pianos that play at \$2.50 each and flashlights (that Dad can use himself) at reasonable prices. These flashlights are the "Eveready" focusing lens lights and come complete with batteries.

As there are many other gift suggestions at the Club counters, there should be no puzzled gift seekers at Hawthorne this year.

### PIN SCANDAL REVEALED

The confession of a pin boy at the Windy City Alleys late this week revealed a clever plot that has been fooling Plant fish league bowlers for some time and cleared up the mystery connected with the bowling feats of "Fred, the Fixer," alias "Silent Jake" Berman, which have been puzzling bowlers and spectators at the Windy City Alleys. For several sessions of the Plant league Jake has been "picking up spares" on "railroads" with clocklike regularity. Last week he completely failed on these swish shots, and the suspicious minded in an investigation found that Jake's regular pin boy was home sick. Windy City police immediately sought out and questioned the boy, who confessed that he had a special set of pins, which he set up when Jake bowled. These pins have invisible strings attached to them, so that all Jake had to do to pick up spares was to hit one pin. A little string-pulling by the pin boy, took care of the rest. A reporter from The Microphone tried to get an interview with Berman but incredible though it sounds, "Jake" refused to talk.

## SWEEPSTAKES FEATURE BOWLING ACTIVITIES; LEAGUE NOW HALFWAY

J. Fliger, toolroom age, who is leading the Interbranch League, added another to his long record of triumphs by annexing first place in the Hawthorne Club sweepstakes rolled on the Windy City Alleys last Saturday afternoon. He toppled 1,026 maples to do it, which is just five pins more than J. Jirik, of the Special Process squad, scattered for second place honors.

Sixty bowlers each rolled five games across ten alleys and the pinboys were busy all the way from 12:45 to 5 o'clock picking 'em up and watching 'em scatter. There were three shifts, 20 bowlers in a shift.

Hruby, of the Assemblers, rolling with his first squad, knocked out 1,009 maples and he and his followers got more and more excited as mark after mark failed to measure up to the Assembly pin mauler's. However, two bowlers on the last squad finally got over Hruby's mark. Third place isn't so bad, though, in that kind of competition.

The other prize winners are: Camphouse, 1,004; Jelinek, 998; Kurth, 996; Schmidt, 995; Dorn, 983; Stephan, 978. O. Jenkins was high game winner, with 256, while J. Anderle took second with 255.

### Branch Teams Halfway

The Interbranch League is now half way through its schedule, with Toolroom three games in front of the pack.

A crisis occurred last Friday night, when the Toolroom squad met Technical, who have held second place almost as long as the Toolmakers have held first place. It was the league's first opportunity to change paper-makers for some time, for if the Technical tribe could have grabbed off three games they would have replaced the Toolmakers.

However, the league leaders pulled out with colors flying, for they took two out of the three games. The Toolmakers slumped badly on the other game and the quarter who but a short time ago rolled six consecutive games over 1,000 toppled only 788 and had to pray hard to get most of those to stop the rocking and fall. High man in this game rolled 172 and low man collected 132.

Installation Drafting and Jobbing prodded by the light between the leaders and moved up to one game behind Technical. The Draftsmen trimmed the Installation Engineers two out of three for their boost, while Jobbing grabbed three from the C. R. and I. team.

J. Fliger continues to lead the individual column, although last Friday night his average dropped below the 200 mark for the first time, when he turned in a series total of 555, giving him 199/21 as an average. Other leaders are: M. Hruby, 197/8; P. Wehrmeister, 192/24; R. Krantzowski, 192/5; M. Camphouse, 192/2; J. Vyzral, 190/33; T. Luby, 190/12; R. Schaber, 190/12; B. Kurth, 190/8; F. Anderson, 190/4.

### ELECTRIC STOVES FOR SALE

The M. J. Railroad, which ordinarily is the Works quota of freight cars moving in the proper fashion, has decided a few stoves as a sideline. It has 170 Hotpoint electric stoves that were fused by the consignee and are kept warehouse space the Railroad needs. Stoves are in two sizes, 6-inch and 8-inch. There are 135 of the former, while M. J. will sell for \$3.75 each, and 35 of 8-inch size, for sale at \$6 each.

Hawthornites can get complete information about the stoves by visiting the office at the M. J. freight house, Gate 28, on 4th Ave. near Ogden Ave.

### SPELL THIS S-E-R-V-I-C-E

Four hours after a long distance phone call had informed our Hawthorne Merchandise organization that a sleet storm had swept away part of the lines of the Northwestern Bell Telephone Company at Omaha, six reels of non-stock cable were rolling westward to do their share in getting the damaged lines back into service.

The shipment consisted of four reels of 200-pair cable and two reels of 50-pair cable. They were ordered at 10 o'clock last Friday morning and at 2 P. M. they went forward by express, arriving in Omaha the next morning.

## HEAD INSTRUCTORS AND STAFF, HAWTHORNE CLUB EVENING SCHOOL

STANDING LEFT TO RIGHT.—T. E. Edwards, Manufacturing Principles; W. R. Marsh, Practical Mathematics; C. A. Marr, Electricity—Magnetism; G. E. Counihan, Machine Switching; E. H. Arnold, Manual Telephone Practice; E. C. Whitehead, Principal; J. H. Deardorff, Accounting; C. A. Williams, Graphic Presentation; H. F. Maglott, Step-by-Step Mach. Switch; J. H. Sward, Business English; G. C. Blum, Merchandise Principles. SITTING, LEFT TO RIGHT.—H. F. Mueller, Mechanical Drawing; Mrs. L. Novak, Comp-tometry; Mrs. M. E. Kelly, Sewing; Miss K. Nelson, Typewriting; Mrs. B. H. Jonelis, Secretary Evening School; W. Bottger, Production Principles.

## CAGE TEAM COPS ITS FIRST LEAGUE TILT; BRANCHES START PLAY

The Western Electric cage team swamped the Grand Trunk Railroad quintet, 33 to 4, last Friday night in their first Industrial League contest.

In spite of the overwhelming score, our cage officials are a bit disappointed in this first showing of the team. The Grand Trunk boys showed up late and minus several of their regulars, but in spite of the advantage we thus obtained there was very little really top-notch basketball displayed on our part. In the second half the squad began to look a little more like a basketball team—and the champions we believe they are.

In the first minute of play Grand Trunk slugged the Western Electric team through the net, both from the center of the floor. A plucky little railroad forward scored them when he found his team mates "covered". They were the only two baskets the Grand Trunk obtained throughout the contest.

Coach Danny Elwell gave the entire local squad an opportunity to get into the skirmish and everybody had a try at the basket.

### Interbranch Play to Start

The interbranch cagers will pry the lid off this year's season tomorrow afternoon, when the teams go into action in the first round of play at the Sterling Morton High School.

There are twelve teams entered in the race this year. They are divided into two divisions of six teams each. This is the same size as the league that last year introduced the cage sport to Hawthorne, but the Traffic team and the Inspection Planning team have been replaced by a quintet from Clinton Street and another from the Plant Branch.

On the east floor of the Sterling Morton High School gym, Clerical and Technical will clash at 1 o'clock, Operating and Equipment Engineering at 2 o'clock, and Inspection and Merchandise at 3 o'clock in Division 1. On the west floor Clinton St. will hook up with Industrial Relations at 1 o'clock and Equipment Service will meet Development at 2 o'clock. The Plant-Production fracas scheduled for 3 o'clock may have to be postponed to a week night because a number of electricians who are on the team are scheduled to work Saturday afternoon.

The recently appointed branch managers held an enthusiastic session last week to map out a ten-weeks' campaign of cage battles, which will extend up until Saturday, March 7th. Each team will clash twice with the opponents in their division.

The managers also decreed that division winners will this year have to play a series of three games to determine the league championship instead of one game. In their opinion, it takes more than one game to decide which of two teams is the better.

Another change over last year's rules makes it essential that each player be a member of the branch he represents. Any exception to this must be passed on by the eligibility committee.

The branches competing, and their managers are: Clerical, T. E. Dunk, Dept. 6550-2, phone 1274; Clinton St., A. Meizger, Dept. 120, phone Clinton St. Local 150; Development, H. F. Gaylord, 6473-1, phone 2497; Equipment Engineering, J. E. Orr, 6532-2, phone 1557; Equipment Service, H. L. Pulliam, 6501-2, phone 1103; Industrial Relations, R. M. Lindsay, 6087-1-B, phone 2412; Inspection, E. L. Rasmussen, 6604-2, phone 1636; Merchandise, G. W. Holt, 5941-1, phone 1210; Operating, J. Sweeney, 6372, phone 851; Plant, E. J. Livingston, 6772, phone 687; Production, G. R. Jewell, 7154, phone 606; Technical, G. Dvorak, phone 1125.

## BOYS HOLD ANNUAL BANQUET IN THE WORKS RESTAURANT

Plenty of men would have been inspired to write a "make me a boy again just for tonight" if they could have pecked in at the boys' annual banquet and entertainment held in the Works Restaurant Monday, December 15th for it certainly looked like boytime in the Works.

There were eats—the kind that make the boys roll their eyes and moisten their anticipation; there were fun makers—the youngsters' side-aches and there was a whole long row of speakers who said things about them.

There were also plenty of chance encounters out in juvenile joyfulness during the session that opened festivities. Those youngsters sang to "beat the band", as V. J. Grabel, director of the Works Band, can testify for he was holding a rehearsal in one corner of the restaurant and every time the 400 leather-junged youngsters cut loose Director Grabel's outfit resembled a band on a moving picture screen—plenty of pep but no notes.

The State Comedy Four, all dressed up, to cut up frolicked through ten minutes' full of trick songery and fun and Jack Donar pulled some black-face humor, Eddie Berger, a professional entertainer, got in some more fun in his ventriloquist act.

On the speakers' program, W. F. Hosford, superintendent of the Development Branch, who started with the Company as a boy himself, gave the ambitious youngsters plenty of pointers on ladder climbing—and if they heed his advice there will be a mighty big crop of superintendents in a few more years. At any rate there ought to be more registrants in the H. C. Evening School next year.

John J. Schommer, director of athletics at the Armour Institute of Technology, gave the inspiring talk on "Play the Game", which was filled with pointers,

as well as interesting football anecdotes.

H. E. Mathisen, president of the Hawthorne Club, then awarded medals to the Merchandise boys, winners of the Junior Playground Ball race. The boys who received medals were: Felix Predan, Elmer Olson, Gino Giani, Joe Masiny, John Schmidt, Edward Virts, George Zistener, Al Kundys, Jim Svetley, Steve Halec, Victor Mladic, Adolph Bovansky, F. Carfagnini, Robert McGuire, and their coach, P. Schaeffer.

Horace Wade, boy reporter of the Evening American, was also at the dinner and gave an interesting talk on his experiences.

D. Powers, chairman of the Boys' Activities Committee, also spoke. A. L. Twigg, another member of the committee, was the toastmaster.

## HAWTHORNE CLUB AND SANTA TO ENTERTAIN KIDDIES AT PARTY

A great big Christmas tree, the biggest that will fit into the hall, just loaded with twinkling, blinking, tinted lights flashing on gilded decorations, will be one of the big attractions at the annual Hawthorne Club youngsters' frolic to be held Saturday, December 27th.

There will be half a dozen Santa Clauses, too. Of course there is only one real Santa but the old fellow is going to be so loaded up with good things for the kiddies that he will have to take some of his trusty assistants along to help.

He has a whole sled full of candies and toys for the youngsters and arrangements have been made for him to deliver the whole load at Dreamland Hall, which is located directly under the Marshall Ave. station of the Douglas Park elevated line.

Either the Humboldt Park, Garfield Park or Douglas Park branch of the elevated lines will take the kiddies to the scene of the frolic.

A special entertainment, throughout which a bunch of bouncing, frolicking clowns will cavort, is another treat lined up for the youngsters.

Tickets can be obtained by Hawthornites from their Club representatives. All children and adults attending must have tickets.

## CHESS CLUB WINS FIRST GAME IN CITY SERIES

The Hawthorne Chess Club won from the Northwest Chess Club, 4½ to 3½, on December 9th in the first round of the Chicago City Chess League's tournament. The tournament is an annual affair and determines the season's champion in city circles. Ten teams are entered this year, including the Central Y.M.C.A., Commonwealth Edison Company, Englewood Chess Club, Illinois Bell Telephone Company, Chicago Chess Club, Northwest Chess Club, University of Chicago, Federal Reserve Bank and the Automatic Electric Company.

The second round will be played here also on January 5th. Our club is particularly fortunate this year in having several of the games scheduled for the Works, as it gives Hawthornites several chances to see some high class play.

### Local Positions Unchanged

Lead positions in the four classes of players now competing for Works honors have been unchanged for the past two weeks except in Class B, where Pios lost his place to Brandner. He regained it the following week, however.

In the checker league E. C. Boldt is leading, with F. Wesowski second and J. M. Juran third.

### LAST CALL FOR BONUS

Veterans eligible for the Illinois bonus have just about one week left in which to file claims. The legislature fixed the deadline at December 31, 1924. Every claim must be in Springfield by that date. The War Department has already broadcast an appeal to those eligible for Federal compensation, as it considers neglect on the part of the veterans a serious matter, especially so when his family is considered.

Hawthorne veterans can secure bonus blanks, general advice and legal service from the Hawthorne Club American Legion Service Committee. The secretary, E. P. Skubic, Dept. 6536-2, phone 1555, will furnish all necessary information.

## SOCCER TEAMS DROP GAMES

### Lose to Two of Strongest Elevens in Chicago District

Although Hawthorne's soccer teams didn't bring home any bacon in last Sunday's contests, two of them were very prominently before the soccer-following public.

The "B" team, heralded by a Daily News sport scribe as "the surprise team" of the Peel Cup tourney because it held the strong Gary team to a scoreless draw week before last, journeyed to the steel city to meet them again in a playoff.

It was Hawthorne's turn to get a surprise this time, for Gary displayed a very different front. The steel-makers easily proved their superiority over Hawthorne with as finished a display of clean, clever football as the local squad has ever faced. With all credit to our squad the Gary team still played it off its feet and swept into the next round of the Peel Cup race with a 6-0 scalp hanging on its belt.

In the "B" team's first meeting with Gary every member of the squad was keyed up to play his best, but this enthusiasm could not be tightened up to the same pitch in Sunday's game—but, after all, it would have taken a miracle to stop that Gary crew last Sunday.

### "A" Team Crippled

The "A" team, crippled in past contests, and further crippled in the early part of Sunday's game, lost to Harvey, the Chicago and District League leaders, by an overwhelming score. Robertson and Hosie both were on the incapacitated list, which left the forward wall exceptionally weak. Neil, who had a rib broken three weeks ago, displayed some real pluck by playing at his old place in the forward wall. Two Hawthornites, Towler and Stephenson, received injuries early in the contest, which hindered them and weakened the team. The game ended 5 to 0 in the league leaders' favor.

The executives of Switchboard Ordering Div. 6119 pasted together Wednesday night, December 10th, in a triple feature entertainment, which started with a dinner at the "Legion", continued with a Kelly pool tourney and wound up with a concentrated assault and battery of the maples at the Windy City Bowling Alleys, in which the team composed of R. D. Belanger, B. A. Berman, W. Botger, H. F. Curran, and C. F. Murray trimmed that composed of R. O. Krug, V. J. Petersen, P. H. Petersen, C. F. Rickert, and V. J. Redmond by the slim margin of 73 pins.

Distributing House Shops Div. 5952 did a little celebrating at the Garfield Arms Hotel Thursday, December 11th. They staged a stag dinner and instead of after-dinner minis following the splendid meal each of the boys passed out some after-dinner humor and a popular song session added to the fun. E. Twichell, chief of the division, gave the feature talk of the evening on "Contract Relations". T. E. Moon was toastmaster.

Hibbard High School, of Chicago, sent 150 girls and boys here on December 10th for a trip through the T. A. Shops and Cable Plant. Another visitor the latter part of the same week was H. C. Bohle, of our New York office, who spent several days here familiarizing himself with the methods in the Merchandise Department.

It was erroneously stated in the last Microphone that G. W. Mann was made vice-chairman of the visitation committee of the Theodore N. Vail Chapter No. 1, Telephone Pioneers of America. E. A. Webb has that position, while Mr. Mann holds a similar one on the publicity and attendance committee.

Officer W. J. Maloney, stationed at the Box Shop, received something new in crossword puzzles the other day. It was a letter, written in Polish, and while the conventional black and white squares were missing the letters looked sufficiently mixed up to be almost anything. A couple of days of hunting for an interpreter resulted in the unsrambling of the letter, however, and after all the effort it proved to be merely an advertisement from a Polish firm that had apparently been misled by Mr. Maloney's name.

At the first winter meeting of the Good Fellowship Club of the Hand Screw Machine Department, held in Cada Hall, Cicero, on December 8th, officers for the coming year were elected. They are: T. Gasper, president; H. Jackson, vice-president; J. Soukup, recording secretary; A. Rosenquist, financial secretary and treasurer; L. B. Krafft, sergeant-at-arms; and E. Maher, chairman, entertainment committee.

"Kauf", the modest youngster who draws all the funny pictures for "The Microphone", besides getting out two pages of cartoons and "Hawthorne Happenings" for the Western Electric News, found time one night to do a little sketching on the side (the clean side of a piece of wrapping paper). The drawing was reproduced in "The Saturday Evening Post" of last week. This is

## HAWTHORNE SHOOTERS

### 4th AND 5th IN CITY

### CHAMPIONSHIP RACE

With only two more weeks of shooting left the two Hawthorne Club teams entered in the Tribune Trophy Match (which means the city championship match as well) find themselves fourth and fifth in the line-up. Off-hand shooting will be done tonight and may result in a considerable shake-up among the five teams leading the city shoot. In last Friday's event, shot from a sitting position, Team No. 1 landed in second place with 280, nine points behind the winner, while E. D. Swanberg, a member of Team No. 2, topped the list of individual scorers with 200, the second "possible" that has been made during the match. In addition to Swanberg seven other Hawthornites managed to get into the list of 22 leading individuals, which was no small feat when it is considered that only five points separated the first and the twenty-second. One team member missed getting into the 195 class by four points and another missed by three points.

At the present time the Centennial Rifle Club is leading the match with 3,763, Team No. 1's score being 3,699. Our first team has moved up two notches since the first night of shooting.

This match is proving a big factor in the Club's individual championship match, which is made up of five events, since it totals 1,200 points. The aggregate scores to date show that Barrans is leading, with Wegforth 14 points behind. The rest of the leading ten are Brown, Walker, Swanberg, Schulstad, Miss Switters, Halbasch, Kelly and Wiedenhoelt.

The first time Hawthorne's inkslinger has honored "The Post" with his contributions, but "Judge" Motion Pictures, "Life" and a few others have been more fortunate. By the way, Kauf's full monicker is George Francis Kaufman, but he drew that without any effort on his part.

The Goodfellowship Club of Drilling Dept. 6333 chicken-dinnered down on "The Farm" recently. After the eats everybody showed his skill at the speech-making art under the leadership of J. Schultz, toastmaster. The election of officers, which followed the dinner, resulted in the re-election of J. Kap-anowski, president; J. Schultz, vice-president; C. Plumb, secretary; and R. Petrik, treasurer. After three hours of frolicking the party broke up.

The usually sprightly Jack Frost confided to us the other day that he was discouraged, and all because we reported that the girls' swimming class was still going strong and that it had even gained two or three members in the last couple of weeks. It was too much for Jack. At this time of year he generally has the girls bundled up in furs and buying skates. Girls who want to find out why so many of their sex disappointed him this year can get the details from Miss C. Dykstra, phone 1489, who will let them into the secret and into the class, as well, if they wish it.

Machine Standardization Div. 6405 recently bid adieu to J. C. McDonough, one of its members, at an informal dinner at the L. S. Breyoort, which was followed by a theater party at the Palace. "Mac" is leaving for England in the near future to take a position with the London house of the International Western Electric Company. He expects to spend New Year's Day on board ship. There were 30 in the farewell party. Among the speakers at the dinner were C. A. Wickstrom, H. Replogle and G. B. Mackey.

The Kearny Club and the C. R. and I. Shops have lost three more members, all of whom recently moved to the Kearny Plant. The three are W. H. Singerhoff, E. W. Waag and E. E. Newton. Mr. Singerhoff will be placed in charge of core repair, while Mr. Newton will take charge of the drying ovens and Mr. Waag will be assigned to strand operation.

The checker team of the Manufacturing Planning Division of the Technical Branch claims it is champion of the Works and is looking out for victims. "Bring them on" is their present slogan. The team defeated another representing Dept. 6420 recently and won with a score of 59 to 37. The team was composed of Goldaden, Kozel, Mason, Dow-gialo, Knoch, Heimerdinger, Samuelson, Gehr-ke, Case, Eliason, Dwper and Kotehever.

About 30 or 40 members of Punch Press Dept. 6235 made a raid on the box office of the American Theater last Friday night. The rush for the pasteboards was due to the fact that a former co-worker of the punch press folks, Miss Helen Sacher, was making her initiatory appearance before Chicago footlights at this theater. She is one of the three Sacher sisters, contact welding machine operators in the platinum welding section of Dept. 6336, who danced in the Hawthorne Follies in 1922. She left the Company about a month ago to take up a professional stage career, and judging from the applause she received and the testimony of her former associates she only needs a Russian hand-die to her name to make Anna Pavlova jealous.

There is one office boy at Hawthorne who is absolutely positive that Santa is real in everything. He is Sam Coczi, of Dept. 6554, who lost his pay envelope last Monday and went home with all the happiness of Christmas gone out of his world. And then the very next day Santa walked down the aisle and laid his wandering pay envelope right down on his desk. Yes, sir! This modern St. Nicholas is known around here as R. C. Felkie, chief of Dept. 6514-3, but Sam knows Santa Claus when he sees him.

"Many a man sits around all day wondering why he doesn't get his pay raised when that is the reason."—Columbia Record.
